

## FINAL TERMS

Dated 23 August 2019

### ETFS COMMODITY SECURITIES LIMITED

*(Incorporated and registered in Jersey under the Companies (Jersey) Law 1991 (as amended)  
with registered number 90959)*

**(the “Issuer”)**

#### **Programme for the Issue of ETFS Short and Leveraged Commodity Securities**

**Issue of**

#### **84000 ETFS 2x Daily Long Coffee Individual Securities**

**(the “ETFS Short and Leveraged Commodity Securities”)**

These Final Terms (as referred to in the prospectus (the “**Prospectus**”) dated 24 May 2019 in relation to the above Programme) relates to the issue of the ETFS Short and Leveraged Commodity Securities referred to above. The ETFS Short and Leveraged Commodity Securities have the terms provided for in the trust instrument dated 8 February 2008 as amended and supplemented by trust instruments supplemental thereto between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee constituting the ETFS Short and Leveraged Commodity Securities. Words and expressions used in these Final Terms not defined herein bear the same meaning as in the Prospectus.

These Final Terms have been prepared for the purpose of Article 5(4) of Directive 2003/71/EC and must be read in conjunction with the Prospectus and any supplement, which are published in accordance with Article 14 of Directive 2003/71/EC on the website of the Issuer: <https://www.wisdomtree.eu>. In order to get the full information both the Prospectus (and any supplement) and these Final Terms must be read in conjunction. A summary of the individual issue is annexed to these Final Terms.

The particulars in relation to this issue of ETFS Short or Leveraged Commodity Securities are as follows:

|                                                                                                         |                                                                                                                                                                                                                                                                          |
|---------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Issue Date:                                                                                             | 27 August 2019                                                                                                                                                                                                                                                           |
| Class:                                                                                                  | ETFS 2x Daily Long Coffee                                                                                                                                                                                                                                                |
| Creation Price:                                                                                         | 0.5881592                                                                                                                                                                                                                                                                |

The Issuer does not fall under Article 5.1 or 5.2 of Council Regulation (EU) No 833/2014 as amended by Council Regulation (EU) No. 960/2014 of 8 September 2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine

## SUMMARY

### ETFs Commodity Securities

#### Limited Prospectus Summary

#### Base prospectus dated 24 May 2019 for the issue of

#### ETFs Short Commodity Securities and ETFs Leveraged Commodity Securities

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted into the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of 'not applicable'.

| <b>SECTION A – Introduction and Warnings</b> |                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| B.21 | Principal activities and overview of the parties | <p>The principal activity of the Issuer is issuing several classes and types of debt security backed by derivative contracts linked to commodity indices which (before fees and expenses) provide exposure to the daily changes in such commodity indices. Pursuant to this Prospectus, the Issuer is issuing debt securities (the “<b>Short and Leveraged Commodity Securities</b>”) which (before fees and expenses) provide one times short (–1 times), three times short (–3 times), two times long (+2 times) or three times long (+3 times) exposure to the daily changes in specified commodity indices calculated and published by Bloomberg L.P. and/or Bloomberg Finance L.P. and/or an affiliate of either of them (together “<b>Bloomberg</b>”) (the “<b>Bloomberg Commodity Indices</b>” and each a “<b>Bloomberg Commodity Index</b>”). The Bloomberg Commodity Indices track movements in the price of individual commodity futures contracts or baskets of commodity futures contracts. Prior to and including 30 June 2014, the Bloomberg Commodity Indices were calculated and published by CME Group Index Services LLC in conjunction with UBS Securities LLC and were known as The Dow Jones – UBS Commodity Indices<sup>SM</sup>. The Issuer has established a programme under which different classes of Short and Leveraged Commodity Securities may be issued from time to time.</p> <p>The Issuer gains exposure to the daily percentage changes in the level of the Bloomberg Commodity Indices by entering into fully funded collateralised derivative contracts (the “<b>Commodity Contracts</b>”) with Merrill Lynch International (“<b>MLI</b>”) and Citigroup Global Markets Limited (“<b>CGML</b>”). Together MLI and CGML are known as the “<b>Commodity Contract Counterparties</b>”. The terms of the Commodity Contracts purchased or to be purchased by the Issuer are governed by (i) an agreement entitled “MLI Facility Agreement relating to Short and Leveraged Commodity Contracts” between the Issuer and MLI dated 29 June 2017 (the “<b>MLI Facility Agreement</b>”); and (ii) an agreement entitled “CGML Facility Agreement relating to Short and Leveraged Commodity Contracts” between the Issuer and CGML dated 29 June 2017 (the “<b>CGML Facility Agreement</b>”). The payment obligations of MLI under the MLI Facility Agreement are supported by a guarantee (the “<b>BAC Guarantee</b>”) from Bank of America Corporation (“<b>BAC</b>”), and the payment obligations of CGML under the CGML Facility Agreement are supported by a Guarantee (the “<b>Citigroup Guarantee</b>”) from Citigroup Global Markets Holdings Inc. (“<b>CGMH</b>”), each granted in favour of the Issuer.</p> <p>The obligations of the Commodity Contract Counterparties to the Issuer under Commodity Contracts are secured by collateral provided by the Commodity Contract Counterparties (the “<b>Collateral</b>”) and held in accounts in the names of the Commodity Contract Counterparties at the Bank of New York Mellon (“<b>BNYM</b>”). Pursuant to (i) a security agreement between MLI and the Issuer dated 29 June 2017 (“<b>MLI Security Agreement</b>”) and a control agreement between BNYM, MLI and the Issuer dated 29 June 2017 (“<b>MLI Control Agreement</b>”); and (ii) a security agreement between CGML and the Issuer dated 29 June 2017 (“<b>CGML Security Agreement</b>”) and a control agreement between BNYM, CGML and the Issuer dated 29 June 2017 (“<b>CGML Control Agreement</b>”), MLI and CGML are required to transfer to a collateral account, securities and obligations to the value of the Issuer’s total exposure under the Commodity Contracts to MLI or CGML (as applicable). The collateral held is adjusted daily to reflect the value of the relevant Commodity Contracts.</p> |

|      |                                  | <p>Short and Leveraged Commodity Securities will be fungible with all existing Short and Leveraged Commodity Securities of the same class and will be backed by the assets of the same Secured Assets.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| B.28 | Structure of the transaction     | <p>The Issuer has created a programme whereby Short and Leveraged Commodity Securities may be issued from time to time. The Short and Leveraged Commodity Securities can be issued or required to be redeemed on a daily basis by Authorised Participants who have entered into an Authorised Participant Agreement with the Issuer.</p> <p>Authorised Participants may then sell and buy Short and Leveraged Commodity Securities to and from other investors on exchange or in private transactions.</p> <p>Short and Leveraged Commodity Securities are constituted by the Trust Instrument. Under the terms of the Trust Instrument, the Trustee acts as trustee for the Security Holders of each class of Short and Leveraged Commodity Security both (a) to make determinations and exercise rights under the Short and Leveraged Commodity Securities for the benefit of Security Holders and (b) to hold on trust for Security Holders the security granted by the Issuer under the Security Deeds, to exercise any rights to enforce the same and to distribute the proceeds (after payment of all amounts owed to the Trustee) to the Security Holders (among others).</p> <p>The obligations of the Issuer in respect of each class of Short and Leveraged Commodity Security are secured by a charge over the equivalent class of Commodity Contracts under the Facility Agreements and related contracts.</p> <p>A diagrammatic representation of the principal aspects of the structure as currently in place appears below:</p>  |
| B.29 | Description of the flow of funds | <p>Short and Leveraged Commodity Securities can be bought or sold for cash on the London Stock Exchange, Borsa Italiana, Euronext Amsterdam and/or the Frankfurt Stock Exchange (being the stock exchanges on which the securities are admitted to trading) or in private off-exchange transactions. Details of the exchanges on which a particular class of security can be traded are set out in a document entitled “Final Terms”, prepared by the Issuer each time that securities are issued. Market makers provide liquidity on those stock exchanges and for those transactions but only Authorised Participants</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|      |                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|------|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|      |                                       | <p>can apply directly to the Issuer for the issue of Short and Leveraged Commodity Securities. The Issuer has entered into Authorised Participant Agreements and has agreed with Authorised Participants to issue Short and Leveraged Commodity Securities to those Authorised Participants on an on-going basis. An Authorised Participant may sell the Short and Leveraged Commodity Securities on an exchange or in an off-exchange transaction or may hold the securities themselves.</p> <p>Upon issue of Short and Leveraged Commodity Securities, an Authorised Participant must deliver an amount of cash to the Commodity Contract Counterparty equal to the price of the Short and Leveraged Commodity Securities to be issued in exchange for which the Issuer issues the Short and Leveraged Commodity Securities and delivers them to the Authorised Participant via CREST.</p> <p>Upon redemption of Short and Leveraged Commodity Securities by an Authorised Participant (and in certain limited circumstances, other Security Holders), the Commodity Contract Counterparty must deliver an amount of cash to the relevant Authorised Participant equal to the price of the Short and Leveraged Commodity Securities to be redeemed in return for delivery by the redeeming Security Holder of the Short and Leveraged Commodity Securities.</p>                                         |
| B.30 | Originators of the securitised assets | <p>The Commodity Contracts are and will be entered into with the Commodity Contract Counterparties.</p> <p>At the date of the Prospectus, the Issuer has entered into agreements with MLI and CGML to act as Commodity Contract Counterparties.</p> <p>MLI is a company incorporated and registered in England and Wales with number 2312079 whose registered office is at 2 King Edward Street, London EC1A 1HQ, United Kingdom. | C.18 | Description of return | <p>The Price of each Short or Leveraged Commodity Security reflects movements in the relevant Bloomberg Commodity Index since the previous day on which the Price was calculated, adjusted by a leverage factor of –1 (for One Times Short Commodity Securities), –3 (for Three Times Short Individual Securities), +2 (for Two Times Long Commodity Securities) and +3 (for Three Times Long Individual Securities) and deduction of any applicable fees. Therefore, the return for a particular class will be based on, primarily, the performance of the relevant Bloomberg Commodity Index.</p> <p>To achieve this, both the Short and Leveraged Commodity Securities and the Commodity Contracts through which the Issuer obtains exposure to the Bloomberg Commodity Indices are priced in accordance with the Formula. This Formula reflects (a) the difference between the level of the relevant Bloomberg Commodity Index on that day and the level of the relevant Bloomberg Commodity Index on the previous day on which the Price was calculated, (b) the application of a leverage factor of –1 (for One Times Short Commodity Securities), –3 (for Three Times Short Individual Securities), +2 (for Two Times Long Commodity Securities) and +3 (for Three Times Long</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

Individual Securities), and (c) fees payable by the Issuer to the Commodity Contract Counterparty under the Facility Agreement and to ManJer. The deduction of the fees payable to the Commodity Contract Counterparty and ManJer are referenced in the capital adjustment referenced in the Formula.

The Price of each class of Short and Leveraged Commodity Security will be calculated by the Issuer as at the end of each pricing day (after the futures market prices for that day have been published) and posted along with the applicable Capital Adjustment on the Issuer's website at <https://www.wisdomtree.eu/pricing>.

The Price of each class of Three Times Short Individual Security and each class of Three Times Long Individual Security (together the "**Three Times Commodity Securities**") incorporates an intraday rebalancing mechanism which will be triggered if the value of the relevant Bloomberg Commodity Index either: (i) falls by 25 per cent. over the course of a day in the case of Three Times Long Individual Securities; or (ii) rises by 25 per cent. over the course of a day in the case of Three Times Short Individual Securities (referred to as a "**Restrike Event**").

Following a Restrike Event, for the purpose of calculating the Price on such day, a further value for the Bloomberg Commodity Index will be calculated (the "**Restrike Index Value**"). A Security Holder will obtain a three times long or three times short (as the case may be) exposure to the movement in the relevant Bloomberg Commodity Index (i) from the value at the previous closing settlement price to the Restrike Index Value; and then (ii) from the Restrike Index Value to that day's closing settlement price. The Restrike Index Value will depend on whether the related Restrike Event occurred during exchange hours or out of exchange hours:

- During exchange hours – the Restrike Index Value will be the lowest value (for Three Times Long Individual Securities) or the highest value (for Three Times Short Individual Securities) of the relevant Bloomberg Commodity Index applicable to that class that occurs during the 15 minute period commencing immediately following the Restrike Event; or
- Out of exchange hours – the Restrike Index Value will be the lowest value (for Three Times Long Individual Securities) or the highest value (for Three Times Short Commodity Securities) of the relevant Bloomberg Commodity Index applicable to that class that occurs during the period from the Restrike Event to 15 minutes before exchange hours begin.

In either case, if a market disruption event or hedging disruption event occurs during the 15 minute period then that period may be extended by successive 15 minute periods until the earlier of (a) a continuous 15 minute period having elapsed during which no market disruption event or hedging disruption event has occurred and (b) the end of exchange hours on the third full trading day after the Restrike Event occurred.

The Short and Leveraged Commodity Securities do not bear interest. The return for an investor is the difference between the price at which the relevant Short and Leveraged Commodity Securities are issued (or purchased in the secondary market)

|     |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Key risks of Issuer     | <p>The Issuer has been established as a special purpose vehicle for the purpose of issuing exchange traded commodities as asset-backed securities. The Issuer currently issues ETFS Short Commodity Securities, ETFS Leveraged Commodity Securities and certain other securities (the “<b>Classic and Longer Dated Securities</b>”), which are issued pursuant to a separate base prospectus (the “<b>Prospectus for Classic and Longer Dated Securities</b>”) of the Issuer dated on or around the date of this Prospectus, and has no assets other than those attributable to the Short and Leveraged Commodity Securities and the Classic and Longer Dated Securities. The amounts that a Security Holder could receive following a claim against the Issuer are, therefore, limited to the proceeds of realisation of the secured property applicable to such Security Holder’s class of Short and Leveraged Commodity Securities and as the Issuer is a special purpose vehicle formed only for the purpose of issuing the Short and Leveraged Commodity Securities and the Classic and Longer Dated Securities, and as the Short and Leveraged Commodity Securities are not guaranteed by any other person, the Issuer would have no further assets against which the Security Holder could claim. In the event that the secured property is insufficient to cover the amount payable to the Security Holder, the Security Holder would suffer a loss.</p> <p>Although Short and Leveraged Commodity Securities are secured by Commodity Contracts and collateral, the value of such Short and Leveraged Commodity Securities and the ability of the Issuer to pay any redemption amounts remains partly dependent on the receipt of amounts due from MLI and CGML under the Facility Agreements, the BAC Guarantee, the Citigroup Guarantee, the Security Agreements and the Control Agreements. No holder has any direct rights of enforcement against any such person.</p> <p>There can be no assurance MLI, CGML or any other entity will be able to fulfil their payment obligations under the relevant Commodity Contracts, Facility Agreement, BAC Guarantee, Citigroup Guarantee, Security Agreement or Control Agreement. Consequently, there can be no assurance that the Issuer will be able to redeem Short and Leveraged Commodity Securities at their redemption price which could lead to an investor receiving less than the redemption price upon redemption of their Short and Leveraged Commodity Securities.</p> |
| D.3 | Key risks of securities | <p>If MLI acting as calculation agent, notifies the Issuer that the intra-day price of Commodity Contracts of the same class as any Short or Leveraged Commodity Securities has fallen to or below zero at any time during any trading day and that such Commodity Contracts have been terminated, then the Short or Leveraged Commodity Securities of such class will automatically be compulsorily redeemed on that day and Security Holders are unlikely in that situation to receive any proceeds as the relevant Pool is unlikely in these circumstances to have sufficient assets to repay Security Holders any material sums on such redemptions as the only assets available for the redemption of the affected Short or Leveraged Commodity Securities will be the Commodity Contracts whose value will be zero even if the Price of that class of Short or Leveraged Commodity Securities subsequently increases. In these circumstances, the Security Holder may suffer a loss if the Short and Leveraged Commodity Securities are redeemed at a price lower than would otherwise</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|     |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                         | <p>have been applicable had the Security Holder's investment been redeemed on a day chosen by the Security Holder rather than on the date of the early redemption. Early redemption could also lead to a Security Holder incurring a tax charge that it would otherwise not be subject to and/or if the redemption takes place at a time when the cash value of the Short and Leveraged Commodity Securities is lower than when they were purchased by the Security Holder, the Security Holder could suffer a loss.</p> <p>In the event of realisation of collateral from a Commodity Contract Counterparty, the value of the assets realised may be less than required to meet the redemption amount due to Security Holders. Any realisation of the collateral may take time and a Security Holder could experience delays in receiving amounts due to them. A Security Holder may also suffer a loss if the assets realised are less than the redemption amount due.</p> <p>The returns from Short and Leveraged Commodity Securities are designed to provide exposure to daily changes in the relevant index. This is not the same as providing exposure to changes in the relevant index over periods greater than one day.</p> <p>There may be days where disruption in the underlying commodity markets means that one or more classes of Short and Leveraged Commodity Securities are unable to be priced on that day. This will cause a delay in the application or redemption process which could adversely affect potential or existing investors.</p> <p><b>Issue Specific Summary:</b></p> <p>During situations where the cost of futures contracts for delivery on dates further in the future is higher than those for delivery closer in time, the value of the corresponding Bloomberg Commodity Index will decrease over time unless the spot price increases by the same rate as the rate of the variation in the price of the futures contract. The rate of variation could be quite significant and last for an indeterminate period of time, reducing the value of the Bloomberg Commodity Index and therefore the price of any Leveraged Commodity Securities linked to that Bloomberg Commodity Index which could lead to a Security Holder incurring a loss.</p> <p>Daily changes in the Price of Leveraged Commodity Securities will be magnified. In respect of Two Times Long Commodity Securities, a daily decrease in the relevant Bloomberg Commodity Indices of 50 per cent. or more could result in a total loss of an investment.</p> |
| D.6 | Key risks of securities | <p>Please see Element D.3 above.</p> <p>Past performance is not an indication of expected performance and the investment performance of a Short and Leveraged Commodity Security could be volatile. Consequently, investors in Short and Leveraged Commodity Securities may lose the value of their entire investment or part of it.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Basisprospekt dateret 24 Maj 2019 vedrørende udstedelse af**

**ETFS Short Commodity Securities og ETFS Leveraged Commodity Securities**

Der gives et sammendrag af de oplysningskrav, der betegnes "Elementer". Disse elementer er nummereret som Afsnit A – E (A.1 – E.7).

Dette resumé omfatter alle de Elementer, som skal være omfattet af et resumé for denne type værdipapirer og udsteder. Da der er nogle Elementer, der ikke skal adresseres, kan der være afbrydelser i nummereringsrækkefølgen.

Selvom der kan være krav om, at et Element er omfattet af resuméet grundet typen af værdipapir og Udsteder, er det muligt, at der ikke kan gives relevante oplysninger om det pågældende Element. Resuméet vil da indeholde en kort beskrivelse af Elementet med angivelse af "ikke relevant".

| <b>AFSNIT A – Indledning og Advarsler</b> |                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| B.17 | Udsteders kreditvurderinger                                        | Ikke relevant – Udsteder er ikke blevet tildelt nogen kreditvurdering, og det er ikke hensigten, at nogle af Short og Leveraged Commodity Securities skal tildeles kreditvurderinger.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| B.20 | Selskab med specifikt afgrænsede opgaver (special purpose vehicle) | Udsteder er stiftet som en specialistvirksomhed med henblik på at udstede børshandlede råvarer (" <b>ETC'er</b> ") som værdipapirer med sikkerhed i aktiver.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| B.21 | Hovedaktiviteter og overblik over parterne                         | <p>Udsteders hovedaktivitet er at udstede forskellige klasser og typer af gældsbeviser med sikkerhed i derivatkontrakter, der er knyttet til råvareindekser, som (før gebyrer og udgifter) eksponeres mod disse råvareindekseres daglige rater. I henhold til dette Prospekt udsteder Udsteder gældsbeviser ("<b>Short og Leveraged Commodity Securities</b>"), der (før gebyrer og udgifter) medfører enten 1 gange short (-1 gang), tre gange short (-3 gange), to gange long (+2 gange) eller tre gange long (+3 gange) eksponering mod daglige ændringer i disse råvareindekser beregnet og offentliggjort af Bloomberg L.P. og/eller Bloomberg Finance L.P. og/eller det associerede selskab, som hver især har (tilsammen "<b>Bloomberg</b>") ("<b>Bloomberg Commodity-indekser</b>") og hver især benævnt et "<b>Bloomberg Commodity-indeks</b>". Bloomberg Commodity-indekser følger bevægelser i kursen på individuelle råvare-futureskontrakter eller baskets af råvare-futureskontrakter. Udsteder har etableret et program for lejlighedsvis udstedelse af forskellige klasser af Short og Leveraged Commodity Securities.</p> <p>Udsteder opnår eksponering mod de daglige procentvise ændringer i Bloomberg Commodity-indekser ved at indgå fuldt finansierede sikrede derivatkontrakter ("<b>Commodity Contracts</b>") med Merrill Lynch International ("<b>MLI</b>") og Citigroup Global Markets Limited ("<b>CGML</b>"). MLI og CGML er tilsammen benævnt "<b>Commodity Contract Counterparties</b>". Vilkårene for de Commodity Contracts, der er eller skal købes af Udsteder er indtil (men eksklusiv) den Effektive Dato reguleret af (i) en aftale benævnt "<b>Facility Agreement</b>" mellem Udsteder og MLI dateret 29. juni 2017 ("<b>MLI Facility Agreement</b>"), og (ii) en aftale benævnt "<b>Facility Agreement</b>" mellem Udsteder og CGML dateret 29. juni 2017 ("<b>CGML Facility Agreement</b>"). MLI's betalingsforpligtelser i henhold til dennes Facility Agreement er sikret i henhold til en garanti ("<b>BAC-garanti</b>") fra Bank of America Corporation ("<b>BAC</b>").</p> <p>CGMLs betalingsforpligtelser i henhold til CGML Facility Agreement er sikret ved en garanti ("<b>Citigroup Guarantee</b>") udstedt af Citigroup Global Markets Holdings Inc. (CGMH) udstedt til fordel for Udsteder.</p> <p>Commodity Contract Counterparties' forpligtelser over for Udsteder er sikret ved sikkerhedsstillelse (Collateral) fra Commodity Contract Counterparties ("<b>Sikkerhed</b>") og opbevares på konti i Commodity Contract Counterparties' navne i Bank of New York Mellon ("<b>BNYM</b>"). Sikkerhederne justeres dagligt med henblik på at afspejle værdien af de pågældende Commodity Contracts. I henhold til aftaler benævnt (i) "MLI Security Agreement" indgået mellem MLI og Udsteder og "MLI Control Agreement" mellem BNYM, MLI og Udsteder alle dateret 29 juni 2017; og (ii) CGML Security Agreement" mellem CGML og Udsteder og "CGML Control Agreement" mellem BNYM, CGML og Udsteder alle dateret 29 juni 2017, skal MLI</p> |

|------|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| C.18 | Beskrivelse af afkast | <p>Kursen på hver Short og Leveraged Commodity Security afspejler bevægelser i de relevante Bloomberg Commodity-indekser fra den foregående dag, hvor Kursen blev beregnet, justeret med en leverage-faktor på -1 (for One Times Short Commodity Securities), -3 (for Three Times Short Individual Securites), +2 (for Two Times Long Commodity Securities) og +3 (for Three Times Long Individual Securities) og fradrag af evt. gebyrer. Afkastet for en specifik klasse vil derfor være baseret primært på det pågældende Bloomberg Commodity-indeks' performance.</p> <p>For at opnå dette er både Short og Leveraged Commodity Securities og de Commodity Contracts, hvorefter Udsteder opnår eksponering mod Bloomberg Commodity-indekser, kursfastsat i overensstemmelse med den i pkt. C.15 beskrevne Formel. Denne Formel afspejler (a) differencen mellem det pågældende Bloomberg Commodity-indeks den pågældende dag og det pågældende Bloomberg Commodity-indeks den foregående dag, hvor Kursen blev beregnet, (b) anvendelsen af en leverage-faktor på -1 (for One Times Short Commodity Securities, -3 (for Three Times Short Individual Securities) eller +2 (for Two Times Long Commodity Securities), og +3 (for Three Times Long Individual Securities) og (c) de gebyrer, som Udsteder skal betale til Commodity Contract Counterparty i henhold til Facility Agreement og til ManJer. Fradraget af gebyrer til Commodity Contract Counterparty og ManJer er omtalt i den i Formlen afspejlede kapitalregulering.</p> <p>Kursen for hver klasse af Short og Leveraged Commodity Security beregnes af Udsteder ved udgangen af hver kursfastsættelsesdag (efter offentliggørelsen af futuresmarkedkurserne for den pågældende dag) og meddeles sammen med den pågældende Kapitalregulering på Udsteders hjemmeside, <a href="http://www.wisdomtree.eu/pricing">http://www.wisdomtree.eu/pricing</a>.</p> <p>Kursen på hver klasse Three Times Short Individual Security og hver klasse Three Times Long Individual Security (tilsammen "Three Times Commodity Securities") omfatter en intraday rebalancing mekanisme, som vil blive udløst, hvis værdien af det pågældende Bloomberg Commodity-indeks enten (i) reduceres med 25 procent i løbet af en dag, for så vidt angår Three Times Long Individual Securities, eller (ii) stiger med 25 procent i løbet af en dag for så vidt angår de omtalte Three Times Short Individual Securities betegnet som en "Restrike Event". Efter en Restrike Event, og for at beregne kursen på en sådan dag, vil en yderligere værdi blive beregnet for Bloomberg Commodity-indekset ("Restrike Index Værdi"). En værdipapirindehaver vil opnå en tre gange lang eller tre gange kort eksponering (efter omstændighederne) i bevægelsen af det relevante Bloomberg Commodity Index (i) fra værdien af den tidligere slutafregningskurs til Restrike Index Værdien, og derefter (ii) fra Restrike Index Værdien til denne dags slutafregningskurs.</p> <p>Restrike Index Værdien vil afhænge af, hvorvidt Restrike Event fandt sted i børstiden eller uden for relateret børstid.</p> <ul style="list-style-type: none"> <li>- I børstiden – Restrike Index Værdien vil være den laveste værdi (for Three Times Long Individual Securities) eller den højeste værdi (for Three Times Short Individual Securities) for det pågældende Bloomberg Commodity-Indeks, der</li> </ul> |

## AFSNIT D - Risici

|     |                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----|--------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Udsteders vigtigste risici           | <p>Udsteder er etableret som et selskab med specifikt afgrænsede opgaver (special purpose vehicle) med henblik på at udstede børshandlede råvarer som værdipapirer med sikkerhed i aktiver. Udsteder udsteder for øjeblikket ETFS Short Commodity Securities, ETFS Leveraged Commodity Securities og visse andre værdipapirer ("<b>Classic and Longer Dated Securities</b>"), der udstedes i henhold til et særskilt basisprospekt ("<b>Prospekt for Classic og Longer Dated Securities</b>") for Udsteder dateret på eller omkring datoen for Prospektet og ikke har andre aktiver ud over de, der kan henføres til Short og Leveraged Commodity Securities og Classic og Longer Dated Securities. De beløb som en Værdipapirindehaver vil kunne modtage efter fremsættelsen af et krav mod Udsteder er derfor begrænset til provenuet fra realiseringen af den sikrede ejendom for den pågældende Værdipapirindehavers klasse af Short og Leveraged Commodity Securities, og da Udsteder er et selskab med specifikt afgrænsede opgaver (special purpose vehicle), der alene er stiftet med henblik på at udstede Short og Leveraged Commodity Securities og Classic og Longer Dated Securities, og da Short og Leveraged Commodity Securities ikke er garanteret af andre, har Udsteder ingen yderligere aktiver, som Værdipapirindehaveren ville kunne fremsætte krav om. Hvis den sikrede ejendom ikke er tilstrækkelig til at dække det beløb, der skal betales til Værdipapirindehaveren, vil Værdipapirindehaveren lide et tab.</p> <p>Selvom Short og Leveraged Commodity Securities er sikret ved Commodity Contracts og Sikkerhed (Collateral), afhænger værdien af disse Short og Leveraged Commodity Securities og Udsteders evne til at betale indløsningsbeløb delvist af modtagelsen af skyldige beløb fra MLI og CGML i henhold til Facility Agreements, BAC-garantien, the Citigroup Guarantee Security Agreements og Control Agreements. Der er ingen indehavere, der har direkte ret til håndhævelse over for en sådan person.</p> <p>Der er ingen garanti for, at MLI, CGML eller andre enheder vil være i stand til at opfylde deres betalingsforpligtelser i henhold til den/de pågældende Commodity Contracts, Facility Agreement, BAC-garanti, Citigroup Guarantee, Security Agreement eller Control Agreement. Der kan derfor ikke være sikkerhed for, at Udsteder er i stand til at indløse Short og Leveraged Commodity Securities til indløsningskursen, hvilket kan medføre, at en Investor modtager mindre end indløsningskursen ved indløsning af Short og Leveraged Commodity Securities.</p> |
| D.3 | Væsentligste risici ved værdipapirer | <p>Hvis MLI, når denne fungerer som beregningsagent, meddeler Udsteder, at den intradaglige kurs på råvarekontrakter i samme klasse som Short eller Leveraged Commodity Securities falder til eller under nul på noget tidspunkt på en handelsdag, og at disse råvarekontrakter er opsagt, vil Short eller Leveraged Commodity Securities i den pågældende klasse automatisk blive tvangsindløst den pågældende dag, og det er i denne situation ikke sandsynligt, at værdipapirindehavere modtager noget indløsningsprovenu, idet det under de pågældende omstændigheder ikke er sandsynligt, at der er tilstrækkelige aktiver i den relevante Pulje til at tilbagebetale</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Værdipapirindehaverne evt. væsentlige beløb ved sådanne indløsninger, idet de eneste aktiver, der er til rådighed for indløsning af de således påvirkede Short eller Leveraged Commodity Securities, er de råvarekontakter, hvis værdi vil være nul, også selvom Kursen på den pågældende klasse af Short eller Leveraged Commodity Securities efterfølgende stiger. Under disse omstændigheder kan Værdipapirindehaveren lide et tab, hvis Short og Leveraged Commodity Securities indløses til en lavere pris, end den, der ellers ville have været gældende, hvis Værdipapirindehaverens investering var blevet indløst på den dag valgt af Værdipapirindehaveren snarere end på datoen for den førtidige indløsning. Førtidig indløsning kan ligeledes medføre en skatteopkrævning for Værdipapirindehaveren, som denne ellers ikke ville være blevet pålagt og/eller hvis indløsningen sker på et tidspunkt, hvor den kontante værdi af de Short og Leveraged Commodity Securities er lavere end den ville have været, hvis de var blevet købt af Værdipapirindehaveren, kan dette medføre et tab for Værdipapirindehaveren.

Ved realisering af Sikkerhed (Collateral) fra en Commodity Contract Counterparty kan værdien af de realiserede aktiver være mindre end påkrævet for at nå indløsningsbeløbet til Værdipapirindehaverne. En realisering af sikkerheden kan tage tid, og en Værdipapirindehaver kan opleve forsinket modtagelse af beløb. En værdipapirindehaver kan ligeledes lide et tab, hvis de realiserede aktiver er mindre end indløsningsbeløbet.

Afkastet fra Short og Leveraged Commodity Securities har til formål at skabe eksponering mod daglige ændringer i det relevante indeks. Dette er ikke det samme som at skabe eksponering mod ændringer i det relevante indeks over perioder på mere end én dag.

Der kan være dage, hvor forstyrrelser på de underliggende råvaremarkeder medfører, at kursen for én eller flere klasser af Short og Leveraged Commodity Securities ikke kan fastsættes den pågældende dag. Dette vil medføre en forsinkelse i ansøgnings- eller indløsningsproceduren, der vil kunne påvirke potentielle eller nuværende værdipapirindehavere negativt.

***Emnespecifikt resumé:***

I situationer hvor omkostningerne ved futureskontrakter til levering på datoer længere ude i fremtiden er højere end dem, der skal leveres inden for en kortere tidshorisont, vil værdien af det tilsvarende Bloomberg Commodity-indeks falde over tid, medmindre spotkursen øges efter samme takt som variationshastigheden i forhold til kursen på futureskontrakten. Variationshastigheden kan være ret betydelig og vedvare uden tidsbegrænsning og således reducere værdien af Bloomberg Commodity-indekset og kursen på de Leveraged Commodity Securities, der er knyttet til det pågældende Bloomberg Commodity-indeks, hvilket kunne medføre et tab for en Værdipapirindehaver.

|                         |                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## SAMENVATTING

# ETFS Commodity Securities Limited

## Samenvatting van het prospectus van 24 Maj 2019 voor de uitgifte van ETFS Short Commodity Securities en ETFS Leveraged Commodity Securities

Samenvattingen bestaan uit openbaarmakingvereisten die gekend zijn als 'Elementen'. Die elementen zijn genummerd in secties van A - E (A.1 – E.7).

Deze samenvatting bevat alle Elementen die verplicht moeten worden opgenomen in een samenvatting voor dit type effecten en emittent. Omdat bepaalde Elementen niet verplicht moeten worden besproken, kan de opeenvolging van de nummers van de Elementen hiaten vertonen.

Hoewel het verplicht kan zijn een Element op te nemen in de samenvatting wegens het type effecten en Vennootschap, is het mogelijk dat er geen relevante informatie kan worden gegeven over het betrokken Element. In dat geval wordt een korte beschrijving van het Element opgenomen in de samenvatting met de vermelding 'niet van toepassing'.

| SECTIE A – Inleiding en Waarschuwingen |                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| A.2                           | Bekendmaking van akkoord voor het gebruik van het Prospectus voor latere herverkoop of finale belegging van effecten door financiële tussenpersonen | <p>De Emittent heeft zijn akkoord gegeven voor het gebruiken van het Prospectus en heeft de verantwoordelijkheid aanvaard voor de inhoud van het Prospectus, met betrekking tot latere herverkoop of finale plaatsing in de vorm van openbaar aanbod op de Short of Leveraged Commodity Securities (zoals hierna beschreven) in elk van de landen België, Denemarken, Duitsland, Finland, Frankrijk, Ierland, Italië, Nederland, Noorwegen, Oostenrijk, Spanje, Zweden, en het Verenigd Koninkrijk door enige financiële tussenpersoon die een investeringsvennootschap is in de zin van Markets in Financial Instruments Directive 2014/65/EU, zoals gewijzigd (“<b>MiFID II</b>”) en die in overeenstemming met de MiFID II toegelaten is in één van de lidstaten. Deze toestemming geldt voor elk van zulke doorverkopen of eindplaatsing door openbaar aanbod gedurende de periode van 12 maanden vanaf de datum van het Prospectus, tenzij die toestemming wordt ingetrokken vroeger dan die datum door mededeling op de website van de Emittent. Buiten het recht van de Emittent om zijn toestemming in te trekken zijn geen andere voorwaarden verbonden aan de toestemming die in deze paragraaf is beschreven.</p> <p><b>In het geval dat een aanbod gedaan wordt door een financiële tussenpersoon, dan zal deze financiële tussenpersoon aan de beleggers informatie moeten verstrekken over de termijnen en voorwaarden van het aanbod op het ogenblik dat het gemaakt wordt. Elke financiële tussenpersoon die het Prospectus gebruikt met het oog op een aanbod moet op zijn website verklaren dat hij het Prospectus gebruikt in overeenstemming met de gegeven toestemming en de daaraan verbonden voorwaarden.</b></p> <p>Het is een voorwaarde van dit akkoord dat, wanneer de financiële tussenpersoon wil voortverkopen of een eindbelegging maken bij middel van een openbare aanbieding van de Short en Leveraged Commodity Securities hij het prospectus niet mag hergebruiken, tenzij het gebeurt in specifiek overeengekomen jurisdicties tijdens een vooraf bepaalde aanbiedingsperiode. De financiële tussenpersoon mag dit Prospectus niet in andere omstandigheden gebruiken voor het verkopen van Short en Leveraged Commodity Securities.</p> <p>In geval van openbare aanbieding in een of meer van de toegelaten markten mogen de Short en Leveraged Commodity Securities aangeboden en verkocht worden aan personen die op die markt wettelijk toegelaten zijn tot deelname aan een openbare aanbesteding op grond van de daar geldende wetten en reglementen.</p> <p>De Emittent heeft niet toegelaten en laat niet toe dat Short en Leveraged Commodity Securities in andere omstandigheden worden aangeboden.</p> <p><b>Specifieke inlichtingen bij de uitgifte</b><br/> Jurisdicties van de Openbare Aanbieding: N/A<br/> Aanbiedingsperiode: N/A</p> |

Geen rating wordt aan de Emittent toegekend en het is niet de bedoeling dat een rating aan de Short en Leveraged Commodity Securities wordt toegekend.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| B.20 | Special purpose vehicle                                   | De Emittent werd opgericht als een <i>special purpose vehicle</i> met de bedoeling om exchange traded commodities (“ <b>ETCs</b> ”) als door activa gewaarborgde securities uit te geven.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| B.21 | Hoofdactiviteiten en overzicht van de partijen            | <p>De hoofdactiviteit van de Emittent is het uitgeven van verschillende klassen en types van debt securities, die gewaarborgd zijn door derivatieve contracten gebonden aan commodity indices. In overeenstemming met met deze Prospectus geeft de Emittent debt securities uit (<b>de Short en Leveraged Commodity Securities</b>) die (voor honoraria en uitgaven) hetzij eenmaal short (-1 keer), driemaal short (-3 keer), tweemaal long (+2 keer) of driemaal long (+3 keer) blootstelling geven aan de dagelijkse bewegingen van de zulke commodity indices berekend en gepubliceerd door Bloomberg L.P. en/of Bloomberg Finance L.P. en/of verbonden vennootschappen van een van hem (samen “Bloomberg”) (de “<b>BLOOMBERG Commodity Indices</b> en elk een “<b>BLOOMBERG Commodity Index</b>”). De Bloomberg Commodity Indices volgen de bewegingen van de prijzen van individuele grondstoffen futures contracts of korfjes van grondstoffen futures contracts. Tot en met 30 juni 2014 werden de Bloomberg Commodity Indices berekend en gepubliceerd door CME Group Index Services LLC samen met UBS Securities LLC, en bekend als The Dow Jones – UBS Commodity Indices SM. De Emittent heeft een programma opgesteld waarbij verschillende klassen van Short en Leveraged Commodity Securities van tijd tot tijd kunnen worden uitgegeven.</p> <p>De Emittent neemt blootstelling aan de dagelijkse procentuele wijzigingen in het niveau van de Bloomberg Commodity Indices door volledig betaalde collateralised derivative contracten te ondertekenen (de “<b>Commodity contracts</b>”) met Merrill Lynch International (“<b>MLI</b>”) en Citigroup Global Markets Limited (“<b>CGML</b>”). MLI en CGML zijn samen gekend als de “<b>Commodity Contract Counterparties</b>”. De voorwaarden van de door de Emittent gekochte of te kopen Commodity Contracts worden bepaald door (i) een overeenkomst genaamd “MLI Facility Agreement relating to Short and Leveraged Commodity Contracts” gesloten tussen de Emittent en MLI met datum 29 juni 2017 (de “<b>MLI Facility Agreement</b>”); en (ii) een overeenkomst genaamd “CGML Facility Agreement relating to Short and Leveraged Commodity Contracts” gesloten tussen de Emittent en CGML met datum 29 juni 2017 (de “<b>CGML Facility Agreement</b>”). De verplichtingen tot betaling van MLI in het raam van de MLI Facility Agreement worden ondersteund</p> |

door een waarborg (de "**BAC Guarantee**") van de Bank of America Corporation ("**BAC**") en de verplichtingen tot betaling van CGML in het raam van de CGML Facility Agreement worden ondersteund door een waarborg (de "**Citigroup Guarantee**") van Citigroup Global Markets Holdings Inc. ("**CGMH**"), elk verleend ten gunste van de Emittent.

De verplichtingen van de Commodity Contract Counterparties ten aanzien van de Emittent op grond van de Commodity Contracts worden gewaarborgd door borgen gesteld door de Commodity Contract Counterparties, die bijgehouden worden op rekeningen in naam van de Commodity Contract Counterparties bij de Bank of New York Mellon ("**BNYM**"). In overeenstemming met (i) de "Security Agreement" tussen MLI en de Emittent met datum 29 juni 2018 ("**MLI Security Agreement**") en de "Control Agreement" tussen BNYM, MLI en de Emittent met datum 29 juni 2017 ("**MLI Control Agreement**"); en (ii) de "Security Agreement" tussen CGML en de Emittent met datum 29 juni 2018 ("**CGML Security Agreement**") en de "Control Agreement" tussen BNYM, CGML en de Emittent met datum 29 juni 2017 ("**CGML Control Agreement**"), zijn MLI en CGML ertoe gehouden aan een borgrekening securities en obligaties over te maken voor een waarde gelijk aan de ganse waarde van de door de Emittent uitgegeven titels die onder de Commodity Contracts van MLI of CGML vallen (naar gelang van het geval). De aangehouden borgen worden dagelijks aangepast zodat zij de waarden van de desbetreffende Commodity Contracts reflecteren.

Short en Leveraged Commodity Securities kunnen op dagelijkse basis worden uitgegeven aan en verplicht worden teruggekocht van financiële instellingen ("**Goedgekeurde inschrijvers**"), die: (i) met de Emittent een overeenkomst hebben gesloten van **Goedgekeurde inschrijver**, genaamd "**Authorised Participant Agreement**"; (ii) aan de Vennootschap hun status onder de Financial Services en Markets Act 2000 ("**FSMA**") hebben aangetoond; en (iii) (behalve in geval van een Commodity Contract Counterparty, die met de Emittent een overeenkomst van Authorised Participant Agreement heeft gesloten) een daarmee overeenstemmende overeenkomst genaamd "**Direct Agreement**" heeft gesloten met ten minste één Commodity Contract Counterparty en waaraan die Commodity Contract Counterparty niet heeft medegedeeld dat het geen aanvaardbare Goedgekeurde Inschrijver kan zijn wat betreft die Commodity Contract Counterparty. Andere houders van Short en Leveraged Commodity Securities kunnen ook Short en Leveraged Commodity Securities doen terugkopen als er geen Goedgekeurde Inschrijvers zijn of indien de Emittent het anders meldt. Alle andere partijen kunnen Short en Leveraged Commodity Securities kopen en verkopen op een beurs waar de handel in Short en Leveraged Commodity Securities toegelaten is.

Short en Leveraged Commodity Securities worden gecreëerd door een overeenkomst genaamd "**Trust Instrument**" tussen de Emittent en de Law Debenture Trust Corporation p.l.c. als Mandataris (de "**Mandataris**") van alle rechten onder het Trust Instrument voor elke persoon die in de registers geïdentificeerd is als houder van de Short en Leveraged Commodity Securities (de "**Security Holders**").

- de rechten en belangen op grond van de Facility Agreements in overeenstemming met de Commodity Contracts die zijn aangegaan (in de mate dat ze verband houden et die klasse) en
- de rechten en belangen in de borg (Collateral) op grond van de MLI Security Agreement en de MLI Control Agreement en/of de CGML Security Agreement en de CGML Control Agreement.

De onderliggende activa van de uitgifte zijn van die aard dat zij fondsen kunnen genereren met het oog op de uitvoering van opeisbare betalingsverplichtingen die volgen uit de effecten.

De onderliggende activa zijn de Commodity Contracts, de MLI Facility Agreement, de CGML Facility Agreement, de BAC Garantie, de CGMH Garantie, de MLI Security Agreement, de MLI Control Agreement, de CGML Security Agreement en de CGML Control Agreement. Short en Leveraged Commodity Securities van elke klasse worden gewaarborgd door Commodity Contracts met overeenstemmende termen en telkens een Short of Leveraged Commodity Security gemaakt of terugbetaald wordt, wordt een overeenstemmende hoeveelheid Commodity Contracts door de Emittent gekocht of geannuleerd. Commodity Contracts worden gekocht van een of meer Commodity Contract Counterparties.

De Emittent zal aanvragen voor Short en Leveraged Commodity Securities weigeren als hij voor enige reden geen overeenstemmende Commodity Contracts kan creëren met een Commodity Contract Counterparty.

Op datum van dit Prospectus heeft de Emittent overeenkomsten met twee Commodity Contract Counterparties – MLI en CGML.

In de Facility Agreements zijn er begrenzings, zowel dagelijkse als globaal, betreffende het aantal Commodity Contracts dat op enig ogenblik kan worden gecreëerd of geannuleerd. Creëren en terugkopen van Short en Leveraged Commodity Securities zijn onderworpen aan zowel dagelijkse als globale beperkingen om in overeenstemming te blijven met de beperkingen op de Commodity Contracts.

MLI is een vennootschap opgericht en geregistreerd in Engeland en Wales onder nummer 2312079, met maatschappelijke zetel te 2 King Edward Street, Londen EC1A 1HQ, Verenigd Koninkrijk. De voornaamste activiteiten van MLI is de wereldwijde levering van een breede waaier van financiële diensten voor bedrijven met een oorsprong in Europa, het Midden-Oosten en Afrika, Azië/Regio Stille Oceaan en Noord- en Zuid-Amerika, het optreden als makelaar en te handelen in financiële instrumenten en corporate finance diensten te leveren.

voor het nemen van beslissingen en het uitoefenen van rechten met betrekking tot de Short en Leveraged Commodity Securities in het belang van de Security houders en (b) om in het belang van de Security houders de waarborg aan te houden die door de Emittent gewaarborgd is onder de Security Deeds, om alle rechten uit te oefenen om deze uit te voeren en de opbrengst ervan te verdelen (na betaling van alle bedragen die aan de mandataris verschuldigd zijn) tussen de Security houders (onder andere).

De verplichtingen van de Emittent met betrekking tot elke klasse Short en Leveraged Commodity Security worden gewaarborgd door een recht op de equivalente klasse Commodity Contracts onder de Facility Agreements en verwante contracten.

Een schematische voorstelling van de voornaamste aspecten van de structuur zoals die nu bestaat vindt u hierna:

B.29

Beschrijving van de geldstromen

Short en Leveraged Commodity Securities kunnen tegen cash geld worden gekocht of verkocht op de London Stock Exchange, de Borsa Italiana en/of de beurs van Frankfurt (dat zijn de beurzen waar de Securities mogen worden verhandeld) of in privé buitenbeurstransacties.

Details betreffende de beurzen waar een bepaalde klasse van security kan worden verhandeld, worden uiteengezet in een document genaamd 'Final Terms', opgesteld telkens er securities worden uitgegeven.

Marktmakers bezorgen liquiditeiten aan die beurzen en voor die transacties, maar alleen Goedgekeurde Inschrijvers kunnen zich rechtstreeks tot de Emittent wenden voor het uitgeven van Short en Leveraged Commodity Securities. De Emittent heeft Authorized Participants Agreements ondertekend en is met de Goedgekeurde Inschrijvers overeengekomen om op doorlopende wijze Short en Leveraged Commodity Securities aan die Goedgekeurde Inschrijvers uit te geven

Een Goedgekeurde Inschrijver mag Short en Leveraged Commodity Securities op een beurs verkopen of in een buitenbeurstransactie of ze voor zichzelf behouden.

Na uitgifte van Short en Leveraged Commodity Securities moet een Goedgekeurd Inschrijver een bedrag cash geld aan de Commodity Contract Counterparty geven, gelijk aan de prijs van de Short en Leveraged Commodity Securities die moeten uitgegeven worden en in ruil daarvan geeft de Emittent de Short en Leveraged Commodity

In tegenstelling met futures posities hebben de Short en Leveraged Commodity Securities geen makelaarstussenkomst voor lopende zaken, dekking, vervaldag of futures</p> <p>The Emittent heeft voor uitgifte 120 klassen Short en Leveraged Commodity Securities gecreëerd en beschikbaar gesteld waarvan elke klasse de beleggers onderwerpt aan de dagelijkse procentuele wijzigingen in bewegingen van één van de Bloomberg Commodity</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Indices, en die klassen kunnen in 6 verschillende types worden ondergebracht:

- Eenmaal Short Individual Securities;
- Eenmaal Short Index Securities;
- Driemaal Short Individual Securities;
- Tweemaal Long Individual Securities;
- Tweemaal Long Index Securities; en
- Driemaal Long Individual Securities.

***Kenmerken van Klasse en Index***

Het rendement van de Short en Leveraged Commodity Securities is in alle gevallen als volgt gebonden aan de dagelijkse procentuele bewegingen van de waarde van de betreffende Bloomberg Commodity Indices, als volgt:

- Eenmaal Short Individual Securities leveren een korte blootstelling aan de dagelijkse procentuele verandering van de Bloomberg Commodity Indices die de bewegingen volgen in de waarde van futures contracts in één type van grondstof (zodat, wanneer de waarde van de relevante Bloomberg Commodity Index op een dag stijgt, de waarde van de Eenmaal Short Individual Security op die dag met hetzelfde percentage zal dalen en omgekeerd);
- Eenmaal Short Index Securities leveren een korte blootstelling aan de dagelijkse procentuele verandering van de Bloomberg Commodity Indices die de bewegingen volgen in de waarde van futures contracts met betrekking tot een aantal verschillende grondstoffen (zodat, wanneer de waarde van de relevante Bloomberg Commodity Index op een dag stijgt, de waarde van de Eenmaal Short Index Security op die dag met hetzelfde percentage in de Bloomberg Commodity Index zal dalen en omgekeerd);
- Driemaal Short Individual Securities leveren een korte blootstelling aan driemaal de dagelijkse procentuele verandering in de Bloomberg Commodity Indices die de bewegingen volgen in de waarde van de futures contracts met betrekking tot één type grondstof (zodat, dat als de waarde van de relevante Bloomberg Commodity Index op een bepaalde dag stijgt, de waarde van de Driemaal Short Individual Security op die dag zal dalen met driemaal de procentuele stijging van de Bloomberg Commodity Index en omgekeerd);
- Tweemaal Long Securities leveren een blootstelling aan tweemaal de dagelijkse procentuele verandering van de Bloomberg Commodity Indices die de bewegingen volgen in de waarde van de futures contracts met betrekking tot één type grondstof (zodat, als de waarde van de relevante Bloomberg Commodity Index op een dag stijgt, de waarde van de Tweemaal Long Individual Security die dag zal stijgen met tweemaal de procentuele stijging in de Bloomberg Commodity Index en omgekeerd);

- Tweemaal Long Index Securities leveren een blootstelling aan tweemaal de dagelijkse procentuele verandering in Bloomberg Commodity Indices die de bewegingen volgen in de waarde van de futures contracts met betrekking tot een aantal verschillende grondstoffen (zodat, als de waarde van de relevante Bloomberg Commodity Index op een dag stijgt, de waarde van de Tweemaal Long Index Security die dag zal stijgen met tweemaal de procentuele stijging in de Bloomberg Commodity Index en omgekeerd);
- Driemaal Short Individual Securities leveren een korte blootstelling aan driemaal de dagelijkse procentuele verandering in Bloomberg Commodity Indices die de bewegingen volgen in de waarde van de futures contracts met betrekking tot één type grondstof (zodat, als de waarde van de relevante Bloomberg Commodity Index op een bepaalde dag stijgt, de waarde van de Driemaal Short Individual Security op die dag zal dalen met driemaal de procentuele stijging in de Bloomberg Commodity Index en omgekeerd),

In alle gevallen verhoogd met een aanpassing voor de risicovrije interestvoet die tot een volledige collateralised positie aangroeit in de relevante onderliggende futures contracts.

|      |                                | <p>Voor de goede levering van de Short of Leveraged Commodity Securities uitgegeven in overeenstemming met de Final Terms op de beurs van Frankfurt, zal Clearstream Banking Aktiengesellschaft ("Clearstream"), voor elke serie en het relevante aantal Short of Leveraged Commodity Securities een Wereldwijd Toondercertificaat uitgeven (elk een "Wereldwijd Toondercertificaat") opgesteld in de Duitse taal en gecreëerd onder de Duitse wet. Telkens wanneer het aantal Short of Leveraged Commodity Securities vertegenwoordigd door het Wereldwijd Toondercertificaat van een klasse verandert, zal Clearstream het relevante Wereldwijd Toondercertificaat dienovereenkomstig wijzigen.</p> <p>De Short of Leveraged Commodity Securities uitgegeven in overeenstemming met de Final Terms komen, als ze op de Borsa Italiana S.p.A. verhandeld werden, in aanmerking voor betaling via de gebruikelijke betalingssystemen van Monte Titoli S.p.A. op de depositorekeningen die werden geopend bij Monte Titoli S.p.A.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| C.18 | Beschrijving van het rendement | <p>De prijs van elke Short en Leveraged Commodity Security weerspiegelt de bewegingen in de relevante Bloomberg Commodity Index sinds de vorige dag waarop de prijs berekend werd, aangepast met een leverage factor (hefboomfactor) van -1 (voor Eenmaal Short Commodity Securities), -3 (voor Driemaal Short Individual Securities), + 2 (voor Tweemaal Long Commodity Securities) en +3 (voor Driemaal Long Individual Securities) en aftrek van toepasselijke kosten. Het rendement voor een bepaalde klasse zal bijgevolg in eerste instantie gebaseerd zijn op het resultaat van de relevante Bloomberg Commodity Index.</p> <p>Daartoe wordt zowel de prijs van de Short en Leveraged Commodity Securities als van de Commodity Contracts via dewelke de Emittent blootstelling bekommt aan de Bloomberg Commodity Indices berekend in overeenstemming et de Formule. Deze Formule weerspiegelt (a) het verschil tussen het niveau van de relevante Bloomberg Commodity Index op die dag en het niveau van de relevante Bloomberg Commodity Index op de vorige dag waarop de prijs berekend werd, de toepassing van een leverage factor -1 (voor Eenmaal Short Commodity Securities), -3 (voor Driemaal Short Individual Securities), of + 2 (voor Tweemaal Long Commodity Securities) en +3 (voor Driemaal Long Individual Securities), en (c) de honoraria die door de Emittent verschuldigd zijn aan de Commodity Contract Counterparty onder het Facility Agreement en aan ManJer. De aftrek van de kosten betaalbaar aan Commodity Contract Counterparty en aan ManJer wordt weerspiegeld in de Kapitaalaanpassingen waar in de Formule naar verwezen wordt.</p> <p>De prijs van elke klasse Short en Leveraged Commodity Security zal door de Emittent berekend worden op het einde van elke noteringdag (na het publiceren van de 'futures' voor die dag) en samen met de toepasselijke Kapitaalaanpassing worden vermeld op de website <a href="http://www.wisdomtree.eu/pricing">http://www.wisdomtree.eu/pricing</a>.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>SECTIE D – Risico's</b> |                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| D.2                        | Belangrijke risico's van de Emittent                                                       | De Emittent werd opgericht met het speciaal doel om exchange traded commodities als door , als door activa gewaarborgde securities uit te geven. The Emittent geeft momenteel ETFS Short Commodity Securities, ETFS Leveraged Commodity Securities en andere securities (de " <b>Classic en Longer Dated Securities</b> ") uit, die uitgegeven worden op grond van een afzonderlijke basisprospectus (de " <b>Prospectus for Classic en Longer Dated Securities</b> ") van de Emittent gedateerd op of rond de datum van dit prospectus en die geen andere activa hebben dan die welke aan de Short en Leveraged Commodity Securities en aan de Classic en Longer Dated Commodity Securities verbonden zijn. De bedragen die een Security houder zou kunnen bekomen na een vordering tegen de Emittent zijn bijgevolg beperkt tot de opbrengst van de uitvoering tegen de borgen met betrekking de klasse van de Short en Leveraged Commodity Securities die zulke Security houder bezit en gezien de Emittent een special vehicle purpose is dat alleen opgericht werd om de Short en Leveraged Commodity Securities en de Classic en Longer Dated Securities uit te geven, en gezien de Short en Leveraged Commodity Securities niet door enige andere persoon gewaarborgd zijn, zou de Emittent geen andere activa hebben waartegen de Security houder zijn vordering zou kunnen |

|--|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p>richten. In geval de borg onvoldoende zou zijn om het bedrag dat aan de Security houder verschuldigd is te betalen, zou de Security houder een verlies lijden.</p> <p>Hoewel Short en Leveraged Securities gewaarborgd zijn door Commodity Contracts en door waarborgen, blijft de waarde van zulke Short en Leveraged Securities en de bekwaamheid van de Emittent om enig terugkoopbedrag te betalen gedeeltelijk afhankelijk van het ontvangen van de bedragen verschuldigd door MLI en CGML onder de Facility Agreements, de BAC Garantie, de Citigroup Garantie, de Security Agreements en de Control Agreements. Geen enkele houder heeft een direct recht van uitvoering tegen eender welke van die personen.</p> <p>Er kan geen zekerheid zijn dat MLI, CGML of enige andere entiteit in staat zal zijn de verplichtingen tot betaling uit te voeren zoals die zijn bepaald in de relevante Commodity Contracts, Facility Agreement, BAC Garantie, Citigroup Garantie, Security Agreement of Control Agreement. Er kan bijgevolg geen zekerheid zijn dat de Emittent in staat zal zijn om de Short en Leveraged Securities tegen hun terugkoop prijs te betalen, wat voor gevolg zou kunnen hebben dat een investeerder minder zou ontvangen dan de terugkoop prijs bij de terugkoop van zijn Short en Leveraged Commodity Securities.</p> |

|     |                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.3 | Belangrijke risico's van effecten | <p>Als MLI, die optreedt als berekeningsagent, aan de Emittent meldt dat de prijs van Commodity Contracts van dezelfde klasse als enige Short en Leveraged Commodity Securities op enig uur van enige handelsdag tot op of onder nul gevallen is, en dat zulke Commodity Contracts beëindigd werden, dan zullen de Short en Leveraged Commodity Securities automatisch en verplicht op die dag teruggekocht worden en de beleggers hebben in die omstandigheden weinig kans op enige opbrengst, gezien er weinig kans is dat de relevante Pool in zulke omstandigheden voldoende activa zou hebben om de Security houders enig materieel bedrag te betalen voor de terugkoop, gezien de enige beschikbare activa voor de terugkoop van de betrokken Short en Leveraged Commodity Securities de Commodity Contracts zijn, waarvan de waarde nul zal zijn, zelfs als de prijs van die klasse van Short en Leveraged Commodity Securities daarna stijgt. In zulke omstandigheden kan de Security houder een verlies lijden als de Short en Leveraged Commodity Securities worden teruggekocht aan een prijs die lager is dan de prijs die zou zijn toegepast indien de investering van de Security houder teruggekocht zijn op een dag gekozen door de Security houder in plaats van de dag van vervroegde terugkoop. Een vervroegde terugkoop zou er ook kunnen toe leiden dat de Security houder een belasting zou moeten betalen waaraan hij anders niet zou onderworpen geweest zijn en/of indien de terugkoop gebeurt op een ogenblik dat de cash waarde van de Short en Leveraged Commodity Securities lager is dan wanneer ze door de Security houder werden gekocht zou de Security houder een verlies lijden.</p> <p>In geval van uitvoering van een borg van een Commodity Contract Counterparty, kan de waarde van de verkochte activa minder zijn dan wat vereist is voor het bedrag van de teruggekochte dat aan de Security houders verschuldigd is.</p> <p>Een uitvoering van een borg kan tijd vergen en een Security houder zou wachttijden kunnen ondergaan voor hij de hem verschuldigde bedragen ontvangt. Een Security houder zou ook een verlies kunnen lijden als de opbrengst van de uitvoering van de borg lager is dan het verschuldigde bedrag van de terugkoop.</p> <p>Het rendement van de Short en Leveraged Commodity Security is bedoeld om blootstelling te geven aan de dagelijkse wijzigingen in de relevante index. Dat is niet hetzelfde als blootstelling te geven aan de wijzigingen van de relevante index over een periode langer dan een dag.</p> <p>Er kunnen dagen zijn dat door een storing in de onderliggende commodity markten een of meer categorieën Short en Leveraged Commodity Securities niet geprijsd kunnen worden. Dat zal een vertraging veroorzaken in het toepassings- of terugkoopproces, hetgeen de potentiële of bestaande beleggers negaties kan beïnvloeden.</p> <p><b><i>Specifieke inlichting bij uitgifte:</i></b></p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--|--|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p>Bij toestanden waarin de prijs van de futures contracten voor levering verder in de toekomst hoger is dan die voor de levering dichterbij in de toekomst, zal de waarde van de overeenstemmende Bloomberg Commodity Index in de tijd dalen, tenzij de bedoelde prijs stijgt met hetzelfde bedrag als de variatie van de prijs van het futures contract. Het bedrag van de variatie zou belangrijk kunnen zijn, ten minste gedurende een onbepaalde tijd en daardoor de waarde van de Bloomberg Commodity Index verminderen en bijgevolg de prijs van alle Leveraged Commodity Securities verbonden aan die Bloomberg Commodity Index, wat aanleiding zou kunnen geven tot een verlies voor de Security houder.</p> |
|--|--|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

De dagelijkse veranderingen van de prijs van de Leveraged Commodity Securities zullen worden vergroot. Met betrekking tot 2x Long Commodity Securities kan een dagelijkse vermindering in de relevante Bloomberg Commodity Indices met 50 per cent of meer aanleiding geven tot het volledige verlies van de belegging.

|     |                                                                     |                                                                                                                                                                                                                                                                                                                                                                                |

| E.3 | Voorwaarden van het aanbod      | <p>The Short en Leveraged Commodity Securities worden door de Emittent enkel beschikbaar gesteld voor intekening door Goedgekeurde inschrijvers die een geldige aanvraag hebben ingediend en zullen pas worden uitgegeven nadat de inschrijvingsprijs betaald werd aan de relevante Commodity Contract Counterparty. Een Goedgekeurde inschrijver moet eveneens een inschrijvingsvergoeding betalen van £500. Aanvragen voor Short en Leveraged Commodity Securities gedaan voor 2.30 p.m. Londense tijd op een werkdag zullen het gewoonlijk mogelijk maken de Goedgekeurde Inschrijver te registreren als houder van Short en Leveraged Commodity Securities binnen een periode van twee werkdagen.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## RÉSUMÉ

### ETFS Commodity Securities Limited

#### Résumé de prospectus

#### Programme d'émission en date du 24 Mai 2019 relatif à l'Émission de

#### Titres ETFS Short Commodity Securities et de Titres ETFS Leveraged Commodity Securities

Les résumés sont composés d'informations financières dont la publication est obligatoire désignées comme les « Éléments ». Ces éléments sont numérotés dans les sections A à E (et plus précisément A.1 à E.7).

Le présent résumé contient la totalité des Éléments que doit obligatoirement comprendre un résumé sur ce type de titres et d'Émetteur. Les lacunes dans la numérotation s'expliquent par le fait qu'il n'est pas obligatoire d'aborder certains Éléments.

Même si l'inclusion d'un Éléments particulier dans le résumé s'avère obligatoire en raison du type de titres et d'Émetteur, il est possible qu'aucune information pertinente ne puisse être donnée concernant cet Éléments. Lorsqu'un tel cas se présente, le résumé donne un court descriptif de l'Éléments en question, assorti de la mention « sans objet ».

| A.2 | <p>Information relative à l'accord d'utilisation du Prospectus pour la revente ultérieure ou le placement final des titres par des intermédiaires financiers</p> | <p>L'Émetteur a donné son accord pour l'utilisation de ce Prospectus et a accepté la responsabilité de son contenu pour toute revente ultérieure ou placement final par voie d'offre au public de Short Commodity Securities ou de Leveraged Commodity Securities (telle que décrite ci-dessous), aussi bien en Autriche, en Belgique, au Danemark, en Finlande, en France, en Allemagne, en Irlande, en Italie, aux Pays-Bas, en Norvège, en Espagne, en Suède et au Royaume-Uni, par tout intermédiaire financier considéré comme une entreprise d'investissement au sens de la Directive européenne concernant les marchés d'instruments financiers 2014/65/EU, telle qu'amendée (MiFID II) et agréé conformément à la MiFID II dans n'importe lequel des états membres. Un tel accord s'applique à toute revente ou placement final par voie d'offre au public pendant les 12 mois qui suivent la date du Prospectus, sauf révocation de l'accord avant ce terme par un avis publié sur le site internet de l'Émetteur. Hormis le droit pour l'Émetteur de révoquer son accord, aucune autre condition n'est attachée à l'accord décrit dans le présent paragraphe.</p> <p><b>Au cas où un intermédiaire financier ferait une offre, celui-ci devra fournir des informations à l'investisseur sur la base des conditions générales de l'offre au moment où celle-ci est faite. Tout intermédiaire financier se servant du Prospectus dans le cadre d'une offre doit stipuler sur son site internet qu'il utilise le Prospectus conformément à l'accord donné et aux conditions qui s'y rattachent.</b></p> <p>Cet accord est assorti d'une condition selon laquelle, lorsque l'intermédiaire financier souhaitant revendre ou faire un placement final de Short et Leveraged Commodity Securities par le biais d'une offre au public, il ne puisse pas réutiliser le Prospectus à cet effet à moins qu'elle ne soit réalisée dans des juridictions spécifiquement convenues et durant une période d'offre convenue. L'intermédiaire financier ne peut pas autrement réutiliser le Prospectus pour vendre des Short et Leveraged Commodity Securities.</p> <p>Au cas où offre au public est réalisée dans une ou plusieurs Juridictions dans lesquelles une Offre au Public est prévue, et identifiée(s) dans les Conditions Définitives, les Short et Leveraged Commodity Securities peuvent être offertes et vendues aux personnes de ces Juridictions, qui sont éligibles pour participer à une offre au public de ces titres dans cette juridiction aux termes de la réglementation applicable.</p> <p>L'Émetteur n'a pas autorisé et n'autorise pas l'offre de Short et Leveraged Commodity Securities dans toute autre circonstance.</p> <p><b>Résumé spécifique à l'émission</b></p> <p>Juridiction(s) dans laquelle(es) une Offre au Public est prévue : N/A</p> |

| B.20                          | Structure à finalité spécifique                                   | L'Émetteur a été constitué en tant que structure à finalité spécifique aux fins d'émettre des exchange traded commodities (« <b>ETCs</b> ») en tant que des titres adossés à des créances.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| B.21                          | Activités principales et présentation générale des parties        | <p>L'activité principale de l'Émetteur est l'émission de plusieurs catégories de titres de créance adossés à des contrats dérivés liés aux indices de matières premières qui (avant frais et commissions) fournissent une exposition aux variations quotidiennes de ces indices de matières premières. Conformément au Prospectus, l'Émetteur a émis des titres de créance (les « <b>Short et Leveraged Commodity Securities</b> ») qui (avant les frais et commissions) fournissent soit une exposition courte simple (-1 fois), une triple exposition courte (-3 fois), une double exposition longue (+2 fois) ou une triple exposition longue (+3 fois) par rapport aux modifications journalières de ces indices de matières premières calculés et publiés par Bloomberg L.P. et/ou Bloomberg Finance L.P. et/ou les filiales de ces dernières (ensemble « <b>Bloomberg</b> ») (les « <b>Indices sur Matières Premières Bloomberg</b> » et chacun l'« <b>Indice sur Matières Premières Bloomberg</b> »). Les Indices sur Matières Premières Bloomberg répliquent les variations de prix des contrats à terme individuels de matières premières ou de paniers de contrats à terme de matières premières. Jusqu'au 30 juin 2014 inclus, les Indices Bloomberg sur Matières Premières étaient calculés et publiés par CME Group Index Services LLC en coopération avec UBS Securities LLC et étaient connus sous la dénomination « The Dow Jones – UBS Commodity Indices <sup>SM</sup> ». L'Émetteur a mis en place un programme dans le cadre duquel différentes catégories de Short et Commodity Securities peuvent être émis à intervalles divers.</p> <p>L'Émetteur acquiert une exposition aux variations quotidiennes en pourcentage du niveau des Indices sur Matières Premières Bloomberg en concluant des contrats de dérivés garantis entièrement financés (les « <b>Contrats sur Matières Premières</b> ») avec Merrill Lynch International (« <b>MLI</b> ») et Citigroup Global Markets Limited (« <b>CGML</b> »). MLI et CGML sont toutes deux connues comme</p> |

étant les « **Contreparties aux Contrats sur Matières Premières** ». Les dispositions des Contrats sur Matières Premières achetés ou à acheter par l'Émetteur sont régies (i) par un accord intitulé « Contrat de Facilité MLI relatif aux Contrats sur Matières Premières Short and Leverage », conclu entre l'Émetteur et MLI en date du 29 juin 2017 (le « **Contrat de Facilité MLI** ») ; et (ii) par un accord intitulé « Contrat de Facilité CGML relatif aux Contrats sur Matières Premières Short and Leverage », conclu entre l'Émetteur et CGML en date du 29 juin 2017 (le « **Contrat de Facilité CGML** »). Les obligations de paiement de MLI en vertu du Contrat de Facilité MLI sont garanties par une caution (ci-après la « **Cautions BAC** ») de Bank of America Corporation (ci-après « **BAC** ») et les obligations de paiement de CGML en vertu du Contrat de Facilité CGML sont garanties par une caution (ci-après la « **Cautions Citigroup** ») de Citigroup Global Markets Holdings Inc. (ci-après « **CGMH** »), chacune émise au profit de l'Émetteur.

Les obligations des Contreparties aux Contrats sur Matières Premières vis-à-vis de l'Émetteur en vertu des Contrats sur Matières Premières sont garanties par des nantissements fournis par les Contreparties aux Contrats sur Matières Premières (le « **Nantissement** ») et détenus sur des comptes ouverts au noms des Contreparties aux Contrats sur Matières Premières auprès de la Bank of New York Mellon (ci-après « **BNYM** »). Conformément (i) à un accord de garantie conclu entre MLI et l'Émetteur en date du 29 juin 2018 (l'« **Accord de Garantie MLI** ») et à un accord de contrôle conclu entre BNYM, MLI et l'Émetteur en date du 29 juin 2017 (l'« **Accord de Contrôle MLI** ») ; et (ii) à un accord de garantie conclu entre CGML et l'Émetteur en date du 29 juin 2018 (l'« **Accord de Garantie CGML** ») et à un accord de contrôle conclu entre BNYM, CGML et l'Émetteur en date du 29 juin 2017, (l'« **Accord de Contrôle CGML** »), MLI et CGML sont tenus de transférer sur un compte de nantissement les garanties et obligations à la valeur de l'exposition totale aux risques de l'Émetteur en vertu des Contrats sur Matières Premières signés (selon les cas) avec MLI ou CGML. Le nantissement détenu est ajusté chaque jour pour refléter la valeur du Contrats sur Matières Premières concerné.

Les Short et Leveraged Commodity Securities peuvent être émis et rachetés quotidiennement par les établissements financiers (ci-après les « **Participants Agréés** ») qui (i) ont passé un accord intitulé « **Accord de Participant Agréé** » avec l'Émetteur ; (ii) ont certifié à l'Émetteur leur statut au regard de la Loi britannique sur les services et marchés financiers de 2000 (Financial Services and Markets Act 2000 ou « **FSMA** ») ; et (iii) (sauf dans le cas où une Contrepartie sur Contrats sur Matières Premières aurait passé un Accord de Participant Agréé avec l'Émetteur) ont conclu l'accord correspondant intitulé « **Contrat Direct** » avec au moins une Contrepartie aux Contrats sur Matières Premières sans que cette dernière ne les informe qu'elle ne les reconnaît pas comme Participant Agréé. En l'absence de Participants Agréés ou en cas d'annonce contraire de l'Émetteur, d'autres détenteurs de Short et Leveraged Commodity Securities peuvent en racheter. Toutes les autres parties peuvent acheter et vendre des Short et Leveraged Commodity Securities par négociation sur les bourses ou les marchés sur lesquels ces titres sont admis à la négociation.

Ces Short et Leveraged Commodity Securities nouvellement émis seront fongibles avec l'ensemble des Short et Leveraged Commodity Securities existants de même catégorie et seront adossés aux mêmes Actifs Garantis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| B.28 | Structure de la transaction   | <p>L'Émetteur a créé un programme par lequel les Short et Leveraged Commodity Securities peuvent être émis à tout moment. Les Short et Leveraged Commodity Securities peuvent être émis ou délivrés pour être rachetés sur une base journalière par les Participants Agréés qui ont conclu un Accord de Participant Agréé avec l'Émetteur.</p> <p>Les Participants Agréés pourront ensuite vendre et acheter des Short et Leveraged Commodity Securities à d'autres investisseurs, en bourse ou dans le cadre de transactions privées.</p> <p>Les Short et Leveraged Commodity Securities sont constitués par l'Instrument de Trust. Selon les termes de l'Instrument de Trust, le Trustee agit en qualité de Trustee des Porteurs de Titres pour chacune des catégories de Short et Leveraged Commodity Securities (a) afin de rendre des décisions et exercer leurs droits au titre des Short et Leveraged Commodity Securities au profit des Porteurs de Titres et (b) afin de détenir en trust, pour les Porteurs de Titres, le titre accordé par l'Émetteur en vertu des Actes de Garantie, pour exercer tout droit d'appliquer ceux-ci et de distribuer les produits (après paiement de tout montant dû au Trustee) aux Porteurs de Titres (entre autres).</p> <p>Les obligations du Trustee vis-à-vis de chaque catégorie de Short et Leveraged Commodity Securities sont garanties par un nantissement sur la catégorie équivalente de Contrats sur Matières Premières en vertu des Contrats de Facilité et des contrats associés.</p> <p>Le diagramme ci-dessous représente les principaux aspects de la structure actuellement mise en place :</p> |
| B.29 | Description des flux de fonds | <p>Les Short et Leveraged Commodity Securities peuvent être achetés ou vendus contre du numéraire sur la bourse de Londres, la <i>Borsa Italiana</i>, Euronext Amsterdam et/ou sur la bourse de Francfort (étant les bourses sur lesquelles les titres sont admis à la négociation) ou dans le cadre de transactions privées hors marché. Les détails des bourses sur lesquelles une catégorie particulière de titre peut être négociée sont exposés dans un document intitulé « Conditions Définitives », préparés par l'Émetteur chaque fois que les titres sont émis. Les teneurs de marché fournissent la liquidité sur ces bourses et pour ces transactions mais, seuls les Participants Agréés peuvent demander directement à l'Émetteur l'émission de Short et Leveraged Commodity Securities. L'Émetteur a conclu des Accords de Participant Agréé et a consenti avec les Participants Agréés à émettre des Short et Leveraged Commodity Securities à ces Participants Agréés sur une base continue. Un Participant Agréé peut vendre des Short et Leveraged Commodity Securities sur une bourse ou dans le</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                           |                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

échéances spécifiques, moins les frais applicables. Contrairement à la gestion de positions à terme, les Short et Leveraged Commodity Securities n'impliquent aucun roulement, appel de marge, expiration ou courtage à terme.

L'Émetteur a créé 120 catégories de Short et Leveraged Commodity Securities, chacune donnant aux investisseurs une exposition aux variations quotidiennes en pourcentage des mouvements dans un des Indices sur Matières Premières Bloomberg et qui peut être groupées dans 6 types différents :

- « One Times Short Individual Securities » ;
- « One Times Short Index Securities » ;
- « Three times Short Individual Securities » ;
- « Two Times Long Individual Securities » ;
- « Two Times Long Index Securities » ; et
- « Three Times Long Individual Securities ».

***Caractéristiques des Catégories et Indices :***

Le rendement sur les Short et Leveraged Commodity Securities est lié dans chaque cas aux variations quotidiennes en pourcentage de la valeur des Indices sur Matières Premières Bloomberg correspondants comme suit :

- Les One Times Short Individual Securities offrent une exposition courte aux variations quotidiennes des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur un seul type de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du One Times Short Individual Security connaîtra ce même jour une baisse correspondante en pourcentage et *vice versa*) ;
- Les One Times Short Index Securities offrent une exposition courte aux variations quotidiennes des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur différents types de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du One Times Short Index Security connaîtra ce même jour une baisse correspondante en pourcentage et *vice versa*) ;
- Les Three Times Short Individual Securities offrent une exposition courte représentant le triple du pourcentage

d'évolution quotidien des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur un seul type de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du Three Times Short Individual Security baissera ce même jour trois fois plus en pourcentage et *vice versa*) ;

- Les Two Times Long Individual Securities offrent une exposition au double du pourcentage d'évolution quotidien des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur un seul type de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du Two Times Long Individual Security augmentera ce même jour deux fois plus en pourcentage et *vice versa*) ;
- Les Two Times Long Index Securities offrent une exposition au double du pourcentage d'évolution quotidien des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur différents types de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du Two Times Long Index Security augmentera ce même jour deux fois plus en pourcentage et *vice versa*) ;
- Les Three Times Long Individual Securities offrent une exposition au triple du pourcentage d'évolution quotidien des Indices sur Matières Premières Bloomberg, répliquant les variations de la valeur des contrats à terme qui portent sur un seul type de matières premières (de telle sorte que si la valeur de l'Indice sur Matières Premières Bloomberg pertinent augmente un jour donné, la valeur du Three Times Long Individual Security augmentera ce même jour trois fois plus en pourcentage que cet Indice sur Matières Premières Bloomberg et *vice versa*) ;

auxquels s'ajoute à chaque fois un ajustement du taux d'intérêt sans risque qui court sur une position complètement garantie prise sur les contrats à terme sous-jacent concernés.

|------|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| C.18 | Description du rendement | <p>Le Cours de chaque Short ou Leveraged Commodity Security reflète les variations dans l'indice de Matières Premières Bloomberg concerné depuis le jour précédent celui au cours duquel le Cours a été calculé, ajusté par un facteur à effet de levier de -1 (pour les One Times Short Commodity Securities), -3 (pour les Three Times Short Individual Securities), +2 (pour les Two Times Long Commodity Securities) ou +3 (pour les Three Times Long Individual Securities) et déduction de tout frais applicable. Par conséquent, le rendement pour une catégorie particulière sera basée, principalement, sur la performance de l'Indice de Matières Premières Bloomberg concerné.</p> <p>Pour atteindre cet objectif, les Short et Leveraged Commodity Securities et les Contrats sur Matières Premières au travers desquels l'Émetteur obtient l'exposition aux Indices sur Matières Premières Bloomberg sont évalués tous deux en conformité avec la Formule. Cette Formule reflète (a) la différence entre le niveau de l'Indice sur Matières Premières Bloomberg concerné à ce jour et le niveau de l'Indice sur Matières Premières Bloomberg concerné le jour précédent auquel le Cours a été calculé, (b) l'application d'un facteur à effet de levier de -1 (pour les One Times Short Commodity Securities), -3 (pour les Three Times Short Individual Securities), ou +2 (pour les Two Times Long Commodity Securities) et +3 (pour les Three Times Long Individual Securities) ; et (c) les frais payables par l'Émetteur à la Contrepartie aux Contrats sur Matières Premières en vertu de l'Accord de Facilité et à ManJer. La déduction des frais payable à la Contrepartie aux Contrats sur Matières Premières et à ManJer sont référencés dans l'ajustement du capital référencé dans la Formule.</p> <p>Le Cours de chaque catégorie de Short et Leveraged Commodity Securities sera calculé par l'Émetteur à la fin de chaque jour de valorisation (après publication des cours du marché à terme) puis affiché avec l'Ajustement du Capital qui s'applique sur le site internet de l'Émetteur : <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a>.</p> <p>Le Cours de chaque catégorie de Three Times Short Individual Security et de chaque catégorie de Three Times Long Individual Security (ensemble les « <b>Three Times Commodity Securities</b> ») comprend un mécanisme de rééquilibrage journalier qui sera déclenché si la valeur de l'Indice sur Matières Premières Bloomberg concerné (i) perd 25 pourcent au cours d'une même journée pour les Three Times Long Individual Securities ; ou (ii) augmente de 25 pourcent au cours d'une même journée pour les Three Times Short Individual Securities (communément appelés « <b>Evènement Déclencheur</b> »).</p> |
|------|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

A la suite de la survenance d'un Evènement Déclencheur, pour que le cours puisse être calculé le même jour, une autre valeur pour l'Indice sur Matières Premières Bloomberg sera calculée (la « **Valeur de l'Indice Déclencheur** »). Un porteur de titres obtiendra une triple exposition courte ou une triple exposition longue (selon la situation) par rapport à la variation de l'Indice sur Matières Premières Bloomberg concerné (i) depuis la valeur antérieure du cours de clôture jusqu'à la Valeur de l'Indice Déclencheur (ii) depuis la Valeur de l'Indice Déclencheur jusqu'au jour de fixation du prix de clôture.

La Valeur de l'Indice Déclencheur dépendra de la survenance ou non de l'Evènement Déclencheur pendant les heures d'ouverture du marché :

- Durant les heures d'ouverture du marché – la Valeur de l'Indice Déclencheur correspondra à la valeur la plus faible (pour les Three Times Long Individual Securities) ou à la valeur la plus élevée (pour les Three Times Short Individual Securities) de l'Indice sur Matières Premières Bloomberg concerné applicable à ladite catégorie qui survient durant les 15 minutes suivant la survenance de l'Evènement Déclencheur ; ou
  
- En dehors des heures d'ouverture du marché – la Valeur de l'Indice Déclencheur correspondra à la valeur la plus faible (pour Three Times Long Individual Securities) ou à la valeur la plus élevée (pour Three Times Short Individual Securities) de l'Indice sur Matières Premières Bloomberg concerné applicable pour cette catégorie qui survient durant la période comprise entre l'Evènement Déclencheur et les 15 minutes précédant l'ouverture du marché.

Dans tous les cas, si un cas de perturbation du marché ou de perturbation de couverture se produit au cours de la période de 15 minutes, cette période peut être prolongée par périodes successives de 15 minutes jusqu'à la première des (a) une période continue de 15 minutes écoulée et au cours de laquelle aucun cas de perturbation du marché ou de perturbation de couverture a eu lieu et (b) la fin de horaires de change le troisième jour de bourse complet après la survenue de l'Evènement Déclencheur.

Les Short and Leveraged Commodity Securities ne portent pas d'intérêt. Les profits réalisés par l'investisseur correspondent à la différence entre le cours auquel les Short and Leveraged Commodity Securities concernés sont émis (ou achetés sur le marché secondaire) et le cours auquel ils sont rachetés (ou revendus).

#### **Résumé spécifique à l'émission**

Les Short and Leveraged Commodity Securities fournissent un bénéfice lié à Bloomberg Coffee Subindex Total Return. Vous

|     |                               | <p>actifs que le Porteur de Titres pourrait réclamer. Dans le cas où le bien garanti est insuffisant pour couvrir le montant payable au Porteur de Titres, le Porteur de Titres subirait une perte.</p> <p>Bien que les Short et Leveraged Commodity Securities soient garantis par des Contrats sur Matières Premières et des nantissements, leur valeur et la capacité de l'Émetteur à s'acquitter de tout montant de rachat reste partiellement dépendante du recouvrement des sommes dues par MLI et CGML au titre des Contrats de Facilité, de la Caution BAC, la Garantie Citigroup, des Accords de Garantie et des Accords de Contrôle. Aucun Porteur de Titres n'a de droit direct à faire exécuter les obligations de l'Émetteur. Il n'est pas garanti que MLI, CGML ou toute autre entité sera en mesure de remplir ses obligations de paiement en vertu des Contrats sur Matières Premières, Contrat de Facilité, Caution BAC, la Garantie Citigroup, Accord de Garantie ou Accord de Contrôle pertinent. Par conséquent, on ne peut assurer que l'Émetteur soit en mesure de racheter les Short et Leveraged Commodity Securities à leur cours de rachat qui pourrait conduire un investisseur à recevoir moins que le prix de rachat au moment du rachat de leurs Short et Leveraged Commodity Securities.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| D.3 | Risques principaux des titres | <p>Si MLI, agissant en qualité d'agent de calcul, notifie l'Émetteur que le cours intra-journalier des Contrats sur Matières Premières de la même catégorie que tout Short et Leveraged Commodity Securities est tombé à ou en dessous de zéro à tout moment dans la journée de négociation et que ces Contrats sur Matières Premières ont été résiliés, les Short et Leveraged Commodity Securities de cette catégorie feront alors automatiquement l'objet d'un rachat obligatoire à ce jour et les Porteurs de Titres auront peu de chance dans cette situation de recevoir un quelconque produit puisque, dans ces circonstances, il est improbable que le Panier concerné ait suffisamment d'actifs pour repayer aux Porteurs de Titres toute somme conséquente sur ces rachats dans la mesure où les seuls actifs disponibles pour le rachat des Short et Leveraged Commodity Securities affectés seront les Contrats sur Matières Premières dont la valeur sera à zéro même si le Cours de cette catégorie de Short et Leveraged Commodity Securities augmente par la suite. Dans ces circonstances, le Porteur de Titres peut supporter une perte si des Short et Leveraged Commodity Securities sont rachetés au cours inférieur à celui qui aurait été appliqué si l'investissement du Porteur de Titres avait été racheté à un jour choisi par le Porteur de Titres plutôt qu'à la date de rachat anticipé. Le rachat anticipé pourrait également conduire un Porteur de Titres à encourir une charge fiscale à laquelle il n'aurait pas été soumis par ailleurs et/ou si le rachat prend place au moment où la valeur numéraire des Short et Leveraged Commodity Securities est inférieure à celle à la période à laquelle ils ont été achetés par le Porteur de Titres, le Porteur de Titres pourrait encourir une perte.</p> <p>En cas de réalisation du nantissement par une Contreparties aux Contrats sur Matières Premières, la valeur de l'actif réalisé peut être inférieure à celle exigée pour régler le montant du rachat aux Porteurs de Titres. Toute réalisation du nantissement peut prendre</p> |

|     |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                               | <p>du temps et un Porteur de Titres pourrait subir des retards dans la réception des montants qui lui sont dus.</p> <p>Les rendements des Short et Leveraged Commodity Securities ont été conçus pour offrir une exposition aux risques de variations quotidiennes de l'indice correspondant. Cela n'équivaut pas à offrir une exposition aux risques de variations de l'indice concerné sur des périodes supérieures à un jour.</p> <p>Il se peut que les jours où des interruptions sur les marchés de matières premières sous-jacents surviennent, une ou plusieurs catégories de Short and Leveraged Commodity Securities ne soient pas en mesure d'être évaluées. Cela provoquera un retard dans la procédure de souscription et de rachat, ce qui pourrait alors avoir un impact négatif pour les investisseurs potentiels ou existants.</p> <p>Résumé spécifique à l'émission :</p> <p>Dans les situations où le prix des contrats à terme dont la livraison doit intervenir à une date éloignée s'avère plus élevé que celui des contrats à terme dont la livraison doit intervenir à une date rapprochée, la valeur de l'Indice sur Matières Premières Bloomberg correspondant diminuera avec le temps sauf si le prix au comptant augmente au même rythme que la variation du prix des contrats à terme. Le rythme de variation peut être relativement élevé et les variations peuvent se prolonger pendant un temps indéterminé, diminuant ainsi la valeur de l'Indice sur Matières Premières Bloomberg et par là même le cours de tout Leveraged Commodity Security lié à celui-ci ce qui pourrait conduire pour un Porteur de Titres à encourir une perte.</p> <p>Les variations de cours journalières des Leveraged Commodity Securities seront amplifiées. Pour ce qui est des Two Times Long Commodity Securities une baisse des Indices sur Matières Premières Bloomberg concernés de 50% ou plus dans la journée pourrait entraîner une perte totale de l'investissement.</p> |
| D.6 | Risques principaux des titres | <p>Voir Partie D.3 ci-dessus</p> <p>La performance passée n'est pas un indicateur fiable des performances futures et la performance de l'investissement d'un Short et Leveraged Commodity Security pourrait être volatile. En conséquence, les investisseurs en Short et Leveraged Commodity Securities peuvent perdre tout ou partie de la valeur de leur investissement.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| SECTION E – Offre |                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| E.2b              | Raison de l'Offre et utilisation des produits | Sans objet ; les raisons de l'offre et l'utilisation des produits ne diffèrent pas de la réalisation de profits et/ou de couverture.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| E.3               | Conditions générales de l'offre               | Les Short et Leveraged Commodity Securities sont offerts à la souscription par l'Émetteur aux seuls Participants Agréés ayant soumis une demande en bonne et due forme et ne seront émis qu'après règlement du prix de souscription à la Contrepartie aux Contrats sur Matières Premières concernée. Le Participant Agréé doit également acquitter à l'Émetteur une commission d'émission de 500 livres Sterling. Toute demande de Short et Leveraged Commodity Securities faite avant 14h30, heure anglaise, pendant un jour de bourse permettra normalement au Participant Agréé d'être inscrit comme le Porteur de Short et Leveraged Commodity Securities dans les deux jours de bourse.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| E.4               | Intérêts importants ou conflictuels           | <p>Mme Jones et Ziembra (qui sont administrateurs de l'Émetteur) sont également administrateurs de ManJer, HoldCo, l'actionnaire unique de l'Émetteur. M. Ross et Mme Jones sont également administrateur de R&amp;H Fund Services (Jersey) Limited, qui est administrateur de l'Émetteur, et le secrétaire de l'Émetteur et de ManJer. . Les administrateurs n'estiment pas qu'il y a de conflit d'intérêt potentiel ou avéré entre les obligations des administrateurs et/ou membres des comités de gestion, de direction et de supervision de l'Émetteur au regard de l'Émetteur et les intérêts personnels et/ou autres obligations qu'ils peuvent avoir.</p> <p>Les administrateurs de l'Émetteur occupent également des postes d'administrateurs au sein d'autres sociétés émettrices de titres sur matières premières négociées en bourse (ETC) appartenant elles aussi à HoldCo et dans d'autres sociétés du groupe WisdomTree, y compris dans Boost Management Limited (une société qui rend des prestations de services à Boost Issuer PLC (un émetteur de produits négociés en bourse)), WisdomTree Management Limited et dans WisdomTree Issuer Plc, un émetteur de fonds indiciels cotés par l'intermédiaire de compartiments dont la responsabilité est distincte.</p> |
| E.7               | Frais                                         | <p>L'Émetteur facture les frais suivants aux investisseurs :</p> <p>Aux Participants Agréés uniquement :</p> <ul style="list-style-type: none"> <li>- l'Émetteur facture les frais d'un montant de 500 livres Sterling par demande de souscription ou de rachat faite directement auprès de l'Émetteur ;</li> </ul> <p>À tous les Porteurs de Titres :</p> <ul style="list-style-type: none"> <li>- des commissions de gestion de 0,98 % par an sur la base de la valeur de tous les Short et Leveraged Commodity Securities en circulation ;</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

- une commission de 0,85 % par an à régler aux Contreparties aux Contrats sur Matières Premières pour les One Times Short Commodity Securities, de 1,90 % par an pour les Three Times Short Individual Securities, 1,30% par an pour les Two Times Long Commodity Securities et 1,60% par an pour les Three Times Long Individual Securities, toutes basées sur la valeur de l'ensemble des Short et Leveraged Commodity Securities en circulation ; et
- une redevance d'utilisation de 0,05 % par an (calculée sur le prix cumulé quotidien de tous les Contrats sur Matières Premières intégralement acquittés en circulation à cet instant) qui servira à payer la commission de Bloomberg,

chacun étant calculé en appliquant l'Ajustement de Capital.

Aucun autre frais n'est facturé aux investisseurs par l'Émetteur.

Si un investisseur achète des Short et Leveraged Commodity Securities à un intermédiaire financier, l'Émetteur évalue les frais facturés par un initiateur de l'offre agréé pour la vente de Short et Leveraged Commodity Securities à un investisseur à 0,15 % de la valeur de ces titres vendus à l'investisseur.

## ZUSAMMENFASSUNG

### ETFS Commodity Securities Limited

#### Zusammenfassung des Prospekts

#### Basisprospekt (der "Prospekt") vom 24 Mai 2019 für die Emission von

#### ETFS Short Commodity Securities und ETFS Leveraged Commodity Securities

Die Zusammenfassungen bestehen aus vorgeschriebenen Angaben, die als "Angaben" bezeichnet werden. Diese Angaben sind in den Abschnitten A – E (A.1 – E.7) durchnummeriert.

Diese Zusammenfassung enthält alle Angaben, die für eine Zusammenfassung für diese Art von Wertpapieren und Emittenten erforderlich sind. Da einige Angaben nicht angesprochen werden müssen, können Lücken in der Nummernfolge der Angaben bestehen.

Obwohl eine Angabe nach der Art des Wertpapiers und des Emittenten in dieser Zusammenfassung enthalten sein muss, kann es vorkommen, dass keine wesentlichen Informationen in Bezug auf diese Angabe gemacht werden können. In diesem Fall ist eine kurze Beschreibung der Angabe in der Zusammenfassung mit dem Hinweis "entfällt" enthalten.

#### Abschnitt A – Einleitung und Warnhinweise

|                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A.1 Grundsätzlicher Warnhinweis                                                                                                                                                      | <p>Diese Zusammenfassung sollte als Prospekt einleitung für den Basisprospekt der <i>ETFS Commodity Securities Limited</i> in Bezug auf das Programm für die Emission von <i>Short und Leveraged Commodity Securities</i> vom 24 Mai 2019 (der "<b>Prospekt</b>") verstanden werden,</p> <p>Der Anleger sollte sich bei jeder Entscheidung, in die <i>ETFS Short Commodity Securities</i> oder die <i>ETFS Leveraged Commodity Securities</i> zu investieren, auf den Prospekt als Ganzes stützen.</p> <p>Ein Anleger, der wegen der in dem Prospekt enthaltenen Angaben Klage einreichen will, muss nach den nationalen Rechtsvorschriften seines Mitgliedstaats möglicherweise für die Übersetzung des Prospekts aufkommen, bevor das Verfahren eingeleitet werden kann.</p> <p>Zivilrechtlich haften nur diejenigen Personen, die die Zusammenfassung samt etwaiger Übersetzungen vorgelegt und übermittelt haben, und dies auch nur für den Fall, dass die Zusammenfassung verglichen mit den anderen Teilen des Prospekts irreführend, unrichtig oder inkohärent ist oder verglichen mit den anderen Teilen des Prospekts wesentliche Angaben, die in Bezug auf Anlagen in die <i>ETFS Short Commodity Securities</i> oder die <i>ETFS Leveraged Commodity Securities</i> für die Anleger eine Entscheidungshilfe darstellen, vermissen lassen.</p> |
| A.2 Hinweis auf die Zustimmung zur Benutzung des Prospekts zum Zweck der anschließenden Weiterveräußerung oder der endgültigen Platzierung von Wertpapieren durch Finanzintermediäre | <p>Der Emittent hat seine Zustimmung zur Benutzung dieses Prospekt einschließlich der Benutzung für die spätere Weiterveräußerung oder endgültiger Platzierung erklärt und übernimmt die Verantwortung für den Inhalt dieses Prospekts in Bezug auf die spätere Weiterveräußerung oder endgültige Platzierung durch eine Platzierung der Wertpapiere durch ein öffentliches Angebot der Short und Leveraged Commodity Securities durch einen Finanzintermediär in Österreich, Belgien, Dänemark, Finnland, Frankreich, Deutschland, Irland, Italien, den Niederlanden, Norwegen, Spanien, Schweden und im Vereinigten Königreich durch einen Finanzintermediär der eine Wertpapierfirma im Sinne der Finanzmarkttrichtlinie 2014/65/EU in der jeweils geltenden Fassung („<b>MiFID II</b>“) sowie ihrer Ergänzungen und in Übereinstimmung mit der MiFID II im einem Mitgliedsstaat zugelassen ist. Diese solche Zustimmung bezieht sich auf jede Weiterveräußerung oder jede endgültige Platzierung durch ein öffentliches Angebot während der</p>                                                                                                                                                                                                                                                                                                      |

| B.17<br>Emittenten<br>Kreditratings                                                      | Nicht anwendbar – der Emittent hat kein Kreditrating beauftragt und es wird nicht beabsichtigt, dass für die Short and Leveraged Commodity Wertpapiere ein Kreditrating beauftragt wird.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| B.20<br>Zweckgesellschaft                                                                | Der Emittent wurde als Zweckgesellschaft mit dem Zweck gegründet, <i>Exchange Traded Commodities</i> als <i>Asset-Backed Securities</i> (forderungsbesicherte Wertpapiere) zu emittieren.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| B.21<br>Beschreibung der<br>Haupttätigkeit und<br>Gesamtüberblick<br>über die Teilnehmer | <p>Die Haupttätigkeit des Emittenten besteht in der Emission verschiedener Klassen von durch Derivate-Kontrakte, die an Rohstoff-Indizes gekoppelt sind, besicherter Schuldverschreibungen. Gemäß dieses Prospekts begibt der Emittent Schuldverschreibungen (die „<b>Short und Leveraged Commodity Securities</b>“), die es (vor Abzug und Gebühren und Auslagen) ermöglichen, an den Preisbewegungen von solchen Rohstoff-Indizes (die „<b>Bloomberg Commodity Indizes</b>“ und jeder ein „<b>Bloomberg Commodity Index</b>“), die von Bloomberg L.P. und/oder Bloomberg Finance L.P. oder von einem verbundenen Unternehmen (zusammen „<b>Bloomberg</b>“) berechnet und veröffentlicht werden, entweder 1-fach invers (d.h. -1-fach), 3-fach invers (d.h. -3-fach), 2-fach gehebelt (2-fach) oder 3-fach gehebelt (3-fach) teilzuhaben. Die Bloomberg Commodity Indizes bilden die Preisbewegungen von einzelnen Terminkontrakten auf Rohstoffe oder Körben von Terminkontrakten auf Rohstoffe ab. Bis 30. Juni 2014 wurden die Bloomberg Commodity Indizes von der CME Group Index Service LLC gemeinsam mit UBS Securities LLC berechnet und von CME Indizes unter dem Namen The Dow Jones – UBS Commodity Indizes SM veröffentlicht. Der Emittent hat ein Programm aufgelegt nach dem verschiedene Klassen von <i>Short und Leveraged Commodity Securities</i> von Zeit zu Zeit emittiert werden können.</p> <p>Der Emittent partizipiert an den täglichen prozentualen Veränderungen des Schlusskurses der Bloomberg Commodity Indizes indem er bis zu (aber nicht einschließlich) dem Wirksamkeitsdatum vollständig hinterlegte besicherte Derivate-Kontrakte (die „<b>Commodity-Kontrakte</b>“) mit Merrill Lynch International („<b>MLI</b>“) und Citigroup Global Markets Limited („<b>CGML</b>“). MLI und CGML werden gemeinsam als die „<b>Commodity Kontrakt-Gegenparteien</b>“ bezeichnet. Die Bedingungen der Commodity-Kontrakte, die von dem Emittenten erworben wurden oder noch erworben werden beruhen auf (i) einer Vereinbarung, mit dem Titel „MLI Kreditvertrag bezogen auf Short und Leveraged Commodity Kontrakte“, zwischen dem Emittenten und MLI vom 29. Juni 2017 (der „<b>MLI Kreditvertrag</b>“); und (ii) einer Vereinbarung, mit dem Titel „CGML Kreditvertrag bezogen auf Short und Leveraged Commodity Kontrakte“, zwischen dem Emittenten und CGML vom 29. Juni 2017 (der „<b>CGML Kreditvertrag</b>“). Die Zahlungsverpflichtungen der MLI nach dem MLI Kreditvertrag werden durch eine Garantie (die „<b>BAC Garantie</b>“) der Bank of America Corporation („<b>BAC</b>“) gestützt, und die Zahlungsverpflichtungen von CGML nach dem CGML Kreditvertrag werden von einer Garantie gestützt (die „<b>Citigroup Garantie</b>“) der Citigroup Global Markets Holding Inc. („<b>CGMH</b>“), die jeweils zugunsten des Emittenten gewährt wurden.</p> <p>Die Verpflichtungen der Commodity-Kontrakt-Gegenparteien die sie gegenüber dem Emittenten nach den Commodity Kontrakten haben, werden durch Sicherheiten besichert, die von den Commodity-Kontrakt-Gegenparteien (die „<b>Sicherheiten</b>“) gestellt werden und in Konten verwahrt werden, die bei der Bank of New York Mellon („<b>BNYM</b>“) auf die Namen der Commodity-Kontrakt-Gegenparteien geführt werden. MLI und CGML sind verpflichtet, auf ein Sicherheiten-Konto, Wertpapiere und Verpflichtungen zu übertragen, die dem Wert des Gesamtexposures des Emittenten im Rahmen der Commodity-Kontrakte an MLI oder CGML entsprechen (soweit anwendbar). Die gehaltenen Sicherheiten werden täglich angepasst,</p> |

|                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                         |             |             |  |            |            |                                    |  |  |                                                               |           |           |

| <p>B.28 Struktur der Transaktion</p>       | <p>Der Emittent hat ein Programm aufgelegt, nach dem <i>Short und Leveraged Commodity Securities</i> von Zeit zu Zeit begeben werden können. Die <i>Short und Leveraged Commodity Securities</i> können täglich an autorisierte Teilnehmer, die mit dem Emittenten eine Autorisierte-Teilnehmer-Vereinbarung abgeschlossen haben, ausgegeben werden bzw. von diesem zurückgegeben werden.</p> <p>Autorisierte Teilnehmer können anschließend <i>Short und Leveraged Commodity Securities</i> an andere Anleger über Börsen oder mittels privater Transaktionen verkaufen bzw. von diesen ankaufen.</p> <p><i>Short und Leveraged Commodity Securities</i> werden durch das Trust Instrument geschaffen. Nach den Bedingungen des Trust Instrument tritt der Trustee als Trustee für die Wertpapierinhaber jeder Art von <i>Short und Leveraged Commodity Securities</i> auf. Dies geschieht sowohl um (a) zum Vorteil der Wertpapierinhaber Entscheidungen zu treffen und Rechte aus dem <i>Short und Leveraged Commodity Securities</i> auszuüben und (b) die vom Emittenten gemäß der Sicherungsvereinbarung gewährten Sicherheiten treuhänderisch für die Wertpapierinhaber zu halten, etwaige Rechte auszuüben und zu vollstrecken und um die Erträge (nach Zahlung aller dem Treuhänder geschuldeten Beträge) an die Wertpapierinhaber (unter anderen) zu verteilen.</p> <p>Die Verpflichtungen des Emittenten in Bezug auf jede Klasse von <i>Short und Leveraged Commodity Securities</i> werden besichert durch die Bestellung einer Sicherheit an der entsprechenden Klasse von Commodity-Kontrakten den Kreditverträgen und den dazugehörigen Vereinbarungen.</p> <p>Eine schematische Darstellung der grundsätzlichen Aspekte der Struktur, die derzeit besteht, wird nachfolgend abgebildet:</p> |
| <p>B.29 Beschreibung des Mittelflusses</p> | <p><i>Short und Leveraged Commodity Securities</i> können gegen Zahlung von Geld an der London Stock Exchange, der Borsa Italiana und/oder der Frankfurter Wertpapierbörse (als die Wertpapierbörsen an denen sie zum Handel zugelassen sind) oder mittels privater außerbörslicher Geschäfte gekauft und verkauft werden. Weitere Angaben zu den Börsen, an denen eine bestimmte Klasse von Wertpapieren gehandelt werden kann, sind in dem Dokument mit dem Titel „Endgültige Bedingungen“ enthalten, welches vom Emittenten zum Zeitpunkt der Ausgabe der Wertpapiere erstellt wird. An diesen Wertpapierbörsen stellen Market-Maker Liquidität für diese Geschäfte bereit, jedoch sind nur autorisierte Teilnehmer berechtigt, unmittelbar beim Emittenten die Ausgabe von <i>Short und Leveraged Commodity Securities</i> zu beantragen. Der Emittent hat</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <p>C.1 Art und Gattung der angebotenen Wertpapiere</p> | <p><i>Short und Leveraged Commodity Securities</i> wurden zu dem Zweck geschaffen, Anlegern einen Gesamtertrag (<i>Total Return</i>) zu ermöglichen, der dem entspricht, der durch die Eingehung einer vollständig mit Barmitteln besicherten Kaufposition (long fully cash collateralised unleveraged position) in Terminkontrakten unterschiedlicher Laufzeiten, abzüglich der entsprechenden Gebühren, erzielt werden könnte. Im Gegensatz zur Verwaltung von Terminkontrakten bedarf es bei <i>Short und Leveraged Commodity Securities</i> keines „rollings“, keiner „margin calls“, es besteht keine Fälligkeit und es bedarf keines „futures brokerage“.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

Der Emittent hat 120 verschiedene Klassen von *Short und Leveraged Commodity Securities* geschaffen und für eine Emission zugänglich gemacht, wobei jede Klasse Anlegern die Möglichkeit gibt, an den täglichen prozentualen Veränderungen eines der Bloomberg Commodity Indizes zu partizipieren. Die *Short und Leveraged Commodity Securities* können in sechs Arten unterteilt werden:

Einfach Short Individual Securities;

Einfach Short Index Securities;

Dreifach Short Individual Securities;

Zweifach Long Individual Securities;

Zweifach Long Index Securities; und

Dreifach Long Individual Securities.

***Merkmale von Klasse und Index:***

Der Ertrag der *Short und Leveraged Commodity Securities* ist von der täglichen prozentualen Veränderung der entsprechenden Bloomberg Commodity Indizes wie folgt abhängig:

- die *Einfach Short Individual Securities* ermöglichen die umgekehrte (short) Partizipation an der täglichen prozentualen Veränderung der Bloomberg Commodity Indizes, die die Preisbewegungen der Terminkontrakte in einem Rohstoff abbilden, (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Einfach Short Individual Security* am selben Tag um den gleichen Prozentsatz fällt und umgekehrt);
- *Einfach Short Index Securities* ermöglichen die umgekehrte (short) Partizipation an der täglichen prozentualen Veränderung der Bloomberg Commodity Indizes, die die Preisbewegungen von Terminkontrakten verschiedener Rohstoffe abbilden, (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Einfach Short Index Security* am selben Tag um den gleichen Prozentsatz fällt und umgekehrt);
- *Dreifach Short Individual Securities* ermöglichen die 3-fache umgekehrte (short) Partizipation an der täglichen prozentualen Veränderung der Bloomberg Commodity Indizes, die die Preisbewegungen von Terminkontrakten verschiedener Rohstoffe abbilden, (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Dreifach Short Individual Security* am selben Tag um den dreifachen Prozentsatz fällt und umgekehrt)
- *Zweifach Long Individual Securities* ermöglichen die zweifache Partizipation an der täglichen prozentualen Veränderung der Bloomberg Commodity Indizes, die die Preisbewegungen von Terminkontrakten eines Rohstoffs abbilden, (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Zweifach Long Individual Security* am selben Tag um den zweifachen Prozentsatz steigt und umgekehrt);
- *Zweifach Long Index Securities* ermöglichen die zweifache Partizipation an der täglichen prozentualen Veränderung der

Bloomberg Commodity Indizes, die die Preisbewegungen von Terminkontrakten verschiedener Rohstoffe abbilden (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Zweifach Long Index Security* am selben Tag um den zweifachen Prozentsatz steigt und umgekehrt);

- Dreifach *Long Individual Securities* ermöglichen die dreifache Partizipation an der täglichen prozentualen Veränderung der Bloomberg Commodity Indizes, die die Preisbewegungen von Terminkontrakten verschiedener Rohstoffe abbilden (so dass, wenn der Wert des entsprechenden Bloomberg Commodity Index an einem beliebigen Tag steigt, der Wert der *Dreifach Long Individual Security* am selben Tag um den dreifachen Prozentsatz steigt und umgekehrt)

in jedem Einzelfall zuzüglich einer Anpassung für den risikofreien Zinssatz der einer vollständig besicherten Position in dem jeweils zugrundeliegenden *Terminkontrakt* zufließt.

**Emissionsspezifische Zusammenfassung:**

Die folgenden Einzelheiten gelten für die *Short und Leveraged Commodity Securities*, die nach den Endgültigen Bedingungen begeben werden:

|                                                                               |                                        |

| <p>C.18 Beschreibung des Ertrags</p> | <p>Der Preis für jede <i>Short und Leveraged Commodity Security</i> bildet Bewegung des maßgeblichen Bloomberg Commodity Index seit dem Tag ab an dem der Preis zuletzt berechnet wurde, wobei der Wert um einen Hebelfaktor von -1 (bei <i>Einfach Short Commodity Securities</i>), -3 (für <i>Dreifach Short Individual Securities</i>), +2 (bei <i>Zweifach Long Commodity Securities</i>) und +3 (für <i>Dreifach Long Individual Securities</i>) angepasst wird und die möglicherweise anfallenden Gebühren berücksichtigt werden. Folglich ergibt sich der Ertrag für eine bestimmte Klasse hauptsächlich aus der Wertentwicklung des maßgeblichen Bloomberg Commodity Index.</p> <p>Um dies zu erreichen, werden sowohl die <i>Short and Leveraged Commodity Securities</i> als auch die Commodity-Kontrakte durch welche der Emittent sich an den Bloomberg Commodity Indizes beteiligt in Übereinstimmung mit der Formel bewertet. Diese Formel bildet (a) die Differenz der Schlusskurse des maßgeblichen Bloomberg Commodity Index an dem Tag im Vergleich mit dem vorhergehenden Tag an dem der Preis berechnet wurde, (b) die Anwendung des Hebelfaktors von -1 (für <i>Short Commodity Securities</i>) oder -3 (für <i>Dreifach Short Individual Securities</i>), +2 (für <i>Zweifach Long Commodity Securities</i>) und +3 (für <i>Dreifach Long Individual Securities</i>) und (c) die vom Emittenten an die Commodity-Kontrakt-Gegenpartei gemäß des Kreditvertrages sowie an ManJer zu zahlenden Gebühren ab. Der Abzug der an die Commodity-Kontrakt-Gegenpartei und ManJer zu zahlenden Gebühren spiegelt sich in der Kapitalanpassung wider, die in der Formel in Bezug genommen wird.</p> <p>Der Preis für jede Klasse von <i>Short und Leveraged Commodity Securities</i> wird vom Emittenten zum Ende eines jeden Preisfestsetzungstages (nach der Veröffentlichung der Futures-Preise für den jeweiligen Tag) berechnet und auf der Webseite des Emittenten unter <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a> mit der Kapitalanpassung veröffentlicht.</p> <p>Der Preis für jede Klasse der <i>Dreifach Short Individual Security</i> und jede Klasse der <i>Dreifach Long Individual Security</i> (gemeinsam die „<b>Dreifach Commodity Securities</b>“) beinhaltet einen Intraday Ausgleichs-Mechanismus, der ausgelöst wird, wenn der Wert des jeweiligen Bloomberg Commodity Index entweder (i) im Falle von <i>Dreifach Long Individual Securities</i> innerhalb eines Tages um 25 Prozent fällt oder (ii) im Fall von <i>Dreifach Short Individual Securities</i> innerhalb eines Tages um 25 Prozent steigt („<b>Restrike Event</b>“ genannt).</p> <p>Um den Preis nach einem <i>Restrike Event</i> zu berechnen, wird nach einem <i>Restrike Event</i> ein weiterer Wert des <i>Bloomberg Commodity Index</i> berechnet. Ein Anleger wird eine dreifach gehebelte bzw. eine</p> |

|                                                                                 | <p>der CGML Kontrollvereinbarung gehalten werden können auf der Webseite des Emittenten unter <a href="https://www.wisdomtree.eu">https://www.wisdomtree.eu</a> gefunden werden.</p> <p><b>Emissionsspezifische Zusammenfassung</b></p> <p>Die Commodity-Kontrakte gewähren einen Ertrag, der an die to Bloomberg Coffee Subindex Total Return geknüpft ist. Weitere Angaben können unter <a href="http://www.bloombergindexes.com/">http://www.bloombergindexes.com/</a>.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p><b>ABSCHNITT D – Risiken</b></p>                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <p>D.2 Zentrale Risiken, die dem Emittenten und dem Schuldner eigen sind</p>    | <p>Der Emittent hat eine Zweckgesellschaft zum Zweck der Begebung von <i>Exchange Traded Commodities</i> als <i>Asset-Backed Securities</i>. Der Emittent begibt derzeit <i>ETFS Short Commodity Securities</i>, <i>ETFS Leveraged Commodity Securities</i> und verschiedener anderer <i>Securities</i> (die "<b>Classic and Longer Dated Securities</b>"), die mit einem separaten Basisprospekt des Emittenten am oder um den Tag der Veröffentlichung dieses Prospekts begeben werden, errichtet. Der Emittent hat keine weiteren Vermögenswerte als die, welche den <i>Short und Leveraged Commodity Securities</i> und den <i>Classic und Longer Dated Securities</i> zugerechnet werden. Die Beträge, die ein Wertpapierinhaber aus einer Klage gegen den Emittenten erzielen kann, sind folglich auf die Erträge aus der Verwertung des gesicherten Eigentums, welche der Klasse von <i>Short und Leveraged Commodity Securities</i> des Wertpapierinhabers zugeordnet wird, begrenzt. Da der Emittent eine Zweckgesellschaft ist, die nur zum Zwecke der Begebung von <i>Short und Leveraged Commodity Securities</i> und <i>Classic und Longer Dated Securities</i> errichtet wurde und diese von keiner anderen Person garantiert werden, hat der Emittent keine weiteren Vermögenswerte auf die ein Wertpapierinhaber zugreifen könnte. Für den Fall, dass das gesicherte Eigentum nicht ausreicht, um die an den Wertpapierinhaber zu zahlenden Beträge zu begleichen, erleidet der Wertpapierinhaber einen Verlust.</p> <p>Obwohl <i>Short und Leveraged Commodity Securities</i> durch die Commodity-Kontrakte und weitere Sicherheiten besichert sind, hängt der Wert solcher <i>Short und Leveraged Commodity Securities</i> und die Fähigkeit des Emittenten, Rücknahmebeträge zu bezahlen teilweise davon ab, dass er fällige Beträge von MLI und CGML nach dem Kreditvertrag, der BAC Garantie, der Citigroup Garantie, der Sicherheitenverträge und der Kontrollverträge erhält. Die Wertpapierinhaber haben keine direkten Ansprüche gegen die oben genannten Personen.</p> <p>Es gibt keine Sicherheit dafür, dass MLI, CGML oder eine andere Gesellschaft in der Lage ist, ihren Zahlungsverpflichtungen nach den maßgeblichen Commodity-Kontrakten, Kreditverträgen, BAC Garantie, Citigroup Garantie, Sicherungsvereinbarung oder Kontrollvereinbarungen nachzukommen. Folglich gibt es keine Sicherheit dafür, dass der Emittent in der Lage ist, <i>Short und Leveraged Commodity Securities</i> zu ihrem Rücknahmepreis zurückzunehmen. Dies kann dazu führen, dass ein Anleger bei der Rückgabe von <i>Short und Leveraged Commodity Securities</i> weniger erhält als den Rücknahmepreis.</p> |
| <p>D.3 Zentrale Risiken der <i>Short und Leveraged Commodity Securities</i></p> | <p>Sofern MLI als Berechnungsstelle den Emittenten darüber in Kenntnis setzt, dass der intra-day Preis der Commodity-Kontrakte derselben Klasse wie eine der <i>Short oder Leveraged Commodity Securities</i> zu einem bestimmten Zeitpunkt während eines Handelstages auf oder unter Null gefallen ist und dass diese Commodity-Kontrakte beendet wurden, werden die <i>Short oder Leveraged Commodity Securities</i> diese Klasse automatisch an diesem Tag zwangsweise zurückgenommen. In dieser Situation ist es unwahrscheinlich, dass Wertpapierinhaber irgendwelche Erträge erhalten, da der maßgebliche Pool in diesen Situationen wahrscheinlich nicht über ausreichende Vermögenswerte verfügt, um den Wertpapierinhabern wesentliche Beträge bei solchen</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

Rückgaben zu zahlen. Denn die einzigen Vermögenswerte, die für die Rücknahme der betroffenen *Short oder Leveraged Commodity Securities* zur Verfügung stehen, sind die Commodity-Kontrakte, deren Wert auch dann Null ist, wenn der Preis für diese Klasse von *Short oder Leveraged Commodity Securities* sich im Anschluss verringert. Unter solchen Umständen können die Wertpapierinhaber einen Verlust erleiden, wenn der Barwert zu dem die *Short und Leveraged Commodity Securities* zurückgenommen werden, geringer ist als er wäre, hätte der Wertpapierinhaber die Anlage an einem Tag, den er selbst gewählt hätte, zurückgegeben statt an dem Tag der vorzeitigen Rückgabe. Vorzeitige Rückgaben können auch dazu führen, dass der Wertpapierinhaber eine Steuer zu zahlen hat, die er ansonsten nicht zu zahlen hätte. Außerdem kann dies dazu führen, dass, wenn die Rückgabe zu einem Zeitpunkt erfolgt zu dem der Barwert der *Short und Leveraged Commodity Securities* geringer ist als er beim Erwerb war, der Wertpapierinhaber einen Verlust erleidet.

Im Fall der Verwertung von Sicherheiten einer Commodity-Kontrakt-Gegenpartei kann es dazu kommen, dass der Wert der Vermögensgegenstände geringer als erforderlich ist, um die fälligen Rücknahmebeträge an die Wertpapierinhaber zu zahlen. Die Verwertung der Sicherheiten kann eine gewisse Zeit in Anspruch nehmen, was für Wertpapierinhaber zu Verzögerungen beim Erhalt der ihnen zustehenden Beträge führen kann. Ein Wertpapierinhaber kann einen Verlust erleiden, wenn die Verwertung der Vermögenswerte geringer ausfällt als der ihm zustehende Rücknahmebetrag. Die Erträge aus *Short und Leveraged Commodity Securities* sollen eine Beteiligung an den täglichen Veränderungen des maßgeblichen Indexes gewähren. Das ist nicht dasselbe wie die Beteiligung an Änderungen des maßgeblichen Indexes über Zeiträume von mehr als einem Tag.

An manchen Tagen können Störungen in den zugrunde liegenden Rohstoffmärkten dazu führen, dass für eine oder mehrere Klassen von *Short and Leveraged Commodity Securities* an diesem Tag keine Kurse bestimmt werden können. Dies führt zu einer Verzögerung bei den Zeichnungs- oder Rücknahmeprozessen, was einen negativen Einfluss auf zukünftige oder bestehende Anleger haben könnte.

***Emissionspezifische Zusammenfassung:***

In Situationen, in denen die Kosten für Terminkontrakte mit einem Lieferdatum, das weiter in der Zukunft liegt, höher sind als die mit einem näher liegenden Lieferdatum wird der Wert des entsprechenden Bloomberg Commodity Index im Laufe der Zeit sinken, es sei denn der Spotpreis steigt um dieselbe Rate an um die der Preis der Terminkontrakte variiert. Die Variationsrate könnte erheblich sein und für einen unbestimmten Zeitraum andauern und somit den Wert des Bloomberg Commodity Index und deshalb den Preis eines *Short und Leveraged Securities*, der an diesen Bloomberg Commodity Index geknüpft ist, mindern, was zu Verlusten für einen Wertpapierinhaber führen kann.

Tägliche Preisveränderungen der *Leveraged Commodity Securities* werden sich um ein Vielfaches auswirken. Bezüglich Zweifach Long *Commodity Securities* kann eine tägliche Verminderung des entsprechenden Bloomberg Commodity Index von 50 % oder mehr zu einem Totalverlust der Anlage führen.

- Eine an die Commodity-Kontrakt-Gegenpartei zu zahlende Gebühr von 0,85 % pro Jahr im Fall von *Einfach Short Commodity Securities*, 1,90 % pro Jahr im Fall von *Dreifach Short Individual Securities*, 1,30 % pro Jahr im Fall von *Zweifach Long Commodity Securities* und 1,60 % im Fall von *Dreifach Long Individual Securities*, jeweils auf der Grundlage des Werts aller umlaufenden *Short und Leveraged Commodity Securities* und
- Eine Lizenzgebühr in Höhe von 0,05 % pro Jahr (auf der Grundlage des gleichen Gesamtpreises eines vollständig bezahlten Commodity Kontrakt der zu jedem Zeitpunkt noch nicht verfallen ist), die dazu benutzt wird die CME-Index- oder Bloomberg-Gebühr zu zahlen.

Jede Gebühr wird durch Anwendung der Kapitalanpassung berechnet.

Den Anlegern werden vom Emittenten keine anderen Kosten berechnet.

Wenn ein Anleger *Short und Leveraged Commodity Securities* durch einen Finanzintermediär erwirbt, schätzt der Emittent, dass die von Autorisierten Anbietern im Zusammenhang mit dem Verkauf von *Short und Leveraged Commodity Securities* an Anleger berechneten Gebühren 0,15 % des Wertes der an einen Anleger verkauften *Short und Leveraged Commodity Securities* betragen.

**Emissionsspezifische Zusammenfassung:**

Ausgabegebühr: £ 500

Rücknahmegebühr: £ 500

Kapitalanpassung: -0.000042

Verwaltungsgebühr: 0,98 %

Lizenzgebühr: 0,05 %

Gebühr für die Commodity-Kontrakt-Gegenpartei 1.3%

## NOTA SINTETICA

### ETFS Commodity Securities Limited

#### Nota Sintetica relativa al Prospetto

#### Prospetto base del 24 Maggio 2019 per l'emissione di

#### ETFS Short Commodity Securities e ETFS Leveraged Commodity Securities

Le note sintetiche sono composte da obblighi di informativa definiti "Elementi". Tali Elementi sono numerati in Sezioni da A ad E (A.1 – E.7).

La presente nota sintetica contiene tutti gli Elementi che devono essere inclusi in una nota sintetica per questa tipologia di titoli ed emittente. Poiché alcuni Elementi non devono essere trattati, la sequenza degli Elementi può presentare dei salti di numerazione.

Anche qualora un Elemento debba essere inserito nella nota sintetica in virtù della tipologia di titoli ed Emittente, è possibile che nessuna informazione rilevante possa essere fornita in merito a detto Elemento. In tal caso, viene inclusa nella nota sintetica una breve descrizione dell'Elemento insieme alla dicitura "non applicabile".

#### Sezione A – Introduzione e Avvertenze

| B.20 | Società veicolo                                              | L'Emittente è stato costituito come società veicolo ( <i>special purpose vehicle</i> ) ai fini dell'emissione di exchange traded commodities (gli " <b>ETC</b> ") quali titoli garantiti da beni ( <i>asset-backed securities</i> ).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| B.21 | Principali attività e quadro di insieme delle parti          | <p>La principale attività dell'Emittente è l'emissione di diverse classi e tipi di titoli di debito garantiti da contratti derivati collegati a indici su merci. Ai sensi del presente Prospetto, l'Emittente emette titoli di debito (gli "<b>Short e Leveraged Commodity Securities</b>") i quali (prima delle commissioni e delle spese) forniscono alternativamente un'esposizione breve (-1 volta), tre volte breve (-3 volte), due volte lunga (+2 volte) o tre volte lunga(+3 volte) alle variazioni giornaliere in tali indici su merci calcolati e pubblicati da Bloomberg L.P. e/o da Bloomberg Finance L.P. e/o da una delle loro consociate (congiuntamente "Bloomberg") ("<b>Bloomberg Commodity Indices</b>" e, singolarmente "<b>Bloomberg Commodity Index</b>"). I <b>Bloomberg</b> -Commodity Indices tracciano le variazioni nei prezzi dei contratti future su singole materie prime o dei contratti future su panieri di materie prime. Prima del e incluso il 30 giugno 2014, i Bloomberg Commodity Indices erano calcolati e pubblicati da CME Group Index Services LLC in collaborazione con UBS Securities LLC ed erano conosciuti quali Dow Jones - UBS Commodity Indices SM. L'Emittente ha definito un programma in forza del quale possono essere emesse di volta in volta diverse classi di Short e Leveraged Commodity Securities.</p> <p>L'Emittente ottiene un'esposizione alle variazioni percentuali giornaliere nel livello degli Indici su Merci Bloomberg (<i>Bloomberg Commodity Indices</i>) stipulando contratti derivati garantiti con scambio di fondi, (i "<b>Contratti su Merci</b>", <i>Commodity Contracts</i>) con, Merrill Lynch International ("<b>MLI</b>") e Citigroup Global Markets Limited ("<b>CGML</b>"). Insieme MLI e CGML, sono noti quali "<b>Controparti in Contratti su Merci</b>" (<i>Commodity Contract Counterparties</i>).I termini dei Contratti su Merci acquistati o da acquistare sono disciplinati da (i) un accordo denominato "<b>Accordo di Servizi MLI relativo a Contratti su Merci Short e Leveraged</b>" (<i>MLI Facility Agreement relating to Short and Leveraged Commodity Contracts</i>) tra l'Emittente e MLI del 29 giugno 2017 (l'"<b>Accordo di Servizi MLI</b>"); e (ii) un accordo denominato "Accordo di Servizi CGML relativo a Contratti su Merci Short e Leveraged" tra l'Emittente e CGML del 29 giugno 2017(l'"<b>Accordo di Servizi CGML</b>"). Gli obblighi di pagamento di MLI ai sensi dell' Accordo di Servizi MLI sono supportati da una garanzia (la "<b>Garanzia BAC</b>") della Bank of America Corporation ("<b>BAC</b>") egli obblighi di pagamento di CGML ai sensi dell'Accordo di Servizi CGML sono supportati da una</p> |

Garanzia (la “**Garanzia Citigroup**”) di Citigroup Global Markets Holdings Inc. (“**CGMH**”) ciascuna rilasciata a favore dell'Emittente.

Gli obblighi delle Controparti in Contratti su Merci nei confronti dell'Emittente sono assicurati da una garanzia (*collateral*) fornita dalle stesse Controparti in Contratti su Merci (la “Garanzia”) e detenuta in conti a loro nome presso la Banca di New York Mellon (“**BNYM**”). Ai sensi degli accordi denominati (i) “Accordo di Garanzia” tra MLI e l'Emittente e “Accordo di Controllo MLI” tra BNYM, MLI e l'Emittente, ciascuno datato 29 giugno 2017; e (ii) “Accordo di Garanzia” tra CGML e l'Emittente e “Accordo di Controllo CGML” tra BNYM, CGML e l'Emittente, ciascuno datato 29 giugno 2017, MLI e CGML hanno l'obbligo di trasferire su di un conto di garanzia titoli e obbligazioni per il valore dell'esposizione totale dell'Emittente ai sensi dei Contratti su Merci verso MLI o CGML (a seconda dei casi). La garanzia detenuta viene adeguata ogni giorno per riflettere il valore dei Contratti su Merci corrispondenti.

Gli Short e Leveraged Commodity Securities possono essere emessi e riscattati su base giornaliera da istituzioni finanziarie (“**Partecipanti Autorizzati**”) che (i) abbiano sottoscritto con l'Emittente un accordo denominato “Accordo dei Partecipanti Autorizzati”; (ii) abbiano certificato all'Emittente il loro status ai sensi del Financial Services and Markets Act 2000 (“**FSMA**”); e (iii) (salvo il caso in cui una Controparte in Contratti su Merci (*Commodity Contract Counterparty*, che ha stipulato un Accordo dei Partecipanti Autorizzati con l'Emittente) abbia sottoscritto un accordo corrispondente denominato “Accordo Diretto” con almeno una Controparte in Contratti su Merci e che sia stata informata da tale Controparte in Contratti su Merci di essere un partecipante autorizzato ammissibile rispetto alla stessa Controparte in Contratti su Merci. Anche altri detentori di Short e Leveraged Commodity Securities possono riscattare gli stessi se non ci sono altri Partecipanti Autorizzati o l'Emittente dichiara diversamente. Tutte le altre parti possono comprare e vendere Short e Leveraged Commodity Securities mediante contrattazioni in borsa o sui mercati dove gli stessi sono ammessi alla negoziazione.

Gli Short e Leveraged Commodity Securities sono creati ai sensi di un accordo denominato “**Trust Instrument**” tra l'Emittente e la Law Debenture Trust Corporation p.l.c. quale trustee (il “**Trustee**”) che detiene tutti i diritti ed i titoli in virtù del Trust Instrument per qualsiasi persona identificata nei registri come detentore di Short e Leveraged Commodity Securities (i “**Security Holders**”).

L'Emittente e il Trustee hanno stipulato un “**Security Deed**” separato per ogni gruppo (*pool*) di beni attribuibile a qualsiasi classe di Short o Leveraged Commodity Securities (ciascuno un “**Pool**”) e i diritti ed i titoli del Trustee in virtù di ogni *Security Deed* sono detenuti dal Trustee sul trust per conto dei *Security Holders* della relativa classe di Short o Leveraged Commodity Security.

ETF Management Company (Jersey) Limited (“**ManJer**”), società da ultimo posseduta da WisdomTree Investments, Inc., fornisce, o fa in modo che siano forniti, tutti i servizi di gestione ed amministrazione

| B.26 | Gestione degli investimenti                      | Non applicabile; non vi è alcuna gestione attiva delle attività dell'Emittente.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| B.27 | Ulteriori titoli garantiti dalle stesse attività | E' possibile emettere ulteriori Short e Leveraged Commodity Securities di qualsiasi classe, ma ogni volta che uno Short o Leveraged Commodity Security di qualsiasi classe è emesso, saranno creati corrispondenti Contratti su Merci della stessa classe, i quali costituiranno parte delle corrispondenti "Attività Garantite". Tali Short e Leveraged Commodity Securities di nuova emissione saranno sostituibili con tutti gli Short e Leveraged Commodity Securities esistenti della stessa classe e saranno garantiti dagli attivi delle stesse Attività Garantite.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| B.28 | Struttura del diagramma                          | <p>L'Emittente ha creato un programma in base al quale gli Short e Leveraged Commodity Securities possono essere emessi di volta in volta. Gli Short e Leveraged Commodity Securities possono essere emessi o richiesti per essere rimborsati su base giornaliera dai Partecipanti Autorizzati che hanno stipulato un Accordo dei Partecipanti Autorizzati con l'Emittente. I Partecipanti Autorizzati possono poi vendere e comprare gli Short e Leveraged Commodity Securities da e per altri investitori in borsa o in transazioni private.</p> <p>Gli Short e Leveraged Commodity Securities sono costituiti in Trust Instrument. In virtù del Trust Instrument, il Detentore dei Titoli di ciascuna classe di Short e Leveraged Commodity Security può sia (a) effettuare decisioni ed esercitare diritti in base agli Short e Leveraged Commodity Securities a beneficio dei Detentori dei Titoli e (b) tenere in custodia per i Detentori di Titoli la garanzia concessa dall'Emittente ai sensi dei Security Deeds, di esercitare qualsiasi diritto, di far rispettare lo stesso e di distribuire i proventi (dopo il pagamento di tutti gli importi dovuti al Trustee) per i Detentori di Titoli (tra gli altri).</p> <p>Gli obblighi dell'Emittente rispetto a ciascuna classe di Short e Leveraged Commodity Security sono garantiti da un onere sull'equivalente classe di Contratti su Merci ai sensi degli Accordi di Servizi e dei contratti correlati.</p> <p>E' di seguito riportato il diagramma raffigurante i principali aspetti della struttura attualmente presente:</p> |

B.29 Descrizione del flusso di fondi

Gli Short e Leveraged Commodity Securities possono essere acquistati e venduti con contropartita in denaro sulla Borsa di Londra, su Borsa Italiana e sulla Borsa di Francoforte (che rappresentano le altre borse su cui sono ammessi alla negoziazione) o in transazioni private fuori borsa.

I dettagli delle borse in cui possono essere scambiati particolari tipi di titoli sono indicati in un documento intitolato "Condizioni Definitive", redatto dall'Emittente ogni volta che i titoli sono emessi.

I market maker forniscono liquidità in tali borse per tali operazioni, ma solo i Partecipanti Autorizzati possono fare richiesta direttamente all'Emittente per l'emissione di Short e Leveraged Commodity Securities. L'Emittente ha stipulato Accordi di Partecipante Autorizzato e ha concordato con i Partecipanti Autorizzati di emettere Short e Leveraged Commodity Securities nei confronti di tali Partecipanti Autorizzati su base continuativa. Un Partecipante Autorizzato può vendere Short e Leveraged Commodity Securities in una borsa o in una transazione fuori borsa o può detenere i titoli stessi.

All'atto dell'emissione dei Short e Leveraged Commodity Securities, un Partecipante Autorizzato deve consegnare una somma di denaro per la Controparte in Contratto su Merci pari al prezzo dei Short e Leveraged Commodity Securities da emettere in cambio del quale l'Emittente emette gli Short e Leveraged Commodity Securities e li consegna al Partecipante Autorizzato tramite CREST.

All'atto del rimborso dei Short e Leveraged Commodity Securities, un Partecipante Autorizzato (ed, in certi casi limitati, un Detentore di Titoli) deve consegnare una somma di denaro alla Controparte in Contratto su Merci pari al prezzo dei Short e Leveraged Commodity Securities da rimborsare in cambio della quale l'Emittente rimborsa gli Short e Leveraged Commodity Securities.

B.30 Creatori delle attività cartolarizzate

I Contratti su Merci sono e saranno stipulati con Controparti in Contratti su Merci.

Alla data del Prospetto, l'Emittente ha stipulato accordi con MLI e CGML, che agiscono come Controparti in Contratti su Merci.

MLI è una società costituita e registrata in Inghilterra e Galles al numero 2312079 ed ha la propria sede legale in 2, King Edward Street, Londra EC1A 1HQ, Regno Unito. Le principali attività di MLI consistono nel

|------|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| C.18 | Descrizione del rendimento | <p>Il Prezzo di ogni Short o Leveraged Commodity Security riflette le variazioni nel rispettivo Bloomberg Commodity Index dal giorno prima nel quale il Prezzo è stato calcolato, adeguato dal fattore leva pari a -1 (per gli One Times Short Commodity Securities) -3 (per i Three Times Short Individual Securities )+2 (per i Two Times Long Commodity Securities) e +3 (per i Three Times Long Individual Securities) e previa deduzione di qualsiasi commissione applicabile. Pertanto il rendimento per una classe particolare sarà basato principalmente sul rendimento del corrispondente Bloomberg Commodity Index.</p> <p>Per ottenere ciò i prezzi sia degli Short e Leveraged Commodity Securities sia dei Contratti su Merci, attraverso i quali l’Emittente ottiene l’esposizione agli Bloomberg Commodity Indices, sono determinati in conformità alla Formula Tale Formula riflette (a) la differenza tra il livello del corrispondente Bloomberg Commodity Index in quel giorno ed il livello del corrispondente Bloomberg Commodity Index nel giorno precedente a quello nel quale il Prezzo è stato calcolato, (b)l’applicazione del fattore leva pari a -1 (per i One Times Short Commodity Securities), -3 (per i Three Times Short Individual Securities )+2 (per i Two Times Long Commodity Securities) e +3 (per i Three Times Long Individual Securities) e (c) le commissioni pagabili dall’Emittente alla Controparte in Contratti su Merci ai sensi dell’Accordo di Servizi e a Manjer. La detrazione delle commissioni pagabili alla Controparte in Contratti su Merci e a Manjer si riflette nell’Adeguatore di Capitale citato nella Formula.</p> <p>Il Prezzo di ciascuna classe di Short e Leveraged Commodity Security sarà calcolato dall’Emittente alla fine di ogni giorno di determinazione del prezzo (dopo la pubblicazione dei prezzi di mercato dei futures per quel giorno) e inserito, insieme all’Adeguatore di Capitale, nel sito dell’Emittente <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a> .</p> <p>Il Prezzo di ciascuna classe di Three Times Short Individual Security e di ciascuna classe di Three Times Long Individual Security (congiuntamente i “<b>Three Times Commodity Securities</b>”) incorpora un meccanismo di ribilanciamento infragiornaliero che si attiverà se il valore del relativo Bloomberg Commodity Index alternativamente (i) scenda del 25 per cento nel corso di una giornata nel caso dei Three Times Long Individual Securities; o (ii) aumenti del 25 per cento nel corso di una giornata nel caso dei Three Times Short Individual Securities (definito quale “<b>Evento Restrike</b>”).</p> <p>A seguito di un Evento Restrike, ai fini del calcolo del Prezzo in tale giorno, sarà calcolato un ulteriore valore per il Bloomberg Commodity Index (il “<b>Restrike Index Value</b>”). Un Holder Security otterrà un’esposizione lunga a tre volte o un’esposizione breve a tre volte ( a seconda del caso) alle fluttuazioni del relativo Bloomberg Commodity Index (i) rispetto al valore al precedente prezzo di regolamento di chiusura al Restrike Index Value; e successivamente (ii) dal Restrike Index Value al prezzo di regolamento di chiusura di quel giorno.</p> <p>Il Restrike Index Value dipende dal fatto che l’Evento Restrike si sia verificato durante gli orari di scambio o fuori dagli orari di scambio:</p> |

|-----|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Principali rischi dell'Emittente | <p>L'Emittente è una società veicolo costituita ai fini dell'emissione di exchange traded commodity come titoli garantiti da beni (<i>asset-backed securities</i>). L'Emittente attualmente emette ETFS Short Commodity Securities, ETFS Leveraged Commodity Securities e alcuni altri titoli (i "<b>Classic e Longer Dated Securities</b>"), che sono emessi ai sensi di un prospetto di base separato (il "<b>Prospetto per i Classic e Longer Dated Securities</b>") dell'Emittente datato alla, o in prossimità della, data del presente Prospetto, e non ha attivi diversi da quelli riconducibili ai Short e Leveraged Commodity Securities e ai Classic e Longer Dated Securities. Gli importi che un Detentore di Titoli potrebbe ricevere a seguito di un credito nei confronti dell'Emittente sono quindi limitati ai proventi della realizzazione del bene garantito applicabile a tale classe o categoria del Detentore di Titoli di Short e Leveraged Commodity Securities e poiché l'Emittente è una società veicolo formata solo ai fini dell'emissione dei Short e Leveraged Commodity Securities e dei Classic e Longer Dated Securities, e poiché gli Short e Leveraged Commodity Securities non sono garantiti da nessun altro soggetto, l'Emittente non ha ulteriori attivi rispetto ai quali il Detentore di Titoli può far richiesta. Nel caso in cui i beni garantiti siano insufficienti a coprire l'importo da versare al Detentore di Titoli, quest'ultimo subirebbe una perdita.</p> <p>Sebbene gli Short e Leveraged Commodity Securities siano assicurati da Contratti su Merci e dalla garanzia, il prezzo di tali Short e Leveraged Commodity Securities e la capacità dell'Emittente di pagare gli importi di riscatto dipendono ancora in parte dalla ricezione degli importi dovuti da MLI e CGML ai sensi degli Accordi di Servizi (<i>Facility Agreements</i>), della Garanzia BAC (<i>BAC Guarantee</i>), della Garanzia Citigroup (<i>Citigroup Guarantee</i>), degli Accordi di Garanzia (<i>Security Agreements</i>) e degli Accordi di Controllo (<i>Control Agreements</i>). Nessun detentore dispone di diritti immediati di rivalsa nei confronti di tali soggetti.</p> <p>Non vi è alcuna garanzia che MLI o CGML o qualsiasi altra entità saranno in grado di ottemperare ai loro obblighi di pagamento ai sensi dei rispettivi Accordi su Merci (<i>Commodity Contracts</i>), Accordi di Servizi (<i>Facility Agreement</i>), Garanzia BAC (<i>BAC Guarantee</i>), Garanzia Citigroup (<i>Citigroup Guarantee</i>), Accordi di Garanzia (<i>Security Agreement</i>) o Accordi di Controllo (<i>Control Agreement</i>). Di conseguenza, non può esserci alcuna garanzia che l'Emittente sarà in grado di riscattare gli</p> |

|     |                              | Short e Leveraged Commodity Securities al loro prezzo di riscatto, pertanto ciò potrebbe comportare che l'investitore ottenga meno del prezzo di rimborso a seguito del rimborso dei Short e Leveraged Commodity Securities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| D.3 | Principali rischi dei titoli | <p>Nel caso in cui MLI, in qualità di agente di calcolo, comunichi all'Emittente che il prezzo intraday del Contratto su Merci della stessa classe di qualsiasi Short e Leveraged Commodity Securities sia sceso a zero o sia sotto lo zero in qualsiasi momento durante qualsiasi giorno di negoziazione e che tali Contratti su Merci abbiano cessato di avere effetto, gli Short e Leveraged Commodity Securities di tale classe saranno automaticamente e obbligatoriamente rimborsati in quel giorno ed è improbabile che i Detentori di Titoli in tale situazione ricevano i proventi, poiché è improbabile che il Pool rilevante in queste circostanze abbia degli attivi sufficienti per ripagare i Detentori di Titoli con somme sostanziali per tale rimborso, poiché gli unici attivi disponibili per il rimborso degli Short e Leveraged Commodity Securities coinvolti saranno i Contratti su Merci il cui valore sarà pari a zero anche se il Prezzo di tale classe di Short e Leveraged Commodity Securities successivamente aumenti .</p> <p>In queste circostanze, il Detentore di Titoli può subire una perdita se gli Short e Leveraged Commodity Securities siano rimborsati ad un prezzo inferiore a quello che sarebbe stato applicabile nel caso in cui l'investimento del Detentore di Titoli fosse stato rimborsato in un giorno scelto dallo stesso piuttosto che alla data del rimborso anticipato.</p> <p>Il rimborso anticipato potrebbe anche comportare che un Detentore di Titoli incorra in un prelievo fiscale al quale non sarebbe altrimenti soggetto e/o se il rimborso ha luogo in un momento in cui il valore attuale degli Short e Leveraged Commodity Securities sia inferiore rispetto a quello al quale furono acquistati dal Detentore dei Titoli, quest'ultimo potrebbe subire una perdita .In caso di realizzo della garanzia da una Controparte in Contratti su Merci, il valore delle attività liquidate può essere inferiore a quanto richiesto per soddisfare l'importo di riscatto dovuto ai Security. Qualsiasi realizzo della garanzia potrebbe richiedere del tempo e un Detentore di Titoli potrebbe subire dei ritardi nel ricevere gli importi dovuti. Un Detentore di Titoli può inoltre subire una perdita se gli attivi realizzati siano inferiori rispetto all'ammontare del rimborso dovuto. I rendimenti da Short e Leveraged Commodity Securities sono concepiti per fornire un'esposizione alle variazioni giornaliere nel rispettivo indice. Questo non è lo stesso che fornire un'esposizione alle variazioni del rispettivo indice su periodi maggiori di un giorno.</p> <p>Possono esserci dei giorni in cui turbative nei mercati delle materie prime sottostanti comportano che non possa essere determinato il prezzo in quel giorno per una o più classi di Short and Leveraged Commodity Securities . Ciò causerà un ritardo nella applicazione o nel processo di rimborso che potrebbe</p> |

|     |                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|     |                              | <p>influenzare negativamente i potenziali investitori o quelli esistenti.</p> <p>Nota sintetica dell'emissione:</p> <p>In situazioni in cui il costo dei contratti future con consegna più lontana sia superiore a quello con consegna più vicina, il prezzo del corrispondente Bloomberg Commodity Index diminuirà nel tempo, salvo che il prezzo spot non aumenti della stessa percentuale come il tasso di variazione nel prezzo dei contratti future. Il tasso di variazione potrebbe essere piuttosto significativo e durare per un periodo indeterminato, riducendo il prezzo del Bloomberg Commodity Index e, di conseguenza, il prezzo di tutti i Leveraged Commodity Securities collegati a tale Bloomberg Commodity Index che potrebbe comportare una perdita per il Detentore di Titoli.</p> <p>Le variazioni giornaliere nel Prezzo dei Leveraged Commodity Securities saranno amplificate. Riguardo ai Two Times Long Commodity Securities, una diminuzione giornaliera nei rispettivi Bloomberg Commodity Indices del 50 per cento o più potrebbe portare a una perdita totale dell'investimento.</p> |
| D.6 | Principali rischi dei titoli | <p>Si prega di vedere il Punto D.3 di cui sopra.</p> <p>Gli investimenti passati non sono indicativi di quelli futuri e il rendimento dell'investimento in un Short e Leveraged Commodity Security potrebbe essere volatile.</p> <p>Pertanto, gli investitori in Short e Leveraged Commodity Securities possono subire la perdita dell'intero valore o di una parte del loro investimento.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| E.3                        | Termini e condizioni dell'offerta  | Gli Short e Leveraged Commodity Securities sono resi disponibili dall'Emittente per la sottoscrizione esclusivamente a Partecipanti Autorizzati che abbiano presentato una richiesta valida e saranno emessi una volta che il prezzo di sottoscrizione sia stato pagato alla corrispondente Controparte in Contratti su Merci. I Partecipanti Autorizzati sono inoltre tenuti a pagare all'Emittente una commissione di sottoscrizione pari a cinquecento sterline britanniche (£500). Le richieste di Short e Leveraged Commodity Securities effettuate entro le ore 2.30 p.m. di Londra di un giorno feriale consentiranno in generale al Partecipante Autorizzato di essere registrato come detentore di Short e Leveraged Commodity Securities entro due giorni lavorativi. |

## RESUMEN

### ETFS Commodity Securities Limited

#### Resumen del folleto

#### Folleto base de 24 de mayo 2019 para la emisión de

#### Valores sobre Materias Primas en Corto y Valores sobre Materias Primas Apalancados de ETFS

Los resúmenes están compuestos de una serie de datos informativos requeridos denominados 'Elementos'. Estos Elementos están numerados en los apartados A - E (A.1 - E.7).

Este resumen contiene todos los Elementos que deben incluirse en los resúmenes correspondientes a este tipo de valores y de emisor. Dado que algunos Elementos no son necesarios en todos los casos, puede haber saltos en la numeración.

Aunque por el tipo de valores y de Emisor resulte necesario incluir un determinado Elemento en el resumen, puede ocurrir que no pueda proporcionarse ninguna información relevante al respecto, en cuyo caso se incluye una breve descripción del Elemento, junto con la mención "no aplicable".

#### Apartado A – Introducción y advertencias

|     |                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <p>A.2</p> | <p>Comunicación de la autorización para el uso del Folleto para la posterior reventa o colocación final de los valores por intermediarios financieros</p> | <p>El Emisor ha autorizado el uso del Folleto y ha aceptado la responsabilidad por su contenido con respecto a la posterior reventa o colocación final mediante oferta pública de los Valores sobre Materias Primas en Corto y Apalancados (según se describe más adelante) en Austria, Bélgica, Dinamarca, Finlandia, Francia, Alemania, Irlanda, Italia, los Países Bajos, Noruega, España, Suecia y Reino Unido por intermediarios financieros que sean empresas de inversión en el sentido de la vigente Directiva sobre mercados de instrumentos financieros 2014/65/EU en su forma enmendada ("MiFID II") y que esté autorizado con arreglo a la MiFID II en cualquier Estado miembro Tal autorización es de aplicación a la reventa o colocación final mediante oferta pública durante un período de doce meses desde la fecha del Folleto, a menos que el Emisor la retire antes de esa fecha mediante anuncio en su sitio web. Exceptuando el derecho del Emisor a retirar esta autorización, la autorización expuesta en este apartado no está sujeta a ninguna otra condición.</p> <p><b>Si un intermediario financiero formula una oferta, deberá proporcionar a los inversores información sobre sus términos y condiciones en el momento de su presentación. Los intermediarios financieros que empleen el Folleto para realizar una oferta deberán hacer constar en su sitio web que utilizan el Folleto con arreglo a la autorización otorgada y las condiciones anejas a la misma.</b></p> <p>Es condición de este consentimiento que, siempre que un intermediario financiero desee revender o realizar una colocación final mediante oferta pública de los Valores sobre Materias Primas en Corto y Apalancados, dicho intermediario financiero no podrá volver a utilizar el presente Folleto para dicho fin a menos que se lleve a cabo en determinadas jurisdicciones acordadas durante el plazo de oferta determinado. El intermediario financiero no podrá volver a utilizar a otros efectos el presente Folleto para vender los Valores sobre Materias Primas en Corto y Apalancados.</p> <p>En el caso de que una Oferta Pública se lleve a cabo en una o más Jurisdicciones de Oferta Pública, los Valores sobre Materias Primas en Corto y Apalancados podrán ofrecerse y venderse a personas que se encuentren en la Jurisdicción de Oferta Pública pertinente, que sean elegibles para participar en una oferta pública de valores de este tipo, en dicha jurisdicción y de conformidad con la legislación y regulaciones aplicables.</p> <p>El Emisor no ha autorizado, ni autoriza, la formalización de ofertas de los Valores sobre Materias Primas en Corto y Apalancados en cualquier otra circunstancia.</p> <p><b>Resumen para la Emisión Concreta:</b></p> <p>Jurisdicción(es) de Oferta Pública: N/A</p> |

El Emisor no está directa ni indirectamente bajo el control o la propiedad de ningún otro participante en el programa.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |     |
| B.17                       | Calificaciones crediticias del Emisor                        | No es aplicable - al Emisor no se le ha asignado una calificación crediticia y no se pretende que a ningún Valor sobre Materias Primas en Corto y Apalancados se le asignen calificaciones crediticias.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |     |
| B.20                       | Entidad instrumental                                         | El Emisor se ha constituido como entidad instrumental para la emisión de materias primas cotizadas (" <b>ETCs</b> ") como valores respaldados con activos.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |     |
| B.21                       | Actividades principales y perspectiva general de las partes  | <p>La actividad principal del Emisor consiste en la emisión de diversas clases de valores de deuda respaldados por contratos de derivados vinculados a un índice de materias primas. Con arreglo a este Folleto, el Emisor emite valores de deuda (los "<b>Valores sobre Materias Primas en Corto y Apalancados</b>") que (antes de comisiones y gastos) proporcionan una exposición diaria de una vez en corto (-1 vez), de tres veces en corto (-3 veces), de dos veces en largo (+2 veces) o de tres veces en largo (+3 veces) a los movimientos de dichos índices de materias primas calculados y publicados por Bloomberg L.P. y/o Bloomberg Finance, L.P. y/o la filial de cualquiera de ellas (conjuntamente "<b>Bloomberg</b>") (los "<b>Índices de Materias Primas de Bloomberg</b>" y cada "<b>Índice de Materias Primas de Bloomberg</b>") Los Índices de Materias Primas de Bloomberg realizan el seguimiento de las variaciones en el precio de los contratos de futuros de materias primas, individuales o en cestas. Hasta el 30 de junio de 2014, los índices de materias primas de Bloomberg se calcularon y publicaron por CME Group Index Services LLC conjuntamente con UBS Securities LLC y eran conocidos como los Dow Jones – UBS Commodity Indices SM. El Emisor ha puesto en marcha un programa en virtud del cual podrán emitirse en cada momento distintas clases de Valores sobre Materias Primas en Corto y Apalancados.</p> <p>El Emisor obtiene exposición a la variación porcentual diaria de los índices en el ámbito de los <b>Índices de Materias Primas de Bloomberg</b> mediante la celebración de contratos de derivados garantizados plenamente financiados (los "<b>Contratos de Materias Primas</b>") hasta Merrill Lynch International ("<b>MLI</b>") y Citigroup Global Markets Limited ("<b>CGML</b>"). Conjuntamente MLI y CGML se denominarán colectivamente como las "<b>Contrapartes de Contratos de Materias Primas</b>", en los términos de los Contratos de</p> |     |     |

Materias Primas adquiridos o que adquiera el Emisor se rigen por (i) un contrato denominado "Contrato de Financiación" entre el Emisor y MLI de fecha 29 de junio de 2017 (el "**Contrato de Financiación de MLI**"); y (ii) un contrato denominado Contrato de Financiación CGML relativo a Valores sobre Materias Primas en Corto y Valores sobre Materias Primas Apalancados entre el Emisor y CGML de fecha 29 de junio de 2017 (el "**Contrato de Financiación de CGML**"). Las obligaciones de pago de MLI derivadas del Contrato de Financiación de MLI están respaldadas por una garantía (la "**Garantía de BAC**") de Bank of America Corporation ("**BAC**") y las obligaciones de pago de CGML derivadas del Contrato de Financiación CGML están respaldadas por una Garantía (la "**Garantía de Citigroup**") de Citigroup Global Markets Holdings INC ("**CGMH**") garantizadas cada una de ellas en favor del Emisor.

Las obligaciones de las Contrapartes de Contratos de Materias Primas frente al Emisor derivadas de los Contratos de Materias Primas están aseguradas mediante fianzas aportadas por las Contrapartes de Contratos de Materias Primas y depositadas en cuentas a nombre de las mismas en el Bank of New York Mellon ("**BNYM**"). De conformidad con: (i) un contrato de garantía entre MLI y el Emisor de fecha 29 de junio de 2018 (el "**Contrato de Garantía MLI**") y un contrato de control entre BNYM, MLI y el Emisor de fecha 29 de junio de 2017 (el "**Contrato de Control MLI**"); y (ii) un contrato de garantía entre CGML y el Emisor de fecha 29 de junio de 2018 (el "**Contrato de Garantía CGML**") y un contrato de control entre BNYM, CGML y el Emisor de fecha 29 de junio de 2017 (el "**Contrato de Control CGML**"), MLI y CGML están obligados a transferir a una cuenta de fianza valores y obligaciones por el valor de la exposición total del Emisor en virtud de los Contratos de Materias Primas frente a MLI o CGML (según proceda). La fianza se ajusta diariamente para reflejar el valor de los correspondientes Contratos de Materias Primas.

Los Valores sobre Materias Primas en Corto y Apalancados pueden ser emitidos y deben ser amortizados diariamente por instituciones financieras (los "**Participantes Autorizados**") que (i) hayan celebrado un contrato denominado "Contrato de Participante Autorizado" con el Emisor; (ii) hayan certificado al Emisor su situación con arreglo a la Ley de Servicios y Mercados Financieros de 2000 (la "**FSMA**"); y (iii) (excepto en el caso de una Contraparte de un Contrato de Materias Primas que haya celebrado un Contrato de Participante Autorizado con el Emisor) hayan celebrado el correspondiente contrato denominado "**Contrato Directo**" con al menos una Contraparte de Contratos de Materias Primas, y esta última no le haya comunicado que no es un participante autorizado inaceptable en relación con dicha Contraparte de Contratos de Materias Primas. Otros titulares de Valores sobre Materias Primas en Corto y Apalancados podrán amortizar también estos Valores si no hay Participantes Autorizados o si el Emisor así lo anuncia. Los restantes intervinientes podrán comprar y vender Valores sobre Materias Primas en Corto y Apalancados mediante su negociación en un mercado en el que dichos valores estén admitidos a negociación.

Los Valores sobre Materias Primas en Corto y Apalancados están constituidos en virtud de un contrato denominado

**“Escritura Fiduciaria”** entre el Emisor y The Law Debenture Trust Corporation p.l.c., como administrador fiduciario (el **“Administrador Fiduciario”**) de todos los derechos derivados de la Escritura Fiduciaria para las personas identificadas en los registros como titulares de los Valores sobre Materias Primas en Corto y Apalancados (los **“Titulares de Valores”**).

El Emisor y el Administrador Fiduciario han otorgado distintos documentos denominados **“Escrituras de Garantía”** en relación con cada grupo de activos atribuibles a cualquier clase de Valores sobre Materias Primas en Corto o Apalancados (cada uno de los cuales constituye un **“Grupo”**) y el Administrador Fiduciario ostenta los derechos derivados de cada Escritura de Garantía en nombre de los Titulares de Valores de cada clase de Valor sobre Materias Primas en Corto o Apalancado.

ETFS Management Company (Jersey) Limited (**“ManJer”**), sociedad en última instancia propiedad de WisdomTree Investments, Inc, presta u organiza la prestación de todos los servicios de administración y gestión del Emisor y paga todos los costes de administración y gestión del Emisor a cambio de una comisión abonada por este último.

**Resumen para la Emisión Concreta:**

Index: Bloomberg Coffee Subindex Total Return

B.22 Inexistencia de estados financieros No aplicable; los estados financieros se han elaborado a la fecha de este Folleto.

| B.28 | Estructura de la operación | <p>El Emisor ha creado un programa en virtud del cual podrán emitirse en cada momento distintas clases de Valores sobre Materias Primas en Corto y Apalancados. Los Valores sobre Materias Primas en Corto y Apalancados pueden ser emitidos y deben ser amortizados diariamente por los Participantes Autorizados que hayan celebrado un Contrato de Participante Autorizado con el Emisor.</p> <p>Los Participantes Autorizados podrán vender y comprar Valores sobre Materias Primas en Corto y Apalancados a otros inversores en el mercado o en transacciones privadas.</p> <p>Los Valores sobre Materias Primas en Corto y Apalancados se constituyen mediante la Escritura Fiduciaria. De acuerdo con la Escritura Fiduciaria, el Administrador Fiduciario actúa como Administrador Fiduciario en nombre de los Titulares de Valores de cada clase de Valor sobre Materias Primas en Corto y Apalancado para (a) realizar determinaciones y ejercitar derechos derivados de los Valores sobre Materias Primas en Corto y Apalancados en beneficio de los Titulares de Valores y (b) mantener en nombre de los Titulares de Valores la garantía otorgada por el Emisor en virtud de las Escrituras de Garantía, ejercitar los derechos para su ejecución y distribuir los resultados (tras el pago de todas las cantidades adeudadas al Administrador Fiduciario) a los Titulares de Valores (entre otros).</p> <p>Las obligaciones del Emisor con respecto a cada clase de Valor sobre Materias Primas en Corto y Apalancado están garantizadas mediante una carga sobre la clase equivalente de Contratos de Materias Primas en virtud de los Contratos de Financiación y los contratos relacionados.</p> <p>A continuación se expone un diagrama de los principales aspectos de la estructura actualmente vigente:</p> |

B.29

Descripción del flujo de fondos

Los Valores sobre Materias Primas en Corto y Apalancados pueden comprarse y venderse a cambio de efectivo en la Bolsa de Londres, la Borsa Italiana y la Bolsa de Fráncfort (que son las bolsas en las que los valores están admitidos a negociación) o en transacciones privadas fuera de los mercados. Los datos de los mercados en los que puede negociarse una determinada clase de valores figuran en un documento titulado "Condiciones Definitivas" elaborado por el Emisor cada vez que se emiten los valores. Los creadores de mercado aportan liquidez en estos mercados y para estas transacciones, pero sólo los Participantes Autorizados pueden solicitar directamente al emisor la emisión de Valores sobre Materias Primas en Corto y Apalancados. El Emisor ha celebrado Contratos de Participantes Autorizados y ha acordado con los participantes Autorizados emitir a su favor Valores sobre Materias Primas en Corto y Apalancados de forma continuada. Los Participantes Autorizados pueden vender los Valores sobre Materias Primas en Corto y Apalancados en un mercado o en una transacción fuera de los mercados, o bien conservar ellos mismos dichos valores.

En el momento de la emisión de Valores sobre Materias Primas en Corto y Apalancados, los Participantes Autorizados deberán abonar a la Contraparte de Contratos de Materias Primas una cantidad de efectivo equivalente al precio de los Valores sobre Materias Primas en Corto y Apalancados a emitir, a cambio de la cual el Emisor emitirá los Valores sobre Materias Primas en Corto y Apalancados y los entregará al Participante Autorizado a través de CREST.

En el momento de la amortización de los Valores sobre Materias Primas en Corto y Apalancados por un Participante Autorizado (y, en ciertos casos limitados, por otros Titulares de Valores), la Contraparte de Contratos de Materias Primas deberá entregar al correspondiente Participante Autorizado una cantidad de efectivo equivalente al precio de los Valores sobre Materias Primas en Corto y Apalancados a amortizar, a cambio de la entrega de los Valores sobre Materias Primas en Corto y Apalancados por el Titular de los Valores que los amortiza.

| C.1                         | Tipo y clase de valores ofrecidos       | <p>Los Valores sobre Materias Primas en Corto y Apalancados están diseñados para ofrecer a los inversores una "rentabilidad total" similar a la que puede obtenerse gestionando una posición larga no apalancada garantizada plenamente en efectivo en contratos de futuros con vencimientos específicos, menos las comisiones aplicables. A diferencia de la gestión de posiciones de futuros, los Valores sobre Materias Primas en Corto y Apalancados no conllevan comisiones de renovación, de demandas de cobertura suplementaria, de expiración o de futuros.</p> <p>El Emisor ha creado y puesto a disposición para su emisión 120 clases de Valores sobre Materias Primas en Corto y Apalancados, cada una de las cuales ofrece a los inversores exposición a las variaciones porcentuales diarias en los movimientos de uno de los Índices de Materias Primas de Bloomberg y que pueden clasificarse en seis tipos:</p> <ul style="list-style-type: none"> <li>- "Valores Individuales de Una Vez en Corto",</li> <li>- "Valores de Índices de Una Vez en Corto",</li> <li>- "Valores Individuales de Tres Veces en Corto"</li> <li>- "Valores Individuales de Dos Veces en Largo"</li> <li>- "Valores de Índices de Dos Veces en Largo"</li> </ul>                                                                                                                                                                                                                                                                 |

- "Valores Individuales de Tres Veces en Largo"

### **Clases y características de los índices**

La rentabilidad de los Valores sobre Materias Primas en Corto y Apalancados está vinculada en cada caso a la variación porcentual diaria de los correspondientes Índices de Materias Primas de Bloomberg, de acuerdo con lo siguiente:

- los Valores Individuales de Una Vez en Corto ofrecen una exposición corta a la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros en un tipo de materia prima (de modo que si el valor del correspondiente Índice de Materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor Individual de Una Vez en Corto se reducirá en dicho día en el mismo porcentaje, y viceversa);
- los Valores de Índices de Una Vez en Corto ofrecen una exposición corta a la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros con respecto a distintas materias primas (de modo que si el valor del correspondiente Índice de materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor de Índice de Una Vez en Corto se reducirá en dicho día en el mismo porcentaje, y viceversa);
- los Valores Individuales de Tres Veces en Corto ofrecen una exposición corta al triple de la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros con respecto a distintas materias primas (de modo que si el valor del correspondiente Índice de materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor Individual de Tres Veces en Corto se reducirá en dicho día en el triple del incremento porcentual del Índice de materias Primas de Bloomberg, y viceversa);
- los Valores Individuales de Dos Veces en Largo ofrecen una exposición al doble de la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros en un tipo de materia prima (de modo que si el valor del correspondiente Índice de materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor Individual de Dos Veces en Largo se incrementará en dicho día en el doble del incremento porcentual del Índice de materias Primas de Bloomberg, y viceversa);

- los Valores de Índices de Dos Veces en Largo ofrecen una exposición al doble de la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros con respecto a distintas materias primas (de modo que si el valor del correspondiente Índice de materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor de Índice de Dos Veces en Largo se incrementará en dicho día en el doble del incremento porcentual del Índice de materias Primas de Bloomberg, y viceversa);
- los Valores Individuales de Tres Veces en Largo ofrecen una exposición al triple de la variación porcentual diaria en los Índices de Materias Primas de Bloomberg que siguen el movimiento del valor de los contratos de futuros con respecto a distintas materias primas (de modo que si el valor del correspondiente Índice de materias Primas de Bloomberg se incrementa en un determinado día, el valor del Valor Individual de Tres Veces en Largo se incrementará en dicho día en el triple del incremento porcentual del Índice de materias Primas de Bloomberg, y viceversa);

y, en todos los casos, más un ajuste por el tipo de interés sin riesgo devengado para una posición completamente garantizada en los correspondientes contratos de futuros subyacentes.

| C.18 | Descripción de la rentabilidad | <p>El precio de cada Valor sobre Materias Primas en Corto y Apalancado refleja los movimientos porcentuales del correspondiente Índice de Materias Primas de Bloomberg desde el último día de cálculo del Precio, ajustado por un factor de apalancamiento de -1 (para los Valores sobre Materias Primas de Una Vez en Corto), -3 (para los Valores Individuales de Tres Veces en Corto), +2 (para los Valores sobre Materias Primas dos veces en Largo) y +3 (para los Valores Individuales de Tres Veces en Largo) y con la deducción de las comisiones correspondientes. Por tanto, la rentabilidad de una clase determinada dependerá principalmente del comportamiento del correspondiente Índice de Materias Primas de Bloomberg.</p> <p>Para ello, el precio de los Valores sobre Materias Primas en Corto y Apalancados y los Contratos de Materias Primas a través de los cuales el Emisor obtiene exposición a los Índices de Materias Primas de Bloomberg se calcula con arreglo a la Fórmula. Esta Fórmula refleja (a) la diferencia entre el nivel del correspondiente Índice de Materias Primas de Bloomberg ese día y el último día de cálculo del precio, (b) la aplicación de un factor de apalancamiento de -1 (para los Valores sobre Materias Primas de Una Vez en Corto), -3 (para los Valores Individuales de Tres Veces en Corto), +2 (para los Valores sobre Materias Primas de Dos Veces en Largo) y +3 (para los Valores Individuales de Tres Veces en Largo) y (c) las comisiones a pagar por el Emisor a la Contraparte del Contrato de Materias Primas con arreglo al Contrato de Financiación y a ManJer. La deducción de estas comisiones figura en el ajuste de capital referenciado en la Fórmula.</p> <p>El Emisor calculará el Precio de cada clase de Valor sobre Materias Primas en Corto y Apalancado al término de cada día de fijación de precio (tras la publicación de los precios del mercado de futuros para ese día) y lo expondrá junto con el correspondiente Ajuste de Capital en la página web del Emisor en <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a></p> <p>El Precio de cada clase de Valores Individuales de Tres Veces en Corto y de Valores Individuales de Tres Veces en Largo (conjuntamente, los "<b>Valores Individuales de Tres Veces</b>") incorpora un mecanismo de reequilibrio intradía que se activará si el valor del Índice de Materias Primas de Bloomberg (i) cae un 25% a lo largo de un día, para el caso de los Valores Individuales de Tres Veces en Largo o (ii) sube un 25% a lo largo de un día para el caso de los Valores Individuales de Tres Veces en Corto (en adelante la "<b>Situación de Reequilibrio</b>").</p> |

Producida una Situación de Reequilibrio, y para el cálculo del Precio en el día que se produzca, se calculará un valor para los Índices de Materias Primas de Bloomberg (el "**Valor del Índice de Reequilibrio**"). El tenedor de valores obtendrá una exposición corta o larga (según el caso) al triple de la variación en el Índice de Materias Primas de Bloomberg (i) entre el valor obtenido con anterioridad al cierre de la cotización y el Valor del Índice de Reequilibrio, y, luego, (ii) entre el Valor del Índice de Reequilibrio y el precio del cierre de cotización de ese día.

El Valor del Índice de Reequilibrio dependerá de si la Situación de Reequilibrio tuvo lugar en horas de cotización o fuera de éstas:

- Durante las horas de cotización – el Valor del Índice de Reequilibrio será el menor valor (para Valores Individuales de Tres Veces en Largo) o el mayor valor (para Valores Individuales de Tres Veces en Corto) que corresponda en el Índice de Materias Primas de Bloomberg a aquellas clases de valores en el período de 15 minutos que comience justo después de que se produzca la Situación de Reequilibrio.
- Fuera de las horas de cotización - el Valor del Índice de Reequilibrio será el menor valor (para Valores Individuales de Tres Veces en Largo) o el mayor valor (para Valores Individuales de Tres Veces en Corto) que corresponda en el Índice de Materias Primas de Bloomberg a aquellas clases de valores en el período entre que se produzca la Situación de Reequilibrio y 15 minutos antes de que comiencen las horas de cotización.

En cualquier caso, si se produjese una perturbación del mercado o de la cobertura durante un periodo de 15 minutos, el periodo podrá extenderse en periodos sucesivos de 15 minutos hasta que se produzca el primero de los siguientes hechos: (a) que transcurra un periodo de 15 minutos ininterrumpidos sin que se produzca una perturbación del mercado o de la cobertura y (b) que finalicen las horas de cotización del tercer día de cotización completa tras la Situación de Reequilibrio.

Los Valores sobre Materias Primas en Corto y Apalancados no devengan intereses. La rentabilidad para el inversor es la diferencia entre el precio de emisión (o de compra en el mercado secundario) de los Valores sobre Materias Primas en Corto y Apalancados en cuestión, y su precio de reembolso (o venta).

***Resumen para la emisión concreta:***

Los Valores sobre Materias Primas en Corto y Apalancados proporcionan una rentabilidad vinculada a Bloomberg Coffee Subindex Total Return. Puede obtenerse más información en <http://www.bloombergindexes.com/>.

|                             |                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>APARTADO D - Riesgos</b> |                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| D.2                         | Riesgos básicos del Emisor                                                 | <p>Los principales riesgos del Emisor son los siguientes:</p> <p>El Emisor se ha constituido como entidad instrumental para la emisión de materias primas cotizadas como valores respaldados por activos. El Emisor actualmente emite Valores sobre Materias Primas en Corto y Valores sobre Materias Primas Apalancados y otros valores (los Valores Clásicos y a Más Largo Plazo), que se emiten con arreglo a otro folleto base (el "Folleto de los Valores Clásicos y a Más Largo Plazo") del Emisor de fecha 2 de octubre de 2017, y no posee más activos que los correspondientes a los Valores sobre Materias Primas en Corto y Apalancados y los Valores Clásicos y a Más Largo Plazo. Las cantidades que un Titular de Valores podría recibir tras una reclamación al Emisor están, por tanto, limitadas a los resultados de la realización de los bienes garantizados aplicables a cada clase de Valores sobre Materias Primas en Corto y Apalancados del Titular de Valores, y dado que el Emisor es una entidad instrumental constituida para el único fin de emitir los Valores sobre Materias Primas en Corto y Apalancados y los Valores Clásicos y a Más Largo Plazo y que los Valores sobre Materias Primas en Corto y Apalancados no están garantizados por ninguna otra persona, el Emisor no tendría más activos contra los cuales pueda reclamar el Titular de los Valores. Si los bienes garantizados fueran insuficientes para cubrir la cantidad adeudada al Titular de los Valores, éste sufriría pérdidas.</p> |

|     |                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|     |                                | <p>Aunque los Valores sobre Materias Primas en Corto y Apalancados están garantizados por Contratos de Materias Primas y una garantía, el valor de estos Valores sobre Materias Primas en Corto y Apalancados y la capacidad del Emisor de pagar los importes de la amortización dependen en parte de la recepción de las cantidades adeudadas por MLI y CGML en virtud de los Contratos de Financiación, la Garantía de BAC, los Contratos de Garantía, la Garantía de Citigroup y los Contratos de Control. Ningún titular tiene derechos directamente exigibles contra estas personas.</p> <p>No puede garantizarse que MLI, CGML u otras entidades puedan cumplir sus obligaciones de pago derivadas de los correspondientes Contratos de Materias Primas, el Contrato de Financiación, la Garantía de BAC, Garantía de Citigroup el Contrato de Garantía o el Contrato de Control. Por consiguiente, no puede garantizarse que el Emisor pueda amortizar los Valores sobre Materias Primas en Corto y Apalancados a su precio de amortización, en cuyo caso el inversor recibiría tras la amortización una cantidad inferior a dicho precio de amortización.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| D.3 | Riesgos básicos de los valores | <p>Si MLI, actuando como agente de cálculo, notifica al Emisor que el precio intradía de los Contratos de Materias Primas de la misma clase que algún Valor sobre Materias Primas en Corto o Apalancado ha caído hasta un valor igual o inferior a cero en algún momento durante un día de negociación y que dichos Contratos de Materias Primas han sido resueltos, en tal caso los Valores sobre Materias Primas en Corto y Apalancados de esa clase serán automática y forzosamente amortizados en ese día y los Titulares de Valores no recibirán probablemente en dicho supuesto ningún resultado, pues el Grupo correspondiente no tendrá probablemente en ese caso activos suficientes para devolver a los Titulares de Valores cantidades sustanciales por dichas amortizaciones, dado que los únicos activos disponibles para la amortización de los Valores sobre Materias Primas en Corto y Apalancados afectados serán los Contratos de Materias Primas, cuyo valor será cero incluso aunque el Precio de dicha clase de los Valores sobre Materias Primas en Corto y Apalancados se incremente posteriormente. En este caso, el Titular de Valores podría sufrir pérdidas si los Valores sobre Materias Primas en Corto y Apalancados se amortizan a un precio inferior al que en otro caso hubiera sido aplicable si la inversión del Titular de los Valores se hubiera amortizado en un día elegido por el Titular de los Valores y no en la fecha de amortización anticipada. La amortización anticipada puede suponer también cargas fiscales para el Titular de los Valores que en otro caso no sufriría, y si la amortización tiene lugar en un momento en que el valor en efectivo de los Valores sobre Materias Primas en Corto y Apalancados sea inferior al del momento en que fueron adquiridos por el Titular de los Valores, éste podría sufrir pérdidas.</p> <p>En caso de ejecución de la garantía de una Contraparte de Contratos de Materias Primas, el valor de los activos realizados puede ser inferior al necesario para cubrir el importe de la amortización adeudado a los Titulares de los Valores. La ejecución puede también requerir cierto tiempo, por lo que el Titular de los Valores puede sufrir demoras en la recepción de las cantidades adeudadas. El Titular de los Valores puede sufrir</p> |

|-----|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                | <p>también pérdidas si los activos ejecutados son inferiores al importe de amortización adeudado</p> <p>Las rentabilidades de los Valores sobre Materias Primas en Corto y Apalancados están diseñadas para proporcionar exposición a las variaciones diarias del índice correspondiente. Esto no es lo mismo que proporcionar exposición a las variaciones en el índice a lo largo de períodos superiores a un día.</p> <p><b>Resumen para la emisión concreta:</b></p> <p>En situaciones en las que el coste de los contratos de futuros para entrega en fechas posteriores sea superior a los de entrega en fechas más cercanas, el valor del correspondiente Índice de Materias Primas de Bloomberg se reducirá a lo largo del tiempo a menos que el precio al contado se incremente en la misma proporción que la tasa de variación del precio del contrato de futuros. La tasa de variación puede ser bastante importante y mantenerse por un tiempo indefinido, reduciendo el valor del Índice de Materias Primas de Bloomberg y, por tanto, el precio de los Valores sobre Materias Primas Apalancados vinculados a ese Índice, lo que podría provocar pérdidas para el Titular de los Valores.</p> <p>Los cambios diarios en el Precio de los Valores sobre Materias Primas Apalancados se magnificarán. Con respecto a los Valores sobre Materias Primas de Dos Veces en Largo una reducción diaria de los correspondientes Índices de Materias Primas de Bloomberg igual o superior al 50% puede provocar la pérdida total de la inversión.</p> <p>Puede que haya días en los que la perturbación de los mercados de materias primas subyacentes de lugar a que no sea posible valorar una o más clases de Valores sobre Materias Primas en Corto o Apalancados en dicho día. Esto causará un retraso en la solicitud o proceso de amortización que podría afectar negativamente a inversores potenciales o existentes.</p> |
| D.6 | Riesgos básicos de los valores | <p>Por favor véase el apartado D.3 anterior.</p> <p>La rentabilidad anterior de los Valores sobre Materias Primas en Corto y Apalancados no es indicativa de su comportamiento futuro, el cual puede ser volátil, por lo que los inversores en Valores sobre Materias Primas en Corto y Apalancados pueden perder la totalidad o parte del valor de su inversión.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

**APARTADO E – Oferta**

|      |                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## SAMMANFATTNING

### ETFS Commodity Securities Limited

#### Prospektsammanfattning

Grundprospekt daterat den 24 Maj 2019 för emission av

#### ETFS Korta Råvarurelaterade Värdepapper och ETFS Råvarurelaterade Värdepapper med Hävstång

Sammanfattningar består av informationskrav som kallas 'Punkter'. Dessa Punkter är uppställda i nummerföljd i Avsnitten A - E (A.1 – E.7).

Denna Sammanfattning innehåller alla de Punkter som ska inkluderas för en sammanfattning för den nu aktuella typen av värdepapper och emittent. Eftersom vissa Punkter inte måste ingå kan det vara luckor i nummerföljden för Punkterna.

Även om en viss Punkt ska ingå i sammanfattningen mot bakgrund av den aktuella typen av värdepapper och emittent, kan det förhålla sig så att ingen information finns att återge under den Punkten. I dessa fall anges endast en kort beskrivning av Punkten med angivande av 'Ej tillämplig'.

| AVSNITT A – Introduktion och varningar |                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Emittenten är varken direkt eller indirekt kontrollerad av någon annan person som ingår i programmet.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| B.17                          | Kreditvärdighetsbetyg för emittenten                 | Ej tillämpligt – Emittenten har inte tilldelats ett kreditvärdighetsbetyg och det är inte avsikten att något Microrelaterade Värdepapper och Råvarurelaterade Värdepapper ska tilldelas kreditvärdighetsbetyg.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| B.20                          | Specialföretag                                       | Emittenten har etablerats som ett specialföretag för ändamålet att emittera börshandlade råvaror (" <b>ETC:er</b> ") i form av värdepapper med bakomliggande tillgångar.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| B.21                          | Huvudsakliga verksamheter och översikt av parter     | <p>Den huvudsakliga verksamheten för Emittenten är att emittera flera klasser och typer av skuldvärdepapper som har bakomliggande säkerhet i derivatkontrakt relaterade till råvaruindex. I enlighet med detta Prospekt så emitterar Emittenten skuldvärdepapper ("<b>Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång</b>") som (före avgifter och kostnader) ger antingen en gång kort (-1 gång), tre gånger kort (-3 gånger), två gånger lång (+2 gånger) eller tre gånger lång (+3 gånger) exponering mot dagliga förändringar för sådana råvaruindex som beräknas och publiceras av Bloomberg L.P. och/eller Bloomberg Finance L.P. och/eller ett närstående bolag till någon av dem (tillsammans "<b>Bloomberg</b>") ("<b>Bloomberg Råvaruindex</b>" och var för sig, "<b>Bloomberg Råvaruindex</b>"). Bloomberg Råvaruindex följer förändringar i pris för enskilda råvaruterminer eller korgar med råvaruterminskontrakt. Fram till och med den 30 juni 2014 beräknades och publicerades Bloomberg Råvaruindex av CME Group Index Services LLC i samarbete med UBS Securities LLC och var kända som Dow Jones - UBS Commodity Indices SM. Emittenten har etablerat ett program under vilket olika klasser av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan emitteras från tid till annan.</p> <p>Emittenten erhåller exponering mot den dagliga procentuella förändringen avseende nivån för Bloomberg Råvaruindex genom att ingå till fullt finansierade säkerställda derivatkontrakt ("<b>Råvarukontrakt</b>") med Merrill Lynch International ("<b>MLI</b>") och Citigroup Global Markets Limited ("<b>CGML</b>"). Tillsammans är MLI och CGML "<b>Motparter i Råvarukontrakt</b>". Villkoren för Råvarukontrakten som har köpts eller kommer att köpas av Emittenten är underkastade (i) ett avtal mellan Emittenten och MLI daterat den 29 juni 2017 benämnt "MLI-Facilitetsavtalet avseende Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång" ("<b>MLI-Facilitetsavtalet</b>")</p> |

och (ii) ett avtal mellan Emittenten och CGML daterat den 29 juni 2017 benämnt "CGML-Facilitetsavtalet avseende Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång" ("**CGML-Facilitetsavtalet**"). Betalningsåtaganden för MLI under MLI-Facilitetsavtalet stöds av en garanti ("**BAC-Garantin**") från Bank of America Corporation ("**BAC**") och CGML:s betalningsåtaganden under CGML-Facilitetsavtalen stöds av en Garanti ("**Citigroup-Garantin**") från Citigroup Global Markets Holdings Inc. ("**CGMH**"), var och en utgivna till Emittentens förmån.

Förpliktelserna för Motparter i Råvarukontrakt i förhållande till Emittenten under Råvarukontrakten säkerställs av säkerheter som ställs av Motparter i Råvarukontrakt ("**Säkerheten**") och finns på konton hos Bank of New York Mellon ("**BNYM**"), vilka innehas av Motparter i Råvarukontrakt. Enligt (i) ett säkerhetsavtal mellan MLI och Emittenten, daterat 29 juni 2018 ("**MLI Security Agreement**") och ett kontrollavtal mellan BNYM, MLI och Emittenten, daterat 29 juni 2017 ("**MLI Control Agreement**"); och (ii) ett säkerhetsavtal mellan CGML och Emittenten, daterat 29 juni 2018 ("**CGML Security Agreement**") och ett kontrollavtal mellan BNYM, CGML och Emittenten, daterat 29 juni 2017 ("**GCML Control Agreement**"), är MLI och CGML ålagda att överföra till ett konto för säkerheter, värdepapper och förpliktelser motsvarande värdet av Emittentens totala exponering under Råvarukontrakten till MLI eller CGML (så som tillämpligt). Den totala säkerheten justeras dagligen för att återspegla värdet på de relevanta Råvarukontrakten.

Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan emitteras och inlösas på daglig basis av finansiella institutioner ("**Auktoriserade Deltagare**") som har (i) ingått ett avtal benämnt "**Avtal avseende Auktoriserade Deltagare**" med Emittenten; (ii) har visat sin status under engelsk lagstiftning (*Financial Services and Markets Act 2000* ("**FSMA**")) för Emittenten; och (iii) (med undantag för Motparter i Råvarukontrakt som ingått ett Avtal avseende Auktoriserade Deltagare med Emittenten) har ingått ett motsvarande avtal benämnt "**Direktavtal**" med åtminstone en Motpart i Råvarukontrakt och som inte har meddelats av sådan Motpart i Råvarukontrakt att man inte är en icke accepterad auktoriserad deltagare avseende den Motparten i Råvarukontrakt. Andra innehavare av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan även lösa in Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång om det inte finns någon Auktoriserad Deltagare eller om Emittenten meddelar så. Alla andra personer kan köpa och sälja Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång genom handel på en börs eller marknad där de Korta Råvarurelaterade Värdepapperen och de Råvarurelaterade Värdepapperen med Hävstång har tagits upp till handel.

Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång konstitueras enligt ett avtal benämnt "**Trust Instrument**" mellan Emittenten och The Law Debenture Trust Corporation p.l.c. som företrädare ("**Företrädaren**") avseende samtliga rättigheter och berättiganden under Trust Instrument till förmån för personer som identifieras i registren som innehavare av Korta

Sådana nyemitterade Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kommer vara fungibla med samtliga existerande Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång av samma klass och kommer ha samma bakomliggande tillgångar.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| B.28 | Struktur för transaktionen | <p>Emittenten har skapat ett program under vilket Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan emitteras från en tid till en annan. Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan emitteras eller bli inlösta på daglig basis av Auktoriserade Deltagare som har ingått ett Auktoriserat Deltagaravtal med Emittenten.</p> <p>Auktoriserade Deltagare kan sälja och köpa Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång till och av från andra investerare på en börs eller genom privata transaktioner.</p> <p>Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång grundar sig på ett avtalsdokument (Trust Instrument). Enligt villkoren för Trust Instrument kan Värdepappersinnehavarna av varje klass av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång både (a) företa fastställelser och utöva rättigheter under Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång till förmån för Värdepappersinnehavarna och (b) inneha den Säkerhet som ställts av Emittenten under Pantsättningsåtagandena till förmån för Värdepappersinnehavarna, utöva rättigheter för att genomdriva rättigheter avseende Säkerheterna och fördela utdelningar (efter betalning av samtliga belopp som ska betalas till Företrädaren) till Värdepappersinnehavarna (bland andra).</p> <p>Förpliktelserna för Emittenten avseende varje klass av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång säkerställs genom en pantsättning avseende motsvarande klass Råvarukontrakt under Facilitetsavtalen och relaterade avtal.</p> <p>De huvudsakliga aspekterna i den nuvarande strukturen kan åskådliggöras enligt nedanstående diagram:</p> |

där *Security Holders* betyder Värdepappersinnehavare, *Issuer* betyder Emittent, *Trustee* betyder Företrädaren, *Authorized Participants* betyder Auktoriserad Deltagare, *Securities Intermediary* betyder Mellanhand för Värdepapperen, *Collateral Accounts* betyder de Pantsatta kontona, *market-making* betyder hållande av andrahandsmarknad, *agreements* betyder avtal och *flows* betyder flöden.

B.29 Beskrivning av flödet av medel

Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan köpta och säljas i utbyte mot kontanter på London Stock Exchange, Borsa Italiana och eller Frankfurt Stock Exchange (som är de börser på vilka värdepapperen upptas till handel) eller i privata transaktioner utanför börsen. Information om de börser på vilka en viss klass av värdepapper kan handlas finns angivna i ett dokument med namnet "Slutliga Villkor", som upprättas av Emittenten varje gång som värdepapper emitteras. Market makers tillhandahåller likviditet på dessa börser och för dessa transaktioner men enbart Auktoriserade Deltagare kan ansöka direkt hos Emittenten avseende emission av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång. Emittenten har ingått Auktoriserade Deltagaravtal och har avtalat med Auktoriserade Deltagare om att emittera Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång till sådana Auktoriserade Deltagare på en fortlöpande bas. En Auktoriserad Deltagare kan sälja Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång på en börs eller i en transaktion utanför börsen eller inneha värdepapperen själva.

Vid emission av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång, måste en Auktoriserad Deltagare leverera ett kontantbelopp till Motparten i Råvarukontrakt som är lika med kursen för Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång som ska emitteras i utbyte mot att Emittenten emitterar Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och levererar dessa till den Auktoriserade Deltagaren via CREST.

Vid inlösen av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång av en Auktoriserad Deltagare (och vissa begränsade situationer, andra

| C.1                            | Typ och klass av värdepapper som erbjuds           | <p>Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång har konstruerats för att ge investerare en "totalavkastning" liknande den som skulle ha erhållits från förvaltning av en lång till fullo kontant säkerställd position utan hävstång i terminskontrakt med angivna förfallotider minus tillämpliga avgifter. Till skillnad från förvaltning av terminspositioner så innehåller inte Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång någon rullning, begäran om betalning av viss kontantinsats (<i>margin calls</i>), utlöpande eller terminkontraktsmäkleri.</p> <p>Emittenten har skapat och kan göra tillgängligt för emission 120 typer av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång som var och en ger investerare exponering mot dagliga procentuella förändringar i rörelser för ett av Bloomberg Råvaruindex och som kan kategoriseras som sex olika typer:</p> <ul style="list-style-type: none"> <li>– En Gång Korta Värdepapper med Enskild Exponering;</li> <li>– En Gång Korta Indexrelaterade Värdepapper;</li> </ul>                                                                                                                                                                                                                                                          |

- Tre Gånger Korta Värdepapper med Enskild Exponering;
- Två Gånger Långa Värdepapper med Enskild Exponering;
- Två Gånger Långa Indexrelaterade Värdepapper; och
- Tre Gånger Långa Värdepapper med Enskild Exponering.

**Klass och Indexkännetecken:**

Avkastningen på Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång är, i samtliga fall, relaterad till den dagliga procentuella värdeförändringen för de relaterade Bloomberg Råvaruindex enligt följande:

- En Gång Korta Värdepapper med Enskild Exponering erbjuder en kort exponering mot den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i en typ av råvara (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på En Gång Korta Värdepapper med Enskild Exponering att minska på sådan dag med motsvarande procenttal och *vice versa*);
- En Gång Korta Indexrelaterade Värdepapper erbjuder en kort exponering mot den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i ett antal typer av råvaror (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på En Gång Korta Indexrelaterade Värdepapper att minska på sådan dag med motsvarande procenttal och *vice versa*);
- Tre Gånger Korta Värdepapper med Enskild Exponering erbjuder en kort exponering mot tre gånger av den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i en typ av råvara (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på Tre Gånger Korta Värdepapper med Enskild Exponering att minska på sådan dag med tre gånger den procentuella ökningen i Bloomberg Råvaruindex och *vice versa*);
- Två Gånger Långa Värdepapper med Enskild Exponering erbjuder exponering mot två gånger den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i en typ av råvara (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på Två Gånger Långa Värdepapper med Enskild Exponering att öka på sådan dag med två gånger den procentuella ökningen i Bloomberg Råvaruindex och *vice versa*);
- Två Gånger Långa Indexrelaterade Värdepapper erbjuder exponering mot två gånger den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i ett antal typer av råvaror (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på Två Gånger Långa

Indexrelaterade Värdepapper att öka på sådan dag med två gånger den procentuella förändringen i Bloomberg Råvaruindex och *vice versa*);

- Tre Gånger Långa Värdepapper med Enskild Exponering erbjuder exponering mot tre gånger den dagliga procentuella förändringen för Bloomberg Råvaruindex som följer rörelser i värde för terminskontrakten i en typ av råvara (på så sätt att om värdet för relevant Bloomberg Råvaruindex ökar på någon dag så kommer värdet på Tre Gånger Långa Värdepapper med Enskild Exponering att öka på sådan dag med tre gånger den procentuella förändringen i Bloomberg Råvaruindex och *vice versa*);

i varje fall, med justering för den riskfria räntan som beräknas löpa i förhållande till en helt säkerställd position i de relevanta underliggande terminskontrakten.

***Emissionsspecifik sammanfattning:***

Det följande är tillämpligt på Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång som emitteras i enlighet med de Slutliga Villkoren:

| C.18 | Beskrivning av avkastning | <p>Kursen för varje Korta Råvarurelaterade Värdepapper eller Råvarurelaterade Värdepapper med Hävstång återspeglar rörelserna i relevant Bloomberg Råvaruindex sedan den föregående dag på vilken Kursen beräknades, justerat av en hävstångsfaktor om -1 (för En Gång Korta Råvarurelaterade Värdepapper), -3 (för Tre Gångar Korta Värdepapper med Enskild Exponering), +2 (för Två Gångar Långa Råvarurelaterade Värdepapper) och +3 (för Tre Gångar Långa Värdepapper med Enskild Exponering) och avdrag för tillämpliga avgifter. Således kommer avkastningen för en viss klass att främst baseras på utvecklingen för relevant Bloomberg Råvaruindex.</p> <p>För att uppnå detta så kurssätts både Korta Råvarurelaterade Värdepapper eller Råvarurelaterade Värdepapper med Hävstång genom vilka Emittenten erhåller exponering mot Bloomberg Råvaruindex i enlighet med den Formel. Denna Formel reflekterar (a) differensen mellan nivån för relevant Bloomberg Råvaruindex på den dagen och nivån för relevant Bloomberg Råvaruindex på den föregående dagen på vilken Kursen beräknades, (b) tillämpningen av en hävstångsfaktor om -1 (för En Gång Korta Råvarurelaterade Värdepapper), -3 (för Tre Gångar Korta Värdepapper med Enskild Exponering), +2 (för Två Gångar Långa Råvarurelaterade Värdepapper) och +3 (för Tre Gångar Långa Värdepapper med Enskild Exponering); och (c) tillämpliga avgifter som betalas av Emittenten till Motparten i Råvarukontrakt under Facilitetsavtalet och till ManJer. Avdrag av avgifter som förfaller till betalning till Motpart i Råvarukontakt refereras till i kapitaljusteringen som finns i Formeln.</p> <p>Kursen för varje klass av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kommer att beräknas av Emittenten per slutet av varje kurssättningsdag (efter det att terminsmarknadskurserna har offentliggjorts) och publiceras tillsammans med tillämplig Kapitaljustering på Emittentens webbplats på adressen <a href="https://www.wisdomtree.eu/pricing">https://www.wisdomtree.eu/pricing</a></p> <p>Kursen för varje klass av Tre Gångar Korta Värdepapper med Enskild Exponering och varje klass av Tre Gångar Långa Värdepapper med Enskild Exponering (tillsammans "<b>Tre Gångar Råvarurelaterade Värdepapper</b>") innefattar en intradagsombalanseringsmekanism som kommer att aktiveras om värdet för relevant Bloomberg Råvaruindex antingen (i) faller med 25 procent under loppet av en dag vad gäller tre Gångar Långa Värdepapper med Enskild Exponering; eller (ii) stiger med</p> |

Information om Bloomberg Råvaruindex erhållas från <a href="http://www.bloombergindexes.com">www.bloombergindexes.com</a>.</p> <p>Information om säkerheter som innehas av BNYM till förmån för Emittenten under MLI Security Agreement, MLI Control Agreement, CGML Security Agreement och CGML Control Agreement och kan erhållas på Emittentens webbplats på adressen <a href="https://www.wisdomtree.eu">https://www.wisdomtree.eu</a></p> <p><b>Emissionsspecifik sammanfattning:</b><br/>Råvarukontrakt erbjuder en avkastning relaterad till Bloomberg Coffee Subindex Total Return. Ytterligare information kan hittas på <a href="http://www.bloombergindexes.com">http://www.bloombergindexes.com</a>.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>AVSNITT D - Risker</b> |                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| D.2                       | Nyckelrisker relaterade till Emittenten                                    | <p>Emittenten har etablerats som ett specialföretag för ändamålet att emittera börshandlade råvaror i form av värdepapper med bakomliggande tillgångar. Emittenten emitterar ETFS Korta Råvarurelaterade Värdepapper och ETFS Råvarurelaterade Värdepapper med Hävstång och vissa andra värdepapper ("<b>Klassiska Värdepapper och Långfristiga Värdepapper</b>"), som emitteras enligt ett separat grundprospekt ("<b>Prospekt för Klassiska Värdepapper och Långfristiga Värdepapper</b>") av Emittenten som är daterat på eller omkring dagen för detta Prospekt, och har inga andra tillgångar än de som kan härledas till Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och Klassiska Värdepapper och Långfristiga Värdepapper. De belopp som en Värdepappersinnehavare kan erhålla efter krav mot Emittenten är, således, begränsat till intäkterna från försäljning av den säkerställda egendom som är tillämplig på sådan Värdepappersinnehavares klass av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och eftersom Emittenten är ett specialföretag etablerat endast i syfte att emittera Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och Klassiska Värdepapper och Långfristiga Värdepapper, och eftersom Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång inte garanteras av någon annan person, så kommer Emittenten inte ha några ytterligare tillgångar mot vilka Värdepappersinnehavare kan rikta krav. Om den säkerställda egendomen inte är tillräcklig för att täcka de belopp som förfaller till betalning till Värdepappersinnehavare så kan Värdepappersinnehavare lida en förlust.</p> |

|     |                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                            | <p>Även om Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång är säkerställda genom Råvarukontrakt och säkerhet, så kvarstår faktum att värdet på sådana Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång och möjligheten för Emittenten att betala inlösenbelopp är delvis beroende av de belopp som erhålls från MLI och CGML under Facilitetsavtalen, BAC-Garantin, Citigroup-Garantin, Security Agreements och Control Agreements. Ingen innehavare har någon direkt rätt att kräva fullgörelse av någon sådan person.</p> <p>Det kan inte lämnas någon garanti om att MLI, CGML eller någon annan enhet kommer kunna fullgöra sina betalningsålägganden under de relevanta Råvarukontrakten, Facilitetsavtalen, BAC Garantin, Citigroup-Garantin, Security Agreement eller Control Agreement. Följaktligen kan ingen garanti lämnas om att Emittenten kommer kunna lösa in Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång till dess inlösenbelopp vilket kan leda till att en investerare erhålla mindre än inlösenkursen vid inlösen av deras Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| D.3 | Nyckelrisker relaterade till värdepapperen | <p>Om MLI, i egenskap av beräkningsagent, meddelar Emittenten att intradag kursen för Råvarukontrakten av samma klass av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång har fallit till eller under noll vid någon tidpunkt under någon handelsdag och sådant Råvarukontrakt har avslutats, så ska Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång av sådan klass automatiskt bli tvingande inlösta på den dag och Värdepappersinnehavare kommer i sådan situation troligtvis inte erhålla några belopp eftersom den relevanta Poolen i sådana situationer inte har tillräckligt med tillgångar för att betala tillbaka till Värdepappersinnehavare betydande belopp vid sådan inlösen eftersom endast tillgångar som är tillgängliga för inlösen av de påverkade Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kommer vara de Råvarukontrakt vars värde vara noll även om Kursen för den klassen av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång därefter ökar. I dessa situationer kan Värdepappersinnehavare lida en förlust om de Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång blir inlösta till en kurs som är lägre än vad som skulle ha varit tillämpligt om Värdepappersinnehavarens investering hade blivit inlösta på den dag som väljs av Värdepappersinnehavaren istället för på den dag som förtida inlösen sker. Förtida inlösen kan även leda till att en Värdepapperinnehavare ådrar sig skattskyldighet som man annars inte skulle ha ådragit sig och/eller om inlösen sker vid en tidpunkt när kontantvärdet för Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång är lägre än förvärvskursen som betalats av Värdepappersinnehavaren, så kan Värdepappersinnehavaren ådra sig en förlust.</p> <p>Om försäljning av säkerhet från en Motpart i Råvarukontrakt, så kan värdet på de tillgångar som säljs vara lägre än vad som krävs för att möta de inlösenbelopp som förfaller till betalning i förhållande till Värdepappersinnehavarna. Försäljning av säkerhet kan ta tid och en Värdepappersinnehavare kan drabbas av fördröjning vad gäller erhållande av belopp som förfaller till betalning. En</p> |

|-----|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                            | <p>Värdepappersinnehavare kan även lida en förlust om de aktuella tillgångarna säljs till ett belopp som är lägre än förfallet inlösenbelopp.</p> <p>Avkastningen från Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång är utformade att erbjuda exponering mot dagliga förändringar i det relevanta index. Det är inte samma sak som att erbjuda exponering mot förändringar i relevant index över perioder som är längre än en dag.</p> <p>Det kan förekomma dagar när avbrott i den underliggande råvarumarknaden innebär att en eller flera klasser av Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång inte kan prissättas på den dagen. Detta kommer att orsaka en försening i tillämpningen av inlösenprocessen vilket kan negativt inverka på potentiella eller existerande investerare.</p> <p><b>Emissionsspecifik Sammanfattning:</b></p> <p>I situationer där kostnader för terminskontrakt för leverans på datum längre fram i tiden är högre än för de som är levererbara tidigare, kommer värdet på motsvarande Bloomberg Råvaruindex minska över tid om inte spotkursen ökar med samma kurs som varianskursen för terminskontraktet. Variationskursen kan vara tämligen betydande och fortgå under en längre period vilket minskar värdet på Bloomberg Råvaruindex och således även kursen på Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång som relaterar till detta Bloomberg Råvaruindex vilket kan leda till att en Värdepappersinnehavare ådrar sig en förlust.</p> <p>Dagliga förändringar i Kursen för Råvarurelaterade Värdepapper med Hävstång kommer att förstöras. Avseende Två Gångar Långa Råvarurelaterade Värdepapper kan en daglig minskning med 50 procent eller mer av relevant Bloomberg Råvaruindex leda till en total förlust av investeringen.</p> |
| D.6 | Nyckelrisker relaterade till värdepapperen | <p>Vänligen se D.3 ovan.</p> <p>Historisk utveckling utgör ingen indikation om förväntad utveckling och utvecklingen för investeringar i Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång kan vara volatila. Följaktligen kan investerare i Korta Råvarurelaterade Värdepapper och Råvarurelaterade Värdepapper med Hävstång förlora värdet på hela eller delar av sin investering.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
