

## FINAL TERMS

Dated 25 September 2019

### ETFS COMMODITY SECURITIES LIMITED

*(Incorporated and registered in Jersey under the Companies (Jersey) Law 1991 (as amended)  
with registered number 90959)*

**(the “Issuer”)**

#### **Programme for the Issue of ETFS Commodity Securities**

#### **Issue of 6,000 ETFS Heating Oil Individual Securities (the “ETFS Commodity Securities”)**

These Final Terms (as referred to in the base prospectus (the “Prospectus”) dated 29 May 2019 in relation to the above Programme) relates to the issue of the ETFS Commodity Securities referred to above. The ETFS Commodity Securities have the terms provided for in the Trust Instrument dated 21 September 2006 as amended and supplemented by trust instruments supplemental thereto between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee constituting the ETFS Commodity Securities. Words and expressions used in these Final Terms bear the same meaning as in the Prospectus.

These Final Terms have been prepared for the purpose of Article 5(4) of Directive 2003/71/EC and must be read in conjunction with the Prospectus and any supplement, which are published in accordance with Article 14 of Directive 2003/71/EC on the website of the Issuer: <https://www.wisdomtree.eu/>. In order to get the full information both the Prospectus (and any supplement) and these Final Terms must be read in conjunction. A summary of the individual issue is annexed to these Final Terms.

The particulars in relation to this issue of ETFS Commodity Securities are as follows:

|                                                                                                                                            |                                                                                                                                                                                               |

| Creation Price:                                                                                                                            | 11.9298283                                                                                                                                                                                    |
| ISIN:                                                                                                                                      | GB00B15KXY63                                                                                                                                                                                  |
| Aggregate Number of ETFS Commodity Securities to which these Final Terms apply:                                                            | 6,000                                                                                                                                                                                         |
| Maximum number/amount of ETFS Commodity Securities that may be issued of the Class or Category being issued pursuant to these Final Terms: | The aggregate Principal Amount of all Classic Individual Securities (including those issued pursuant to these final terms), Classic Index Securities and Micro Classic Securities, other than |

|                                                                                             |                                                                                                                                                                                                                                                          |
|---------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                             | CLPT Securities, CLPT Micro Securities, BG Securities, BG Micro Securities, KS Securities, KS Micro Securities and Ex Classic Index Securities, may not exceed US\$1,000,000,000 unless increased by the Issuer in accordance with the Trust Instrument. |
| Exchange on which ETFS Classic or Longer Dated Commodity Securities are admitted to trading | Deutsche Börse; London Stock Exchange;                                                                                                                                                                                                                   |

The Issuer does not fall under Article 5.1 or 5.2 of Council Regulation (EU) No 833/2014 as amended by Council Regulation (EU) No. 960/2014 of 8 September 2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine

## SUMMARY

### ETFS Commodity Securities Limited

#### Prospectus Summary

#### Base Prospectus dated 29 May 2019 for the Issue of ETFS Classic Commodity Securities and ETFS Longer Dated Commodity Securities

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted into the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of 'not applicable'.

| <b>SECTION A – Introduction and Warnings</b> |                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| B.16                      | Direct/indirect control of the Issuer                    | The shares in the Issuer are held entirely by ETFS Holdings (Jersey) Limited (“ <b>HoldCo</b> ”), a holding company incorporated in Jersey. The shares in HoldCo are ultimately owned by WisdomTree Investments, Inc. The Issuer is neither directly or indirectly owned or controlled by any other party to the programme.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| B.17                      | Issuer credit ratings                                    | Not applicable – the Issuer has not been assigned a credit rating and it is not intended that any Micro and Commodity Securities will be assigned credit ratings.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| B.20                      | Special purpose vehicle                                  | The Issuer has been established as a special purpose vehicle for the purpose of issuing debt securities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| B.21                      | Principal activities and overview of the parties         | <p>The principal activity of the Issuer is issuing several types of debt security backed by derivative contracts linked to commodity indices. Pursuant to this Prospectus, the Issuer is issuing debt securities (the “<b>Micro and Commodity Securities</b>”) which (before fees and expenses) provide exposure to movements in specified commodity indices calculated and published by Bloomberg L.P. and/or Bloomberg Finance L.P. and/or an affiliate of either of them (together “<b>Bloomberg</b>”) (the “<b>Commodity Indices</b>” and each a “<b>Commodity Index</b>”). The Commodity Indices track movements in the price of individual commodity futures contracts or baskets of commodity futures contracts. Prior to and including 30 June 2014, the Commodity Indices were calculated and published by CME Group Index Services LLC in conjunction with UBS Securities LLC and were known as The Dow Jones – UBS Commodity Indices. The Issuer has established a programme under which different types of Micro and Commodity Securities may be issued from time to time.</p> <p>The Issuer achieves a return based on the movements of the relevant Commodity Index by entering into fully funded collateralised derivative contracts (the “<b>Commodity Contracts</b>”) with Merrill Lynch International (“<b>MLI</b>”) and Citigroup Global Markets Limited (“<b>CGML</b>”). Together, MLI and CGML are known as the “<b>Commodity Contract Counterparties</b>”. The terms of the Commodity Contracts purchased or to be purchased by the Issuer are governed by (i) an agreement entitled “MLI Facility Agreement relating to Classic and Longer Dated Commodity Contracts” between the Issuer and MLI dated 29 June 2017 (the “<b>MLI Facility Agreement</b>”); and (ii) an agreement entitled “CGML Facility Agreement relating to Classic and Longer Dated Commodity Contracts” between the Issuer and CGML dated 29 June 2017 (the “<b>CGML Facility Agreement</b>”). The payment obligations of MLI under the MLI Facility Agreement are supported by a guarantee (the “<b>BAC Guarantee</b>”) from Bank of America Corporation (“<b>BAC</b>”), and the payment obligations of CGML under the CGML Facility Agreement are supported by a Guarantee (the “<b>Citigroup Guarantee</b>”) from Citigroup Global Markets Holdings Inc. (“<b>CGMH</b>”), each granted in favour of the Issuer.</p> |

The obligations of the Commodity Contract Counterparties to the Issuer under Commodity Contracts are secured by collateral provided by the Commodity Contract Counterparties (the “**Collateral**”) and held in accounts in the names of the Commodity Contract Counterparties at The Bank of New York Mellon (“**BNYM**”). Pursuant to (i) a security agreement between MLI and the Issuer dated 29 June 2017 (“**MLI Security Agreement**”) and a control agreement between BNYM, MLI and the Issuer dated 29 June 2017 (“**MLI Control Agreement**”); and (ii) a security agreement between CGML and the Issuer dated 29 June 2017 (“**CGML Security Agreement**”) and a control agreement between BNYM, CGML and the Issuer dated 29 June 2017 (“**CGML Control Agreement**”), MLI and CGML are required to transfer to a collateral account, securities and obligations to the value of the Issuer’s total exposure under the Commodity Contracts to MLI or CGML (as applicable). The collateral held is adjusted daily to reflect the value of the relevant Commodity Contracts.

Micro and Commodity Securities can be issued to and required to be redeemed on a daily basis by financial institutions (“**Authorised Participants**”) who (i) have entered into an agreement entitled “**Authorised Participant Agreement**” with the Issuer; (ii) have certified to the Issuer as to their status under the Financial Services and Markets Act 2000 (“**FSMA**”); and (iii) (except in the case of a Commodity Contract Counterparty which has entered into an Authorised Participant Agreement with the Issuer) have entered into a corresponding agreement entitled “**Direct Agreement**” with at least one Commodity Contract Counterparty and which have not been notified by that Commodity Contract Counterparty that it is not an unacceptable authorised participant in respect of that Commodity Contract Counterparty. Other holders of Micro and Commodity Securities may also redeem Micro and Commodity Securities if there are no Authorised Participants or if the Issuer otherwise announces. All other parties may buy and sell Micro and Commodity Securities through trading on an exchange or market on which the Micro and Commodity Securities are admitted to trading.

Micro and Commodity Securities are constituted under an agreement entitled the “**Trust Instrument**” between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee (the “**Trustee**”) of all rights and entitlements under the Trust Instrument for any person identified on the registers as holding the Micro and Commodity Securities (the “**Security Holders**”).

The Issuer and the Trustee have entered into separate documents each entitled “**Security Deed**” in respect of each pool of Commodity Contracts attributable to any class of Micro or Commodity Securities (each a “**Pool**”) and the rights and entitlements held by the Trustee under each Security Deed are held by the Trustee on trust for the Security Holders of the relevant class of Micro or Commodity Security.

ETF Management Company (Jersey) Limited (“**ManJer**”), a company which is ultimately owned by WisdomTree Investments, Inc., supplies, or will arrange the supply of, all management and administration services to the Issuer and pays all the management and administration costs of the Issuer in return for a fee payable by the Issuer.

The securitised assets are the Commodity Contracts, the MLI Facility Agreement, the CGML Facility Agreement, the BAC Guarantee, the CGMH Guarantee, the MLI Security Agreement, the MLI Control Agreement, the CGML Security Agreement and the CGML Control Agreement. Micro and Commodity Securities of each class are backed by Commodity Contracts with corresponding terms and each time a Micro or Commodity Security is created or redeemed a matching amount of Commodity Contracts are purchased or cancelled by the Issuer. Commodity Contracts will be purchased from one or more Commodity Contract Counterparties.

The Issuer will decline applications for Micro and Commodity Securities if it cannot for any reason create corresponding Commodity Contracts with a Commodity Contract Counterparty.

At the date of this Prospectus, the Issuer has entered into arrangements with two Commodity Contract Counterparties – MLI and CGML.

Under the Facility Agreements there are limits both daily and in aggregate, on the number of Commodity Contracts that can be created or cancelled at any time. Creations and redemptions of Micro and Commodity Securities are subject to both daily limits and total aggregate limits, to match the limits on Commodity Contracts.

MLI is a company incorporated and registered in England and Wales with number 2312079 whose registered office is at 2 King Edward Street, London EC1A 1HQ, United Kingdom. The principal activities of MLI are to provide a wide range of financial services globally for business originated in Europe, the Middle East and Africa, Asia Pacific and the Americas, to act as broker and dealer in financial instruments and to provide corporate finance services.

| B.26 | Investment management                        | Not applicable; there is no active management of the assets of the Issuer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| B.27 | Further securities backed by the same assets | Further Micro and Commodity Securities of any type may be issued but each time a Micro or Commodity Security of any type is issued corresponding Commodity Contracts of the appropriate class or classes will be created and will form part of the corresponding "Secured Assets". Such newly issued Micro and Commodity Securities will be fungible with all existing Micro and Commodity Securities of the same type and will be backed by the assets of the same Secured Assets.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| B.28 | Structure of the transaction                 | <p>The Issuer has created a programme whereby Micro and Commodity Securities may be issued from time to time. The Micro and Commodity Securities can be issued to or required to be redeemed on a daily basis by Authorised Participants who have entered into an Authorised Participant Agreement with the Issuer. Authorised Participants may then sell and buy Micro and Commodity Securities to and from other investors on exchange or in private transactions.</p> <p>Micro and Commodity Securities are constituted by the Trust Instrument. Under the terms of the Trust Instrument, the Trustee acts as trustee for the Security Holders of each type of Micro and Commodity Security both (a) to make determinations and exercise rights under the Micro and Commodity Securities for the benefit of Security Holders and (b) to hold on trust for Security Holders the security granted by the Issuer under the Security Deeds, to exercise any rights to enforce the same and to distribute the proceeds (after payment of all amounts owed to the Trustee) to the Security Holders (among others).</p> <p>The obligations of the Issuer in respect of each class of Micro and Commodity Security are secured by a charge over the equivalent class of Commodity Contracts under the Facility Agreements and related contracts.</p> <p>A diagrammatic representation of the principal aspects of the structure as currently in place appears below:</p> |

|      |                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| B.29 | Description of the flow of funds      | <p>Micro and Commodity Securities can be bought or sold for cash on the London Stock Exchange and certain of the Commodity Securities can also be bought or sold for cash on Euronext Amsterdam, NYSE Euronext Paris, Borsa Italiana and/or the Frankfurt Stock Exchange (being the other stock exchanges on which they are admitted to trading) or in private off-exchange transactions. Details of the exchanges on which a particular type of security can be traded are set out in a document entitled “Final Terms”, prepared by the Issuer each time that securities are issued. Market makers provide liquidity on those stock exchanges and for those transactions but only Authorised Participants can apply directly to the Issuer for the issue of Commodity Securities. The Issuer has entered into Authorised Participant Agreements and has agreed with Authorised Participants to issue Commodity Securities to those Authorised Participants on an on-going basis. An Authorised Participant may sell the Micro and Commodity Securities on an exchange or in an offexchange transaction or may hold the securities themselves.</p> <p>Upon issue of Commodity Securities, an Authorised Participant must deliver an amount of cash to the Commodity Contract Counterparty equal to the price of the Commodity Securities to be issued in exchange for which the Issuer issues the Commodity Securities and delivers them to the Authorised Participant via CREST.</p> <p>Upon redemption of Micro and Commodity Securities by an Authorised Participant (and in certain limited circumstances, other Security Holders), the Commodity Contract Counterparty must deliver an amount of cash to the relevant Authorised Participant equal to the price of the Micro and Commodity Securities to be redeemed in return for delivery by the redeeming Security Holder of the Micro and Commodity Securities.</p> |
| B.30 | Originators of the securitised assets | <p>The Commodity Contracts are and will be entered into with the Commodity Contract Counterparties.</p> <p>At the date of the Prospectus, the Issuer has entered into agreements with MLI and CGML to act as Commodity Contract Counterparties.</p> <p>MLI is a company incorporated and registered in England and Wales with number 2312079 whose registered office is at 2 King Edward Street, London EC1A 1HQ, United Kingdom. **SECTION C – Securities**

C.1 Type and class of securities being offered

Micro and Commodity Securities are designed to give investors a “total return” similar to that which could be achieved from managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. Unlike managing futures positions, Micro and Commodity Securities involve no rolling, margin calls, expiry or futures brokerage.

The Issuer has created and is currently making available for issue 78 different types of Commodity Securities each of which gives investors exposure to movements in one of the Commodity Indices and which can be grouped into 2 different types:

- Individual Securities; and
- Index Securities.

These comprise 50 different classes of Individual Securities (representing 27 different commodities and two different maturities) and 28 different categories of Index Securities (representing 18 different combinations of commodities and two different maturities).

***Class and category characteristics***

The return on the Micro and Commodity Securities is linked in each case to the performance of the related Commodity Indices as follows:

- Classic Individual Securities track Commodity Indices which provide exposure to movements in the value of futures contracts in one type of commodity and due for delivery within a range of one to three months;
- Classic Index Securities track Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities and due for delivery within a range of one to three months;
- Longer Dated Individual Securities track Commodity Indices which provide exposure to movements in the value of futures contracts in one type of commodity and due for delivery within a range of four to six months; and
- Longer Dated Index Securities track Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities and due for delivery within a range of four to six months,

in each case plus an adjustment for the risk free interest rate which accrues to a fully collateralised position in the relevant underlying futures contracts. ***Issue specific summary:***

The following details apply to the Micro or Commodity Securities being issued pursuant to the Final Terms:

| C.5 | Restrictions on transfer | Not applicable; the Micro and Commodity Securities are freely transferable.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| C.8 | Rights                   | <p>A Micro and Commodity Security entitles an Authorised Participant to require the redemption of the security by the Issuer and to receive the higher of (i) the minimum denomination for that type of Micro and Commodity Security (known as the “<b>Principal Amount</b>”), and (ii) the price of that type of Micro and Commodity Security on the applicable day determined using the Formula set out and described in C.15.</p> <p>Generally only Authorised Participants will deal directly with the Issuer in redeeming Micro and Commodity Securities. In circumstances, where there are no Authorised Participants, or as the Issuer may in its sole discretion determine, Security Holders who are not Authorised Participants may require the Issuer to redeem their securities directly.</p> <p><b><i>Limited Recourse</i></b></p> <p>The obligations of the Issuer in respect of each class of Micro and Commodity Securities are secured by a charge in favour of the Trustee and an assignment to the Trustee by way of security of the Issuer’s rights in so far as they relate to that class. The Trustee and the Security Holders of any class of Micro and Commodity Securities shall have recourse only to the sums derived from the assets relating to that class. If the net proceeds are insufficient for the Issuer to make all payments due, the Trustee, or any other person acting on behalf of the Trustee, will not be entitled to take any further steps against the Issuer and no debt shall be owed by the Issuer in respect of such further sum.</p> <p><b><i>Priority of Payments</i></b></p> <p>All moneys received by the Trustee upon realisation of the assets relevant to a particular class of Micro and Commodity Securities will be held on trust by the Trustee and applied in the following order:</p> |

|      |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|      |                       | <p><b>Settlement on NYSE Euronext ESES</b></p> <p>Settlements in the Euronext markets of France and the Netherlands are performed through the Euroclear Settlement for Euronext-zone Securities (“<b>ESES</b>”) platform and all trades of Micro and Commodity Securities listed on NYSE Euronext Paris or NYSE Euronext Amsterdam will be executed on the single order book held at NYSE Euronext Paris as the market of reference.</p> <p><b>Settlement on the Borsa Italiana S.p.A.</b></p> <p>All Micro and Commodity Securities traded on the Borsa Italiana S.p.A. are eligible for settlement through the normal Monte Titoli S.p.A. settlement systems on the deposit accounts opened with Monte Titoli S.p.A.</p> <p><b>Issue specific summary:</b></p> <p>For the purpose of good delivery of the Micro or Commodity Securities being issued pursuant to the Final Terms on the Frankfurt Stock Exchange, Clearstream Banking Aktiengesellschaft (“Clearstream”) will issue, for each series and the relevant number of Micro and Commodity Securities, a Global Bearer Certificate (each a “Global Bearer Certificate”) in the German language created under German law. Whenever the number of Micro or Commodity Securities represented by the Global Bearer Certificate changes, Clearstream will amend the relevant Global Bearer Certificate accordingly.</p>                                                                                            |
| C.18 | Description of return | <p>The Price of each Micro or Commodity Security reflects movements in the relevant Commodity Index since the previous day on which the Price was calculated, adjusted by deduction of any applicable fees. Therefore, the return for a particular class or category will be based on, primarily, the performance of the relevant Commodity Index.</p> <p>To achieve this, the Individual Securities and the Micro Securities through which the Issuer obtains exposure to the Commodity Indices are priced in accordance with the Formula. This Formula reflects (a) the movement in the relevant Commodity Index since the last day on which the Price was calculated; and (b) fees payable by the Issuer to the Commodity Contract Counterparty under the Facility Agreement and to ManJer. The deduction of the fees payable to the Commodity Contract Counterparty and ManJer are referenced in the capital adjustment referenced in the Formula.</p> <p>For Index Securities, the Price is the sum of the Prices of the Micro Securities of which they are comprised.</p> <p>The Price of each type of Micro and Commodity Security will be calculated by the Issuer as at the end of each pricing day (after the futures market prices for that day have been published) and posted along with the applicable Multiplier and Capital Adjustment on the Issuer’s website at <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a>.</p> |

## SECTION D – Risks

|     |                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Key risks of Issuer | <p>The Issuer has been established as a special purpose vehicle for the purpose of issuing the ETFS Classic Commodity Securities, ETFS Longer Dated Commodity Securities and certain other securities (the “<b>Short and Leveraged Commodity Securities</b>”), which are issued pursuant to a separate base prospectus of the Issuer dated on or around the date of this Prospectus, as asset-backed securities and has no assets other than those attributable to the Micro and Commodity Securities and the Short and Leveraged Securities. The amounts that a Security Holder could receive following a claim against the Issuer are, therefore, limited to the proceeds of realisation of the secured property applicable to such Security Holder’s class or category of Micro and Commodity Securities and as the Issuer is a special purpose vehicle formed only for the purpose of issuing the Micro and Commodity Securities and the Short and Leveraged Commodity Securities, and as the Micro and Commodity Securities are not guaranteed by any other person, the Issuer would have no further assets against which the Security Holder could claim. In the event that the secured property is insufficient to cover the amount payable to the Security Holder, the Security Holder would suffer a loss.</p> <p>Although Micro and Commodity Securities are secured by Commodity Contracts and collateral, the value of such Micro and Commodity Securities and the ability of the Issuer to pay any redemption amounts remains partly dependent on the receipt of amounts due from MLI and CGML under the Facility Agreements, the BAC Guarantee, the Citigroup Guarantee, the Security Agreements and the Control Agreements. No holder has any direct rights of enforcement against any such person.</p> <p>There can be no assurance MLI, CGML or any other entity will be able to fulfil their payment obligations under the relevant Commodity Contracts, Facility Agreement, BAC Guarantee, Citigroup Guarantee, Security Agreement or Control Agreement. Consequently, there can be no assurance that the Issuer will be able to redeem Micro and Commodity Securities at their redemption price which could lead to an investor receiving less than the redemption price upon redemption of their Micro and Commodity Securities.</p> |

|     |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.3 | Key risks of securities | <p>Commodity prices can be volatile and therefore the value of Micro and Commodity Securities may fluctuate widely.</p> <p>During situations where the cost of futures contracts for delivery on dates further in the future is higher than those for delivery closer in time, the value of the corresponding Commodity Index will decrease overtime unless the spot price increases by the same rate as the rate of the variation in the price of the futures contract. The rate of variation could be quite significant and last for an indeterminate period of time, reducing the value the Commodity Index and therefore the price of any Micro and Commodity Securities linked to that Commodity Index.</p> <p>Micro and Commodity Securities are priced in US Dollars and their value in other currencies will be affected by exchange rate movements.</p> <p>There may be days where disruption in the underlying commodity markets means that one or more classes or categories of Micro and Commodity Securities are unable to be priced on that day. This will cause a delay in the application or redemption process which could adversely affect potential or existing investors.</p> <p>In the event of realisation of collateral from a Commodity Contract Counterparty, the value of the assets realised may be less than required to meet the redemption amount due to Security Holders. Any realisation of the collateral may take time and a Security Holder could experience delays in receiving amounts due to them. A Security Holder may also suffer a loss if the assets realised are less than the redemption amount due.</p> |
| D.6 | Key risks of securities | <p>Past performance is not an indication of expected performance and the investment performance of a Micro and Commodity Security could be volatile. Consequently, investors in Micro and Commodity Securities may lose the value of their entire investment or part of it.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## RESUMÉ

### ETFS Commodity Securities Limited

#### Prospektresumé

#### Basisprospekt dateret 29 maj 2019 vedrørende Udstedelse af ETFS Classic Commodity Securities og ETFS Longer Dated Commodity Securities

Der gives et sammendrag af de oplysningskrav, der betegnes "Elementer". Disse elementer er nummereret som Afsnit A – E (A.1 – E.7).

Dette resumé omfatter alle de Elementer, som skal være omfattet af et resumé for denne type værdipapirer og udsteder. Da der er nogle Elementer, der ikke skal adresseres, kan der være huller i nummereringsrækkefølgen.

Selvom der kan være krav om, at et Element er omfattet af resuméet på grundlag af typen af værdipapir og Udsteder, er det muligt, at der ikke kan gives relevante oplysninger om det pågældende Element. Resuméet vil da indeholde en kort beskrivelse af Elementet med angivelse af "ikke relevant".

| AFSNIT A – Indledning og Advarsler |                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| A.1                                | Krævet standard-advarsel                                                                                                                                                | <ul style="list-style-type: none"><li>• Dette resumé bør læses som en indledning til basisprospektet for ETFS Commodity Securities Limited vedrørende programmet for udstedelse af ETFS Classic Commodity Securities og ETFS Longer Dated Commodity Securities dateret 29 maj 2019 ("<b>Prospektet</b>").</li><li>• Enhver beslutning om investering i ETFS Classic Commodity Securities eller ETFS Longer Dated Commodity Securities bør træffes på baggrund af Prospektet som helhed.</li><li>• Såfremt der indbringes et krav vedrørende oplysningerne i Prospektet for en domstol, kan den sagsøgende investor i henhold til den nationale lovgivning i det medlemsland, hvor kravet indbringes, være forpligtet til at betale omkostningerne i forbindelse med oversættelse af Prospektet, inden sagen indledes.</li><li>• Kun de personer, der har indgivet resuméet eller eventuelle oversættelser heraf, kan ifalde et civilretligt erstatningsansvar, men kun såfremt resuméet er misvisende, ukorrekt eller uoverensstemmende, når det læses sammen med de øvrige dele af Prospektet, eller ikke, når det læses sammen med Prospektets øvrige dele, indeholder nøgleoplysninger, således at investorerne lettere kan tage stilling til, om de vil investere i ETFS Classic Commodity Securities eller ETFS Longer Dated Commodity Securities.</li></ul> |
| A.2                                | Erklæring om, at Udsteder giver sit samtykke til prospektets anvendelse ved efterfølgende videresalg eller endelig placering af værdipapirer via finansielle formidlere | Udsteder har givet sit samtykke til Prospektets anvendelse og påtager sig ansvaret for Prospektets indhold i relation til efterfølgende videresalg eller endelig placering i form af et offentligt udbud af Micro eller Commodity Securities (som beskrevet nedenfor) i Østrig, Belgien, Danmark, Finland, Frankrig, Tyskland, Irland, Italien, Holland, Norge, Spanien, Sverige og Storbritannien via en finansiell formidler, der er en investeringsvirksomhed som defineret i Direktivet for markeder for finansielle instrumenter 2014/65 som ændret (" <b>MiFID II</b> ") og som er autoriseret i overensstemmelse med MiFID II i alle medlemslande. Et sådant samtykke gælder ved et eventuelt videresalg eller endelig placering i form af et offentligt udbud i en periode på 12 måneder fra Prospektets dato, medmindre samtykket trækkes tilbage forinden denne dato ved meddelelse på Udsteders hjemmeside. Ud over Udsteders ret til at trække sit                                                                                                                                                                                                                                                                                                                                                                                                    |

| <p>overblik over parterne</p> | <p>gældsbeviser, der har sikkerhed i derivatkontrakter, der er knyttet til råvareindekser. I henhold til dette Prospekt udsteder Udsteder gældsbeviser ("<b>Micro og Commodity Securities</b>"), der (før gebyrer og udgifter) medfører eksponering mod daglige ændringer i nærmere angivne råvareindekser beregnet og offentliggjort af Bloomberg L.P. og/eller Bloomberg Finance L.P. og/eller et associeret selskab til hver af disse (tilsammen "<b>Bloomberg</b>") ("<b>Bloomberg Commodity-indekser</b>" og hver især benævnt et "<b>Bloomberg Commodity-indeks</b>"). Bloomberg Commodity-indekser følger bevægelser i kursen på individuelle råvare-futureskontrakter eller baskets af råvare-futureskontrakter. Til og med den 30. juni 2014 blev Bloomberg Commodity-indekserne udregnet og offentliggjort af CMC Group Index Services LLC sammen med UBS Securities LLC og kendt som Dow Jones – UBS Commodity-indekser. Udsteder har etableret et program for lejlighedsvis udstedelse af forskellige typer af Micro og Commodity Securities.</p> <p>Udsteder opnår et afkast baseret på bevægelserne i det pågældende Bloomberg Commodity-indeks ved at indgå fuldt finansierede sikrede derivatkontrakter ("<b>Commodity Contracts</b>") med Merrill Lynch International ("<b>MLI</b>") og Citigroup Global Markets Limited ("<b>CGML</b>"). MLI og CGML er tilsammen benævnt "<b>Commodity Contract Counterparties</b>". Vilklårene for Commodity Contracts, der er eller skal købes af Udsteder, er reguleret af (i) en aftale benævnt "MLI Facility Agreement relateret til Classic and Longer Dated Commodity Contracts" mellem Udsteder og MLI dateret 29. juni 2017 (the "<b>MLI Facility Agreement</b>"); og (ii) en aftale benævnt "CGML Facility Agreement relateret til Micro og Commodity Contracts" mellem Udsteder og CGML dateret 29. juni 2017 (the "<b>CGML Facility Agreement</b>"). MLI's betalingsforpligtelser i henhold til dennes MLI Facility Agreement er sikret i henhold til en garanti ("<b>BAC-garanti</b>") fra Bank of America ("<b>BAC</b>") og CGML's betalingsforpligtelser i henhold til dennes CGML Facility Agreement er sikret i henhold til en garanti (the "<b>Citigroup Guarantee</b>") fra Citigroup Global Markets Holdings Inc. ("<b>CGMH</b>"), begge udstedt til fordel for Udsteder.</p> <p>Commodity Contract Counterparties' forpligtelser over for Udsteder er sikret ved sikkerhedsstillelse (collateral) fra Commodity Contract Counterparties ("<b>Sikkerhed</b>") og opbevares på konti i Commodity Contract Counterparties' navne i Bank of New York Mellon ("<b>BNYM</b>").</p> <p>I henhold til (i) en sikkerhedsaftale mellem MLI og Udsteder dateret 29. juni 2017 ("<b>MLI Security Agreement</b>") og en kontrolaftale mellem BNYM, MLI og Udsteder dateret 29. juni 2017 ("<b>MLI Control Agreement</b>"), og (ii) en sikkerhedsaftale mellem CGML og Udsteder dateret 29. juni 2017 ("<b>CGML Security Agreement</b>") og en kontrolaftale mellem BNYM, CGML og Udsteder dateret 29. juni 2017 ("<b>CGML Control Agreement</b>"), er MLI og CGML forpligtede til at overføre værdipapirer og forpligtelser svarende til Udsteders totale eksponering i henhold til MLI's og CGML's Commodity Contracts, til en sikkerhedskonto (hvis relevant). Sikkerheden justeres dagligt for at afspejle værdien af de relevante Commodity Contracts.</p> <p>Micro og Commodity Securities kan udstedes og kræves indløst dagligt af finansielle institutioner ("<b>Berettigede Deltagere</b>"), der (i) har indgået en aftale benævnt "Berettiget Deltageraftale" med Udsteder, (ii) har attesteret deres status i henhold til Financial Services and Markets Act 2000 ("<b>FSMA</b>") over for Udsteder, og (iii) (bortset fra tilfælde, hvor en Commodity Contract Counterparty, der har indgået en Berettiget Deltageraftale med Udsteder) har indgået en tilsvarende aftale benævnt "Direkte Aftale" med mindst én Commodity Contract Counterparty, og som ikke er blevet oplyst af Commodity Contract Counterparty, at denne ikke er en uacceptabel</p> |

| B.27 | Yderligere værdipapirer med sikkerhed i de samme aktiver | Der kan blive udstedt yderligere Micro og Commodity Securities i alle klasser men hver gang der udstedes en Micro eller Commodity Security af en type, vil der blive etableret tilsvarende Commodity Contracts i samme klasse(r), der vil udgøre en del af de tilsvarende "Sikrede Aktiver". Disse nyudstedte Micro og Commodity Securities vil være ombyttelige med alle eksisterende Micro og Commodity Securities af samme type og have sikkerhed i de samme Sikrede Aktiver.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| B.28 | Strukturdiagram                                          | <p>Udsteder har etableret et program for lejlighedsvis udstedelse af Micro og Commodity Securities. Micro og Commodity Securities kan udstedes og kræves indløst dagligt af Berettigede Deltagere, der har indgået en Berettiget Deltageraftale med Udsteder. Berettigede Deltagere kan herefter sælge og købe Micro og Commodity Securities til og fra andre investorer på fondsbørser eller ved private transaktioner.</p> <p>Micro og Commodity Securities oprettes i henhold til en Forvaltningsaftale. I henhold til Forvaltningsaftalen fungerer Administratoren som administrator for Værdipapirindehaverne af hver type af Micro og Commodity Security både (a) med henblik på at træffe beslutninger og udøve rettigheder i henhold til Micro og Commodity Securities til fordel for Værdipapirindehaverne og (b) med henblik på at forvalte den af Udsteder givne sikkerhed i henhold til Sikkerhedsaftalen for Værdipapirindehaverne, at udnytte alle rettigheder til at håndhæve denne og udlodde afkastet (efter betaling</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

af alle skyldige beløb til Administrator) til bl.a. Værdipapirindehaverne.

Udsteders forpligtelser i forhold til hver klasse af Micro og Commodity Security er sikret ved pant i den tilsvarende klasse af Commodity Contracts i henhold til Facility Agreements og tilhørende kontrakter.

Et diagram over de væsentligste aspekter af den aktuelle struktur fremgår nedenfor:

- Agreements = Aftaler
- Fund flows = Pengestrømme
- Collateral flows = Collateral flows (Sikkerhedsstrømme)
- Trustee = Administrator
- Trust Instrument = Forvaltningsaftale
- Security deed = Sikkerhedsdokument
- Security Holders = Værdipapirindehavere
- Issuer = Udsteder
- Classic and Longer Dated Commodity Securities = Classic and Longer Dated Commodity Securities
- Control Agreement = Control Agreement
- Securities Intermediary = Værdipapirformidler
- Collateral Account = Sikkerhedskonto
- Collateral = Sikkerhed
- Market-making = Løbende prisstillelse
- Commodity Contract Counterparty = Commodity Contract Counterparty (aftalepart i en råvarekontrakt)
- Authorised Participant Agreement = Authorised Participant Agreement = Aftale med berettiget deltager
- Facility Agreement and Security Agreement = Facility Agreement og Security Agreement
- Commodity Contracts = Råvarekontrakter
- Authorised Participants = Berettigede deltagere
- Creation and Redemption Payments = Oprettelses- og Indløsningsgebyrer

| C.1                            | Type og klasse af de udbudte værdipapirer | <p>Micro og Commodity Securities har til formål at give investorer et "samlet afkast" svarende til det, der ville kunne opnås ved en fuldt kontant sikret ikke-gearet position i futureskontrakter med fastsatte udløb, med fradrag af aktuelle gebyrer. I modsætning til futurespositioner omfatter Micro og Commodity Securities ikke rulning, margin calls, udløb eller futures-mæglergebyrer.</p> <p>Usteder har oprettet og givet mulighed for udstedelse af 84 forskellige typer af Commodity Securities, der hver især giver investorer eksponering mod bevægelser i et af Bloomberg Commodity-indekserne, og kan indeles i 2 forskellige typer:</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

- Individual Securities og
- Index Securities.

Disse omfatter 54 forskellige klasser af Individual Securities (der repræsenterer 29 forskellige råvarer og to forskellige udløb) og 28 forskellige kategorier af Index Securities (der repræsenterer 18 forskellige kombinationer af råvarer og to forskellige udløb).

**Klasse- og indeksskarakteristika**

Afkastet på Micro og Commodity Securities er i hvert tilfælde knyttet til den præsterede performance for de tilhørende Bloomberg Commodity-indekser som følger:

- Classic Individual Securities følger Bloomberg Commodity-indekserne, der giver eksponering mod bevægelser i værdien af futureskontrakter i én type råvare til levering inden for en periode på én til tre måneder;
- Classic Index Securities følger Bloomberg Commodity-indekserne, der giver eksponering mod bevægelser i værdien af futureskontrakter i forskellige råvarer til levering inden for en periode på én til tre måneder;
- Longer Dated Individual Securities følger Bloomberg Commodity-indekserne, der giver eksponering mod bevægelser i værdien af futureskontrakter i én type råvare til levering inden for en periode på fire til seks måneder;
- Longer Dated Index Securities følger Bloomberg Commodity-indekserne, der giver eksponering mod bevægelser i værdien af futureskontrakter i forskellige råvarer til levering inden for en periode på fire til seks måneder;

i hvert tilfælde plus en regulering for den risikofrie rente, der påløber en fuldt sikret position i de relevante underliggende futureskontrakter.

**Emnespecifikt resumé:**

Følgende detaljerede oplysninger omfatter de Micro eller Commodity Securities, der udstedes i henhold til de Endelige Vilkår:

Klasse eller Kategori: ETFS Heating Oil

LSE-kode: HEAT

ISIN: GB00B15KXY63

Samlet antal Micro eller Commodity Securities i denne klasse eller kategori: 6,000

Navn på det underliggende indeks: Bloomberg Heating Oil Subindex Total Return

**Klasse- og indeksskarakteristika**

Classic Individual Securities følger Bloomberg Commodity-indekser, der giver eksponering mod bevægelser i værdien af

|      |                       | <p>overensstemmelse hermed.</p> <p><b>Afregning på NYSE Euronext ESES</b></p> <p>Afregninger på Euronext-markederne i Frankrig og Holland sker via Euroclear Settlement for platformen for værdipapirer i Euronext-zonen ("<b>ESES</b>") og alle handler med Micro og Commodity Securities, der er noteret på NYSE Euronext Paris eller NYSE Euronext Amsterdam, gennemføres på den enkelte ordrebog på NYSE Euronext Paris som referencemarked.</p> <p><b>Afregning på Borsa Italiana S.p.A.</b></p> <p>Alle Micro og Commodity Securities, der handles på Borsa Italiana S.p.A., kan afregnes via de normale Monte Titoli S.p.A.-systemer på de deponeringskonti, der er oprettet i Monte Titoli S.p.A.</p> <p><b>Afregning på Tokyo Stock Exchange</b></p> <p>Alle Micro og Commodity Securities, der handles på Tokyo Stock Exchange, kan afregnes via Japan Securities Depository Center, Inc. (JASDEC).</p> <p><b>Afregning på Mexican Stock Exchange</b></p> <p>Alle Micro og Commodity Securities, der handles på Mexican Stock Exchange (<i>Bolsa Mexicana de Valores</i>), kan afregnes via de sædvanlige Inderal afregningssystemer.</p> <p><b><i>Emnespecifikt resumé:</i></b></p> <p>Med henblik på levering af Micro eller Commodity Securities udstedt i henhold til de Endelige Vilkår på Frankfurt Stock Exchange udsteder Clearstream Banking Aktiengesellschaft ("Clearstream") – for hver serie og det pågældende antal Micro og Commodity Securities – et Global Bearer Certificate (hver benævnt et "Global Bearer Certificate") på tysk oprettet i henhold til tysk ret. Hvis antallet af Micro eller Commodity Securities repræsenteret ved Global Bearer Certificate ændrer sig, ændrer Clearstream det pågældende Global Bearer Certificate i overensstemmelse hermed.</p> |
| C.18 | Beskrivelse af afkast | <p>Kursen på hver Micro eller Commodity Security afspejler bevægelser i de relevante Bloomberg Commodity-indekser fra den foregående dag, hvor Kursen blev beregnet, justeret for evt. gældende gebyrer. Afkastet for en specifik klasse eller kategori vil derfor være baseret primært på det pågældende Bloomberg Commodity-indeks' performance.</p> <p>sssFor at opnå dette er både Individual Securities og Micro Securities, hvorigennem Udsteder opnår eksponering mod Bloomberg Commodity-indekser, kursfastsat i overensstemmelse med Formlen. Denne Formel afspejler (a) bevægelsen i det pågældende Bloomberg Commodity-indeks siden den sidste dag, hvor Kursen blev beregnet, og (b) de gebyrer, som Udsteder skal betale til Commodity Contract Counterparty i henhold til Facility Agreement og til ManJer. Fradraget af gebyrer til Commodity Contract Counterparty og ManJer er omtalt i den i Formlen afspejlede kapitalregulering.</p> <p>For Index Securities udgør kursen summen af kurserne på de Micro Securities, som de består af.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| D.2                      | Udsteders vigtigste risici                                                | <p>Udsteder er etableret som et selskab med specifikt afgrænsede opgaver (special purpose vehicle) med henblik på at udstede ETFS Classic Commodity Securities, ETFS Longer Dated Commodity Securities og visse andre værdipapirer ("<b>Short og Leveraged Commodity Securities</b>"), der udstedes i henhold til et særskilt basisprospekt for Udsteder dateret på eller omkring datoen for dette Prospekt som værdipapirer med sikkerhed i aktiver, og ikke har andre aktiver ud over de, der kan henføres til Short og Leveraged Securities og Micro and Commodity Securities. De beløb som en Værdipapirindehaver vil kunne modtage efter fremsættelsen af et krav mod Udsteder er derfor begrænset til provenuet fra realiseringen af den sikrede ejendom for den pågældende Værdipapirindehavers klasse eller kategori af Short og Leveraged Commodity Securities, og da Udsteder er et selskab med specifikt afgrænsede opgaver (special purpose vehicle), der alene er stiftet med henblik på at udstede Micro og Commodity Securities og Micro</p>                                                                                                                                             |

|     |                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                      | <p>og Commodity Securities, og da Micro og Commodity Securities ikke er garanteret af andre, har Udsteder ingen yderligere aktiver, som Værdipapirindehaveren ville kunne fremsætte krav om. Hvis den sikrede ejendom ikke er tilstrækkelig til at dække det beløb, der skal betales til Værdipapirindehaveren, vil Værdipapirindehaveren lide et tab.</p> <p>Selvom Micro og Commodity Securities er sikret ved Commodity Contracts og Sikkerhed (collateral), afhænger værdien af disse Micro og Commodity Securities og Udsteders evne til at betale indløsningsbeløb delvist af modtagelsen af skyldige beløb fra MLI og CGML i henhold til Facility Agreements, BAC Guarantee, Citigroup Guarantee, Security Agreements og Control Agreements. Der er ingen indehavere, der har direkte ret til håndhævelse over for en sådan person.</p> <p>Der er ingen garanti for, at MLI, CGML eller andre enheder vil være i stand til at opfylde deres betalingsforpligtelser i henhold til den/de pågældende Commodity Contracts, Facility Agreement, BAC Guarantee, Citigroup Guarantee, Security Agreement eller Control Agreement. Der kan derfor ikke være sikkerhed for, at Udsteder er i stand til at indløse Micro og Commodity Securities til indløsningskursen, hvilket kan medføre, at en Investor modtager mindre end indløsningskursen ved indløsning af Micro og Commodity Securities.</p>                                                                                                                                                                                                                                                                                                                               |
| D.3 | Væsentligste risici ved værdipapirer | <p>Råvarepriserne svinger generelt, og derfor kan værdien af Micro og Commodity Securities også svinge betydeligt.</p> <p>I situationer hvor omkostningerne ved futureskontrakter til levering på datoer længere ude i fremtiden er højere end dem, der skal leveres inden for en kortere tidshorisont, vil værdien af det tilsvarende Bloomberg Commodity-indeks falde over tid, medmindre spotkursen øges efter samme takt som variationshastigheden i forhold til kursen på futureskontrakten. Variationshastigheden kan være ret betydelig og vedvare uden tidsbegrænsning og og således reducere værdien af Bloomberg Commodity-indekset og kursen på de Micro og Commodity Securities, der er knyttet til det pågældende Bloomberg Commodity-indeks.</p> <p>Da Micro og Commodity Securities kursfastsættes i USD, påvirkes deres værdi i andre valutaer også af valutakursudsving.</p> <p>Der kan være dage, hvor forstyrrelser på de underliggende råvaremarkeder medfører, at kursen for én eller flere klasser eller kategorier af Micro og Commodity Securities ikke kan fastsættes den pågældende dag. Dette vil medføre en forsinkelse i ansøgnings- eller indløsningsproceduren, der vil kunne påvirke potentielle eller nuværende værdipapirindehavere negativt.</p> <p>Ved realisering af sikkerhed (collateral) fra en Commodity Contract Counterparty kan værdien af de realiserede aktiver være mindre end påkrævet for at nå indløsningsbeløbet til Værdipapirindehaverne. En realisering af sikkerheden kan tage tid, og en Værdipapirindehaver kan opleve forsinket modtagelse af beløb. En værdipapirindehaver kan ligeledes lide et tab, hvis de realiserede aktiver er mindre end indløsningsbeløbet.</p> |
| D.6 | Væsentligste risici ved værdipapirer | <p>Tidligere performance er ikke nogen indikation af forventet performance, og investeringsafkastet for Micro og Commodity Securities kan være ustabil. Investorer i Micro og Commodity Securities kan derfor miste værdien af hele eller dele af deres investering.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>AFSNIT E – Udbud</b> |                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Basisprospectus van 29 maj 2019 voor het uitgeven van**  
**ETFS Classic Commodity Securities en ETFS Longer Dated Commodity Securities**

Samenvattingen bestaan uit openbaarmakingvereisten die gekend zijn als 'Rubrieken'. De rubrieken zijn genummerd in secties van A - E (A.1 – E.7).

Deze samenvatting bevat alle Rubrieken die verplicht moeten worden opgenomen in een samenvatting voor dit type effecten en Emittent. Omdat bepaalde Rubrieken niet verplicht moeten worden besproken, kan de opeenvolging van de nummers van de Rubrieken hiaten vertonen.

Hoewel het verplicht kan zijn een Rubriek op te nemen in de samenvatting wegens het type effecten en Emittent, is het mogelijk dat er geen relevante informatie kan worden gegeven over de betrokken Rubriek. In dat geval wordt een korte beschrijving van de Rubriek opgenomen in de samenvatting met de vermelding 'niet van toepassing'.

Geen rating wordt aan de Emittent toegekend en het is niet de bedoeling dat een rating aan de Micro en Commodity Securities wordt toegekend.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| B.20 | Special<br>purpose vehicle                           | De Emittent werd opgericht als een <i>special purpose vehicle</i> met de bedoeling om schuldinstrumenten (debt securities) uit te geven.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| B.21 | Hoofdactiviteiten<br>en overzicht<br>van de partijen | <p>De hoofdactiviteit van de Emittent is het uitgeven van verschillende types van schuldinstrumenten die gewaarborgd zijn door derivatieve contracten gebonden aan commodity indices. In overeenstemming met dit Prospectus geeft de Emittent schuldinstrumenten uit (de "<b>Micro en Commodity Securities</b>") die (voor vergoedingen en kosten) blootstelling geven aan de bewegingen van commodity indices, berekend en gepubliceerd door Bloomberg L.P. en/of Bloomberg Finance L.P. en/of verbonden vennootschappen van een van hen (samen "<b>Bloomberg</b>") (de "<b>Commodity Indices</b>" en elk een "<b>Commodity Index</b>"). De Commodity Indices volgen de bewegingen van de prijzen van individuele commodity futures of korfjes van commodity futures contracten. Tot en met 30 juni 2014 werden de Commodity Indices berekend en gepubliceerd door CME Group Index Services LLC samen met UBS Securities LLC, en bekend als The Dow Jones – UBS Commodity Indices. De Emittent heeft een programma opgesteld waarbij van tijd tot tijd verschillende types Micro en Commodity Securities kunnen worden uitgegeven.</p> <p>De Emittent bekomt een opbrengst op de bewegingen van de relevante Commodity Index door het onderschrijven van volledig betaalde collateralised derivative contracts (de "<b>Commodity Contracts</b>") met Merrill Lynch International ("<b>MLI</b>") en Citigroup Global Markets Limited ("<b>CGML</b>"). Samen MLI en CGML gekend als de "<b>Commodity Contract Counterparties</b>". De voorwaarden van de door de Emittent gekochte of te kopen Commodity Contracts worden bepaald door (i) een overeenkomst genaamd "<b>MLI Facility Agreement gerelateerd aan Classic en Longer Dated Commodity overeenkomsten</b>" gesloten tussen de Emittent en MLI met datum 29 juni 2017 (de "<b>MLI Facility Agreement</b>").; en (ii) een overeenkomst genaamd "<b>CGML Facility Agreement gerelateerd aan Classic en Longer Dated Commodity overeenkomsten</b>" gesloten tussen de Emittent en MLCI met datum 29 juni 2017 (de "<b>CGML Facility Agreement</b>"). De verplichtingen tot betaling van MLI in het raam van de MLI Facility Agreement worden ondersteund door een waarborg (de "<b>BAC Guarantee</b>") van de Bank of America Corporation ("<b>BAC</b>") en de verplichtingen tot betaling van CGML in het raam van de CGML Facility Agreement worden ondersteund door een waarborg (de "<b>Citigroup Guarantee</b>") van Citigroup Global Markets Holdings Inc. ("<b>CGMH</b>"), beide verleend in het voordeel van de Emittent.</p> <p>De verplichtingen van de Commodity Contract Counterparties ten aanzien van de Emittent op grond van de Commodity Contracts worden gewaarborgd door borgen gesteld door de Commodity Contract Counterparties (de "<b>Collateral</b>") en die bijgehouden worden op rekeningen op naam van de Commodity Contract Counterparties bij de Bank of New York Mellon ("<b>BNYM</b>").</p> |

In overeenstemming met (i) de overeenkomst tussen MLI en de Emittent, met datum 29 juni 2017 ("**MLI Security Agreement**") en de overeenkomst tussen BNYM, MLI en de Emittent met datum 29 juni 2017 ("**MLI Control Agreement**"); en (ii) de overeenkomst tussen CGML en de Emittent met datum 29 juni 2017 ("**CGML Security Agreement**") en de overeenkomst tussen BNYM, CGML and de Emittent met datum 29 juni 2017 ("**CGML Control Agreement**"), zijn MLI en CGML ertoe gehouden aan een borgrekening securities en obligaties over te maken voor een waarde gelijk aan de volledige waarde van de door de Emittent uitgegeven titels die onder de Commodity Contracts met MLI en CGML vallen (naar gelang van het geval). De aangehouden borgrekening wordt dagelijks aangepast om de waarde van het relevante Commodity Contract weer te geven

Micro en Commodity Securities kunnen op dagelijkse basis worden uitgegeven aan en verplicht worden teruggekocht door financiële instellingen ("**Goedgekeurde Inschrijvers**"), die: (i) met de Emittent een overeenkomst hebben gesloten genaamd "**Authorised Participant Agreement**"; (ii) aan de Emittent hun status onder de Financial Services en Markets Act 2000 ("**FSMA**") hebben aangetoond; en (iii) (behalve in geval van een Commodity Contract Counterparty die met de Emittent een overeenkomst van Authorised Participant Agreement heeft gesloten) een daarmee overeenstemmende overeenkomst genaamd "**Direct Agreement**" heeft gesloten met ten minste één Commodity Contract Counterparty en waaraan die Commodity Contract Counterparty niet heeft medegedeeld dat het geen onaanvaardbare goedgekeurde inschrijver kan zijn voor die Commodity Contract Counterparty. Andere houders van Micro en Commodity Securities kunnen ook Micro en Commodity Securities doen terugkopen als er geen Goedgekeurde Inschrijvers zijn of indien de Emittent het anders meldt. Alle andere partijen kunnen Micro en Commodity Securities kopen en verkopen op een beurs of markt waar Micro en Commodity Securities tot de handel toegelaten zijn .

Micro en Commodity Securities worden gecreëerd door een overeenkomst genaamd "**Trust Instrument**" tussen de Emittent en de Law Debenture Trust Corporation p.l.c. als mandataris (de "**Mandataris**") van alle rechten en aanspraken onder het Trust Instrument voor elke persoon die in de registers geïdentificeerd is als houder van de Micro en Commodity Securities (de "**Security Holders**").

De Emittent en de Mandataris hebben ook andere documenten onderschreven elk genaamd "**Security Deed**" met betrekking tot elk geheel van Commodity Contracts toegeschreven aan enige klasse van Micro of Commodity Securities (elk een "**Geheel**" of "**Pool**" genaamd) en de rechten en aanspraken gehouden door de Mandataris onder iedere Security Deed worden door de Mandataris hem gehouden met het vertrouwen van de Security Holders van de relevante klasse van de Micro of Commodity Security.

ETFS Management Company (Jersey) Limited ("**ManJer**"), een vennootschap die tenslotte eigendom is van WisdomTree Investments, Inc., levert, of zal zorgen voor de levering van, alle beheer- en administratiediensten aan de Emittent en betaalt alle

- de rechten en belangen in de Collateral met betrekking tot de MLI Security Agreement en de MLI Control Agreement en/of de CGML Security Agreement en de CGML Control Agreement met betrekking tot de verplichtingen van de Commodity Contract Counterparty ten aanzien van de Emittent onder de Facility Agreement met betrekking tot die klasse

De geëffectiseerde activa tot waarborg van de uitgifte hebben eigenschappen die de mogelijkheid bieden om fondsen te produceren ten behoeve van enige verschuldigde en opeisbare betaling uit de effecten.

De geëffectiseerde activa zijn de Commodity Contracts, de MLI Facility Agreement, de CGML Facility Agreement, de BAC Garantie, de CGMH Garantie, de MLI Security Agreement, de MLI Control Agreement, de CGML Security Agreement en de CGML Control Agreement. Micro en Commodity Securities van elke klasse zijn door Commodity Contracts gewaarborgd met overeenstemmende voorwaarden en telkens dat een Micro of Commodity Security wordt gecreëerd of teruggekocht, wordt een overeenstemmend bedrag aan Commodity Contracts door de Emittent gekocht of geannuleerd. Commodity Contracts worden van een of meer Commodity Contract Parties gekocht.

De Emittent zal aanvragen voor Micro en Commodity Securities weigeren als hij om enige reden geen overeenstemmende Commodity Contracts kan creëren met een Commodity Contract Counterparty.

Op datum van dit Prospectus heeft de Emittent overeenkomsten met twee Commodity Contract Counterparties –MLI en CGML.

In de Facility Agreements zijn er begrenzings, zowel dagelijkse als globaal, betreffende het aantal Commodity Contracts dat op enig ogenblik kan worden gecreëerd of geannuleerd. Creëren en terugkopen van Micro en Commodity Securities zijn onderworpen aan zowel dagelijkse als globale beperkingen om in overeenstemming te blijven met de beperkingen op de Commodity Contracts.

MLI is een vennootschap opgericht en geregistreerd in Engeland en Wales onder nummer 2312079, met maatschappelijke zetel te 2 King Edward Street, Londen EC1A 1HQ, Verenigd Koninkrijk. | B.27 | Verdere effecten die worden gedekt door dezelfde activa | Er kunnen verder Micro en Commodity Securities van enig type worden uitgegeven, maar telkens dat een Micro en Commodity Security van enig type wordt uitgegeven zullen overeenstemmende Commodity Contracts van de geschikte klasse of klassen worden gecreëerd, die deel zullen uitmaken van de overeenstemmende "Secured Assets". Zulke nieuw gecreëerde Micro en Commodity Securities zullen fungibel zijn met alle bestaande Micro en Commodity Securities van hetzelfde type en zullen gewaarborgd zijn door dezelfde Secured Assets.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| B.28 | Structuur van de transactie                             | <p>De Emittent heeft een programma gecreëerd waarbij Micro en Commodity Securities van tijd tot tijd kunnen worden uitgegeven. De Micro en Commodity Securities kunnen op dagelijkse basis worden uitgegeven of verplicht worden teruggekocht door of van Goedgekeurde Inschrijvers die met de Emittent een Authorized Participant Agreement hebben afgesloten. Goedgekeurde Inschrijvers kunnen dan Micro en Commodity Securities van of aan andere beleggers kopen en verkopen op beurzen of in privé transacties.</p> <p>Micro en Commodity Securities zijn opgesteld door het Trust Instrument. Volgens de termen van het Trust Instrument handelt de Mandataris als mandataris voor de Security Holders van elk type Micro en Commodity Securities voor zowel (a) het nemen van beslissingen en het uitoefenen van rechten met betrekking tot de Micro en Commodity Securities in het belang van de Security Holders, als (b) in het belang van de Security Holders de door de Emittent onder de Security Deeds gestelde waarborg aan te houden, om alle rechten uit</p>                                                                                                                                                                                                                                                                           |

te oefenen om deze uit te voeren en de opbrengst ervan uit te keren (na betaling van alle bedragen die aan de mandataris verschuldigd zijn) tussen de Security houders (onder andere).

De verplichtingen van de Emittent met betrekking tot elke klasse Micro en Commodity Security worden gewaarborgd door een recht op de equivalente klasse Commodity Contracts onder de Facility Agreements en verbonden contracten.

Een schematische voorstelling van de voornaamste aspecten van de structuur zoals die nu bestaat vindt u hierna:

**B.29** Beschrijving van de geldstromen

Micro en Commodity Securities kunnen tegen cash geld gekocht en verkocht worden op de London Stock Exchange en sommige van de Commodity Securities kunnen ook voor cash geld gekocht en verkocht worden op Euronext Amsterdam, NYSE Euronext Paris, de Borsa Italiana en/of de beurs van Frankfurt (zijnde de beurzen waar ze tot de handel zijn toegelaten) of in privé buitenbeurstransacties. Details over de beurzen waarop een bijzonder type van security verhandeld kan worden zijn uiteengezet in een document genaamd "Final Terms", dat door de Emittent voorbereid wordt telkens er securities uitgegeven worden. Marktmakers bezorgen liquiditeiten aan die beurzen en voor die transacties, maar alleen Goedgekeurde Inschrijvers kunnen zich rechtstreeks tot de Emittent wenden voor het uitgeven van Commodity Securities. De Emittent heeft Authorized Participants Agreements afgesloten en is met de Goedgekeurde Inschrijvers overeengekomen om op voortdurende wijze Commodity Securities aan die Goedgekeurde Inschrijvers uit te geven. Een Goedgekeurde Inschrijver kan Micro en Commodity Securities op een beurs of in een buitenbeurstransactie verkopen of ze voor zichzelf behouden.

Bij uitgifte van Commodity Securities moet een Goedgekeurde Inschrijver een bedrag cash geld aan de Commodity Contract Counterparty geven, gelijk aan de prijs van de uit te geven Commodity Securities, in ruil waarvoor de Emittent de Commodity Securities uitgeeft en aan de Goedgekeurde Inschrijver aflevert, via CREST.

Bij terugkoop van Micro en Commodity Securities van een

| C.1 | Type en klasse van effecten die worden aangeboden | <p>Micro en Commodity Securities zijn bedoeld om aan beleggers een totaal rendement (“total return”) te geven, gelijkaardig met wat zou kunnen worden bekomen met het langdurig beheer van een volledig door kasgeld gewaarborgde en niet op schulden steunende positie in futures contracts met specifieke vervaldagen, min de toepasselijke kosten. In tegenstelling tot het beheren van futures zijn er bij Micro en Commodity Securities geen diverse makelaarskosten (rolling, margin calls, expiry of futures brokerage).</p> <p>De Emittent heeft 78 verschillende types Commodity Securities gecreëerd en ter beschikking gesteld, die elk aan de beleggers blootstelling geven aan de bewegingen in een van de Commodity Indices en die in 2 verschillende groepen kunnen onderverdeeld worden:</p> <ul style="list-style-type: none"><li>◦ Individual Securities, en</li><li>◦ Index Securities.</li></ul> <p>Deze omvatten 50 verschillende klassen Individual Securities (die 27 verschillende commodities (grondstoffen) vertegenwoordigen en twee verschillende vervaltijdstoppen) en 28 verschillende categorieën Index Securities (die 18 verschillende combinaties van commodities en twee verschillende vervaltijdstoppen vertegenwoordigen).</p> <p><b><i>Eigenschappen van de klassen en categorieën</i></b></p> <p>De opbrengst van de Micro en Commodity Securities is in elk van de gevallen als volgt gebonden aan de resultaten van de desbetreffende Commodity Indices:</p> <ul style="list-style-type: none"><li>• Classic Individual Securities volgen de Commodity Indices die blootstelling geven aan de bewegingen van de waarde van de futures contracts in een type commodity en die voor levering verschuldigd zijn binnen een periode van drie maanden;</li><li>• Classic Index Securities volgen de Commodity Indices die blootstelling geven aan de bewegingen van de waarde van de futures contracts van een aantal verschillende commodities en die voor levering verschuldigd zijn binnen een periode van één tot drie maanden;</li><li>• Longer Dated Individual Securities volgen de Commodity Indices die blootstelling geven aan de bewegingen van de waarde van futures contracts in één type van commodity en die voor levering verschuldigd zijn binnen een periode van vier tot zes maanden; en</li><li>• Longer Dated Index Securities volgen de Commodity Indices die blootstelling geven aan de bewegingen van de waarde van futures contracts in een aantal verschillende commodities en die voor levering verschuldigd zijn binnen een periode van vier tot zes maanden;</li></ul> <p>In elk geval vermeerderd met een aanpassing voor de risicovrije interestvoet die tot een volledig gewaarborgde positie bijdraagt in de relevante onderliggende futures contracts.</p> <p><b><i>Specifieke inlichting bij uitgifte:</i></b></p> |

$M_{(i,t)}$  de prijsberekening;  
de toepasselijke vermenigvuldigingsfactor is voor de relevante klasse Individual Security op de  
 $PF_{(i,t)}$  prijsberekeningsdag;  
de Pool Factor is, toepasselijk op de relevante klasse Individual Security op de prijsberekeningsdag;

De toepasselijke vermenigvuldigingsfactor wordt af en toe door de Emittent op zijn website bekendgemaakt <https://etfs.wisdomtree.eu/retail/uk/en-gb/pricing.aspx>;

Deze prijsberekeningsformule weerspiegelt (i) de prijs van de toepasselijke onderliggende Commodity Index, en (ii) de vergoedingen door de Emittent aan de Commodity Contract Counterparty en Manjer. De aftrek van de toepasselijke betalingen aan de Commodity Contract Counterparties en ManJer zijn weerspiegeld in de Kapitaalaanpassing waarnaar de prijsformule verwijst.

#### **Pool Factor**

De Pool Factor is een getal dat altijd gelijk zal zijn aan 1, tenzij de relevante Micro en Commodity Securities gesplitst zijn.

#### **Vermenigvuldigingsfactor**

De vergoedingen voor iedere klasse wordt op dagelijkse basis van de Prijs van die klasse afgetrokken door middel van de toepassing van de vermenigvuldigingsfactor.

De Vermenigvuldigingsfactor  $M_{(i,t)}$  wordt elke dag aangepast overeenkomstig de volgende formule:

$$M_{(i,t)} = M_{(i,t-1)} \times (1 + CA_{(i,t)})$$

Waarin:

$M_{(i,t)}$  de Vermenigvuldigingsfactor is van de relevante klasse van een Individual Security op de dag waarop de Vermenigvuldigingsfactor berekend wordt;

$I$  Verwijst naar de relevante klasse Individual Security

$t$  Verwijst naar de berekeningsdag

$M_{(i,t-1)}$  verwijst naar de Vermenigvuldigingsfactor van een klasse Individual Security op de dag voorafgaand aan de dag waarop de Vermenigvuldigingsfactor berekend wordt

$CA_{(i,t)}$  De Kapitaalaanpassing is van de relevante klasse van Individual Security op de berekeningsdag;

Op elk ogenblik heeft een Micro Security van een bepaalde klasse een prijs gelijk aan het miljoenste deel van de prijs van de overeenstemmende klasse van Individual Security.

De prijs van een Index Security is gelijk aan de som van de prijzen van de Micro Securities waaruit deze is samengesteld.

#### **Kapitaalaanpassing**

De Kapitaalaanpassing is een aanpassingsfactor die in de berekening van de Vermenigvuldigingsfactor begrepen is en die af en toe door de Commodity Contract Counterparties met de Emittent wordt

|      |               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|      |                                  | <p>Voor de goede levering van de Micro en Commodity Securities uitgegeven in overeenstemming met de Final Terms op de beurs van Frankfurt, zal Clearstream Banking Aktiengesellschaft ("Clearstream"), voor elke serie en het relevante aantal Micro of Commodity Securities een Wereldwijd Toondercertificaat uitgeven (elk een "Wereldwijd Toondercertificaat") opgesteld in de Duitse taal en overeenkomstig het Duitse recht. Telkens wanneer het aantal Micro en Commodity Securities vertegenwoordigd door het Wereldwijd Toondercertificaat verandert, zal Clearstream het relevante Wereldwijd Toondercertificaat dienovereenkomstig aanpassen.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| C.18 | Beschrijving van het rendement   | <p>De prijs van elke Micro of Commodity Security weerspiegelt de bewegingen in de relevante Commodity Index sinds de vorige dag waarop de prijs berekend werd, gecorrigeerd met de aftrek van enige toepasselijke vergoedingen. Daarom zal het rendement van een bepaalde klasse of categorie in eerste instantie steunen op het resultaat van de relevante Commodity Index.</p> <p>Daartoe wordt de prijs van de Individual Securities en de Micro Securities die de Emittent blootstelt aan de Commodity Indices, berekend in overeenstemming met de Formule. Deze Formule weerspiegelt (a) de beweging van de relevante Commodity Index sinds de laatste dag waarop de prijs berekend werd; en (b) vergoedingen die door de Emittent verschuldigd zijn aan de Commodity Contract Counterparty onder het Facility Agreement en aan ManJer. De aftrek van de te betalen vergoedingen aan de Commodity Contract Counterparty en aan ManJer worden weerspiegeld in de kapitaal aanpassingen waar in de Formule naar verwezen wordt.</p> <p>Voor Index Securities is de Prijs de som van de Prijzen van de Micro Securities waaruit ze zijn samengesteld.</p> <p>De prijs van elk type Micro en Commodity Security zal door de Emittent berekend worden op het einde van elke noteringsdag (na het publiceren van de 'futures' voor die dag) en samen met de toepasselijke Vermenigvuldigingsfactor en de Kapitaal aanpassing op de website van de emittent <a href="http://www.wisdomtree.eupricing">http://www.wisdomtree.eupricing</a>.</p> <p>De Micro en Commodity Securities geven geen interest. Het rendement voor een belegger is het verschil tussen de prijs tegen dewelke de bedoelde Micro en Commodity Securities uitgegeven worden (of op de secundaire markt worden gekocht) en de prijs tegen dewelke ze worden teruggekocht (of verkocht).</p> <p><b>Specifieke inlichtingen bij uitgifte:</b><br/>De Micro en de Commodity Securities geven een rendement verbonden aan Bloomberg Heating Oil Subindex Total Return. Meer informatie kan worden bekomen op <a href="http://www.bloomergindexes.com/">http://www.bloomergindexes.com/</a></p> |
| C.19 | Definitieve prijs/ uitoefenprijs | <p>De prijzen voor elk type Micro en Commodity Security worden op elke noteringdag berekend in overeenstemming met de Formule en de terugkoop van Micro en Commodity Securities door de Emittent zal gebeuren tegen de relevante prijs (bepaald met de Formule) op de dag waarop de aanvraag tot terugkoop wordt ontvangen.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|      |                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|     |                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Belangrijke risico's van de Emittent | <p>De Emittent werd opgericht met het speciaal doel om ETFS Classic Commodity Securities en ETFS Longer Dated Securities uit te geven en bepaalde andere securities (de "<b>Short and Leveraged Commodity Securities</b>"), die uitgegeven worden op grond van een afzonderlijk basisprospectus van de Emittent gedateerd op of rond de datum van dit prospectus, als door activa gewaarborgde effecten en heeft geen andere activa dan die welke aan de Micro en Commodity Securities en de Short en Leveraged Securities verbonden zijn. De bedragen die een Security Holder zou kunnen bekomen na een vordering tegen de Emittent zijn bijgevolg beperkt tot de opbrengst van de realisatie van de borgen verbonden aan de klasse of categorie van Micro en Commodity Securities van die Securities Holder en gezien de Emittent een special purpose vehicle is, opgericht met het loutere doel van de uitgifte van de Micro en Commodity Securities en Short en Leveraged Securities, en gezien de Micro en Commodity Securities niet door enige andere persoon gewaarborgd zijn, zou de Emittent geen andere activa hebben waarop de Security Holder zijn vordering zou kunnen uitvoeren. In het geval de borg onvoldoende zou zijn om het bedrag dat aan de Security houder verschuldigd is te betalen, zou de Security Holder een verlies kunnen lijden.</p> <p>Hoewel Micro en Commodity Securities gewaarborgd zijn door Commodity Contracts en door waarborgen, blijft de waarde van zulke Micro en Commodity Securities en de mogelijkheid van de Emittent om enig terugkoopbedrag te betalen gedeeltelijk afhankelijk van het ontvangen van bedragen verschuldigd door MLI en CGML onder de Facility Agreements, de BAC Garantie, de Citigroup Garantie, de Security Agreements en de Control Agreements. Geen enkele houder heeft een recht van uitvoering tegen eender welke van deze personen.</p> <p>Er kan geen zekerheid zijn dat MLI, CGML of enige andere entiteit in staat zal zijn de verplichtingen tot betaling uit te voeren zoals die zijn bepaald in de relevante Commodity Contracts, Facility Agreement,</p> |

|     |                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----|-----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                                           | BAC Guarantee, Citigroup Guarantee, Security Agreement of Control Agreement. Er kan bijgevolg geen zekerheid zijn dat de Emittent in staat zal zijn om de Micro en Commodity Securities aan hun terugkoop prijs te betalen, wat ertoe zou kunnen leiden dat een belegger minder dan de terugkoop prijs bij terugkoop van zijn Micro en Commodity Securities zou krijgen.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| D.3 | Belangrijke risico's van effecten                         | <p>De prijzen van de grondstoffen kunnen erg veranderlijk zijn en de waarde van de Micro en Commodity Securities kunnen bijgevolg erg fluctueren.</p> <p>Gedurende situaties waarin de prijs van futures contracts voor levering op data verder in de toekomst hoger is dan die voor levering in een meer nabije toekomst zal de waarde van de overeenstemmende Commodity Index in de tijd verminderen, tenzij de beschikbare prijs op dezelfde wijze stijgt als de variatie van de prijs van het futures contract. De variatieratio zou erg belangrijk kunnen zijn en voor een onbepaalde tijd duren, waardoor de waarde van de Commodity Index en bijgevolg de prijs van enige Micro en Commodity Securities verbonden aan deze Commodity Index verminderd wordt.</p> <p>De prijs van Micro en Commodity Securities is uitgedrukt in US Dollars en hun waarde in andere munteenheden zal worden beïnvloed door de wijzigingen in de wisselkoersen.</p> <p>Er kunnen dagen zijn dat door een storing in de onderliggende commodity markten een of meer klassen of categorieën van Micro en Commodity Securities niet geprijsd kunnen worden op die dag. Dat zal een vertraging veroorzaken in de toepassing van het terugkoop proces wat de potentiële of bestaande beleggers negatief kan beïnvloeden.</p> <p>In geval van uitvoering van een waarborg van een Commodity Contract Counterparty, kan de waarde van de verkochte activa minder zijn dan wat vereist is om het bedrag van de teruggekochte securities dat aan de Security Holders verschuldigd is te betalen. Een uitvoering van een waarborg kan tijd vergen en een Security Holder zou wachttijden kunnen ondergaan voor hij de hem verschuldigde bedragen ontvangt. Een Security Holder zou ook een verlies kunnen lijden als de opbrengst van de uitvoering van de waarborgen lager is dan het verschuldigde bedrag van de terugkoop.</p> |
| D.6 | Voornaamste risico's van de Micro en Commodity Securities | Vroegere resultaten zijn geen aanwijzing voor verwachte resultaten en het investeringsrendement van een Micro en Commodity Security kan veranderlijk zijn. Bijgevolg kunnen beleggers in Micro en Commodity Securities de waarde van hun ganse belegging of van een deel ervan verliezen.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## **RÉSUMÉ**

### **ETFS Commodity Securities Limited**

#### **Résumé du Prospectus**

#### **Prospectus de base en date du 29 mai 2019 relatif à l'Émission de Titres ETFS Classic Commodity Securities et de Titres ETFS Longer Dated Commodity Securities**

Les résumés sont composés d'informations financières dont la publication est obligatoire désignées comme les « Éléments ». Ces éléments sont numérotés dans les sections A à E (et plus précisément A.1 à E.7).

Le présent résumé contient la totalité des Éléments que doit obligatoirement comprendre un résumé sur ce type de titres et d'Émetteur. Les lacunes dans la numérotation s'expliquent par le fait qu'il n'est pas obligatoire d'aborder certains Éléments.

Même si l'inclusion d'un Éléments particulier dans le résumé s'avère obligatoire en raison du type de titres et d'Émetteur, il peut arriver qu'aucune information pertinente ne puisse être donnée concernant cet Éléments. Lorsqu'un tel cas se présente, le résumé donne un court descriptif de l'Éléments en question, assorti de la mention « sans objet ».

| A.2                    | <p>Information relative à l'accord d'utilisation du Prospectus pour la revente ultérieure ou le placement final des titres par des intermédiaires financiers</p> | <p>L'Émetteur a donné son accord pour l'utilisation du présent Prospectus et a accepté la responsabilité de son contenu pour toute revente ultérieure ou placement final par voie d'offre au public de Micro ou de Commodity Securities (tel que décrit ci-dessous), aussi bien en Autriche, en Belgique, au Danemark, en Finlande, en France, en Allemagne, en Irlande, en Italie, aux Pays-Bas, en Norvège, en Espagne, en Suède et au Royaume-Uni, par tout intermédiaire financier considéré comme une entreprise d'investissement au sens de la Directive européenne concernant les marchés d'instruments financiers (« MiFID II») et agréé conformément à la MiFID II dans l'un quelconque des états. Ledit accord s'applique à toute revente ou placement final par voie d'offre au public pendant les 12 mois qui suivent la publication du Prospectus, sauf révocation de l'accord avant ce terme par un avis publié sur le site internet de l'Émetteur. Hormis le droit pour l'Émetteur de révoquer son accord, aucune autre condition n'est attachée à l'accord décrit dans le présent paragraphe.</p> <p><b>Au cas où un intermédiaire financier ferait une offre, celui-ci devra fournir des informations à l'investisseur sur la base des conditions générales de l'offre au moment où l'offre est faite. Tout intermédiaire financier se servant du Prospectus dans le cadre d'une offre doit stipuler sur son site internet qu'il utilise le Prospectus conformément à l'accord donné et aux conditions qui s'y rattachent.</b></p> <p><b>C'est une condition de cet accord que l'intermédiaire financier souhaitant revendre ou faire un placement final de Micro et Commodity Securities par le biais d'une offre au public, ne puisse réutiliser le Prospectus à cet effet à moins qu'elle ne soit réalisée dans des juridictions spécifiquement convenues et durant une période d'offre convenue. L'intermédiaire financier ne peut pas autrement réutiliser le Prospectus pour vendre des Micro et Commodity Securities.</b></p> <p><b>Au cas où offre au public est réalisée dans une ou plusieurs Juridictions identifiées dans les Conditions Définitives dans lesquelles une Offre au Public est prévue, les Micro et Commodity Securities peuvent être offertes et vendues aux personnes de Juridictions d'Offre publique, qui sont éligibles pour participer à une offre au public de ces titres dans cette juridiction aux termes de la réglementation applicable.</b></p> <p>L'Émetteur n'a pas autorisé et n'autorise pas l'offre de Micro et Commodity Securities dans toutes autres circonstances.</p> <p><b>Résumé spécifique à l'émission</b></p> <p>Juridiction(s) dans laquelle(s) une Offre au Public est prévue : N/A<br/> Période d'offre : N/A</p> |

Les actions de HoldCo sont détenues par WisdomTree Investments, Inc. L'Émetteur n'est, ni directement ni indirectement, détenu ou contrôlé par une autre partie au programme.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| B.17 | Note de crédit de l'Émetteur                                      | Pas applicable- l'Émetteur ne s'est pas fait affecté une note de crédit et n'entend pas en donner à aucun « Micro and Commodity Securities ».                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| B.20 | Structure à finalité spécifique                                   | L'Émetteur a été constitué en tant que structure à finalité spécifique aux fins d'émettre des titres de créances.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| B.21 | Activités principales et présentation générale des parties        | <p>L'activité principal de l'Émetteur est l'émission de plusieurs catégories de titres de créance adossés à des contrats de dérivés liés aux indices sur matières premières. Conformément à ce Prospectus, l'Émetteur a émis des titres de créance (les « <b>Micro et Commodity Securities</b> ») qui (avant les frais et dépenses) offrent une exposition aux variations dans les indices sur matières première spécifiés calculés et publiés par Bloomberg L.P. et/ou Bloomberg Finance L.P. et/ou une de leur filiale (ensemble « <b>Bloomberg</b> ») (les « <b>Indices sur Matières Premières</b> » et individuellement l' « <b>Indice sur Matières Premières</b> »). Les Indices sur Matières Premières répliquent les variations de prix des contrats à terme individuels de matières premières ou de paniers de contrats à terme de matières premières. Jusqu'au 30 juin 2014 inclus, les Indices sur Matières Premières étaient calculés et publiés par CME Group Index Services LLC conjointement avec UBS Securities LLC et étaient connus comme étant les Indices sur Matières Premières Dow- Jones – UBS. L'Émetteur a mis en place un programme dans le cadre duquel différentes catégories de Micro et Commodity Securities peuvent être émis à intervalles divers.</p> <p>L'Émetteur atteint un rendement basé sur les variations des Indices sur Matières Premières pertinents en concluant des contrats de dérivés garantis entièrement financés (les « <b>Contrats sur Matières Premières</b> ») avec Merrill Lynch International (« <b>MLI</b> ») et Citigroup Global Markets Limited (« <b>CGML</b> »). Ensemble, MLI et CGML sont toutes deux connues comme étant les « <b>Contreparties aux Contrats sur Matières Premières</b> ». Les dispositions des Contrats sur Matières Premières achetés ou à acheter par l'Émetteur sont régies (i) par un accord intitulé « Accord de Facilité MLI relatif aux Contrats Classic and Longer Dated sur Matières Premières » conclu entre l'Émetteur et MLI en date du 29 juin 2017 (« <b>Contrat de Facilité MLI</b> ») ; et (ii) par un accord intitulé « Accord de Facilité CGML relatif aux Contrats Classic and Longer</p> |

Dated sur Matières Premières » conclu entre l'Émetteur et CGML en date du 29 juin 2017 (« **Contrat de Facilité CGML** »). Les obligations de paiement de MLI en vertu du Contrat de Facilité MLI sont garanties par une caution (ci-après la « **Caution BAC** ») de Bank of America Corporation (ci-après « **BAC** »), et les obligations de paiement de CGML en vertu du Contrat de Facilité CGML sont garanties par une caution (ci-après la « **Caution Citigroup** ») de Citigroup Global Markets Holdings Inc. (ci-après « **CGMH** »), chacune émise au profit de l'Émetteur.

Les obligations des Contreparties aux Contrats sur Matières Premières vis-à-vis de l'Émetteur en vertu des Contrats sur Matières Premières sont garanties par des nantissements fournis par les Contreparties aux Contrats sur Matières Premières (le « **Nantissement** ») et détenus sur des comptes ouverts aux noms des Contreparties aux Contrats sur Matières Premières auprès de La Bank of New York Mellon (ci-après « **BNYM** »). Conformément (i) à un accord de de garantie conclu entre MLI et l'Émetteur en date du 29 juin 2017 (« **Accord de Garantie MLI** ») et un accord de contrôle conclu entre BNYM, MLI et l'Émetteur en date du 29 juin 2017 (« **Accord de Contrôle MLI** »); et (ii) un accord de garantie conclu entre CGML et l'Émetteur en date du 29 juin 2017 (« **Accord de Garantie CGML** ») et un accord de contrôle conclu entre BNYM, CGML et l'Émetteur en date du 29 juin 2017 (« **Accord de Contrôle CGML** »), MLI et CGML sont tenus de transférer sur un compte de nantissement les garanties et obligations à la valeur de l'exposition totale aux risques de l'Émetteur en vertu des Contrats sur Matières Premières signés (selon les cas) avec MLI ou CGML. Le nantissement détenu est ajusté chaque jour pour refléter la valeur du Contrat sur Matières Premières concerné.

Les Micro et Commodity Securities peuvent être créés et rachetés quotidiennement par les établissements financiers (ci-après les « **Participants Agréés** ») qui (i) ont passé un accord intitulé « Accord de Participant Agréé » avec l'Émetteur ; (ii) ont certifié à l'Émetteur leur statut au regard de la Loi britannique sur les services et marchés financiers de 2000 (*Financial Services and Markets Act 2000* ou « **FSMA** ») ; et (iii) (sauf au cas où une Contrepatrie aux Contrats sur Matières Premières aurait passé un Accord de Participant Agréé avec l'Émetteur) ont conclu l'accord correspondant intitulé « **Contrat Direct** » avec au moins une Contrepatrie aux Contrats sur Matières Premières sans que cette dernière ne les informe qu'elle ne les reconnaît pas comme participant agréé. En l'absence de Participants Agréés ou si l'Émetteur en décide autrement, d'autres détenteurs de Micro et Commodity Securities pourront aussi en racheter. Toutes les autres parties peuvent acheter et vendre des Micro et Commodity Securities par négociation sur les bourses ou les marchés sur lesquels ces titres sont admis à la négociation.

Les Micro et Commodity Securities sont constitués en vertu d'un accord intitulé « **Instrument de Trust** » conclu entre l'Émetteur et Law Debenture Trust Corporation p.l.c. en sa qualité de trustee (ci-après le « **Trustee** ») pour l'ensemble des droits et créances au titre de l'Instrument de Trust de toute personne identifiée sur les registres comme détentrice de Micro et Commodity Securities (ci-après les « **Porteurs de Titres** »).

| B.27 | Autres titres adossés aux mêmes actifs | De nouveaux Micro et Commodity Securities de tout genre peuvent être émis du moment qu'un Contrat sur Matières Premières correspondant de catégorie(s) appropriée(s) est émis et qu'il intègre l'« Actif Garanti » correspondant. Ces Micro et Commodity Securities nouvellement émis seront fongibles avec l'ensemble des Micro et Commodity Securities existants de même catégorie et seront adossés aux mêmes Actifs Garantis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| B.28 | Structure de la transaction            | <p>L'Émetteur a créé un programme par lequel les Micro et Commodity Securities peuvent être émis à tout moment. Les Micro et Commodity Securities peuvent être émis ou délivrés pour être rachetés sur une base journalière par les Participants Agréés qui ont conclu un Accord de Participant Agréé avec l'Émetteur. Les Participants Agréés peuvent donc vendre et acheter des Micro et Commodity Securities à d'autres investisseurs sur la bourse ou dans le cadre de transactions privées.</p> <p>Les Micro et Commodity Securities sont constitués par l'Instrument de Trust. Selon les termes de l'Instrument de Trust, le Trustee agit en qualité de Trustee des Porteurs de Titres pour chacune des catégories de Micro et Commodity Securities (a) afin de rendre des décisions et exercer leurs droits en vertu des Micro et Commodity Securities au profit des Porteurs de Titres et (b) afin de détenir en trust pour les Porteurs de Titres le titres accordé par l'Émetteur en vertu des Actes de Garantie, pour exercer tout droit d'appliquer et de distribuer les produits (après paiement de tout montant dû au Trustee) aux Porteurs de Titres (entre autres).</p> <p>Les obligations du Trustee vis-à-vis de chaque catégorie de Micro et Commodity Securities sont garanties par nantissement sur la catégorie équivalente de Contrat sur Matières Premières en vertu de Le Contrat de Facilité et des contrats associés.</p> <p>Le diagramme ci-dessous représente les principaux aspects de la structure actuellement mise en place :</p>  <p>The diagram illustrates the transaction structure with the following components and relationships:</p> <ul style="list-style-type: none"> <li><b>Market</b> is connected to <b>Issuer</b> via a solid line.</li> <li><b>Trustee</b> is connected to <b>Issuer</b> via a solid line labeled "Trust Instrument Security Deal".</li> <li><b>Security Holders</b> are connected to <b>Issuer</b> via a solid line labeled "Choice and Forward Commodity Securities".</li> <li><b>Authorized Participants</b> are connected to <b>Issuer</b> via a solid line labeled "Authorized Participant Agreements".</li> <li><b>UBS</b> is connected to <b>Issuer</b> via a solid line labeled "Facility Agreement and Security Agreement".</li> <li><b>UBS</b> is connected to <b>Security Intermediary</b> via a solid line labeled "Commodity Contract".</li> <li><b>Security Intermediary</b> is connected to <b>Collateral Account</b> (which contains <b>Collateral</b>) via a solid line labeled "Control Agreement".</li> <li><b>Authorized Participants</b> and <b>UBS</b> are connected via a dashed line labeled "Creation and Redemption payments".</li> <li><b>Security Holders</b> and <b>Authorized Participants</b> are connected via a dashed line labeled "Mark-making".</li> <li><b>Collateral Account</b> is connected to <b>Trustee</b> via a dashed line labeled "Collateral".</li> </ul> <p>Legend for the diagram:</p> <ul style="list-style-type: none"> <li>Solid line: Agreements</li> <li>Dashed line: Fund Flows</li> <li>Double-headed arrow: Collateral Flows</li> </ul> |

| <b>SECTION C – Titres</b> |                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| C.1                       | Types et catégories de titres offerts | <p>Les Micro et Commodity Securities sont conçus pour donner aux investisseurs un « rendement total » similaire à celui qui pourrait être atteint en gérant une position longue garantie sans effet de levier financée entièrement dans des contrats à terme à échéances spécifiques, moins les frais applicables. Contrairement aux positions à terme gérées, les Micro et Commodity Securities impliquent aucun roulement, appel de marge, expiration ou courtage à terme.</p> |

L'Émetteur a créé et a actuellement mis à disposition pour l'émission 78 catégories différentes de Commodity Securities, chacune donnant aux investisseurs une exposition aux variations dans un des Indices sur Matières Premières et qui peut être groupé dans 2 types différents :

- « Individual Securities » ; et
- « Index Securities » ;

Elles comprennent 50 catégories différentes d'Individual Securities (représentant 27 matières premières différentes et deux échéances différentes) et 28 catégories différentes d'Index Securities (représentant 18 combinaisons différentes de matières premières et deux échéances différentes).

***Caractéristiques des classes et catégories :***

Le rendement des Micro et Commodity Securities est lié, pour chacune des catégories, aux performances des Indices sur Matières Premières associés, de la manière suivante :

- Les Classic Individual Securities répliquent les Indices sur Matières Premières procurant une exposition au risque de variation de valeur des contrats à terme qui portent sur un seul type de matières premières et dont la livraison doit intervenir dans un délai d'un à trois mois ;
- Les Classic Index Securities répliquent les Indices sur Matières Premières procurant une exposition au risque de variation de valeur des contrats à terme qui portent sur un certain nombre de types de matières premières et dont la livraison doit intervenir dans un délai d'un à trois mois ;
- Les Longer Dated Individual Securities répliquent les Indices sur Matières Premières procurant une exposition au risque de variation de valeur des contrats à terme qui portent sur un seul type de matières premières et dont la livraison doit intervenir dans un délai de quatre à six mois ; et
- Les Longer Dated Index Securities répliquent les Indices sur Matières Premières procurant une exposition au risque de variation de valeur des contrats à terme qui portent sur un certain nombre de types de matières premières et dont la livraison doit intervenir dans un délai de quatre à six mois,

auxquels s'ajoute à chaque fois un ajustement du taux d'intérêt sans risque qui court sur une position complètement garantie prise sur le contrat à terme sous-jacent concerné.

| C.2 | Devise                     | Les Micro et Commodity Securities sont libellés en dollars américains.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| C.5 | Restrictions sur transfert | Sans objet ; les Micro et Commodity Securities sont cessibles sans restriction.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| C.8 | Droits                     | Un Micro et Commodity Security autorise un Participant Agréé à demander le rachat de titre par l'Émetteur et à recevoir le plus élevé de (i) la valeur minimum pour cette catégorie de Micro et Commodity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

Security (connu comme étant le « **Nominal** »), et (ii) le prix de cette catégorie de Micro et Commodity Security au jour applicable déterminé en utilisant la Formule telle qu'établie et décrite en C.15.

Généralement, seuls les Participants Agréés négocieront directement avec l'Émetteur en rachetant des Micro et Commodity Securities. Dans les cas où il n'y a pas de Participants Agréés, ou au choix de l'Émetteur, les Porteurs de Titres qui ne sont pas des Participants Agréés peuvent demander à l'Émetteur de racheter leurs titres directement.

#### Recours limité

Les obligations de l'Émetteur en ce qui concerne n'importe quelle classe des Micro et Commodity Securities sont garanties par les charges en faveur du Trustee et une cession des droits de l'Émetteur à titre de garantie dans la mesure où elles concernent cette classe. Le Trustee et les Porteurs des Titres de n'importe quelle classe de Micro et Commodity Securities n'ont recours qu'aux sommes provenant des actifs liés à cette classe. Si le produit net est insuffisant pour que l'Émetteur puisse effectuer tous les paiements dus, le Trustee ou toute personne agissant pour le compte du Trustee, n'aura pas le droit de prendre d'autres mesures à l'encontre de l'Émetteur et aucune dette n'est due par l'Émetteur au titre de cette somme supplémentaire.

#### Priorité de paiement

Toutes les sommes d'argent reçues par le Trustee lors de la réalisation de l'actif lié à une classe particulière de Micro et Commodity Securities sera détenu en trust par le Trustee et appliqué dans l'ordre suivant :

- Paiements dus au Trustee (et les personnes désignées par le Trustee) et les paiements dus à tout destinataire et les frais de réalisation de la garantie ;
- Paiements ou performances de tous les montants dus et non payés et toutes les obligations dues au titre des Micro et Commodity Securities de cette classe; et
- en paiement du solde (éventuel) à l'Émetteur

#### **Résumé spécifique à l'émission :**

| C.15 | La valeur de l'investissement est affectée par la valeur des instruments sous-jacents | <p><b>Calcul du Cours</b></p> <p>Chaque Micro et Commodity Security donne droit au remboursement par l'Emetteur d'un montant qui est le plus haut entre le Nominal et le cours (« <b>Cours</b> »), diminué des coûts de remboursement applicables. Le cours de chaque Micro et Commodity Security sur un jour particulier est basé sur le niveau de l'Indice sur Matières Premières sous-jacent concerné à ce jour ajusté des frais applicables et le prix de la catégorie des Individual Securities est calculé en conformité avec la formule suivante (la « <b>Formule</b> ») :</p> $\text{Cours}_{(i,t)} = I_{(i,t)} \times M_{(t)} \times \text{PF}_{(i,t)} / 10$ <p>où :</p> <p><math>\text{Cours}_{(i,t)}</math> désigne le cours d'un Individual Security de catégorie pertinente au jour auquel le Cours a été calculé ;</p> <p>i désigne la catégorie concernée d'Individual Security</p> <p>t désigne le jour auquel le Cours est calculé ;</p> <p><math>I_{(i,t)}</math> est le niveau de l'Indice sur Matières Premières pour lequel la catégorie concernée de Individual Security au jour auquel le Cours a été calculé</p> <p><math>M_{(t)}</math> est le Multiplicateur applicable à la catégorie concernée d'Individual Security le jour auquel le Cours a été calculé ; et</p> <p><math>\text{PF}_{(i,t)}</math> est le Facteur de regroupement applicable à la catégorie concernée d'Individual Security le jour auquel le Cours a été calculé.</p> |
|------|---------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Le Multiplicateur qui s'applique est publié au fil du temps par l'Émetteur sur son site internet <http://etfs.wisdomtree.eu/retail/uk/en-gb/pricing.aspx>.

Ce formule de tarification reflète (i) le prix de l'Indice sur Matières Premières sous-jacent applicable, et (iii) les frais dus par l'Émetteur à la Contrepartie aux Contrats sur Matières Premières et ManJer. La déduction des frais payables à la Contrepartie aux Contrats sur Matières Premières et ManJer est reflété dans la formule de tarification.

#### **Facteur de regroupement**

Le Facteur de regroupement est un chiffre toujours égal à 1 sauf si les Micro et Commodity Securities concernés sont scindés.

#### **Multiplicateur**

Les frais pour chaque classe sont déduits quotidiennement du Cours par l'application du Multiplicateur.

Le multiplicateur ( $M_{(i,t)}$ ) est ajusté quotidiennement selon la formule suivante :

$$M_{(i,t)} = M_{(i,t-1)} \times (1 + CA_{(i,t)})$$

où :

$M_{(i,t)}$  est le Multiplicateur applicable à la catégorie concernée d'Individual Security le jour auquel le Cours a été calculé

$i$  désigne la catégorie concernée d'Individual Security

$t$  désigne le jour auquel le Cours a été calculé

$M_{(i,t-1)}$  est le Multiplicateur de la catégorie pertinente d'Individual Security le jour précédent celui auquel le Multiplicateur a été calculé

$CA_{(i,t)}$  est l'Ajustement du Capital applicable à la catégorie concernée d'Individual Security le jour auquel le Multiplicateur a été calculé.

À tout instant, le cours d'un Micro Security d'une catégorie donnée est égal au millionième du cours d'un Individual Security de la catégorie correspondante.

Le cours d'un Index Security est égal à la somme des Micro Securities qui le constituent.

#### **Ajustement du Capital**

L'Ajustement du Capital est un facteur d'ajustement inclus dans le calcul du Multiplicateur sur lequel s'accordent au gré du vent les Contreparties aux Contrats sur Matières Premières et l'Émetteur. L'Ajustement du Capital reflète l'intérêt sur la valeur investie dans ce

***Résumé spécifique à l'émission :***

Dans un objectif de bonne livraison des Micro et Commodity Securities sur la bourse de Francfort, Clearstream Banking Aktiengesellschaft (ci-après « Clearstream ») émettra, pour chaque série et pour le nombre approprié de Micro et Commodity Securities, un certificat mondial au détenteur (désigné individuellement comme le « Certificat Global au Porteur ») rédigé en allemand et régi par le Droit allemand. À partir du moment où le nombre de Micro et Commodity Securities représentés par le Certificat Global au Porteur d'une catégorie changera, Clearstream modifiera en conséquence le Certificat Global au Porteur concerné.

|------|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| C.18 | Description du rendement | <p>Le Cours de chaque Micro ou Commodity Security reflète les variations de l'Indice de Matières Premières concerné depuis le jour précédent celui au cours duquel le Cours a été calculé, ajusté par déduction de tout frais applicables. Par conséquent, le rendement pour une classe ou catégorie particulière sera basée, principalement, sur la performance de l'Indice sur Matières Premières concerné.</p> <p>Pour atteindre cet objectif, les Individual Securities et les Micro Securities à travers lesquels l'Émetteur obtient une exposition aux Indices sur Matières Premières sont évalués en conformité avec la Formule. Cette Formule reflète (a) la variation dans l'Indice sur Matières Premières pertinent depuis le dernier jour auquel le Cours a été calculé ; et (b) les frais payables par l'Émetteur à la Contrepartie aux Contrats sur Matières Premières en vertu de Le Contrat de Facilité et à ManJer. La déduction des frais payables à la Contrepartie aux Contrats sur Matières Premières et à ManJer sont référencés dans l'ajustement du capital référencé dans la Formule.</p> <p>Pour les Index Securities, le Cours est la somme des Cours des Micro Securities dont elles sont constituées.</p> <p>Le cours de chaque catégorie de Micro et Commodity Security sera calculé par l'Émetteur à la fin de chaque jour de valorisation (après publication des cours du marché à terme) puis affiché avec le</p> |

|-----|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                               | <p>donc limités aux produits de réalisation de bien garanti applicable à de telle catégorie de Porteurs de Titres des Micro et Commodity Securities et dans la mesure où l'Émetteur est une structure à finalité spécifique créée aux seules fins d'émettre des Micro et Commodity Securities et des Short et Leveraged Commodity Securities, et puisque les Micro et Commodity Securities ne sont pas garantis par une autre personne, l'Émetteur n'aurait pas d'autres actifs que le Porteur de Titres pourrait réclamer. Dans le cas où le bien garanti est insuffisant pour couvrir le montant payable au Porteur de Titres, le Porteur de Titres subirait une perte.</p> <p>Bien que les Micro et Commodity Securities soient garantis par des Contrats sur Matières Premières et des nantissements, leur valeur et la capacité de l'Émetteur à s'acquitter de tout montant de rachat reste partiellement dépendante du recouvrement des sommes dues par MLI et CGML au titre des Contrats de Facilité, de la Caution BAC, la Garantie Citigroup, des Accords de Garantie et des Accords de Contrôle. Aucun Porteur de Titres n'a de droit direct à faire exécuter les obligations de l'Émetteur.</p> <p>On ne peut garantir que MLI, CGML ou une quelconque autre entité sera en mesure de s'acquitter de ses obligations de paiement au titre des Contrats sur Matières Premières, Contrat de Facilité, Caution BAC, la Garantie Citigroup, des Accord de Garantie ou Accord de Contrôle pertinent. Par conséquent, on ne peut assurer que l'Émetteur soit en mesure de racheter les Micro et Commodity Securities à leur cours de rachat.</p> |
| D.3 | Risques principaux des titres | <p>Les cours des matières premières peuvent être volatils, d'où des fluctuations importantes de la valeur des Micro et Commodity Securities.</p> <p>Dans les situations où le prix des contrats à terme dont la livraison doit intervenir à une date éloignée s'avère plus élevé que celui des contrats à terme dont la livraison doit intervenir à une date plus avancée, la valeur de l'Indice sur Matières Premières correspondant diminuera avec le temps sauf si le prix au comptant augmente au même rythme que la variation du prix des contrats à terme. Le rythme de variation peut être relativement élevé et les variations peuvent se prolonger pendant un temps indéterminé, diminuant ainsi la valeur de l'Indice sur Matières Premières et par là même le cours de tout Micro et Commodity Security lié à celui-ci.</p> <p>Certains jours, une perturbation sur le marché des matières premières sous-jacentes peut empêcher la fixation du cours d'une ou plusieurs catégories de Micro et Commodity Securities. Cela entraînera un retard dans le traitement des demandes ou des rachats pouvant avoir des effets indésirables pour les investisseurs potentiels ou existants.</p> <p>En cas de réalisation du nantissement par une Contrepartie aux Contrats sur Matières Premières, la valeur de l'actif réalisé peut être inférieure à celle exigée pour régler le montant du rachat aux Porteurs de Titres.</p>                                                                                                                                                                                                                  |

|                          |                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| E.3                      | Conditions générales de l'offre               | Les Commodity Securities sont offerts à la souscription par l'Émetteur aux seuls Participants Agréés ayant soumis une demande en bonne et due forme et ne seront émis qu'après règlement du prix de souscription à la Contrepartie aux Contrats sur Matières Premières concernée. Le Participant Agréé doit également acquitter une commission de création de 500 livres Sterling. Toute demande de Commodity Securities faite avant 14h30, heure anglaise, pendant un jour de bourse permettra normalement au Participant Agréé d'être inscrit comme le détenteur de Commodity Securities dans les deux jours de bourse.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| E.4                      | Intérêts importants ou conflictuels           | <p>Mme Jones et Ziamba (qui sont administrateurs de l'Émetteur) sont également administrateurs de ManJer et HoldCo - l'actionnaire unique de l'Émetteur. M. Ross et Mme Jones sont également administrateur de R&amp;H Fund Services (Jersey) Limited, qui est administrateur de l'Émetteur, et secrétaire de l'Émetteur et de ManJer. Les administrateurs n'estiment pas qu'il y ait de conflit d'intérêt potentiel ou avéré entre les obligations des administrateurs et/ou membres des comités de gestion, de direction et de supervision de l'Émetteur au regard de l'Émetteur et les intérêts personnels et/ou autres obligations qu'ils peuvent avoir.</p> <p>Les administrateurs de l'Émetteur occupent également des postes d'administrateurs au sein d'autres sociétés émettrices de titres sur matières premières négociées en bourse (ETC) appartenant elles aussi à HoldCo et dans d'autres sociétés du groupe WisdomTree, y compris dans Boost Management Limited (une société qui rend des prestations de services à Boost Issuer PLC (un émetteur de produits négociés en bourse) et dans WisdomTree Issuer plc, un émetteur de fonds indiciels cotés par l'intermédiaire de compartiments dont la responsabilité est distincte.</p> <p>.</p> |

- des commissions de gestion de 0,49 % par an sur la base de la valeur de tous les Micro et Commodity Securities en circulation;
- une commission de 0,45 % par an à acquitter par les Contreparties aux Contrats sur Matières Premières pour les Classic Securities et de 0,60 % par an pour les Longer Dated Securities, toutes deux basées sur la valeur de l'ensemble des Micro et Commodity Securities en circulation ; et
- une redevance d'utilisation de 0,05 % par an (calculée sur le prix cumulé quotidien de tous les Contrats sur Matières Premières intégralement acquittés en circulation à cet instant) qui servira à payer la commission de Bloomberg.

chacun étant calculé en appliquant l'Ajustement de Capital.

Aucun autre frais n'est facturé aux investisseurs par l'Émetteur.

Si un investisseur achète des Micro et Commodity Securities à un intermédiaire financier, l'Émetteur évalue les frais facturés par un initiateur de l'offre agréé pour la vente de Micro et Commodity Securities à un investisseur à 0,15 % de la valeur de ces titres vendus à l'investisseur.

## ZUSAMMENFASSUNG

### ETFS Commodity Securities Limited

#### Zusammenfassung des Prospekts

#### Basisprospekt vom 29. Mai 2019 für die Emission von ETFS Classic Commodity Securities und ETFS Longer Dated Commodity Securities

Die Zusammenfassungen bestehen aus vorgeschriebenen Angaben, die als "Angaben" bezeichnet werden. Diese Angaben sind in den Abschnitten A – E (A.1 – E.7) durchnummeriert.

Diese Zusammenfassung enthält alle Angaben, die für eine Zusammenfassung für diese Art von Wertpapieren und Emittenten erforderlich sind. Da einige Angaben nicht angesprochen werden müssen, können Lücken in der Nummernfolge der Angaben bestehen.

Obwohl eine Angabe nach der Art des Wertpapiers und des Emittenten in dieser Zusammenfassung enthalten sein muss, kann es vorkommen, dass keine wesentlichen Informationen in Bezug auf diese Angabe gemacht werden können. In diesem Fall ist eine kurze Beschreibung der Angabe in der Zusammenfassung mit dem Hinweis "entfällt" enthalten.

#### Abschnitt A – Einleitung und Warnhinweise

|                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| B.21                          | Beschreibung der Haupttätigkeit und Gesamtüberblick über die Teilnehmer | Die Haupttätigkeit des Emittenten besteht in der Emission verschiedener Arten von durch Derivate-Kontrakte, die an Rohstoff-Indizes gekoppelt sind, besicherter Schuldverschreibungen. Gemäß dieses Prospekts begibt der Emittent Schuldverschreibungen (die " <b>Micro und Commodity Securities</b> "), die es (vor Abzug von Gebühren und Auslagen) ermöglichen, an den Preisbewegungen von ausgewählten Rohstoff-Indizes teilzuhaben (die " <b>Commodity Indizes</b> " und jeder ein " <b>Commodity Index</b> "). Die Commodity Indizes, die von Bloomberg L.P. und/oder Bloomberg Finance L.P. und/oder mit diesen verbundenen Unternehmen (zusammen „ <b>Bloomberg</b> “) berechnet und veröffentlicht werden, bilden die Preisbewegungen von einzelnen Terminkontrakten auf Rohstoffe oder Körben von Terminkontrakten auf Rohstoffe ab. Bis einschließlich 30. Juni 2014 wurden die Commodity Indizes von der CME Group Index Service LLC gemeinsam mit UBS Securities berechnet und unter dem Namen The Dow Jones – UBS Commodity Indizes veröffentlicht. Der Emittent hat ein Programm aufgelegt nach dem verschiedene Arten von <i>Micro und Commodity Securities</i> von |

Zeit zu Zeit emittiert werden können.

Der Emittent erzielt einen Ertrag, der auf den Preisbewegungen des maßgeblichen Commodity Index beruht indem er vollständig hinterlegte besicherte Derivate-Kontrakte (die "**Commodity-Kontrakte**") (bis zu aber nicht einschließlich) dem Wirksamkeitsdatum mit Merrill Lynch International („**MLI**“) und Citigroup Global Markets Limited („**CGML**“). Gemeinsam werden MLI und CGML als die "**Commodity-Kontrakt-Gegenparteien**" bezeichnet. Die Bedingungen der Commodity-Kontrakte, die von dem Emittenten erworben wurden oder noch erworben werden, bestehen auf der Grundlage (i) einer Vereinbarung mit dem Titel „MLI-Kreditvertrag hinsichtlich Classic and Longer Dated Commodity-Kontrakten“ zwischen dem Emittent und MLI vom 29. Juni 2017 (der „**MLI-Kreditvertrag**“); und (ii) einer Vereinbarung mit dem Titel „CGML-Kreditvertrag hinsichtlich Classic and Longer Dated Commodity-Kontrakten“ zwischen dem Emittent und CGML vom 29. Juni 2017 (der „**CGML-Kreditvertrag**“). Die Zahlungsverpflichtungen von MLI nach dem MLI-Kreditvertrag werden durch eine Garantie (die „**BAC Garantie**“) der Bank of America Corporation („**BAC**“) gestützt, und die Zahlungsverpflichtungen von CGML nach dem CGML-Kreditvertrag werden durch eine Garantie (die „**Citigroup Garantie**“) der Citigroup Global Markets Holding Inc. („**CGMH**“) gestützt, und beide werden zugunsten des Emittenten gewährt. Die Verpflichtung der Commodity-Kontrakt-Gegenparteien die sie gegenüber dem Emittenten nach den Commodity Kontrakten haben, werden durch Sicherheiten besichert, die von den Commodity-Kontrakt-Gegenparteien gestellt werden (die "**Sicherheiten**") und in Konten verwahrt werden, die bei der The Bank of New York Mellon ("**BNYM**") auf die Namen der Commodity-Kontrakt-Gegenparteien geführt werden.

Gemäß (i) einer Sicherheitenvereinbarung zwischen MLI und dem Emittent vom 29. Juni 2017 („**MLI Sicherheitenvereinbarung**“) und einer Kontrollvereinbarung zwischen BNYM, MLI und dem Emittent vom 29. Juni 2017 („**MLI Kontrollvereinbarung**“); und (ii) einer Sicherheitenvereinbarung zwischen CGML und dem Emittent vom 29. Juni 2017 („**CGML Sicherheitenvereinbarung**“) und einer Kontrollvereinbarung zwischen BNYM, CGML und dem Emittent vom 29. Juni 2017 („**CGML Kontrollvereinbarung**“), sind MLI und CGML dazu verpflichtet, Wertpapiere und Verpflichtungen, zu dem Gegenwert der Gesamtausgaben des Emittenten nach den Commodity-Kontrakten mit MLI und CGML (soweit anwendbar), auf ein Sicherheitenkonto zu transferieren.

*Micro und Commodity Securities* können an Finanzinstitute ("**autorisierten Teilnehmern**") auf täglicher Basis ausgegeben werden bzw. durch solche Finanzinstitute kann die Rücknahme verlangt werden, die (i) eine mit dem Titel "Autorisierte Teilnehmer-Vereinbarung" (Authorised Participant Agreement) bezeichnete Vereinbarung mit dem Emittenten abgeschlossen haben; (ii) gegenüber dem Emittenten ihren Status nach dem Financial Services and Markets Act 2000 ("**FSMA**") bescheinigt haben; und (iii) (mit Ausnahme einer Commodity-Kontrakt-Gegenpartei die mit dem Emittenten eine autorisierte Teilnehmervereinbarung abgeschlossen hat), eine entsprechende Vereinbarung mit dem Titel "Direct Agreement") mit mindestens einer Commodity-Kontrakt-Gegenpartei abgeschlossen hat und ihm nicht mitgeteilt wurde, dass er kein akzeptabler autorisierter Teilnehmer für die Commodity-Kontrakt-Gegenpartei ist. Darüberhinaus können sonstige Inhaber von *Micro und Commodity Securities* diese auch zurückgeben sofern keine

|                                                                           | <p>autorisierten Teilnehmer vorhanden sind. Alle anderen Parteien müssen <i>Micro und Commodity Securities</i> über eine Börse oder einen anderen Markt, an dem <i>Micro und Commodity Securities</i> zum Handel zugelassen sind, kaufen oder verkaufen.</p> <p><i>Micro und Commodity Securities</i> werden mit einer als "<b>Trust Instrument</b>" bezeichneten Vereinbarung zwischen dem Emittenten und der Law Debenture Trust Corporation p.l.c. als <i>Trustee</i> (der "<b>Trustee</b>") über alle Rechte und Ansprüche nach dem <i>Trust Instrument</i> für jede Person, die im Register als Inhaber der <i>Micro und Commodity Securities</i> (die "<b>Wertpapierinhaber</b>") eingetragen ist, geschaffen.</p> <p>Der Emittent hat eine Sicherungsvereinbarung mit dem <i>Trustee</i> in Bezug auf jeden Commodity-Kontrakte-Pool abgeschlossen der sich auf jegliche Klasse von <i>Micro oder Commodity Securities</i> bezieht (jeweils ein "<b>Pool</b>") und die Rechte und Ansprüche die vom <i>Trustee</i> nach jeder Sicherungsvereinbarung gehalten werden, werden vom <i>Trustee</i> treuhänderisch ("<i>on trust</i>") für die Wertpapierinhaber der entsprechenden Klasse der <i>Micro oder Commodity Securities</i> gehalten.</p> <p>ETFS Management Company (Jersey) Limited ("<b>ManJer</b>"), eine Gesellschaft, die im Alleineigentum von WisdomTree Investments, Inc. steht, erbringt sämtliche Verwaltungs- und Administrationsdienstleistungen für den Emittenten oder wird für deren Erbringung Sorge tragen und sämtliche Verwaltungs- und Administrationskosten des Emittenten tragen. | B.26 Anlageverwaltung                                                | Entfällt; es gibt keine aktive Verwaltung der Vermögenswerte des Emittenten.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| B.27 Weitere Wertpapiere, die mit den gleichen Aktiva unterlegt sind | Es können weitere <i>Micro und Commodity Securities</i> einer Art emittiert werden, wobei bei jeder Ausgabe einer <i>Micro und Commodity Security</i> einer Art ein korrespondierender Commodity-Kontrakte der dazugehörigen Klasse oder Klassen geschaffen und Teil der dazugehörigen "Besicherten Vermögenswerte" wird. Solche neu begebenen <i>Micro und Commodity Securities</i> sind mit allen bestehenden <i>Micro und Commodity Securities</i> derselben Klasse austauschbar und durch dieselben besicherten Vermögenswerte besichert.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| B.28 Struktur der Transaktion                                        | <p>Der Emittent hat ein Programm aufgelegt nach dem <i>Micro und Commodity Securities</i> von Zeit zu Zeit begeben werden können. Die <i>Micro und Commodity Securities</i> können täglich an autorisierte Teilnehmer, die mit dem Emittenten eine autorisierte Teilnehmervereinbarung abgeschlossen haben, ausgegeben werden bzw. von diesen zurückgegeben werden. Autorisierte Teilnehmer können anschließend <i>Micro und Commodity Securities</i> an andere Anleger an Börsen oder mittels privater Transaktionen verkaufen bzw. von diesen kaufen.</p> <p><i>Micro und Commodity Securities</i> werden durch das <i>Trust Instrument</i> geschaffen. Nach den Bedingungen des <i>Trust Instrument</i> tritt der <i>Trustee</i> als <i>Trustee</i> für die Wertpapierinhaber jeder Art von <i>Micro und Commodity Securities</i> auf. Dies geschieht sowohl um (a) zum Vorteil der Wertpapierinhaber Entscheidungen zu treffen und Rechte aus den <i>Micro und Commodity Securities</i> auszuüben und (b) die vom Emittenten gemäß der Sicherungsvereinbarung gewährten Sicherheiten treuhänderisch für die Wertpapierinhaber zu halten, etwaige Rechte auszuüben und zu vollstrecken und um die Erträge (nach Zahlung aller dem Treuhänder geschuldeten Beträge) an die Wertpapierinhaber (unter anderen) zu verteilen.</p> <p>Die Verpflichtungen des Emittenten in Bezug auf jede Klasse von <i>Micro und Commodity Securities</i> werden besichert durch die Bestellung einer Sicherheit an der entsprechenden Klasse von Commodity-Kontrakten den Kreditverträgen und den dazugehörigen Vereinbarungen.</p> <p>Eine schematische Darstellung der grundsätzlichen Aspekte der Struktur, die derzeit besteht, wird nachfolgend abgebildet:</p> |
| B.29 Beschreibung des Mittelflusses                                  | <i>Micro und Commodity Securities</i> können gegen Zahlung von Geld an der London Stock Exchange gekauft und verkauft werden und                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                                                 | <p>bestimmten <i>Commodity Securities</i> können auch gegen Zahlung von Geld an der Euronext Amsterdam, NYSE Euronext Paris, Wertpapierbörse Tokio, Mexikanische Wertpapierbörse, Borsa Italiana und/oder der Frankfurter Wertpapierbörse (als die Wertpapierbörsen an denen sie zum Handel zugelassen sind) oder mittels privater außerbörslicher Geschäfte gekauft und verkauft werden. Weitere Angaben zu den Börsen, an denen eine bestimmte Art von Wertpapieren gehandelt werden kann, sind in dem Dokument mit dem Titel "Endgültige Bedingungen" enthalten, welches vom Emittenten zum Zeitpunkt der Ausgabe der Wertpapiere erstellt wird. An diesen Wertpapierbörsen stellen Market-Maker Liquidität für diese Geschäfte bereit, jedoch sind nur autorisierte Teilnehmer berechtigt, unmittelbar beim Emittenten die Ausgabe von <i>Commodity Securities</i> zu beantragen. Der Emittent hat Autorisierte-Teilnehmer-Vereinbarungen abgeschlossen und mit den autorisierten Teilnehmern vereinbart, dass <i>Commodity Securities</i> an diese autorisierten Teilnehmer fortlaufend ausgegeben werden. Jeder autorisierte Teilnehmer kann die <i>Micro und Commodity Securities</i> an einer Börse oder in einer außerbörslichen Transaktion verkaufen bzw. die Wertpapiere selbst halten.</p> <p>Bei der Ausgabe von <i>Commodity Securities</i> an autorisierte Teilnehmer müssen diese einen Geldbetrag an die <i>Commodity-Kontrakt-Gegenpartei</i> zahlen, der dem Preis der auszugebenden <i>Commodity Securities</i> entspricht. Im Gegenzug wird der Emittent die <i>Commodity Securities</i> begeben und sie an den autorisierten Teilnehmer mittels CREST liefern.</p> <p>Bei der Rückgabe von <i>Micro und Commodity Securities</i> durch einen autorisierten Teilnehmer (und unter bestimmten begrenzten Umständen durch einen Wertpapierinhaber), muss die <i>Commodity-Kontrakt-Gegenpartei</i> einen Barbetrag an den jeweiligen autorisierten Teilnehmer zahlen, der dem Preis der zurückzugebenden <i>Micro und Commodity Securities</i> entspricht. Im Gegenzug liefert der zurückgebende Wertpapierinhaber die <i>Micro und Commodity Securities</i>.</p> |
| <p>B.30 Originatoren der verbrieften Aktiva</p> | <p><i>Commodity-Kontrakte</i> werden jetzt und in Zukunft mit den <i>Commodity-Kontrakt-Gegenparteien</i> eingegangen.</p> <p>Zum Zeitpunkt der Erstellung des Prospekts hat der Emittent, Vereinbarungen mit MLI und CGML abgeschlossen, die als <i>Commodity-Kontrakt-Gegenpartei</i> auftreten.</p> <p>MLI ist ein Unternehmen, das in England und Wales unter der Nummer 2312079 gegründet wurde und eingetragen ist und seinen Sitz in 2 King Edward Street, London EC1A 1HQ England hat. Die Haupttätigkeiten der MLI sind das Erbringen einer breiten Palette von weltweiten Finanzdienstleistungen, die sich auf geschäftliche Transaktionen beziehen, die in Europa, dem Mittleren Osten, Afrika, Asien, Pazifik und Amerika generiert werden, die Tätigkeit als Broker und Dealer für Finanzinstrumente und Corporate Finance-Dienstleistungen.</p> <p>CGML ist ein Unternehmen, das in England und Wales unter der Nummer 01763279 gegründet wurde und eingetragen ist und seinen Sitz in Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, England, hat. CGML verfügt über eine bedeutende internationale Präsenz als Händler, Market Maker und Underwriter für Aktien, Fixed Income und Rohstoffe sowie als Berater für eine große Bandbreite von Unternehmen, institutionellen und staatlichen Kunden. Mit Hauptsitz in London, agiert CGML weltweit aus dem Vereinigten Königreich und seinen Niederlassungen in Europa sowie</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <p>C.1 Art und Gattung der angebotenen Wertpapiere</p> | <p><i>Micro und Commodity Securities</i> wurden zu dem Zweck geschaffen, Anlegern einen Gesamtertrag (<i>Total Return</i>) zu ermöglichen, der dem entspricht, der durch die Eingehung einer vollständig mit Barmitteln besicherten Kaufposition (long fully cash collateralised unleveraged position) in Terminkontrakten unterschiedlicher Laufzeiten, abzüglich der entsprechenden Gebühren, erzielt werden könnte. Im Gegensatz zur Verwaltung von Terminkontrakten bedarf es bei <i>Micro und Commodity Securities</i> keines "rollings", keiner "margin calls", es besteht keine Fälligkeit und es bedarf keines "futures brokerage".</p> <p>Der Emittent hat 84 verschiedene Arten von Commodity Securities geschaffen und für eine Emission zugänglich gemacht, wobei jede Art Anlegern die Möglichkeit gibt an den Bewegungen eines der Bloomberg Commodity Indizes zu partizipieren. Die Commodity Securities können in zwei Arten unterteilt werden:</p> <ul style="list-style-type: none"> <li>• Individual Securities; und</li> <li>• Index Securities</li> </ul> <p>Diese umfassen 54 verschiedene Klassen von Individual Securities (welche 29 verschiedene Rohstoffe und zwei verschiedene Laufzeiten abbilden) und 28 verschiedene Kategorien von Index Securities (die 18 verschiedene Kombinationen von Rohstoffen und zwei verschiedene Laufzeiten abbilden).</p> <p><b>Merkmale von Klasse und Kategorie</b></p> <p>Der Ertrag der <i>Micro und Commodity Securities</i> ist von der Wertentwicklung der entsprechenden Commodity Indizes wie folgt abhängig:</p> <ul style="list-style-type: none"> <li>• die Classic Individual Securities bilden die Commodity Indizes ab, die es ermöglichen, an den Preisbewegungen der Terminkontrakte in einem Rohstoff die innerhalb eines Zeitraums von einem bis drei Monaten lieferbar sind, teilzuhaben;</li> <li>• Classic Index Securities bilden die Commodity Indizes ab, die es ermöglichen, an den Preisbewegungen von Terminkontrakten verschiedener Rohstoffe, die innerhalb eines Zeitraums von ein bis drei Monaten lieferbar sind, teilzuhaben;</li> <li>• Longer Dated Individual Securities bilden die Commodity Indizes ab, die es ermöglichen, an Preisbewegungen von Terminkontrakten verschiedener Rohstoffe, die innerhalb eines Zeitraums von vier bis sechs Monaten lieferbar sind, teilzuhaben und</li> <li>• Longer Dated Index Securities bilden die Commodity Indizes ab, die es ermöglichen, an den Preisbewegungen von Terminkontrakten verschiedener Rohstoffe, die innerhalb eines Zeitraums von vier bis sechs Monaten lieferbar sind, teilzuhaben,</li> </ul> |

| <p>C.15 Wert der Anlage wird durch den Wert der Basisinstrumente beeinflusst</p> | <p><b>Berechnung des Preises</b></p> <p>Jede <i>Micro und Commodity Security</i> verbrieft das Recht, bei der Rücknahme durch den Emittenten den höheren Betrag von entweder dem Nennbetrag oder dem Preis (der „Preis“), abzüglich etwaiger Rücknahmekosten, zu erhalten.</p> <p>Der Preis für jede <i>Micro und Commodity Security</i> an einem bestimmten Tag beruht auf dem Schlusswert des maßgeblichen zugrundeliegenden Commodity Index an diesem Tag, der um die maßgeblichen Gebühren angepasst wurde. Der Preis einer Klasse von <i>Individual Securities</i> wird in Übereinstimmung mit der folgenden Formel (die "<b>Formel</b>") berechnet.</p> $\text{Preis}_{(i,t)} = I_{(i,t)} \times M_{(i,t)} \times PF_{(i,t)} / 10$                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                       |                                                                                   |                               |                                 |                                    |                                 |                          |                             |                               |                            |                          |                                  |                               |                                 |                                                                   |                  |             |               |

wobei gilt:

$Preis_{(i,t)}$  ist der Preis einer *Individual Security* der maßgeblichen Klasse an dem Tag an dem der Preis berechnet wird;

$i$  bezieht sich auf die entsprechende Klasse von *Individual Securities*;

$t$  bezieht sich auf den Tag, an dem der Preis berechnet wird;

$I_{i,t}$  ist der Schlusswert des Commodity Indexes welchen die maßgebliche Klasse der *Individual Security* an dem Tag an dem der Preis berechnet wird in Bezug nimmt;

$M_{(t)}$  ist der auf die maßgebliche Klasse der *Individual Security* anwendbare Multiplikator an dem Tag an dem der Preis berechnet wird, und

$PF$  ist der auf die maßgebliche Klasse von *Individual Security* anwendbare Pool-Faktor an dem Tag an dem der Preis berechnet wird.

Der anwendbare Multiplikator wird vom Emittenten auf seiner Webseite <https://etfs.wisdomtree.eu/retail/uk/en-gb/pricing.aspx> veröffentlicht.

Die Preisberechnungsformel spiegelt (i) den Preis des anwendbaren zugrundeliegenden Bloomberg Commodity Indexes und (ii) die an die Commodity-Kontrakt-Gegenpartei und ManJer durch den Emittenten zahlbaren Gebühren wider. Der Abzug der an die Commodity-Kontrakt-Gegenpartei und ManJer zu zahlenden Gebühren wird in der in der Formel in Bezug genommenen Kapitalanpassung abgebildet.

#### **Poolfaktor**

Der Poolfaktor ist eine Zahl, die immer 1 beträgt, es sei denn die entsprechenden *Micro und Commodity Securities* werden geteilt.

#### **Multiplikator**

Die Gebühren für jede Klasse werden täglich vom Preis dieser Klasse durch Anwendung des Multiplikators abgezogen.

Der Multiplikator ( $M_{(t)}$ ) wird täglich in Abhängigkeit folgender Berechnungsformel angepasst:

$$M_{(i,t)} = M_{(i,t-1)} \times (1 + CA_{(i,t)})$$

Wobei gilt:

$M_{(i,t)}$  ist der Multiplikator für die maßgebliche Klasse der *Individual Security* an dem Tag an dem der Multiplikator berechnet wird;

$i$  bezieht sich auf die entsprechende Klasse von *Individual Securities*;

$t$  bezieht sich auf den Tag an dem der Preis berechnet wird;

$M_{(i,t-1)}$  ist der Multiplikator der maßgeblichen Klasse von *Individual Security* an dem Tag, der dem Tag an dem der Multiplikator berechnet wird, vorausgeht;

$CA_{(i,t)}$  ist die für die maßgebliche Klasse von *Individual Security* gültige Kapitalanpassung an dem Tag an dem der Multiplikator berechnet wird.

Zu jeder Zeit entspricht der Preis einer *Micro Security* einer bestimmten Klasse dem ein millionsten Anteil des Preises der korrespondierenden Klasse eines *Individual Security*.

Der Preis einer Index Security ist die Summe der Preise der *Micro Securities* aus der sie besteht.

#### **Kapitalanpassung**

|                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                                               | <p>Für die Zwecke der Lieferung der entsprechend der Endgültigen Bedingungen begebenen Micro and Commodity Securities an der Frankfurter Wertpapierbörse wird Clearstream Banking Aktiengesellschaft ("Clearstream") für jede Serie und die jeweilige Anzahl von Micro and Commodity Securities eine Globalurkunde in deutscher Sprache nach deutschem Recht emittieren. Sofern sich die Anzahl von Micro and Commodity Securities, die in der Globalurkunde abgebildet werden, ändert, wird Clearstream die jeweilige Globalurkunde entsprechend anpassen.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <p>C.18 Beschreibung des Ertrags</p>          | <p>Der Preis für jede <i>Micro and Commodity Security</i> bildet die Bewegungen des maßgeblichen Commodity Index seit dem Tag ab an dem der Preis zuletzt berechnet wurde und nach Abzug von möglicherweise anfallenden Gebühren. Folglich ergibt sich der Ertrag für eine bestimmte Klasse oder Kategorie hauptsächlich aus der Wertentwicklung des maßgeblichen Bloomberg Commodity Index.</p> <p>Um dies zu erreichen, werden die Individual Securities und die <i>Micro Securities</i> durch die der Emittent sich an der Entwicklung der Commodity Indizes beteiligt, in Übereinstimmung mit der Formel bewertet. Diese Formel bildet (a) die Bewegungen des relevanten Commodity Indexes seit dem letzten Tag an dem ein Preis berechnet wurde und (b) die vom Emittenten an die Commodity-Kontrakt-Gegenpartei gemäß dem Kreditvertrag und an ManJer zu zahlenden Gebühren ab.</p> <p>Der Abzug der an die Commodity-Kontrakt-Gegenpartei und ManJer zu zahlenden Gebühren spiegelt sich in der Kapitalanpassung wider, die in der Formel in Bezug genommen wird.</p> <p>Für Index Securities bildet die Summe der Preise für die <i>Micro Securities</i> aus denen sie sich zusammensetzen den Preis.</p> <p>Der Preis für jede Art von <i>Micro and Commodity Securities</i> wird vom Emittenten zum Ende eines jeden Preisfestsetzungstages (nach der Veröffentlichung der Futures-Preise für den jeweiligen Tag) berechnet und auf der Webseite des Emittenten unter <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a> mit dem Multiplikator und der Kapitalanpassung veröffentlicht.</p> <p>Die <i>Micro and Commodity Securities</i> gewähren keine Zinsansprüche. Der Ertrag eines Anlegers ist die Differenz zwischen dem Preis zu dem die <i>Micro and Commodity Securities</i> ausgegeben wurde oder auf dem Zweitmarkt gekauft wurde und dem Preis (bestimmt durch dieselbe Formel) zu welchem sie zurückgenommen (oder verkauft) wurde.</p> <p><b>Emissionsspezifische Zusammenfassung:</b></p> <p>Die <i>Micro und Commodity Securities</i> gewähren einen an den gebundenen Ertrag Bloomberg Heating Oil Subindex Total Return. Weitere Informationen finden sich unter <a href="http://www.bloombergindexes.com">www.bloombergindexes.com</a>.</p> |
| <p>C.19 Endgültiger Preis/ Ausübungspreis</p> | <p>Die Preise für jede Art von <i>Micro and Commodity Securities</i> werden an jedem Preisfestsetzungstag in Übereinstimmung mit der Formel berechnet. Die Rücknahme von <i>Micro and Commodity Securities</i> durch den Emittenten erfolgt zu dem Preis (der durch die Formel</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| C.20 Art des Basiswertes und Angabe des Ortes an dem Informationen über den Basiswert erhältlich sind | <p>Die <i>Micro und Commodity Securities</i> werden durch Commodity-Kontrakte, bei denen es sich um Derivate-Kontrakte mit der Commodity-Kontrakt-Gegenpartei handelt, besichert. Die Commodity-Kontrakte werden von der Commodity-Kontrakt-Gegenpartei erworben.</p> <p>Die Commodity-Kontrakte gewähren einen Ertrag, der an dem maßgeblichen zugrundeliegenden Commodity Index geknüpft ist. Die Commodity-Kontrakte werden auf dieselbe Art und Weise wie die <i>Micro und Commodity Securities</i> durch Bezugnahme auf den maßgeblichen Commodity Index bewertet. Angaben zu den Commodity Indizes können unter <a href="http://www.djindexes.com/ubs/index.cdfm">http://www.djindexes.com/ubs/index.cdfm</a> gefunden werden. Danach können Informationen zu den Commodity Indizes unter <a href="http://www.bloombergindexes.com">www.bloombergindexes.com</a> gefunden werden.</p> <p>Angaben zu den Sicherheiten, die bei BNYM zugunsten des Emittenten nach Maßgabe der MLI Sicherheitenvereinbarung, der MLI Kontrollvereinbarung, der CGML Sicherheitenvereinbarung und der CGML Kontrollvereinbarung gehalten werden können auf der Webseite des Emittenten unter <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a> gefunden werden.</p> <p><b>Emissionsspezifische Zusammenfassung</b></p> <p>Die Commodity-Kontrakte gewähren einen Ertrag Bloomberg Heating Oil Subindex Total Return, der an die geknüpft ist. Weitere Angaben können unter <a href="http://www.bloombergindexes.com">www.bloombergindexes.com</a>.</p>                                                                                                                                                                                                                                                                                                                              |
| <b>ABSCHNITT D – Risiken</b>                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| D.2 Zentrale Risiken, die dem Emittenten und dem Schuldner eigen sind                                 | <p>Der Emittent hat eine Zweckgesellschaft zum Zwecke der Begebung von ETFS Classic Commodity Securities und/oder ETFS Longer Dated Commodity Securities und verschiedener anderer Securities (die "<b>Short und Leveraged Commodity Securities</b>"), die mit einem separaten Basisprospekts des Emittenten am oder um den Tag der Veröffentlichung dieses Prospekts begeben werden, als asset-backed securities errichtet. Der Emittent hat keine weiteren Vermögenswerte als die welche den <i>Short und Leveraged Commodity Securities</i> zugerechnet werden. Die Beträge, die ein Wertpapierinhaber aus einer Klage gegen den Emittenten erzielen kann, sind folglich auf die Erträge aus der Verwertung des gesicherten Eigentums, welches der Klasse oder Kategorie von <i>Micro und Commodity Securities</i> des Wertpapierinhabers zugeordnet wird, begrenzt. Da der Emittent eine Zweckgesellschaft ist, die nur zum Zweck der Begebung von <i>Short und Leveraged Commodity Securities</i> errichtet wurde und diese von keiner anderen Person garantiert werden, hat der Emittent keine weiteren Vermögenswerte auf die ein Wertpapierinhaber zugreifen könnte. Für den Fall, dass das gesicherte Eigentum nicht ausreicht, um die an den Wertpapierinhaber zu zahlenden Beträge zu begleichen, erleidet der Wertpapierinhaber einen Verlust.</p> <p>Obwohl <i>Micro und Commodity Securities</i> durch die Commodity-Kontrakte und weitere Sicherheiten besichert sind, hängt der Wert solcher <i>Micro und Commodity Securities</i> und die Fähigkeit des Emittenten, Rücknahmebeträge zu bezahlen teilweise davon ab, dass er fällige Beträge von MLI und CGML nach dem Kreditvertrag, der BAC Garantie, der Citigroup Garantie, der Sicherheitenverträge und der Kontrollverträge erhält. Die Wertpapierinhaber haben keine direkten Ansprüche gegen die oben genannten Personen.</p> |

|                              |                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------|------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                              |                                                            | <p>Es gibt keine Sicherheit dafür, dass MLI, CGML oder eine andere Gesellschaft in der Lage ist, ihren Zahlungsverpflichtungen nach den maßgeblichen Commodity-Kontrakten, Kreditverträgen, BAC Garantie, Citigroup Garantie, Sicherungsvereinbarung oder Kontrollvereinbarungen nachzukommen. Folglich gibt es keine Sicherheit dafür, dass der Emittent in der Lage ist, <i>Micro und Commodity Securities</i> zu ihrem Rücknahmepreis zurückzunehmen. Dies kann dazu führen, dass ein Anleger bei der Rückgabe von <i>Micro und Commodity Securities</i> weniger erhält als den Rücknahmepreis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| D.3                          | Zentrale Risiken der <i>Micro und Commodity Securities</i> | <p>Rohstoffpreise können volatil sein und folglich kann der Wert von <i>Micro und Commodity Securities</i> stark schwanken.</p> <p>In Situationen, in denen die Kosten für Terminkontrakte mit einem Lieferdatum, das weiter in der Zukunft liegt, höher sind als die mit einem näher liegenden Lieferdatum wird der Wert des entsprechenden Commodity Index im Laufe der Zeit sinken, es sei denn der Spotpreis steigt um dieselbe Rate an um die der Preis der Terminkontrakte variiert. Die Variationsrate könnte erheblich sein und für einen unbestimmten Zeitraum andauern und somit den Wert des Commodity Index und deshalb den Preis eines <i>Micro und Commodity Securities</i>, der an diesen Commodity Index geknüpft ist, mindern.</p> <p><i>Micro und Commodity Securities</i> werden in US Dollar bepreist und ihr Wert in anderen Währungen wird durch Wechselkursschwankungen beeinflusst.</p> <p>An manchen Tagen können Störungen der zugrundeliegenden Rohstoffmärkte zur Folge haben, dass der Preis für eine oder mehrere Klassen oder Kategorien von <i>Micro und Commodity Securities</i> an jenem Tag nicht festgestellt werden können. Dies wird Verzögerungen der Ausgabe und Rücknahmen im Begebungs- und Rücknahmeprozess zur Folge haben, die sich nachteilig auf potentielle oder bestehende Anleger auswirken kann.</p> <p>Im Falle der Verwertung der Sicherheiten einer Commodity-Kontrakt-Gegenpartei kann der Wert der verwerteten Vermögensgegenstände geringer sein als erforderlich ist, um den gesamten den Wertpapierinhabern zustehenden Rückzahlungsanspruch zu befriedigen. Die Verwertung der Sicherheiten kann eine gewisse Zeit in Anspruch nehmen, was für Wertpapierinhaber zu Verzögerungen beim Erhalt der ihnen zustehenden Beträge führen kann. Ein Wertpapierinhaber kann einen Verlust erleiden, wenn die verwerteten Vermögenswerte niedriger sind als der ihm zustehende Rücknahmebetrag.</p> |
| D.6                          | Zentrale Risiken der <i>Micro und Commodity Securities</i> | <p>Siehe die Angaben unter D.3.</p> <p>Die Wertentwicklung in der Vergangenheit ist kein Indikator für die erwartete Wertentwicklung und die Wertentwicklung einer <i>Micro und Commodity Security</i> kann volatil sein. Folglich können Anleger in <i>Micro und Commodity Securities</i> einen Teil oder ihren gesamten Anlagebetrag verlieren.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## NOTA SINTETICA

### ETFS Commodity Securities Limited

#### Nota Sintetica relativa al Prospetto

#### Prospetto base del 29 maggio 2019 per l'Emissione di

#### ETFS Classic Commodity Securities e ETFS Longer Dated Commodity Securities

Le note sintetiche sono composte da obblighi di informativa definiti "Elementi". Tali Elementi sono numerati in Sezioni da A ad E (A.1 – E.7).

La presente nota sintetica contiene tutti gli Elementi che devono essere inclusi in una nota sintetica per questa tipologia di titoli ed emittente. Poiché alcuni Elementi non devono essere trattati, la sequenza degli Elementi può presentare dei salti di numerazione.

Anche qualora un Elemento debba essere inserito nella nota sintetica in virtù della tipologia di titoli ed Emittente, è possibile che nessuna informazione rilevante possa essere fornita in merito a detto Elemento. In tal caso, viene inclusa nella nota sintetica una breve descrizione dell'Elemento insieme alla dicitura "non applicabile".

#### Sezione A – Introduzione e Avvertenze

| B.16 | Controllo diretto/indiretto dell'Emittente                    | Le azioni dell'Emittente sono detenute interamente da ETFS Holdings (Jersey) Limited (" <b>HoldCo</b> "), una holding costituita in Jersey. Le azioni di HoldCo sono in definitiva possedute da WisdomTree Investments, Inc. L'Emittente non è né direttamente né indirettamente posseduto o controllato da qualsiasi altra parte partecipante al programma.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| B.17 | Rating creditizi dell'Emittente                               | Non applicabile - non è stato assegnato un rating creditizio all'Emittente e non è previsto che verrà assegnato alcun rating creditizio ai Micro e Commodity Securities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| B.20 | Società veicolo                                               | L'Emittente è stato costituito come società veicolo ( <i>special purpose vehicle</i> ) ai fini dell'emissione di titoli di debito.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| B.21 | Principali attività e quadro di insieme delle parti           | <p>La principale attività dell'Emittente è l'emissione di diversi tipi di titoli di debito che sono garantiti da contratti derivati collegati a indici su materie prime. In base a tale Prospetto l'Emittente emette titoli di debito ("<b>Micro e Commodity Securities</b>") che (prima delle commissioni e delle spese) forniscono un'esposizione alle variazioni giornaliere negli indici su merci calcolati e pubblicati da Bloomberg e/o da Bloomberg Finance LP e/o da una delle loro collegate (congiuntamente "Bloomberg") ("<b>Commodity Indices</b>" e, singolarmente "Commodity Index"). I Commodity Indices tracciano le variazioni nei prezzi dei contratti future su singole materie prime o dei contratti future su panieri di materie prime. Prima del 30 giugno 2014 incluso, i Commodity Indices erano calcolati e pubblicati da Index CME Group Services LLC in collaborazione con UBS Securities LLC ed erano conosciuti come The Dow Jones - UBS Commodity Indices. L'Emittente ha definito un programma in forza del quale possono essere emesse di volta in volta diversi tipi di Micro e Commodity Securities.</p> <p>L'Emittente consegue un rendimento basato sulle variazioni percentuali giornaliere nel relativo Indice su Merci (<i>Commodity Index</i>) stipulando contratti derivati garantiti con scambio di fondi (<i>Commodity Contracts</i>) con Merrill Lynch International ("<b>MLI</b>") e Citigroup Global Markets Limited ("<b>CGML</b>"). Congiuntamente MLI e CGML sono riferite quali "<b>Controparti in Contratti su Merci</b>" (<i>Commodity Contract Counterparties</i>). I termini dei Contratti su Merci acquistati o da acquistare sono disciplinati da (i) un accordo denominato "Accordo di Servizi MLI relativo a Contratti su Merci Classic e Longer Dated" tra l'Emittente e MLI del 29 giugno 2017 ("<b>Accordo di Servizi MLI</b>"); e (ii) un accordo denominato "Accordo di Servizi CGML relativo a Contratti su Merci Classic e Longer Dated" tra l'Emittente e CGML del 29 giugno 2017 ("<b>Accordo di Servizi CGML</b>"). Gli obblighi di pagamento di MLI ai sensi dell'Accordo di Servizi MLI sono supportati da una garanzia (la "<b>Garanzia BAC</b>") della Bank of America Corporation ("<b>BAC</b>") e gli obblighi di pagamento di CGML ai sensi dell'Accordo di Servizi CGML sono supportati da una Garanzia (la "<b>Garanzia Citigroup</b>")</p> |

di Citigroup Global Markets Holdings Inc. (“**CGMH**”) rilasciata a favore dell'Emittente.

Gli obblighi delle Controparti in Contratti su Merci nei confronti dell'Emittente sono assicurati da una garanzia (*Collateral*) fornita dalle stesse Controparti in Contratti su Merci e detenuta in conti a loro nome presso La Banca di New York Mellon (“**BNYM**”).

Ai sensi di un (i) accordo di garanzia tra MLI e l'Emittente del 29 giugno 2017 (“**Accordo di Garanzia MLI**”) e un accordo di controllo tra BNYM, MLI e l'Emittente del 29 giugno 2017 (“**Accordo di Controllo MLI**”); e (ii) un accordo di garanzia tra CGML e l'Emittente del 29 giugno 2017 (“**Accordo di Garanzia CGML**”) e un accordo di controllo tra BNYM, CGML e l'Emittente del 29 giugno 2017 (“**Accordo di Controllo CGML**”), MLI e CGML hanno l'obbligo di trasferire su di un conto di garanzia titoli e obbligazioni per il valore dell'esposizione totale dell'Emittente ai sensi dei Contratti su Merci verso MLI o CGML (a seconda dei casi). La garanzia detenuta viene adeguata ogni giorno per riflettere il valore dei Contratti su Merci corrispondenti.

I Micro e Commodity Securities possono essere emessi e richiesti al fine di essere rimborsati giornalmente dagli istituti finanziari (“Partecipanti Autorizzati”) che (i) hanno stipulato con l'Emittente un accordo denominato “Accordo dei Partecipanti Autorizzati”; (ii) hanno certificato all'Emittente il proprio stato secondo la Legge sui servizi e sui mercati finanziari (Financial Services and Markets Act) del 2000 (“FSMA”); e (iii) (salvo il caso in cui una Controparte in Contratti su Merci (*Commodity Contract Counterparty*) che ha stipulato un Accordo dei Partecipanti Autorizzati con l'Emittente) abbia sottoscritto un accordo corrispondente denominato “Accordo Diretto” con almeno una Controparte in Contratti su Merci e che sia stata informata da tale Controparte in Contratti su Merci di essere un partecipante autorizzato ammissibile rispetto alla stessa Controparte in Contratti su Merci. Anche altri detentori di Micro e Commodity Securities possono riscattare gli stessi se non ci sono altri Partecipanti Autorizzati o l'Emittente dichiara diversamente. Tutte le altre parti possono comprare e vendere Micro e Commodity Securities mediante contrattazioni in borsa o sui mercati dove gli stessi sono ammessi alla negoziazione.

I Micro e Commodity Securities sono creati ai sensi di un accordo denominato “**Trust Instrument**” tra l'Emittente e la Law Debenture Trust Corporation p.l.c. quale trustee (il “**Trustee**”) che detiene tutti i diritti ed i titoli in virtù del Trust Instrument per qualsiasi persona identificata nei registri come detentore di Micro e Commodity Securities (i “**Security Holders**”).

L'Emittente e il Trustee hanno stipulato un “**Security Deed**” separato per ogni gruppo (*pool*) di Contratti su Merci attribuibile a qualsiasi classe di Micro e Commodity Securities (ciascuno un “**Pool**”) e i diritti ed i titoli del Trustee in virtù di ogni *Security Deed* sono detenuti dal Trustee sul trust per conto dei *Security Holders* della relativa classe di Micro e Commodity Security.

MLI, l'Accordo di Garanzia CGML e l'Accordo di Controllo CGML. I Micro e Commodity Securities di ciascuna classe sono garantiti da Contratti su Mercati con termini corrispondenti e ogni volta che un Micro e Commodity Security è creato o riscattato una quantità correlata di Contratti su Mercati è acquistata o annullata dall'Emittente. I Contratti su Mercati saranno acquisiti da una o più Controparti in Contratti su Mercati.

L'Emittente rifiuterà richieste di Micro e Commodity Securities se non potrà, per qualsiasi motivo, predisporre i corrispondenti Contratti su Mercati con una Controparte in Contratti su Mercati.

Alla data di questo Prospetto, l'Emittente ha raggiunto accordi con due Controparti in Contratti su Mercati –MLI e CGML .

Ai sensi degli Accordi di Servizi, ci sono limiti, sia giornalieri sia complessivi, per quanto riguarda il numero di Contratti su Mercati che possono essere creati o risolti in qualsiasi momento. Le creazioni e i riscatti di Micro e Commodity Securities sono soggetti sia a limiti giornalieri sia a limiti complessivi per uguagliare i limiti dei Contratti su Mercati.

MLI è una società costituita e registrata in Inghilterra e Galles al numero 2312079 ed ha la propria sede legale in 2, King Edward Street, Londra EC1A 1HQ, Regno Unito. | B.27 | Ulteriori titoli garantiti dalle stesse attività | E' possibile emettere ulteriori Micro e Commodity Securities di qualsiasi tipo, ma ogni volta che un Micro e Commodity Security di qualsiasi tipo è emesso, saranno creati corrispondenti Contratti su Mercì della stessa classe, i quali costituiranno parte delle corrispondenti "Attività Garantite". Tali Micro e Commodity Securities di nuova emissione saranno sostituibili con tutti gli Micro e Commodity Securities esistenti della stessa classe e saranno garantiti dagli attivi delle stesse Attività Garantite.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| B.28 | Struttura del diagramma                          | <p>L'Emittente ha creato un programma in base al quale i Micro e Commodity Securities possono essere emessi di volta in volta. I Micro e Commodity Securities possono essere emessi o richiesti per essere riscattati su base giornaliera dai Partecipanti Autorizzati che hanno stipulato un Accordo dei Partecipanti Autorizzati con l'Emittente. I Partecipanti Autorizzati possono poi vendere e comprare i Micro e Commodity Securities da e per altri investitori in borsa o in transazioni private.</p> <p>I Micro e Commodity Securities sono costituiti in Trust Instrument. In virtù del Trust Instrument, il Trustee agisce quale gestore per i Security Holders di ciascuna classe di Micro e Commodity Security sia (a) per effettuare decisioni ed esercitare diritti in base ai Micro e Commodity Securities a beneficio dei Detentori dei Titoli e (b) a tenere in custodia per i Detentori di Titoli la garanzia concessa dall'Emittente ai sensi dei Security Deeds, di esercitare qualsiasi diritto, di far rispettare lo stesso e di distribuire i proventi (dopo il pagamento di tutti gli importi dovuti al Trustee) per i Detentori di Titoli (tra gli altri).</p> <p>Gli obblighi dell'Emittente rispetto a ciascuna classe di Micro e Commodity Security sono garantiti da un onere sull'equivalente classe di Contratti su Mercì ai sensi degli Accordi di Servizi e dei contratti correlati.</p> <p>E' di seguito riportato il diagramma raffigurante i principali aspetti</p> |

| C.1                       | Tipologia e classe dei titoli offerti | <p>I Micro e Commodity Securities sono progettati per fornire agli investitori un "rendimento totale" simile a quello che potrebbe essere raggiunto dalla gestione di una posizione lunga senza leva finanziaria, interamente garantita da contratti future con specifiche scadenze, meno le commissioni applicabili. Diversamente dalla gestione di posizioni future, i Micro e Commodity Securities non coinvolgono contratti rolling, margini di copertura, scadenze o ulteriori spese di intermediazione per i contratti in scadenza.</p> <p>L'Emittente ha creato ed emesso 84 tipi diversi di Commodity Securities ognuna delle quali concede agli investitori un'esposizione alle oscillazioni di uno degli Indici su Merci (<i>Commodity Indices</i>) che possono essere raggruppati in 2 tipi differenti:</p> <ul style="list-style-type: none"> <li>• Individual Securities; e</li> <li>• Index Securities.</li> </ul> <p>Questi comprendono 54 diverse classi di Individual Securities (che rappresentano 29 diverse materie prime e due diversi titoli in scadenza) e 28 differenti categorie di Index Securities (che rappresentano 18 diverse combinazioni di materie prime e due diversi titoli in scadenza).</p> <p><b>Caratteristiche delle classi e delle categorie</b></p>                                                                                                      |

Il rendimento sui Micro e Commodity Securities è collegato in ciascun caso all'andamento giornaliero dei corrispondenti Commodity Indices nel seguente modo:

- Classic Individual Securities tracciano i Commodity Indices i quali forniscono un'esposizione alle oscillazioni nel prezzo dei contratti future rispetto ad una tipologia di materia prima e di cui è prevista la consegna entro un intervallo da uno ai tre mesi;
- Classic Index Securities tracciano i Commodity Indices i quali forniscono un'esposizione alle oscillazioni nel prezzo dei contratti future rispetto a diverse materie prime e di cui è prevista la consegna entro un intervallo da uno ai tre mesi;
- Longer Dated Individual Securities tracciano i Commodity Indices i quali forniscono un'esposizione alle oscillazioni nel prezzo dei contratti future rispetto ad una tipologia di materia prima e di cui è prevista la consegna entro un intervallo dai quattro ai sei mesi ;
- Longer Dated Index Securities tracciano i Commodity Indices i quali forniscono un'esposizione alle oscillazioni nel prezzo dei contratti future rispetto a diverse materie prime e di cui è prevista la consegna entro un intervallo dai quattro ai sei mesi ;

e in aggiunta, in ciascun caso, una variazione nel tasso d'interesse privo di rischio, che matura a favore di una posizione interamente garantita dai rispettivi contratti future sottostanti.

**Nota sintetica dell'emissione:**

I seguenti dettagli si applicano ai Micro o Commodity Securities che sono emessi in conformità alle Condizioni Definitive:

|                                                                    |                                             |

| C.8 | Diritti                      | <p>Un Micro e Commodity Security riconosce il diritto al Partecipante Autorizzato di richiedere il rimborso del titolo dall'Emittente e di ricevere il pagamento più elevato tra (i) la denominazione minima per quel tipo di Micro e Commodity Security (nota quale "<b>Capitale Nominale</b>"), e (ii) il prezzo di quel tipo di quel Micro e Commodity Security nel giorno applicabile determinato usando la Formula indicata e descritta nel paragrafo C. 15.</p> <p>In genere soltanto i Partecipanti Autorizzati potranno trattare direttamente con l'Emittente per il rimborso dei Micro e Commodity Securities. In certi casi, dove non ci sono Partecipanti Autorizzati, o come l'Emittente può, a sua esclusiva discrezione determinare, i Detentori di Titoli che non sono Partecipanti Autorizzati possono richiedere all'Emittente di rimborsare direttamente i loro titoli.</p> <p><b>Rivalsa Limitata</b></p> <p>Le obbligazioni dell'Emittente in relazione a ciascuna classe di Micro e Commodity Securities sono garantite da un onere a favore del Trustee e dalla cessione al Trustee dei diritti dell'Emittente a titolo di garanzia, nella misura in cui si riferiscono a quella classe. Il Trustee e i Security Holders di qualsiasi classe di Micro e Commodity Securities potranno rivalersi solo sulle somme derivate dalle attività relative a quella classe. Se i proventi netti sono insufficienti affinché l'Emittente possa effettuare tutti i pagamenti dovuti, il Trustee o qualsiasi altra persona che agisce per conto del Trustee non sarà legittimato a prendere ulteriori provvedimenti contro l'Emittente e nessun debito sarà dovuto dall'Emittente con riferimento a tale ulteriore somma.</p> <p><b>Priorità dei Pagamenti</b></p> <p>Tutte le somme ricevute dal Trustee al momento della realizzazione delle attività relative a una particolare classe di Micro e Commodity Securities saranno detenute dal Trustee e applicate nel seguente ordine:</p> <p>- Pagamenti dovuti al Trustee (e alle persone nominate dal Trustee) e pagamenti dovuti a qualsiasi destinatario e costi di</p> |

|      |                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| C.18 | Descrizione del rendimento                                                      | <p>Il Prezzo di ogni Micro o Commodity Securities riflette le variazioni nel rispettivo Commodity Index dal giorno prima nel quale il Prezzo è stato calcolato, previa detrazione di qualsiasi commissione applicabile. Pertanto, il rendimento per una particolare classe o categoria si baserà, principalmente, sul rendimento del corrispondente Commodity Index. Per ottenere ciò il prezzo degli Individual Securities e dei Micro Securities, attraverso i quali l'Emittente ottiene l'esposizione ai Commodity Indices, è calcolato in conformità alla Formula.</p> <p>Tale Formula riflette (a) la variazione percentuale giornaliera nel rilevante Commodity Index dall'ultimo giorno in cui un Prezzo è stato calcolato; e(b) le commissioni pagabili dall'Emittente alla Controparte in Contratti su Mercati ai sensi dell'Accordo di Servizi e a Manjer. La detrazione delle commissioni pagabili alla Controparte in Contratti su Mercati e a Manjer si riflettono nell'adeguamento di capitale citato nella Formula.</p> <p>Per gli Index Securities, il Prezzo è la somma dei prezzi dei Micro Securities nei quali sono compresi.</p> <p>Il prezzo di ciascun tipo di Micro e Commodity Security sarà calcolato dall'Emittente alla fine di ogni giorno di determinazione del prezzo (dopo il giorno di pubblicazione dei prezzi di mercato dei future) e postato, unitamente al Moltiplicatore ed all'Adeguatore di Capitale applicabile, sul sito internet dell'Emittente <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a>.</p> <p>I Micro e Commodity Securities non sono fruttiferi di interessi. Il rendimento per un investitore è la differenza tra il prezzo al quale i rispettivi Micro e Commodity Securities sono emessi (o comprati nel mercato secondario) e il prezzo al quale sono riscattati (o venduti).</p> <p><b>Nota sintetica dell'emissione:</b><br/>I Micro e Commodity Securities forniscono un rendimento collegato a Bloomberg Heating Oil Subindex Total Return. Ulteriori informazioni possono essere reperite su <a href="http://www.bloombergindexes.com/">http://www.bloombergindexes.com/</a>.</p> |
| C.19 | Prezzo finale/prezzo di esercizio                                               | <p>I prezzi per ciascun tipo di Micro e Commodity Security sono calcolati in ogni giorno di determinazione del prezzo in conformità alla Formula e i riscatti di Micro e Commodity Securities con l'Emittente corrisponderanno al relativo prezzo (determinato dalla Formula) del giorno di ricezione del Modulo di Riscatto.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| C.20 | Tipo di sottostante e dove possono essere reperite informazioni sul sottostante | <p>I Micro e Commodity Securities sono garantiti da Contratti su Mercati che sono contratti derivati con la Controparte in Contratti su Mercati acquistati dalle Controparti in Contratti su Mercati.</p> <p>I Contratti su Mercati forniscono un rendimento collegato al relativo sottostante Commodity Index ed il prezzo è determinato allo stesso modo dei Micro e Commodity Securities con riferimento al corrispondente Commodity Index. Informazioni sui Commodity Indices possono essere trovate su <a href="http://www.bloombergindexes.com">www.bloombergindexes.com</a>.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                           |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>SEZIONE D - Rischi</b> |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| D.2                       | Principali rischi dell'Emittente | <p>L'Emittente è una società veicolo costituita ai fini dell'emissione di ETFS Classic Commodity Securities e ETFS Longer Dated Commodity Securities e alcuni altri titoli (i "<b>Short e Leveraged Commodity Securities</b>"), che sono emessi ai sensi di un prospetto di base separato dell'Emittente datato alla, o in prossimità della, data del presente Prospetto, come titoli garantiti da beni e non ha attivi diversi da quelli riconducibili ai Micro e Commodity Securities e i Short e Leveraged Commodity Securities. Gli importi che un Detentore di Titoli potrebbe ricevere a seguito di un credito nei confronti dell'Emittente sono quindi limitati ai proventi della realizzazione del bene garantito applicabile a tale classe o categoria del Detentore di Titoli di Micro e Commodity Securities e poiché l'Emittente è una società veicolo formata solo ai fini dell'emissione dei Micro e Commodity Securities e dei Short e Leveraged Commodity Securities e poiché i Micro e Commodity Securities non sono garantiti da nessun altro soggetto, l'Emittente non ha ulteriori attivi rispetto ai quali il Detentore di Titoli può avanzare richieste. Nel caso in cui i beni garantiti siano insufficienti a coprire l'importo da versare al Detentore di Titoli, quest'ultimo subirebbe una perdita.</p> <p>Sebbene i Micro e Commodity Securities siano assicurati da Contratti su Merci e dalla garanzia, il prezzo di tali Micro e Commodity Securities e la capacità dell'Emittente di pagare gli importi di riscatto dipendono ancora in parte dalla ricezione degli importi a carico di MLI e CGML ai sensi degli Accordi di Servizi (<i>Facility Agreements</i>), della Garanzia BAC (<i>BAC Guarantee</i>), della Garanzia Citigroup (<i>Citigroup Guarantee</i>), degli Accordi di Garanzia (<i>Security Agreements</i>) e degli Accordi di Controllo (<i>Control Agreements</i>). Nessun detentore dispone di diritti immediati di rivalsa nei confronti di tali soggetti.</p> <p>Non vi è alcuna garanzia che MLI, CGML o qualsiasi altra entità saranno in grado di ottemperare ai loro obblighi di pagamento ai sensi dei rispettivi Contratti su Merci (<i>Commodity Contracts</i>), Accordi di Servizi (<i>Facility Agreement</i>), Garanzia BAC (<i>BAC Guarantee</i>), Garanzia Citigroup (<i>Citigroup Guarantee</i>), Accordi di Garanzia (<i>Security Agreement</i>) o Accordi di Controllo (<i>Control Agreement</i>). Di conseguenza, non può esserci alcuna garanzia</p> |

|     |                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|     |                              | che l'Emittente sarà in grado di riscattare i Micro e Commodity Securities al loro prezzo di riscatto, pertanto ciò potrebbe comportare che l'investitore ottenga meno del prezzo di rimborso a seguito del rimborso dei Micro e Commodity Securities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| D.3 | Principali rischi dei titoli | <p>I prezzi delle materie prime possono essere volatili, pertanto il valore dei Micro e Commodity Securities può variare notevolmente.</p> <p>In situazioni in cui il costo dei contratti future con consegna più lontana sia superiore a quello con consegna più vicina, il prezzo del corrispondente Commodity Index diminuirà nel tempo, salvo che il prezzo spot non aumenti della stessa percentuale come il tasso di variazione nel prezzo dei contratti future. Il tasso di variazione potrebbe essere piuttosto significativo e durare per un periodo indeterminato, riducendo il prezzo del Commodity Index e, di conseguenza, il prezzo di tutti i Micro e Commodity Securities collegati a tale Commodity Index.</p> <p>I Micro e Commodity Securities sono denominati in dollari USA e il loro valore in altre valute sarà influenzato dai movimenti del tasso di cambio.</p> <p>Possono esserci dei giorni in cui turbative nei mercati delle materie prime sottostanti comportano che non possa essere determinato il prezzo in quel giorno per una o più classi o categorie di Micro e Commodity Securities. Ciò causerà un ritardo nella applicazione o nel processo di rimborso che potrebbe influenzare negativamente i potenziali investitori o quelli esistenti.</p> <p>In caso di realizzo della garanzia da una Controparte in Contratti su Merci, il valore delle attività liquidate può essere inferiore a quanto richiesto per soddisfare l'importo di riscatto dovuto ai Security Holders. Qualsiasi realizzo della garanzia può richiedere tempo e il Detentore di Titoli potrebbe subire dei ritardi nel ricevere gli importi dovuti. Un Detentore di Titoli potrebbe anche subire una perdita se gli attivi realizzati sono inferiori dell'ammontare del rimborso dovuto.</p> |
| D.6 | Principali rischi dei titoli | I rendimenti passati non sono indicativi dei rendimenti futuri e il rendimento dell'investimento di un Micro e Commodity Security potrebbe essere volatile. Pertanto, gli investitori in Micro e Commodity Securities possono subire la perdita dell'intero valore o di una parte del loro investimento.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

#### SEZIONE E – Offerta

|      |                                   |                                                                                                                                                                                                                                                                                                                           |

**RESUMEN**  
**ETFS Commodity Securities Limited**  
**Resumen del folleto**  
**Folleto base 29 de mayo de 2019 para la emisión de**  
**Valores sobre Materias Primas Clásicos y Valores sobre Materias Primas a Más Largo Plazo de**  
**ETFS**

Los resúmenes están compuestos de una serie de datos informativos requeridos denominados ‘Elementos’. Estos Elementos están numerados en los apartados A - E (A.1 – E.7).

Este resumen contiene todos los Elementos que deben incluirse en los resúmenes correspondientes a este tipo de valores y de emisor. Dado que algunos Elementos no son necesarios en todos los casos, puede haber saltos en la numeración.

Aunque por el tipo de valores y de Emisor resulte necesario incluir un determinado Elemento en el resumen, puede ocurrir que no pueda proporcionarse ninguna información relevante al respecto, en cuyo caso se incluye una breve descripción del Elemento, junto con la mención "no aplicable".

**Apartado A – Introducción y advertencias**

| B.17 | Calificaciones crediticias del Emisor                       | No es aplicable - al Emisor no se le ha asignado una calificación crediticia y no se pretende que a ningún Valor Micro y sobre Materias Primas se le asignen calificaciones crediticias.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| B.20 | Entidad instrumental                                        | El Emisor se ha constituido como entidad instrumental para la emisión de valores de deuda.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| B.21 | Actividades principales y perspectiva general de las partes | <p>La actividad principal del Emisor consiste en la emisión de diversas clases de valores de deuda respaldados por contratos de derivados vinculados a un índice de materias primas. Con arreglo a este Folleto, el Emisor emite valores de deuda (los “<b>Valores Micro y sobre Materias Primas</b>”) que (antes de comisiones y gastos) proporcionan una exposición a los movimientos de los índices de materias primas especificados calculados y publicados por Bloomberg L.P. y/o Bloomberg Finance L.P. y/o una filial de cualquier de ellos (conjuntamente, “<b>Bloomberg</b>”) (los “<b>Índices de Materias Primas</b>” y cada “<b>Índice de Materias Primas</b>”) Los Índices de Materias Primas realizan el seguimiento de las variaciones en el precio de los contratos de futuros de materias primas, individuales o en cestas. Hasta el 30 de junio de 2014 inclusive, los Índices de Materias Primas fueron calculados y publicados por CME Group Index Services LLC en colaboración con UBS Securities LLC y fueron conocidos como los Dow Jones-UBS Commodity Indices. El Emisor ha puesto en marcha un programa en virtud del cual podrán emitirse en cada momento distintas clases de Valores Micro y sobre Materias Primas.</p> <p>El Emisor obtiene una rentabilidad basada en la variación de los correspondientes Índices de Materias Primas mediante la celebración de contratos de derivados garantizados plenamente financiados (los “<b>Contratos de Materias Primas</b>”) con Merrill Lynch International (“<b>MLI</b>”) y Citigroup Global Markets Limited (“<b>CGML</b>”). MLI y CGML se denominarán colectivamente como las “<b>Contrapartes de Contratos de Materias Primas</b>”. Los términos de los Contratos de Materias Primas adquiridos o que adquiera el Emisor se rigen por (i) un contrato denominado el “Contrato de Financiación MLI en relación con los Contratos sobre Materias Primas Clásicos y a más Largo Plazo” entre el Emisor y MLI e fecha 29 de junio de 2017 (el “<b>Contrato de Financiación MLI</b>”) y (ii) un contrato denominado el “Contrato de Financiación CGML en relación con los Contratos sobre Materias Primas Clásicos y a más Largo Plazo” entre el Emisor y CGML de fecha 29 de junio de 2017 (el “<b>Contrato de Financiación CGML</b>”). Las obligaciones de pago de MLI derivadas del Contrato de Financiación MLI están respaldadas por una garantía (la “<b>Garantía de BAC</b>”) de Bank of America Corporation (“<b>BAC</b>”), y las obligaciones de pago de CGML derivadas del Contrato de Financiación CGML están respaldadas por una garantía (la “<b>Garantía Citigroup</b>”) de Citigroup Global Markets Holdings Inc (“<b>CGML</b>”), cada una de ellas en favor del Emisor.</p> <p>Las obligaciones de las Contrapartes de Contratos de Materias Primas frente al Emisor derivadas de los Contratos de Materias Primas están aseguradas mediante fianzas aportadas por las Contrapartes de Contratos de Materias Primas y depositadas en cuentas a nombre de las mismas en el Bank of New York Mellon (“<b>BNYM</b>”). sin amortizar los</p> |

correspondientes Valores Micro y sobre Materias Primas. El Contrato de Financiación con UBS cesaría siguiendo esa cancelación y el Emisor notificará a los Titulares de Valores dicho cese por anuncio RIS siguiendo la liquidación de todos los Contratos de Materias Primas amortizados. El Emisor ha acordado con CGML que los Contratos de Materias Primas con UBS serían reemplazados por equivalentes Contratos de Materias Primas con CGML. Las obligaciones de pago de CGML establecidas en el Contrato de Financiación CGML vienen respaldadas por una garantía (la **“Garantía de Citigroup”**) de Citigroup Global Markets Holdings Inc. (**“CGMH”**) otorgada en favor del Emisor. Las obligaciones de CGML con el Emisor respecto de los Contratos de Materias De conformidad con (i) un contrato de garantía entre MLI y el Emisor de fecha 29 de junio de 2017 (el **“Contrato de garantía MLI”**) y un contrato de control entre BNMY, MLI y el Emisor de fecha 29 de junio de 2017 (el **“Contrato de Control MLI”**); y (ii) un contrato de garantía entre CGML y el Emisor de fecha 29 de junio de 2017 (el **“Contrato de garantía CGML”**) y un contrato de control entre BNYM, CGML y el Emisor de fecha 29 de junio de 2017 (el **“Contrato de control CGML”**), se solicitará a MLI y CGML que transfieran a una cuenta colateral, garantías y obligaciones por el valor de la exposición total del Emisor en atención a los Contratos de Materias Primas de MLI o CGML (según sea de aplicación). El colateral se ajustará diariamente para reflejar el valor de los correspondientes Contratos de Materias Primas.

Los Valores Micro y sobre Materias Primas pueden ser emitidos y deben ser amortizados diariamente por instituciones financieras (los **“Participantes Autorizados”**) que (i) hayan celebrado un contrato denominado **“Contrato de Participante Autorizado”** con el Emisor; (ii) hayan certificado al Emisor su situación con arreglo a la Ley de Servicios y Mercados Financieros de 2000 (la **“FSMA”**); y (iii) (excepto en el caso de una Contraparte de un Contrato de Materias Primas que haya celebrado un Contrato de Participante Autorizado con el Emisor) haya celebrado el correspondiente contrato denominado **“Contrato Directo”** con al menos una Contraparte de Contratos de Materias Primas y esta última no le haya comunicado que no es un participante autorizado inaceptable en relación con dicha Contraparte de Contratos de Materias Primas. Otros titulares de Valores Micro y sobre Materias Primas podrán amortizar también estos Valores si no hay Participantes Autorizados o si el Emisor así lo anuncia. Los restantes intervinientes podrán comprar y vender Valores Micro y sobre Materias Primas mediante su negociación en un mercado en el que dichos valores estén admitidos a negociación.

Los Valores Micro y sobre Materias Primas están constituidos en virtud de un contrato denominado **“Escritura Fiduciaria”** entre el Emisor y The Law Debenture Trust Corporation p.l.c., como administrador fiduciario (el **“Administrador Fiduciario”**) de todos los derechos derivados de la Escritura Fiduciaria para las personas identificadas en los registros como titulares de los Valores Micro y sobre Materias Primas (los **“Titulares de Valores”**).

El Emisor y el Administrador Fiduciario han otorgado distintos documentos denominados **“Escrituras de Garantía”** en relación con cada grupo de Contratos de Materias Primas atribuibles a cualquier clase de Valores Micro o sobre Materias Primas (cada uno de los cuales constituye un **“Grupo”**) y el Administrador Fiduciario ostenta los

| B.26 | Gestión de inversiones                           | No aplicable; no hay una gestión activa de los activos del Emisor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| B.27 | Otros valores respaldados por los mismos activos | Pueden emitirse otros Valores Micro y sobre Materias Primas de cualquier tipo, pero cada vez que se emite un Valor Micro o sobre Materias Primas de cualquier tipo, se crean los correspondientes Contratos de Materias Primas de las clases pertinentes, que formarán parte de los correspondientes “Activos Garantizados”. Los nuevos Valores Micro y sobre Materias Primas serán fungibles con todos los Valores Micro y sobre Materias Primas del mismo tipo ya existentes y estarán respaldados por los activos de los mismos Activos Garantizados.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| B.28 | Estructura de la operación                       | <p>El Emisor ha creado un programa en virtud del cual podrán emitirse en cada momento Valores Micro y sobre Materias Primas. Los Valores Micro y sobre Materias Primas pueden ser emitidos y deben ser amortizados diariamente por los Participantes Autorizados que hayan celebrado un Contrato de Participante Autorizado con el Emisor. Los Participantes Autorizados podrán vender y comprar Valores Micro y sobre Materias Primas a otros inversores en el mercado o en transacciones privadas.</p> <p>Los Valores Micro y sobre Materias Primas se constituyen mediante la Escritura Fiduciaria. De acuerdo con la Escritura Fiduciaria, el Administrador Fiduciario actúa como Administrador Fiduciario en nombre de los Titulares de Valores de cada tipo de Valores Micro y sobre Materias Primas para (a) realizar determinaciones y ejercitar derechos derivados de los Valores Micro y sobre Materias Primas en beneficio de los Titulares de Valores y (b) mantener en nombre de los Titulares de Valores la garantía otorgada por el Emisor en virtud de las Escrituras de Garantía, ejercitar los derechos para su ejecución y distribuir los resultados (tras el pago de todas las cantidades adeudadas al Administrador Fiduciario) a los Titulares de Valores (entre otros).</p> <p>Las obligaciones del Emisor con respecto a cada clase de Valor Micro y sobre Materias Primas están garantizadas mediante una carga sobre la clase equivalente de Contratos de Materias Primas en virtud de los Contratos de Financiación y los contratos relacionados.</p> <p>A continuación, se expone un diagrama de los principales aspectos de la estructura actualmente vigente:</p> |

|      |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|      |                                 | <p>El diagrama ilustra el flujo de fondos y garantías en un mercado de valores. El Emisor es el centro, conectado con el Administrador Fiduciario (que le proporciona Escritura Fiduciaria y Escritura de Garantía), los Titulares de valores (que le entregan Valores sobre materias clásicas y a más largo plazo), los Participantes autorizados (con los que firma Contratos de participantes autorizados), el Intermediario de valores (con el que firma un Contrato de control), y la Contraparte de Contratos de Materias Primas (con la que firma un Contrato de materias primas). El Emisor también tiene un Contrato de Financiación y Contratos de Fianza. La Contraparte de Contratos de Materias Primas proporciona una Garantía a la Cuenta de Garantía. Los flujos de fondos van de los Titulares de valores al Emisor y de la Contraparte de Contratos de Materias Primas al Emisor. Los flujos de garantías van de la Cuenta de Garantía al Emisor. Los flujos de fondos también van de los Participantes autorizados al Emisor y de la Contraparte de Contratos de Materias Primas a los Participantes autorizados. El Emisor realiza Pagos de creación y amortización a los Participantes autorizados. La Contraparte de Contratos de Materias Primas realiza Pagos de creación y amortización a los Participantes autorizados. El Emisor realiza Pagos de creación y amortización a los Titulares de valores. El Emisor realiza Pagos de creación y amortización a la Contraparte de Contratos de Materias Primas. El Emisor realiza Pagos de creación y amortización a la Cuenta de Garantía. El Emisor realiza Pagos de creación y amortización al Intermediario de valores. El Emisor realiza Pagos de creación y amortización a los Participantes autorizados.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                |
| B.29 | Descripción del flujo de fondos | <p>Los Valores Micro y sobre Materias Primas pueden comprarse y venderse a cambio de efectivo en la Bolsa de Londres y ciertos Valores sobre Materias Primas pueden comprarse y venderse a cambio de efectivo también en Euronext Amsterdam, NYSE Euronext Paris, la <i>Borsa</i> Italiana y la Bolsa de Fráncfort (que son las bolsas en las que los valores están admitidos a negociación) o en transacciones privadas fuera de los mercados. Los datos de los mercados en los que puede negociarse un determinado tipo de valores figuran en un documento titulado “Condiciones Definitivas” elaborado por el Emisor cada vez que se emiten los valores. Los creadores de mercado aportan liquidez en estos mercados y para estas transacciones, pero sólo los Participantes Autorizados pueden solicitar directamente al emisor la emisión de Valores Micro y sobre Materias Primas. El Emisor ha celebrado Contratos de Participantes Autorizados y ha acordado con los participantes Autorizados emitir a su favor Valores Micro y sobre Materias Primas de forma continuada. Los Participantes Autorizados pueden vender los Valores Micro y sobre Materias Primas en un mercado o en una transacción fuera de los mercados, o bien conservar ellos mismos dichos valores.</p> <p>En el momento de la emisión de Valores sobre Materias Primas, los Participantes Autorizados deberán abonar a la Contraparte de Contratos de Materias Primas una cantidad de efectivo equivalente al precio de los Valores sobre Materias Primas a emitir, a cambio de la cual el Emisor emitirá los Valores sobre Materias Primas y los entregará al Participante Autorizado a través de CREST.</p> <p>En el momento de la amortización de los Valores Micro y sobre Materias Primas por un Participante Autorizado (y, en ciertos casos limitados, por otros Titulares de Valores), la Contraparte de Contratos de Materias Primas deberá entregar al correspondiente Participante Autorizado una cantidad de efectivo equivalente al precio de los Valores Micro y sobre Materias Primas a amortizar, a cambio de la entrega de los Valores Micro y sobre Materias Primas por el Titular de los Valores que los amortiza.</p> |

|                             |                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| B.30                        | Originadores de los activos titulizados | <p>Los Contratos de Materias Primas se celebran con las Contrapartes de Contratos de Materias Primas.</p> <p>A la fecha de este Folleto, el Emisor ha llegado a acuerdos con MLI y CGML para que actúen como Contrapartes de Contratos de Materias Primas.</p> <p>MLI es una sociedad constituida y registrada en Inglaterra y Gales, con número 2312079, y domicilio social en King Edward Street 2, Londres EC 1HQ, Reino Unido. La actividad principal de MLI es proveer de una amplia gama de servicios financieros a nivel global para empresas de origen europeo, Oriente Medio y África, Asia-Pacífico y las Américas, actuando como intermediario y distribuidor en instrumentos financieros y proveyendo de servicios de finanzas corporativas.</p> <p>CGML es una sociedad constituida y registrada en Inglaterra y Gales, con número 1763297, y domicilio social en Citigroup Centre, Canada Square, Canary Wharf, Londres E14 5LB, Reino Unido. CGML tiene gran presencia internacional como agente, creador de mercado y colocador de capitales, incluyendo renta fija y materias primas, así como proveedor de asesoramiento a una amplia gama de clientes de empresas privadas, institucionales y del sector público. Tiene su sede en Londres y opera globalmente a través de Reino Unido y sus ramas en Europa y el Oriente Medio.</p> <p>El Folleto se actualizará en caso de designarse nuevas Contrapartes de Contratos de Materias Primas.</p> |
| <b>APARTADO C - Valores</b> |                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| C.1                         | Tipo y clase de valores ofrecidos       | <p>Los Valores Micro y sobre Materias Primas están diseñados para ofrecer a los inversores una “rentabilidad total” similar a la que puede obtenerse gestionando una posición larga no apalancada garantizada plenamente en efectivo en contratos de futuros con vencimientos específicos, menos las comisiones aplicables. A diferencia de la gestión de posiciones de futuros, los Valores Micro y sobre Materias Primas no conllevan comisiones de renovación, de demandas de cobertura suplementaria, de expiración o de futuros.</p> <p>El Emisor ha creado y puesto a disposición para su emisión 84 tipos de Valores sobre Materias Primas, cada uno de las cuales ofrece a los inversores exposición a las variaciones porcentuales diarias en los movimientos de uno de los Índices de Materias Primas y que pueden clasificarse en dos tipos:</p> <ul style="list-style-type: none"> <li>- Valores Individuales y</li> <li>- Valores de Índices.</li> </ul> <p>Estos comprenden 54 clases de Valores Individuales (que representan 29 valores diferentes y dos vencimientos diferentes) y 28 categorías de Valores de Índices (que representan 18 combinaciones diferentes de valores y dos vencimientos diferentes).</p> <p><i>Características de las clases y categorías</i></p>                                                                                                                                                                        |

La rentabilidad de los Valores Micro y sobre Materias Primas está vinculada en cada caso al comportamiento de los correspondientes Índices de Materias Primas, de acuerdo con lo siguiente:

- los Valores Individuales Clásicos siguen los Índices de Materias Primas que proporcionan exposición a los movimientos del valor de los contratos de futuros en un tipo de materia prima y tienen un plazo de entrega de entre uno y tres meses;
- los Valores de Índices Clásicos siguen los Índices de Materias Primas que proporcionan exposición a los movimientos del valor de los contratos de futuros en distintas materias primas y tienen un plazo de entrega de entre uno y tres meses;
- los Valores Individuales a Más Largo Plazo siguen los Índices de Materias Primas que proporcionan exposición a los movimientos del valor de los contratos de futuros en un tipo de materia prima y tienen un plazo de entrega de entre cuatro y seis meses, y
- los Valores de Índices a Más Largo Plazo siguen los Índices de Materias Primas que proporcionan exposición a los movimientos del valor de los contratos de futuros en distintas materias primas y tienen un plazo de entrega de entre cuatro y seis meses,

en todos los casos, más un ajuste por el tipo de interés sin riesgo devengado para una posición completamente garantizada en los correspondientes contratos de futuros subyacentes.

***Resumen para la emisión concreta:***

Los datos siguientes son de aplicación a los Valores Micro o sobre Materias Primas emitidos con arreglo a las Condiciones Definitivas:

|                                                                                 |                                             |

| C.5 | Restricciones a la transmisión | No aplicable; los Valores Micro y sobre Materias Primas son libremente transmisibles.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| C.8 | Derechos                       | <p>Los Valores Micro y sobre Materias Primas facultan a los Participantes Autorizados para exigir la amortización de la garantía por el Emisor y para recibir la mayor de las siguientes cantidades: (i) la denominación mínima para el tipo en cuestión de Valores Micro y sobre Materias Primas (el “<b>Principal</b>”) y (ii) el precio de ese tipo de Valores Micro y sobre Materias Primas en la fecha aplicable determinado conforme a la Fórmula establecida y descrita en C.15.</p> <p>Normalmente, sólo los Participantes Autorizados tratarán directamente con el Emisor para la amortización de los Valores Micro y sobre Materias Primas. En los supuestos en que no haya ningún Participante Autorizado o cuando el Emisor así lo determine a su exclusiva discreción, los Titulares de Valores que no sean Participantes Autorizados podrán solicitar directamente al Emisor la amortización de sus valores.</p> <p><b>Recursos limitados</b></p> <p>Las obligaciones del Emisor respecto de cada clase de Valores Micro y sobre Materias Primas están garantizadas por un cargo a favor del Fideicomisario y por una cesión de los derechos del Emisor en tanto se refieran a esa clase. El Fideicomisario y los Tenedores de Valores de cualquier clase de Valores Micro y sobre Materias Primas sólo podrán recurrir a las cantidades derivadas de los activos relacionados con esa clase. Si los ingresos netos son insuficientes para que el Emisor pueda efectuar todos los pagos debidos, el Fideicomisario o cualquier otra persona que actúe en nombre del Fideicomisario, no tendrá derecho a tomar ninguna otra medida contra el Emisor y el Emisor no deberá ninguna deuda con respecto a esa suma adicional.</p> <p><b>Prioridad de los pagos</b></p> <p>Todo el dinero recibido por el Fideicomisario una vez se hayan realizado los activos relevantes para una clase particular de Valores Micro y sobre Materias Primas será mantenido en fideicomiso por el Fideicomisario y se utilizará según el siguiente el orden:</p> <ul style="list-style-type: none"> <li>- Pagos debidos al Fideicomisario (y a las personas designadas por el Fideicomisario) y los pagos debidos a cualquier destinatario y los costes de realización de la garantía;</li> <li>- Pagos o ejecución de todas las cantidades adeudadas e impagadas y todas las obligaciones debidas con respecto a los Valores Micro y sobre Materias Primas de esa clase; y</li> </ul> |

|      |                                   | <p><b>Factor Común</b><br/>El Factor Común tendrá siempre valor 1, a menos que los correspondientes Valores Micro o sobre Materias Primas estén divididos.</p> <p><b>Multiplicador</b><br/>Las comisiones para cada clase se deducen del Precio de la clase correspondiente cada día por la aplicación del Multiplicador.</p> <p>El Multiplicador (<math>M_{(i,t)}</math>) se ajusta cada día con arreglo a la siguiente fórmula:</p> $M_{(i,t)} = M_{(i,t-1)} \times (1 + CA_{(i,t)})$ <p>donde:</p> <p><math>M_{(i,t)}</math> es el Multiplicador de la clase correspondiente de Valor Individual en el día de cálculo del Multiplicador;</p> <p><math>i</math> hace referencia a la clase en cuestión de Valor Individual;</p> <p><math>t</math> hace referencia al día de cálculo del Precio;</p> <p><math>M_{(i,t-1)}</math> hace referencia al Multiplicador de la clase correspondiente de Valor Individual el día anterior al día de cálculo del Multiplicador, y</p> <p><math>CA_{(i,t)}</math> es el Ajuste de Capital aplicable a la clase correspondiente de Valor Individual el día de cálculo del Multiplicador.</p> <p>En cada momento, un Valor Micro de una determinada clase tiene un precio equivalente a una millonésima del precio de la clase correspondiente de Valor Individual.</p> <p>El precio de un Valor de Índice es la suma de los precios de los Valores Micro de los que está compuesto.</p> <p><b>Ajuste de capital</b><br/>El Ajuste de Capital es un factor de ajuste incluido en el cálculo del Multiplicador y acordado en cada momento por las Contrapartes de Contratos de Materias Primas y el Emisor. El Ajuste de Capital refleja un interés de devolución en el valor invertido en ese tipo de Valor Micro y sobre Materias Primas y las comisiones pagaderas por el Emisor a ManJer, las Contrapartes de Contratos de Materias Primas y los proveedores de índices. El Ajuste de Capital aplicable a cada clase de Valor Micro o sobre Materias Primas en un determinado día se publica en la página web del emisor en <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a></p> <p>La fórmula y el método utilizados para calcular el Precio son los mismos para todas las clases de Valores Individuales, todas las clases de Valores Micro y todas las categorías de Valores de Índices.</p> |
| C.16 | Fecha de expiración / vencimiento | No aplicable; los Valores Micro y sobre Materias Primas son valores de duración indefinida y no tienen una determinada fecha de vencimiento ni de expiración.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| C.17 | Liquidación                       | <p><b>CREST</b><br/>El Emisor es un emisor participante en CREST, un sistema de liquidación</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

electrónica de transmisiones y tenencia de valores.

**Liquidación de creaciones y amortizaciones**

A la creación o amortización de los Valores Micro y sobre Materias Primas, se producirá la liquidación (siempre que se cumplan determinadas condiciones) el segundo día hábil siguiente a la recepción de la correspondiente solicitud de creación o reembolso en condiciones de entrega contra pago en el marco de CREST.

**Liquidación en la Bolsa de Fráncfort**

Para una correcta entrega de los Valores Micro y sobre Materias Primas en la Bolsa de Fráncfort, Clearstream Banking Aktiengesellschaft (“Clearstream”) emitirá, para cada serie y número correspondiente de Valores Micro y sobre Materias Primas, un Certificado Global al Portador (el “**Certificado Global al Portador**”) en alemán y con arreglo al derecho alemán. Si se produce un cambio en el número de Valores Micro y sobre Materias Primas representados por el Certificado Global al Portador, Clearstream realizará la modificación correspondiente en el Certificado Global al Portador.

**Liquidación en NYSE Euronext ESES**

Las liquidaciones en los mercados de Euronext de Francia y los Países Bajos se realizan a través de la plataforma de Euroclear Settlement for Euronext-zone Securities (“ESES”) y todas las operaciones de valores Micro y sobre Materias Primas negociados en NYSE Euronext Paris o NYSE Euronext Amsterdam se ejecutarán en el libro de órdenes único que se mantiene en NYSE Euronext Paris, como mercado de referencia.

**Liquidación en la Borsa Italiana S.p.A.**

Todos los Valores Micro y sobre Materias Primas negociados en la Borsa Italiana S.p.A. son admisibles para liquidación a través de los sistemas ordinarios de liquidación de Monte Titoli S.p.A. en las cuentas de depósito abiertas en esta entidad.

***Resumen para la emisión concreta:***

Para una correcta entrega de los Valores Micro o sobre Materias Primas emitidos con arreglo a las Condiciones Definitivas en la Bolsa de Fráncfort, Clearstream Banking Aktiengesellschaft (“Clearstream”) emitirá, para cada serie y número correspondiente de Valores Micro y sobre Materias Primas, un Certificado Global al Portador (el “Certificado Global al Portador”) en alemán y con arreglo al derecho alemán. Si se produce un cambio en el número de Valores Micro o sobre Materias Primas representados por el Certificado Global al Portador, Clearstream realizará la modificación correspondiente en el Certificado Global al Portador.

| C.18 | Descripción de la rentabilidad                                             | <p>El precio de cada Valor Micro o sobre Materias Primas refleja los movimientos de los correspondientes Índices de Materias Primas desde el día anterior al del cálculo del Precio, ajustado mediante la deducción de las comisiones correspondientes. Por tanto, la rentabilidad de una clase o categoría determinada dependerá principalmente del comportamiento del correspondiente Índice de Materias Primas.</p> <p>Para ello, el precio de los Valores Individuales y los Valores Micro a través de los cuales el Emisor obtiene exposición a los Índices de Materias Primas se calcula con arreglo a la Fórmula. Esta Fórmula refleja (a) el movimiento del correspondiente Índice de Materias Primas desde el último día de cálculo del precio y (b) las comisiones a pagar por el Emisor a la Contraparte del Contrato de Materias Primas con arreglo al Contrato de Financiación y a ManJer. La deducción de estas comisiones figura en el ajuste de capital referenciado en la Fórmula.</p> <p>En el caso de los Valores de Índices, el Precio es la suma de los Precios de los Valores Micro de los que están compuestos.</p> <p>El Emisor calculará el Precio de cada tipo de Valor Micro y sobre Materias Primas al término de cada día de fijación de precio (tras la publicación de los precios del mercado de futuros para ese día) y lo expondrá junto con el correspondiente Multiplicador y el Ajuste de Capital en la página web del Emisor en <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a>.</p> <p>Los Valores Micro y sobre Materias Primas no devengan intereses. La rentabilidad para el inversor es la diferencia entre el precio de emisión (o de compra en el mercado secundario) de los Valores Micro o sobre Materias Primas en cuestión y su precio de reembolso (o venta).</p> <p><b>Resumen para la emisión concreta:</b><br/>Los Valores Micro y sobre Materias Primas proporcionan una rentabilidad vinculada a Bloomberg Heating Oil Subindex Total Return. Puede obtenerse más información en <a href="http://www.bloombergindexes.com">http://www.bloombergindexes.com</a>.</p> |
| C.19 | Precio final / precio de ejercicio                                         | <p>Los precios de cada tipo de Valor Micro y sobre Materias Primas se calculan en cada día de fijación de precio con arreglo a la Fórmula, y las amortizaciones de los Valores Micro y sobre Materias Primas con el Emisor se realizarán al precio correspondiente (determinado por la Fórmula) en la fecha de recepción de la solicitud de reembolso.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| <b>APARTADO D - Riesgos</b> |                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| D.2                         | Riesgos básicos del Emisor         | <p>El Emisor se ha constituido como entidad instrumental para la emisión de los Valores sobre Materias Primas Clásicos de ETFs y los Valores sobre Materias Primas a Más Largo Plazo de ETFs y ciertos otros valores (los “<b>Valores sobre Materias Primas en Corto y Apalancados</b>”), que se emiten como valores respaldados por activos con arreglo a su propio folleto base del Emisor de fecha 29 de mayo de 2019, y no posee más activos que los correspondientes a los Valores Micro y sobre Materias Primas y los Valores sobre Materias Primas en Corto y Apalancados. Las cantidades que un Titular de Valores podría recibir tras una reclamación al Emisor están, por tanto, limitadas a los resultados de la realización de los bienes garantizados aplicables a cada clase o categoría de Valores Micro y sobre Materias Primas del Titular de Valores, y dado que el Emisor es una entidad instrumental constituida para el único fin de emitir los Valores Micro y sobre Materias Primas y los Valores sobre Materias Primas en Corto y Apalancados, y dado que los Valores Micro y sobre Materias Primas no están garantizados por ninguna otra persona, el Emisor no tendría más activos contra los cuales pueda reclamar el Titular de los Valores. Si los bienes garantizados fueran insuficientes para cubrir la cantidad adeudada al Titular de los Valores, éste sufriría pérdidas.</p> <p>Aunque los Valores Micro y sobre Materias Primas están garantizados por Contratos de Materias Primas y una garantía, el valor de estos Valores y la capacidad del Emisor de pagar los importes de la amortización dependen en parte de la recepción de las cantidades adeudadas por MLI y CGML en virtud de los Contratos de Financiación, la Garantía de BAC, la Garantía de Citigroup, los Contratos de Garantía y los Contratos de Control. Ningún titular tiene derechos directamente exigibles contra estas personas.</p> <p>No puede garantizarse que MLI, CGML u otras entidades puedan cumplir sus obligaciones de pago derivadas de los correspondientes Contratos de Materias Primas, el Contrato de Financiación, la Garantía de BAC, la Garantía de Citigroup, el Contrato de Garantía o el Contrato de Control. Por consiguiente, no puede garantizarse que el Emisor pueda amortizar los Valores Micro y sobre Materias Primas a su precio de reembolso, en cuyo caso el inversor podría recibir tras la amortización una cantidad inferior a dicho precio de reembolso.</p> |
| D.3                         | Principales riesgos de los valores | <p>Los precios de las materias primas pueden variar, por lo que el valor de los Valores Micro y sobre Materias Primas puede experimentar grandes cambios.</p> <p>En situaciones en las que el coste de los contratos de futuros para entrega en fechas posteriores sea superior a los de entrega en fechas más cercanas, el valor del correspondiente Índice de Materias Primas se reducirá a lo largo del tiempo a menos que el precio al contado se incremente en la</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|     |                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                    | <p>misma proporción que la tasa de variación del precio del contrato de futuros. La tasa de variación puede ser bastante importante y mantenerse por un tiempo indefinido, reduciendo el valor del Índice de materias primas y, por tanto, el precio de los Valores Micro y sobre Materias Primas vinculados a ese Índice.</p> <p>Los Valores Micro y sobre Materias Primas tienen su precio fijado en dólares estadounidenses, por lo que su valor en otras divisas puede verse afectado por las fluctuaciones de los tipos de cambio.</p> <p>Puede haber días en los que las perturbaciones en los mercados de materias primas subyacentes impidan fijar precio a los Valores Micro y sobre Materias Primas en ese día. Esto provocaría una demora en el proceso de solicitud o reembolso, lo que podría afectar negativamente a los inversores potenciales o efectivos.</p> <p>En caso de ejecución de la garantía de una Contraparte de Contratos de Materias Primas, el valor de los activos realizados puede ser inferior al necesario para cubrir el importe del reembolso adeudado a los Titulares de los Valores. La ejecución puede también requerir cierto tiempo, por lo que el Titular de los Valores puede sufrir demoras en la recepción de las cantidades adeudadas. El Titular de los Valores puede sufrir también pérdidas si los activos ejecutados son inferiores al importe de amortización adeudado.</p> |
| D.6 | Principales riesgos de los valores | La rentabilidad anterior de los Valores Micro y sobre Materias Primas no es indicativa de su comportamiento futuro, el cual puede ser volátil, por lo que los inversores en Valores Micro y sobre Materias Primas pueden perder la totalidad o parte del valor de su inversión.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

#### APARTADO E – Oferta

|      |                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## SAMMANFATTNING

### ETFS Commodity Securities Limited

#### Prospektsammanfattning

#### Grundprospekt daterat den 29 maj 2019 för emission av ETFS Klassiska Råvarurelaterade Värdepapper och ETFS Råvarurelaterade Långfristiga Värdepapper

Sammanfattningar består av informationskrav som kallas 'Punkter'. Dessa Punkter är uppställda i nummerföljd i Avsnitten A - E (A.1 – E.7).

Denna Sammanfattning innehåller alla de Punkter som ska inkluderas för en sammanfattning för den nu aktuella typen av värdepapper och emittent. Eftersom vissa Punkter inte måste ingå kan det vara luckor i nummerföljden för Punkterna.

Även om en viss Punkt ska ingå i sammanfattningen mot bakgrund av den aktuella typen av värdepapper och emittent, kan det förhålla sig så att ingen information finns att återge under den Punkten. I dessa fall anges endast en kort beskrivning av Punkten med angivande av 'Ej tillämplig'.

#### AVSNITT A – Introduktion och varningar

|     |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| B.1<br>6 | Direkt/ indirekt kontroll över Emittenten            | Aktierna i Emittenten innehas av ETFS Holdings (Jersey) Limited (" <b>Holdingbolaget</b> "), ett holdingbolag bildat på Jersey. Aktierna i Holdingbolaget ägs av WisdomTree Investments, Inc. Emittenten är varken direkt eller indirekt kontrollerad av någon annan person som ingår i programmet.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| B.1<br>7 | Kreditvärdighetsbetyg för Emittenten                 | Ej tillämpligt – Emittenten har inte tilldelats ett kreditvärdighetsbetyg och det är inte avsikten att något Microrelaterade Värdepapper och Råvarurelaterade Värdepapper ska tilldelas kreditvärdighetsbetyg.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| B.2<br>0 | Specialföretag                                       | Emittenten har etablerats som ett specialföretag för ändamålet att emittera skuldvärdepapper.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| B.2<br>1 | Huvudsakliga verksamheter och översikt av parter     | <p>Den huvudsakliga verksamheten för Emittenten är att emittera flera typer av klasser av skuldvärdepapper vilka har bakomliggande tillgångar i form av derivatkontrakt relaterade till råvaruindex. Enligt detta Prospekt emitterar Emittenten skuldvärdepapper ("<b>Microrelaterade Värdepapper och Råvarurelaterade Värdepapper</b>") vilka (före avgifter och kostnader) ger exponering mot rörelser i angivna råvaruindex som beräknas och publiceras av Bloomberg L.P. och/eller Bloomberg Finance L.P. och/eller av ett närstående företag till någon av dem (tillsammans "<b>Bloomberg</b>") ("<b>Råvaruindex</b>" och var för sig, "<b>Råvaruindex</b>"). Råvaruindex följer förändringar i pris för enskilda råvaruterminer eller korgar med råvaruterminskontrakt. Fram till och med den 30 juni 2014 beräknades och publicerades Råvaruindex av CME GROUP Index Services LLC i samarbete med UBS Securities LLC och var kända som Dow Jones – UBS Commodity Indices<sup>SM</sup>. Emittenten har etablerat ett program under vilket olika klasser av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper kan emitteras från tid till annan.</p> <p>Emittenten åstadkommer en avkastning baserad på rörelser i de relevanta Råvaruindex genom att ingå fullt finansierade säkerställda derivatkontrakt ("<b>Råvarukontrakt</b>") med Merrill Lynch International ("<b>MLI</b>") och Citigroup Global Markets Limited ("<b>CGML</b>") Tillsammans benämns MLI och CGML "<b>Motparter i Råvarukontrakt</b>". Villkoren för Råvarukontrakten som har köpts eller kommer att köpas av Emittenten är underkastade (i) ett avtal benämnt "<i>MLI Facility Agreement relating to Classic and Longer Dated Commodity Contracts</i>" mellan Emittenten och MLI daterat</p> |

den 29 juni 2017 ("**MLI-Facilitetsavtalet**"); och (ii) ett avtal mellan Emittenten och CGML daterat den 29 juni 2017 benämnt "**CGML Facility Agreement relating to Classic and Longer Dated Commodity Contracts**" mellan Emittenten och CGML daterat den 29 juni 2017 ("**CGML-Facilitetsavtalet**"). Betalningsförpliktelserna för MLI under MLI-Facilitetsavtalet stöds av en garanti ("**BAC-Garantin**") från bank of America Corporation ("**BAC**"), och betalningsförpliktelserna för CGML under CGML-Facilitetsavtalet stöds av en Garanti ("**Citigroup-Garantin**") från Citigroup Global Markets Holdings Inc. ("**CGHM**"), var och en ställd till förmån för Emittenten.

Förpliktelserna för Motparterna i Råvarukontrakt i förhållande till Emittenten under Råvarukontrakten säkerställs av säkerheter som ställs av Motparter i Råvarukontrakt ("**Säkerheten**") och finns på konton hos The Bank of New York Mellon ("**BNYM**"). Enligt (i) ett Security Agreement mellan MLI och Emittenten daterat den 29 juni 2017 ("**MLI Security Agreement**") och ett Control Agreement mellan BNYM, MLI och Emittenten daterat den 29 juni 2017 ("**MLI Control Agreement**") och (ii) ett Security Agreement mellan BNYM, CGML och Emittenten daterat den 29 juni 2017 ("**CGML Security Agreement**") och ett Control Agreement mellan BNYM, CGML och Emittenten daterat den 29 juni 2017 ("**CGML Control Agreement**"), är CGML och MLI ålagda att överföra till ett konto för säkerheter, värdepapper och förpliktelser motsvarande värdet av Emittentens totala exponering under Råvarukontrakten till MLI eller CGML (så som tillämpligt). Säkerheten justeras dagligen för att återspegla värdet på de relevanta Råvarukontrakten.

Microrelaterade Värdepapper och Råvarurelaterade Värdepapper kan emitteras till och inlösas på daglig basis på begäran av finansiella institutioner ("**Auktoriserade Deltagare**") som har (i) ingått ett avtal benämnt "**Avtal avseende Auktoriserade Deltagare**" med Emittenten; (ii) har visat sin status under engelsk lagstiftning (*Financial Services and Markets Act 2000*) ("**FSMA**") för Emittenten; och (iii) (med undantag för Motparter i Råvarukontrakt som ingått ett Avtal avseende Auktoriserade Deltagare med Emittenten) har ingått ett motsvarande avtal benämnt "**Direktavtal**" med åtminstone en Motpart i Råvarukontrakt och som inte har meddelats av sådan Motpart i Råvarukontrakt att man inte är en icke accepterad auktoriserad deltagare avseende den Motparten i Råvarukontrakt. Andra innehavare av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper kan även lösa in Microrelaterade Värdepapper och Råvarurelaterade Värdepapper om det inte finns någon Auktoriserad Deltagare eller om Emittenten meddelar så. Alla andra personer kan köpa och sälja Microrelaterade Värdepapper och Råvarurelaterade Värdepapper genom handel på en börs eller marknad där de Microrelaterade Värdepapperen och de Råvarurelaterade Värdepapperen har tagits upp till handel.

Microrelaterade Värdepapper och Råvarurelaterade Värdepapper konstitueras enligt ett avtal benämnt "**Trust Instrument**" mellan Emittenten och The Law Debenture Trust Corporation p.l.c. som företrädare ("**Företrädaren**") avseende samtliga rättigheter och

Microrelaterade Värdepapper och Råvarurelaterade Värdepapper av varje klass har bakomliggande Råvarukontrakt som motsvarande villkor varje gång som ett Microrelaterat Värdepapper eller ett Råvarurelaterat Värdepapper skapas eller blir inlöst så köps eller annulleras ett motsvarande antal Råvarukontrakt av Emittenten. Råvarukontrakt kommer köpas från en eller flera Motparter i Råvarukontrakt.</p> |  |            |            |  |           |           |  |                      |                      |  |   |   |  |              |            |  |                     |                   |  |                      |                      |

Emittenten kommer att avböja ansökningar om Microrelaterade Värdepapper och Råvarurelaterade Värdepapper om denne inte av något skäl kan skapa motsvarande Råvarukontrakt med en Motpart i Råvarukontrakt.

Vid dagen för detta Prospekt har Emittenten ingått arrangemang med två Motparter i Råvarukontrakt – UBS och MLCI. Från och med Ikraftträdandedagen fram till (men inte inklusive) UBS Avslutandedagen kommer Emittenten att ha ingått arrangemang med MLI, CGML och UBS som Motparter - MLI och CGML.

Under Facilitetsavtalet finns det limiter, både dagligen och sammantaget, beträffande kvantiteten av Råvarukontrakt som kan skapas eller avslutas vid varje tidpunkt. Skapande och inlösen av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper är underkastade både dagliga limiter och totala aggregerade limiter för att återspegla limiterna för Råvarukontrakten.

MLI är ett bolag bildat och registrerat i England och Wales under nummer 2312079, vars registrerade kontor på 2 King Edward Street, London EX1A 1HQ England. MLI:s huvudsakliga verksamhet är att erbjuda ett brett spektrum av finansiella tjänster globalt för verksamhet med ursprung i Europa, Mellanöstern, Afrika, Stilla Havsområdet och Amerika, att verka som mäklare och handlare med finansiella instrument och erbjuda företa finansiella tjänster.

BAC är ett bankholdingbolag och ett finansiellt holdingbolag som inkorporerades i staten Delaware, USA. Genom BAC:s bankdotterföretag, och andra dotterföretag som inte är banker på amerikanska och internationella marknader, betjänar BAC privatpersonskunder, små och medelstora företag, institutionella investerare, stora bolag och regeringar med ett fullt spektrum av bank-, investerings-, tillgångsförvaltnings- samt andra finansiella och riskhanteringsprodukter och tjänster. BAC:s huvudkontor finns på 100 North Tryon Street, Charlotte, NC 28225, USA.

CGML är ett bolag bildat och registrerat i England och Wales under nummer 1763297 vars registrerade kontor ligger på Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, Storbritannien. Beskrivning av  
flödet av medel

Microrelaterade och Råvarurelaterade Värdepapper kan köpas eller säljas mot kontant betalning på Londonbörsen och vissa av de Råvarurelaterade Värdepapperen kan också köpas mot kontant betalning på Euronext Amsterdam, NYSE Euronext Paris, Borsa Italiana och/eller Frankfurt Stock Exchange (som är de andra börser där dessa är upptagna till handel) eller i privata transaktioner utanför börsen. Uppgifter om de börser på vilka en viss typ av värdepapper kan handlas anges i ett dokument som benämns "Final Terms" (Slutliga Villkor), framtaget av Emittenten varje gång som värdepapper emitteras. Market-makers tillhandahåller likviditet på dessa börser och för dessa transaktioner med endast Auktoriserade Deltagare kan ansöka direkt hos Emittenten för emissionen av Råvarurelaterade Värdepapper. Emittenten har ingått Avtal avseende Auktoriserade Deltagare och har avtalat med Auktoriserade Deltagare att emitter Råvarurelaterade Värdepapper till dessa Auktoriserade Deltagare på löpande basis. En Auktoriserad Deltagare kan sälja Microrelaterade och Råvarurelaterade Värdepapper på en börs eller i en transaktion utanför börsen eller inneha värdepapperen själv.

Vid emission av Råvarurelaterade Värdepapper, måste en Auktoriserad Deltagare leverera ett kontantbelopp till Motparten i Råvarukontrakt som motsvarar kursen för de Råvarurelaterade Värdepapper som emitteras och i utbyte mot detta emitterar Emittenten de Råvarurelaterade Värdepapperen och levererar dessa till den Auktoriserade Deltagaren via CREST.

Vid inlösen av Microrelaterade och Råvarurelaterade Värdepapper av en Auktoriserad Deltagare (och, under vissa begränsade

| C.1                            | Typ och klass av värdepapper som erbjuds           | <p>Microrelaterade och Råvarurelaterade Värdepapper är konstruerade för att ge investerare en 'totalavkastning' (<i>total return</i>) liknande den som skulle erhållas genom att förvalta en lång, fullt kontant säkerställd position utan hävstång i terminskontrakt med specifika löptider, minskat med tillämpliga avgifter. Till skillnad från förvaltning av positioner i terminskontrakt involverar Microrelaterade och Råvarurelaterade Värdepapper inte rullning, krav på säkerhetsmarginal, utlöpande och courtage avseende terminskontrakt.</p> <p>Emittenten har skapat och tillhandahåller för närvarande för emission 84 olika typer av Råvarurelaterade Värdepapper, som var och en ger investerare exponering mot rörelser i ett av Råvaruindex och vilka kan grupperas i två olika typer:</p> <ul style="list-style-type: none"> <li>• Värdepapper med Enskild Exponering; och</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

- Indexrelaterade Värdepapper.

Dessa består av 54 olika klasser av Värdepapper med Enskild Exponering (representerar 29 olika råvaror och två olika löptider) och 28 olika kategorier av Indexrelaterade Värdepapper (representerar 18 olika kombinationer av råvaror och två löptider).

**Kännetecknen för klass och kategori**

Avkastningen på Microrelaterade Värdepapper och Råvarurelaterade Värdepapper är, i samtliga fall, relaterad till utvecklingen för de relaterade Råvaruindex enligt följande:

- Klassiska Värdepapper med Enskild Exponering följer Råvaruindex som ger exponering mot rörelser i värde för terminskontrakten i en typ av råvara och förfaller till leverans inom en till tre månader;
- Klassiska Indexrelaterade Värdepapper följer Råvaruindex som ger exponering mot rörelser i värde för terminskontrakt i ett antal olika råvaror och förfaller till leverans inom en till tre månader;
- Långfristiga Värdepapper med Enskild Exponering följer Råvaruindex som ger exponering mot rörelser i värde för terminskontrakten i en typ av råvara och förfaller till leverans inom fyra till sex månader; och
- Långfristiga Indexrelaterade Värdepapper följer Råvaruindex som ger exponering mot rörelser i värde för terminskontrakt i ett antal olika råvaror och förfaller till leverans inom fyra till sex månader,

i varje fall, med justering för den riskfria räntan som beräknas löpa i förhållande till en helt säkerställd position i det underliggande terminskontraktet.

**Emissionsspecifik sammanfattning:**

Det följande är tillämpligt på Microrelaterade Värdepapper eller Råvarurelaterade Värdepapper som emitteras i enlighet med de Slutliga Villkoren:

$$\text{Kurs}_{(i,t)} = I_{(i,t)} \times M_{(t)} \times \text{PF}_{(i,t)} / 10$$

där:

$\text{Kurs}_{(i,t)}$  är Kursen för ett Värdepapper med Enskild Exponering av den relevanta klassen på den dag för vilken Kursen beräknas;  
 $i$  avser den relevanta klassen av Värdepapper med Enskild Exponering;  
 $t$  avser den dag för vilken Kursen beräknas;  
 $I_{(i,t)}$  är nivån för det Råvaruindex som den relevanta klassen av Värdepapper med Enskild Exponering relaterar till, på dagen för vilken Kursen beräknas;  
 $M_{(i,t)}$  är Multiplikatorn tillämplig på den relevanta klassen av Värdepapper med Enskild Exponering på dagen för vilken Kursen beräknas; och  
 $\text{PF}_{(i,t)}$  avser Poolfaktorn som är tillämplig för den relevanta klassen av Värdepapper med Enskild Exponering på dagen för vilken Kursen beräknas.

Den tillämpliga Multiplikatorn offentliggörs från tid till annan av Emittenten på dess webbplats <https://www.wisdomtree.eu/retail/uk/en-gb/pricing.aspx>.

Denna kursformel reflekterar (i) kursen för det underliggande Råvaruindex och (ii) avgifter som Emittenten ska erlægga till Motparter i Råvarukontrakt och ManJer. Avdraget för avgifter från Emittenten till Motparter i Råvarukontrakt och ManJer reflekteras i Kapitaljusteringen som ingår i kursformeln.

#### **Poolfaktor**

Poolfaktorn är ett tal som alltid kommer vara 1 om inte de relevanta Microrelaterade Värdepapperen och Råvarurelaterade Värdepapperen delas.

#### **Multiplikator**

Avgifterna för varje klass dras av från Kursen för sådan klass på en daglig basis genom att Multiplikatorn appliceras.

Multiplikatorn ( $M_{(i,t)}$ ) justeras varje dag i enlighet med följande formel:

$$M_{(i,t)} = M_{(i,t-1)} \times (1 + \text{CA}_{(i,t)})$$

där:

$M_{(i,t)}$  är Multiplikatorn för den relevanta klassen av Värdepapper med Enskild Exponering på dagen för vilken Kursen beräknas;  
 $i$  avser den relevanta klassen av Värdepapper med Enskild Exponering;

|          |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

att emittera, för varje serie och relevant antal Microrelaterade Värdepapper och Råvarurelaterade Värdepapper, ett Globalt Certifikat i Innehavarform (var för sig ett "**Global Innehavarcertifikat**") på tyska språket och under tysk rätt. Närhelst antalet Microrelaterade Värdepapper och Råvarurelaterade Värdepapper som representeras av ett Globalt Innehavarcertifikat, ändras kommer Clearstream att ändra det berörda Globala Innehavarcertifikatet i motsvarande mån.

**Avveckling på NYSE Euronext ESES**

Avveckling på Euronext-marknaderna i Frankrike och Nederländerna verkställs genom plattformen Euroclear Settlement for Euronext-zone Securities ("**ESES**") och all handel i Microrelaterade och Råvarurelaterade Värdepapper på NYSE Euronext Paris eller NYSE Euronext Amsterdam kommer att utföras på den enda orderboken som hålls på NYSE Euronext Paris som referensmarknad.

**Avveckling på Borsa Italiana S.p.A.**

Alla Microrelaterade Värdepapper och Råvarurelaterade Värdepapper som handlas på Borsa Italiana S.p.A. är kvalificerade för avveckling genom Monte Titoli S.p.A.'s normala avvecklingssystem på de insättningskonton som öppnats hos Monte Titoli S.p.A.

***Emissionsspecifik sammanfattning:***

I syfte att uppnå fullgod leverans av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper emitterade enligt de Slutliga Villkoren när de handlas på Frankfurtbörsen, Clearstream Aktiengesellschaft ("Clearstream") kommer att emittera, för varje serie och relevant antal Microrelaterade Värdepapper och Råvarurelaterade Värdepapper, ett Globalt Certifikat i Innehavarform (var för sig ett "**Global Innehavarcertifikat**") på tyska språket och under tysk rätt. Närhelst antalet Microrelaterade Värdepapper eller Råvarurelaterade Värdepapper som representeras av ett Globalt Innehavarcertifikat, ändras kommer Clearstream att ändra det berörda Globala Innehavarcertifikatet i motsvarande mån.

| C.1<br>8 | Beskrivning av avkastning                                                  | <p>Kursen för varje Microrelaterat eller Råvarurelaterat Värdepapper återspeglar rörelser i det relevanta Råvaruindex sedan den föregående dagen för vilken Kursen beräknades, justerat med avdrag för tillämpliga avgifter. Följaktligen kommer avkastningen för en viss klass eller kategori att baseras på, primärt, utvecklingen för det relevanta Råvaruindex.</p> <p>För att uppnå detta, Värdepapper med Enskild Exponering och Microrelaterade Värdepapper genom vilka Emittenten erhåller exponering mot Bloomberg Indexen prissätts i enlighet med Formeln. Denna Formel återspeglar (a) rörelsen i det relevanta Råvaruindex sedan den föregående dagen för vilken Kursen beräknades och (b) avgifter som ska erläggas av Emittenten till Motparter i Råvarukontrakt under Facilitetsavtalet och till ManJer. Avdraget för avgifter som ska erläggas till Motparter i Råvarukontrakt och ManJer reflekteras i Kapitaljusteringen som ingår i kursformeln.</p> <p>För Indexrelaterade Värdepapper, är Kursen summan av Kurserna för de Microrelaterade Värdepapperen som dessa består av.</p> <p>Kursen för varje typ av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper kommer att beräknas av Emittenten per slutet av varje kurssättningsdag (efter det att terminsmarknadskurserna har offentliggjorts) och publiceras tillsammans med tillämplig Kapitaljustering och Multiplikator på Emittentens webbplats på adressen <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a></p> <p>Microrelaterade Värdepapper och Råvarurelaterade Värdepapper löper inte med ränta. Avkastningen för en investerare är skillnaden mellan kursen till vilken det relevanta Microrelaterade Värdepapperet och det Råvarurelaterade Värdepapperet emitteras (eller köps på andrahandsmarknaden) och priset till vilka det inlöses (eller säljs).</p> <p><b>Emissionsspecifik sammanfattning:</b><br/>De Microrelaterade Värdepapperen och de Råvarurelaterade Värdepapperen ger en avkastning relaterad till Bloomberg Heating Oil Subindex Total Return. Ytterligare information kan hittas på <a href="http://www.bloombergindexes.com">http://www.bloombergindexes.com</a>.</p> |

| <b>AVSNITT D - Risker</b> |                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| D.2                       | Nyckelrisker relaterade till Emittenten | <p>Emittenten har etablerats som ett specialföretag för ändamålet att emittera ETFS Klassiska Råvarurelaterade Värdepapper och ETFS Långfristiga Råvarurelaterade Värdepapper och vissa andra värdepapper ("<b>Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång</b>"), som emitteras enligt ett separat grundprospekt för Emittenten daterat på eller omkring dagen för detta Prospekt, som värdepapper med bakomliggande tillgångar och har inte några andra tillgångar än de som är hänförliga till de Microrelaterade och Råvarurelaterade Värdepapperen. Beloppen som en Värdepappersinnehavare kan erhålla efter ett krav mot Emittenten är, följaktligen, begränsade till likviderna från realiseringen av den pantsatta egendomen hänförlig till sådan Värdepappersinnehavares klass eller kategori av Microrelaterade och Råvarurelaterade Värdepapper och eftersom Emittenten är ett specialföretag etablerat endast för ändamålet att emittera Microrelaterade och Råvarurelaterade Värdepapper samt Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och eftersom Microrelaterade och Råvarurelaterade Värdepapper inte garanteras av någon annan person, kommer Emittenten inte att ha några ytterligare tillgångar gentemot vilka Värdepappersinnehavarna kan framställa anspråk. I händelse av att den pantsatta egendomen är otillräcklig för att täcka de belopp som ska erläggas till Värdepappersinnehavarna, kommer Värdepappersinnehavarna att åsamkas en förlust.</p> <p>Även om Microrelaterade Värdepapper och Råvarurelaterade Värdepapper är säkerställda genom Råvarukontrakt och säkerhet, så kvarstår faktum att värdet på sådana Microrelaterade Värdepapper och Råvarurelaterade Värdepapper och möjligheten för Emittenten att betala inlösenbelopp är delvis beroende av de belopp som erhålls från MLI och CGML under Facilitetsavtalen, BAC-Garantin, Citigroup-Garantin, Security Agreements och Control Agreements. Ingen innehavare har någon direkt rätt att kräva fullgörelse av någon sådan person.</p> <p>Det kan inte lämnas någon garanti om att MLI, CGML eller någon annan enhet kommer kunna fullgöra sina betalningsålägganden under de relevanta Råvarukontrakten, Facilitetsavtalen, BAC-</p> |

|     |                                                   | <p>Garantin, Citigroup-Garantin, Security Agreement eller Control Agreement. Följaktligen kan ingen garanti lämnas om att Emittenten kommer kunna lösa in Microrelaterade Värdepapper och Råvarurelaterade Värdepapper till dessas inlösenbelopp, vilket kan leda till att en investerare erhåller mindre än inlösenkursen vid inlösen av deras Microrelaterade och Råvarurelaterade Värdepapper.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| D.3 | <p>Nyckelrisker relaterade till värdepapperen</p> | <p>Emittenten har etablerats som ett specialföretag för ändamålet att emittera ETFS Klassiska Råvarurelaterade Värdepapper och ETFS Långfristiga Råvarurelaterade Värdepapper och vissa andra värdepapper ("<b>Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång</b>"), som emitteras enligt ett separat grundprospekt för Emittenten daterat på eller omkring dagen för detta Prospekt, som värdepapper med bakomliggande tillgångar och har inte några andra tillgångar än de som är hänförliga till de Microrelaterade och Råvarurelaterade Värdepapperen. Beloppen som en Värdepappersinnehavare kan erhålla efter ett krav mot Emittenten är, följaktligen, begränsade till likviderna från realiseringen av den pantsatta egendomen hänförlig till sådan Värdepappersinnehavares klass eller kategori av Microrelaterade och Råvarurelaterade Värdepapper och eftersom Emittenten är ett specialföretag etablerat endast för ändamålet att emittera Microrelaterade och Råvarurelaterade Värdepapper samt Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och eftersom Microrelaterade och Råvarurelaterade Värdepapper inte garanteras av någon annan person, kommer Emittenten inte att ha några ytterligare tillgångar gentemot vilka Värdepappersinnehavarna kan framställa anspråk. I händelse av att den pantsatta egendomen är otillräcklig för att täcka de belopp som ska erläggas till Värdepappersinnehavarna, kommer Värdepappersinnehavarna att åsamkas en förlust.</p> <p>Även om Microrelaterade Värdepapper och Råvarurelaterade Värdepapper är säkerställda genom Råvarukontrakt och säkerhet, så kvarstår faktum att värdet på sådana Microrelaterade Värdepapper och Råvarurelaterade Värdepapper och möjligheten för Emittenten att betala inlösenbelopp är delvis beroende av de belopp som erhålls från MLI och CGML under Facilitetsavtalen, BAC-Garantin, Citigroup-Garantin, Security Agreements och Control Agreements. Ingen innehavare har någon direkt rätt att kräva fullgörelse av någon sådan person.</p> <p>Det kan inte lämnas någon garanti om att MLI, CGML eller någon annan enhet kommer kunna fullgöra sina betalningsålägganden under de relevanta Råvarukontrakten, Facilitetsavtalen, BAC-Garantin, Citigroup-Garantin, Security Agreement eller Control Agreement. Följaktligen kan ingen garanti lämnas om att Emittenten kommer kunna lösa in Microrelaterade Värdepapper och Råvarurelaterade Värdepapper till dessas inlösenbelopp, vilket kan leda till att en investerare erhåller mindre än inlösenkursen vid inlösen av deras Microrelaterade och Råvarurelaterade Värdepapper.</p> |

|     |                                            |                                                                                                                                                                                                                                                                                                                                                                            |

| E.2 b | Erbjudande och användning av emissionslikviderna | Ej tillämplig; motiven för erbjudanden och användningen av emissionslikviderna är inte andra än att göra vinst och/eller säkra exponering.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| E.3   | Villkor för erbjudandet                          | Råvarurelaterade Värdepapper görs tillgängliga av Emittenten för teckning endast av Auktoriserade Deltagare som har skickat in en giltig teckningsansmälan och kommer endast att emitteras när teckningskursen har betalats till den relevanta Motparten i Råvarukontrakt. En Auktoriserad Deltagare måste även betala en ytterligare avgift till Emittenten om £500 för tillskapande. Teckningsansökningar för Råvarurelaterade Värdepapper som görs före klockan 14:30 Londontid på en bankdag kommer generellt att möjliggöra för den Auktoriserade Deltagaren att registreras som innehavare till relevant Råvarurelaterat Värdepapper inom två bankdagar.                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| E.4   | Väsentliga intressen eller intressekonflikter    | Ms Jones och Mr Ziembra (som är styrelseledamöter för Emittenten) är också ledamöter för ManJer och Holdingbolaget – den ende aktieägaren i Emittenten. Mr Ross och Ms Jones är även styrelseledamöter för R&H Fund Services (Jersey) Limited, administratören för Emittenten och bolagssekreteraren för Emittenten och ManJer. Styrelseledamöterna anser inte att det finns några faktiska eller potentiella intressekonflikter mellan skyldigheterna som ledamöterna och/eller medlemmar av administrativa, lednings- och tillsynsorgan hos Emittenten, har gentemot Emittenten och de privata intressena och/eller andra skyldigheter dessa kan ha.<br><br>Styrelseledamöterna hos Emittenten innehar också andra styrelseuppdrag för andra emittenter av börshandlade råvaror som också ägs av Holdingbolaget och för andra bolag i WisdomTree's koncern inklusive Boost Management Limited (ett bolag som tillhandahåller tjänster åt Boost Issuer PLC (en emittent av börshandlade produkter)), WisdomTree Management Limited och WisdomTree Issuer Plc, en emittent av börshandlade fonder med segregerade delfonder. |
| E.7   | Kostnader                                        | Emittenten tar ut följande kostnader från investerare:<br><br>Endast avseende Auktoriserade Deltagare:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

- Emittenten debiterar en avgift om £500 per skapande eller inlösen som görs direkt med Emittenten;

Avseende samtliga Värdepappersinnehavare:

- en Förvaltningsavgift om 0,49 procent per år baserad på värdet av samtliga utestående Microrelaterade Värdepapper och Råvarurelaterade Värdepapper;
- en avgift som betalas till Motparter i Råvarukontrakt om 0,45 procent per år avseende Klassiska Värdepapper och 0,60 procent per år avseende Långfristiga Värdepapper, var för sig baserat på värdet för samtliga utestående Microrelaterade Värdepapper och Råvarurelaterade Värdepapper; och
- en licensavgift om 0,05 procent per år (baserad på sammanlagda dagliga kurserna för alla till fullo betalda utestående Råvarukontrakt vid den tidpunkten) för att användas för betalning av avgifter till Bloomberg;

var och en genom applicering av Multiplikatorn.

Inga andra avgifter kommer Emittenten att ta ut av investerarna.

Om en investerare köper Microrelaterade och Råvarurelaterade Värdepapper från en finansiell mellanhand, uppskattar Emittenten att kostnaderna debiterade av en auktoriserad erbjudare i samband med försäljning av Microrelaterade Värdepapper och Råvarurelaterade Värdepapper till en investerare kommer att vara 0,15 procent av värdet av de Microrelaterade Värdepapper och Råvarurelaterade Värdepapper som säljs till sådan investerare.

***Emissionsspecifik sammanfattning:***

|                                      |           |
|--------------------------------------|-----------|
| Ansökningsavgift                     | £500      |
