Prospectus Summary

Base Prospectus dated 5 June 2019 for the issue of ETFS Metal Securities

Summaries are made up of disclosure requirements known as ‘Elements’. These elements are numbered in Sections A - E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted into the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of ‘not applicable’.

| B.25 | Underlying assets | <p>The underlying assets for the Metal Securities of each class, by which they are backed and on which they are secured are physical bars of Bullion. These bars are held in the name of the Trustee for the Security Holders in secure vaults at the premises of the Initial Custodian or the Swiss Gold Custodian (or of a sub-custodian or delegate of theirs).</p> <p>The books and records of the Initial Custodian and the Swiss Gold Custodian evidence that such bars of Bullion are segregated from other metal held in each of their vaults and that certain uniquely numbered bars of Bullion are held for the Trustee in allocated form (i.e. that those specific bars are held for and held by the Trustee as legal mortgagee and are not fungible with other bars held by the Initial Custodian or the Swiss Gold Custodian).</p> <p>Any bars of Bullion held for the Trustee in the vaults of the Initial Custodian or the Swiss Gold Custodian and backing the Metal Securities must meet particular specifications, known as "Good Delivery" standards, as to weight and purity. These specifications are set by the trade associations for the particular type of Bullion. In the case of physical gold and physical silver, the relevant trade association is the London Bullion Market Association (the "LBMA") and in the case of physical platinum and physical palladium, the relevant trade association is the London Platinum and Palladium Market (the "LPPM").</p> <p>The securitised assets backing the issue have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the securities.</p> <p>The securitised assets are the physical precious metals. The amount of the relevant Bullion represented by each Metal Security at any time is known as the "Metal Entitlement". This is the amount of the relevant precious metal(s) in ounces that is reduced each day by the fees that are payable by the Issuer.</p> <p>Issue specific summary:</p> <p>The underlying for the Metal Securities being issued pursuant to the Final Terms is physical</p> |

| C. 15 | Value of the investment is affected by the value of the underlying instruments | <p>For each Metal Security, the Issuer publishes a Metal Entitlement rather than a value in cash terms. As described above, the Metal Entitlement of each Metal Security is a quantity of Bullion to which a Metal Security entitles a Security Holder on redemption. The quantity of Bullion held in respect of each Metal Security will reduce daily by the management fee (payable by the Issuer to ManJer in return for the services it provides).</p> <p>Authorised Participants create or redeem (and Security Holders can in certain circumstances redeem) Metal Securities of any class directly with the Issuer at the Metal Entitlement of that class on the relevant date.</p> <p>The cash value of a Metal Security can be worked out by multiplying the relevant Metal Entitlement by the cash value of a troy ounce (in the case of silver, platinum and palladium) or a fine troy ounce (in the case of gold) of the relevant underlying Bullion. This cash value of a Metal Security will vary up and down with movements in the cash value of the relevant Bullion. Because of the daily reduction in the Metal Entitlement, on a day where there was no movement in the cash value of the underlying Bullion, there would still be a reduction in the cash value of the Metal Securities as the quantity of Bullion they represent would have reduced by the fees applicable for that day. Each investor can access the cash value of the Metal Entitlement of their Metal Securities through the sale of those Metal Securities on one of the exchanges on which the Metal Securities are admitted to trading (subject to deduction of any costs associated with such sale) or through a private sale transaction.</p> | | | | | | | | | | | | | | | | |

| C. 16 | Expiration/Maturity date | Not applicable; the Metal Securities are undated securities and have no specified maturity date or expiry date. |
| C. 17 | Settlement | <p>CREST</p> <p>The Issuer is a participating issuer in CREST, a paperless system for the settlement of transfers and holding of securities and Metal Securities are issued or redeemed through the CREST system. Transfers of securities on the London Stock Exchange will generally settle through CREST.</p> <p>Settlement of creations and redemptions</p> <p>The standard settlement cycle for settlement of trades on the London Stock Exchange is two business days (T+2). On creation or redemption of the Metal Securities, settlement will occur (provided certain conditions are met) on the second business day following receipt of the relevant creation or redemption request. On the redemption of ETFs Physical Swiss Gold Securities by way of physical delivery of Bullion to the Security Holder, the Settlement Date will occur (provided certain conditions are met) on the day on which the Custodian deposits the Bullion in an amount equal to the Metal Entitlement (after making all relevant deductions) of such ETFs Physical Swiss Gold Securities into the unallocated account of the Metal Agent. A Metal Security will only be issued upon receipt of a valid Application Form and after the relevant Bullion has been transferred into the Trustee’s accounts at the Initial Custodian or the Swiss Gold Custodian (as applicable). A Metal Security will only be cancelled upon receipt of a valid redemption request, receipt by the Issuer of the fee in connection with such redemption in cleared funds (where applicable), and the delivery of the relevant Metal Securities to the registrar, whereupon the Bullion will be transferred out of the Trustee’s accounts at the Initial Custodian or the Swiss Gold Custodian (as applicable) and, in the case of a redemption of ETFs Physical Swiss Gold Securities by way of physical delivery to a bank specified by a Security Holder, on to the Metal Agent in order to effect such delivery.</p> <p>Settlement on NYSE Euronext ESES</p> <p>Settlements in the Euronext markets of France and the Netherlands are performed through the Euroclear Settlement for Euronext-zone Securities (“ESES”) platform and all trades of Metal Securities listed on NYSE Euronext Paris or NYSE Euronext Amsterdam will be executed on the single order book held at NYSE Euronext Paris as the market of reference.</p> <p>Settlement on the Frankfurt Stock Exchange</p> <p>For the purpose of good delivery of the Metal Securities on the Frankfurt Stock Exchange, Clearstream Banking Aktiengesellschaft (“Clearstream”) will issue, for each series and the relevant number of Metal Securities, a Global Bearer Certificate (each a “Global Bearer Certificate”) in the German language created under German law. Whenever the number of Metal Securities represented by the Global Bearer Certificate of a class changes, Clearstream will amend the relevant Global Bearer Certificate accordingly.</p> |

| C. 18 | Description of return | <p>A Metal Security entitles a Security Holder (provided it is an Authorised Participant or in certain other limited circumstances) to require the redemption of a Metal Security and receive an amount of Bullion equal to the Metal Entitlement on the applicable settlement date (subject to deduction of any costs associated with such redemption).</p> <p>The Metal Securities do not bear interest. The amount of an investor's return (in metal terms) is equal to the difference between: a) the Metal Entitlement at which the relevant Metal Securities are issued; and b) the Metal Entitlement at which the same Metal Securities are redeemed.</p> <p>Investors other than Authorised Participants can buy and sell Metal Securities on any of the stock exchanges on which they are admitted to trading or in private transactions (OTC). For an investor purchasing in the secondary market, the amount of return is equal to the difference between: a) the 'bid price' at which the relevant Metal Securities are purchased; and b) the 'offer price' at which the same Metal Securities are subsequently sold.</p> <p>Issue specific summary:</p> <p>The following details apply to the Metal Securities being issued pursuant to the Final Terms:</p> <p>Bullion to which Metal Securities of that class provide exposure:</p> |

SECTION D - Risks

| | | |
|-----|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Key risks of Issuer | <p>The Issuer is a special purpose company established for the purpose of issuing exchange traded commodities (ETCs) as asset backed securities and has no assets other than any it holds to back the Metal Securities.</p> <p>The amounts that a Security Holder could receive following a claim against the Issuer are, therefore, limited to the proceeds of realisation of the secured property applicable to such Security Holder's class of Metal Securities and as the Issuer is a special purpose vehicle formed only for the purpose of issuing the Metal Securities, and as the Metal Securities are not guaranteed by any other person, the Issuer would have no further assets against which the Security Holder could claim.</p> <p>If the new proceeds from the physical precious metals held in the Trustee's accounts at the Custodians in respect of a class are not sufficient to meet all obligations and make all payments then due in respect of the Individual Securities of such class (and the Basket Securities to the extent they notionally comprise Individual Securities of that class) and all amounts ranking prior to such obligations and payments under the Trust Instrument and Security Deed, the obligations of the Issuer will be limited to the net proceeds of realisation of that precious metal.</p> <p>In such circumstances the assets of the Issuer (if any) will not be available to meet any shortfall, the rights of the relevant Security Holders to receive any further amounts in respect of such obligations will be extinguished and none of the Security Holders or the Trustee may take any further action to recover such amounts. In the event that the net proceeds of realisation of the precious metal are insufficient to cover the amount payable to the Security Holder, the Security Holder would suffer a loss.</p> |
| D.3 | Key risks of Metal Securities | <ul style="list-style-type: none"> • Access to the vault premises of the Initial Custodian, the Swiss Gold Custodian or any of their sub-custodians or delegates could be restricted by natural events, such as flooding, or human actions, such as a terrorist attack. The Initial Custodian and the Swiss Gold Custodian have no obligation to insure the Bullion held in the Trustee's accounts against loss, theft or damage and the Issuer does not intend to insure against such risks, and the Trustee has no responsibility to do so. Accordingly, there is a risk that the Bullion underlying the Metal Securities could be lost, stolen or damaged and the Issuer would not be able to satisfy its obligations in respect of the Metal Securities leading to a loss for Security Holders. • Investors are dependent on there being Authorised Participants making a market in Metal Securities in order to minimise tracking error and to provide investors with liquidity. If no such markets are being made in Metal Securities it may be difficult for a Security Holder to sell their Metal Securities which could lead to a loss. |

| | | |
|-----|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | <ul style="list-style-type: none"> An early redemption of Metal Securities may be imposed on investors, which may result in an investment in Metal Securities being redeemed earlier than desired, (i) upon 30 days' written notice by the Issuer to all Security Holders of a particular class or classes of Metal Security; or (ii) if the Metal Securities to be compulsorily redeemed are held by a Security Holder who cannot provide evidence to the Issuer of their status. Such early redemption could lead to an investor incurring a tax charge that they would otherwise not be subject to and/or if the redemption takes place at a time when the cash value of the Metal Securities redeemed is less than when they were purchased by the Security Holder, the Security Holder could suffer a loss. |
| D.6 | Key risks of Metal Securities | <p>Please see Element D.3 above.</p> <p>Past performance is not an indication of expected performance and the investment performance of Metal Securities could be volatile. Consequently, investors in Metal Securities may lose the value of their entire investment or part of it.</p> |

| E.2b | Reasons for offer and use of proceeds | Not applicable; the reasons for the offer and use of proceeds are not different from making profit and/or hedging. |
| E.3 | Terms and conditions of the offer | The Metal Securities are being made available by the Issuer for subscription only to Authorised Participants who have submitted a valid application and who have delivered Bullion of the relevant type equalling the Metal Entitlement of the Metal Securities applied for to an account of the Issuer at the Initial Custodian or the Swiss Gold Custodian (as applicable) and the Metal Securities will only be issued once Bullion of the relevant type equalling the Metal Entitlement of the Metal Securities applied for has been transferred to the accounts of the Trustee at the Initial Custodian or Swiss Gold Custodian (as applicable). An Authorised Participant must also pay the Issuer an application fee of £500. Any applications for Metal Securities received by 4.30 p.m. London time on a business day, will generally enable the Authorised Participant to be registered as the holder of the Metal Securities within two business days. |
| E.4 | Material conflicting interests or | Ms Jones and Mr Ziembra (who are directors of the Issuer) are also directors of ManJer and of HoldCo – the sole shareholder of the Issuer. Mr Ross and Ms Jones are also directors of R&H Fund Services (Jersey) Limited, the administrator of the Issuer and the secretary of the Issuer and ManJer. The Directors do not believe that there are any actual or potential conflicts of interest between the duties which the directors and/or members of the administrative, management and supervisory bodies of the Issuer owe to the Issuer, and the private interests and/or other duties that they have. |

ETFS Metal Securities Limited

ETFS Metal Securities

Prospektresumé

Basisprospekt dateret 5 juni 2019 vedrørende udstedelse af

ETFS Metal Securities

Der gives et sammendrag af de oplysningskrav, der betegnes "Elementer". Disse elementer er nummereret som Afsnit A – E (A.1 – E.7).

Dette resumé omfatter alle de Elementer, som skal være omfattet af et resumé for denne type værdipapir og Udsteder. Da der er nogle Elementer, der ikke skal adresseres, kan der være huller i nummereringsrækkefølgen.

Selvom der kan være krav om, at et Element er omfattet af resuméet på grundlag af typen af værdipapir og Udsteder, er det muligt, at der ikke kan gives relevante oplysninger om det pågældende Element. Resuméet vil da indeholde en kort beskrivelse af Elementet med angivelse af "ikke relevant".

| Afsnit B - Udsteder | | |
|----------------------------|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| B.1 | Udsteders juridiske navn | ETFs Metal Securities Limited. |
| B.2 | Domicil/retlig form/lovgivning/indregistreringsland | Udsteder er et aktieselskab, der er stiftet og indregistreret på Jersey i henhold til "Companies (Jersey) Law 1991 (med senere ændringer) med registreringsnummer 95996. |
| B.16 | Direkte/indirekte kontrol med Udsteder | Aktierne i Udsteder er helejet af ETFs Holdings (Jersey) Limited ("HoldCo"), et holdingselskab, der er stiftet på Jersey. Aktierne i HoldCo er ultimativt ejet af WisdomTree Investments, Inc. Udsteder er hverken direkte eller indirekte ejet eller kontrolleret af en anden part i programmet. |
| B.17 | Udsteders kreditvurderinger | Ikke relevant – Udsteder er ikke blevet tildelt nogen kreditvurdering, og det er ikke hensigten, at nogle af Individual Securities skal tildeles kreditvurderinger. |
| B.20 | Specialistvirksomhed (SPV) | Udsteder er stiftet som en specialistvirksomhed med henblik på at udstede Metal Securities med sikkerhed i aktiver. |
| B.21 | Hovedaktiviteter | <p>Udsteders hovedaktivitet er at udstede klasser af Metal Securities der har sikkerhed i fysiske ædelmetaller. Udsteder har etableret et program i henhold til hvilket der lejlighedsvis kan udstedes seks klasser af Metal Securities – i form af fem klasser af Metal Security, der hver giver eksponering mod én type fysisk ædelmetal ("Individual Securities"), p.t. enten guld opbevaret i London, sølv, platin, palladium eller guld opbevaret i Zürich ("Bullion") og én klasse af basket security, der giver eksponering mod en forholdsmæssig andel af guld opbevaret i London, sølv, platin og palladium ("Basket Securities").</p> <p>Formålet med Metal Securities er at gøre det muligt for investorer at opnå eksponering mod et afkast i fysiske ædelmetaller uden at det er nødvendigt at handle med og opbevare fysiske ædelmetaller og gøre det muligt for investorer at købe og sælge eksponeringen ved at handle et værdipapir på en fondsbørs.</p> |

De forskellige typer af Bullion, der udgør sikkerhed for hver klasse af Metal Security er som følger:

| Klasse af Metal Security | Fysisk Ædelmetal |
|---------------------------------|-----------------------------------------------------------|
| ETFS Physical Gold | Guld opbevaret i boks i London |
| ETFS Physical Silver | Sølv |
| ETFS Physical Platin | Platin |
| ETFS Physical Palladium | Palladium |
| ETFS Physical Swiss Gold | Guld opbevaret i boks i Zürich |
| ETFS Physical PM Basket | Guld opbevaret i boks i London, Sølv, Platin og Palladium |

Metal Securities kan udstedes og kræves indløst dagligt af finansielle institutioner ("**Berettigede Deltagere**"), der (i) har indgået en aftale betegnet "Authorised Participant Agreement" med Udsteder, (ii) har attesteret deres status i henhold til Financial Services and Markets Act 2000 ("FSMA") over for Udsteder, og (iii) har attesteret over for Udsteder, at de ikke er kollektive investeringsordninger, der er reguleret af Rådets Direktiv 85/611/EØF som institutter for kollektiv investering i værdipapirer (dog således at andre indehavere af Metal Securities også kan indløse Metal Securities, hvis der ikke er nogen berettigede deltagere eller Udsteder oplyser andet), eller hvis Værdipapirindehaveren for så vidt angår ETFS Physical Swiss Gold Securities ønsker at indløse (under forudsætning af opfyldelse af visse betingelser) sådanne værdipapirer ved fysisk levering af den relevante Bullion til Værdipapirindehaverens specificerede bank. Alle øvrige parter kan købe og sælge Metal Securities via handel på en fondsbørs eller et marked, hvorpå Metal Securities er noteret.

Hver Metal Security er sikret ved fysiske barrer af den relevante Bullion eller (for så vidt angår Basket Securities) metaller, som opbevares af Sikkerhedsadministratoren (defineret nedenfor) i dennes egenskab af panthaver for Værdipapirindehaverne i sikrede bankbokse hos Custodians (defineret nedenfor).

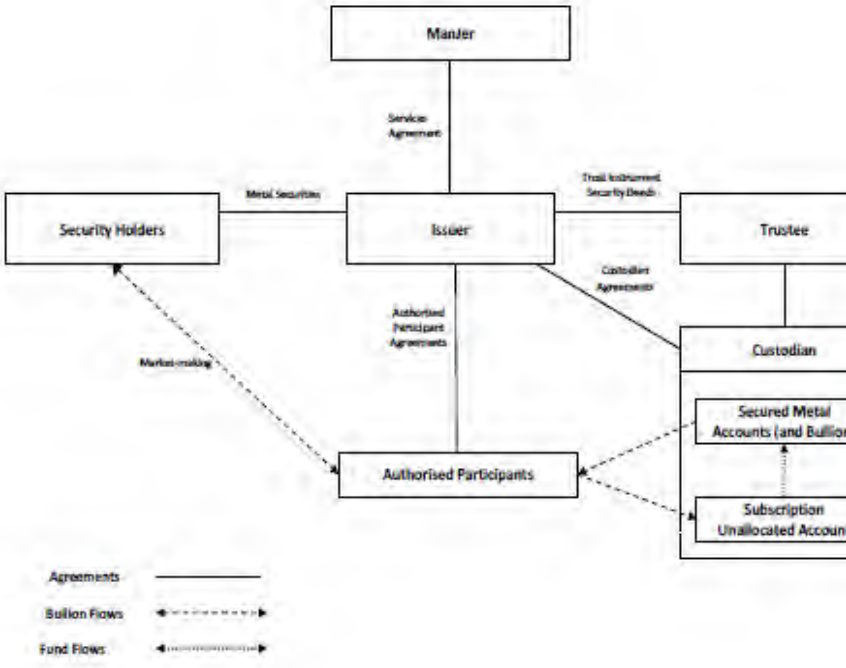

Udsteder og Administrator (som defineret nedenfor) har indgået aftaler ("**Initial Custodian Agreements**") med HSBC Bank USA N.A. ("**Initial Custodian**") om opbevaring af de ædelmetaller, som Metal Securities – bortset fra ETFS Swiss Gold Securities har sikkerhed i, i Initial Custodians boks i London (eller en sub-custodian eller en repræsentant herfor). Udsteder og Administrator har tillige indgået aftaler ("**Swiss Gold Custodian Agreements**") med JPMorgan Chase Bank N.A. ("**Swiss Gold Custodian**") og sammen med Initial Custodian ("**Custodians**") om opbevaring af det guld, der kan henføres til ETFS Swiss Gold Securities i Swiss Gold Custodians boks i Zürich (eller en sub-custodian eller en repræsentant herfor).

Metal Securities oprettes i henhold til en aftale benævnt "**Forvaltningsaftalen**" indgået mellem Udsteder og The Law Debenture Trust Corporation p.l.c. (som administrator) ("**Administrator**") som forvalter alle rettigheder i henhold til Forvaltningsaftalen for alle personer, der af Udsteder er registreret som værende indehavere af Metal Securities ("**Værdipapirindehaverne**").

| | | <p>Endvidere har Udsteder og Administrator indgået særskilte dokumenter (hvert benævnt en "Sikkerhedsaftale") for hver type Bullion, og disse Bullion opbevares i Administrators navn hos hver af Custodians. Forvaltningsaftalen og hver Sikkerhedsaftale giver Administrator rettigheder over for Udsteder vedrørende Metal Securities på vegne indehaverne af den relevante klasse af Metal Securities.</p> <p>ETFS Management Company (Jersey) Limited ("ManJer"), et selskab, der er ejet af WisdomTree Investments, Inc., leverer eller sørger for levering af alle forvaltnings- og administrationsydelser til Udsteder og betaler alle forvaltnings- og administrationsomkostninger for Udsteder til gengæld for et gebyr, der betales af Udsteder i Bullion.</p> <p>Emnespecifikt resumé Relevant Bullion</p> <p>Silver</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| B.25 | Underliggende aktiver | <p>Det underliggende aktiver for Metal Securities i hver klasse, de har sikkerhed i, er fysiske barrer af Bullion. Disse barrer opbevares for Værdipapirindehaverne i Administrators navn i sikre bokse hos Initial Custodian eller Swiss Gold Custodian (eller en sub-custodian eller en repræsentant herfor).</p> <p>Initial Custodians og Swiss Gold Custodians bogholderi og fortegnelser indeholder dokumentation for, at de pågældende barrer af Bullion er adskilt fra andet metal, der opbevares i hver deres bokse, og at visse unikt nummererede barrer af ædelmetal opbevares for Administratoren i allokeret form (dvs. at disse specifikke barrer opbevares for Administratoren som retsbeskyttet panthaver og ikke er ombyttelige med andre barrer, der opbevares af Initial Custodian eller Swiss Gold Custodian).</p> <p>Alle barrer af Bullion, der opbevares på vegne af Administrator i Initial Custodians eller Swiss Gold Custodians bokse, og som udgør sikkerhed for Metal Securities, skal opfylde visse specifikationer, betegnet "Good Delivery"-standarder, for vægt og renhed. Disse specifikationer fastsættes af brancheforeningerne for de pågældende ædelmetaller. For så vidt angår fysisk guld og fysisk sølv er den relevante brancheforening London Bullion Market Association ("LBMA"), og for fysisk platin og fysisk palladium er den relevante brancheforening London Platinum and Palladium Market ("LPPM").</p> <p>Hver Metal Security berettiger Værdipapirindehaverne til en mængde af det relevante fysiske ædelmetal. Mængden af det relevante fysiske ædelmetal, som Værdipapirindehaverne til enhver tid er berettiget til, betegnes "Metal Entitlement". Metal Entitlement reduceres dagligt med forvaltningsgebyrerne (de gebyrer, der skal betales til ManJør for dennes ydelser over for Udsteder).</p> <p>De securitiserede aktiver, der understøtter udstedelsen, har karakteristika, der demonstrerer evnen til at generere midler til at betale de evt. beløb, der måtte forfalde i relation til værdipapirerne.</p> <p>De securitiserede aktiver er fysiske ædelmetaller. Mængden af det relevante Bullion repræsenteret af hver enkelt Metal Security vil til enhver tid betegnes "Metal Entitlement". Det er mængden af det relevante ædelmetal i ounces der reduceres dagligt med forvaltningsgebyrerne der betales af Udsteder.</p> <p>Emnespecifikt resumé</p> <p>De underliggende aktiver for de Metal Securities, der udstedes i henhold til de Endelige Vilkår, er fysisk sølv opbevaret i Administrators navn i Initial Custodians.</p> |

| B.26 | Investeringsstyring | Ikke relevant; der er ingen aktiv styring af Udsteders aktiver. |
| B.27 | Yderligere værdipapirer sikkerhed i de samme aktiver | <p>Der kan udstedes yderligere Metal Securities i alle klasser anført i dette Prospekt, men først når en mængde af den relevante Bullion svarende til den samlede Metal Entitlement for de Metal Securities, der skal udstedes, er overført til Administrators konti hos Initial Custodian eller Swiss Gold Custodian (alt efter omstændighederne). Disse nyudstedte Metal Securities kan ombyttes med alle eksisterende Metal Securities i samme klasse og vil have sikkerhed i de samme aktiver.</p> <p>Emnespecifikt resumé:</p> <p>Der kan udstedes yderligere Metal Securities i alle klasser, der er beskrevet i dette Prospekt, men først når en mængde af sølv svarende til den samlede Metal Entitlement for de Metal Securities, der skal udstedes, er overført til Administrators konti hos Initial Custodian. Disse nyudstedte Metal Securities kan ombyttes med alle eksisterende Metal Securities i samme klasse og vil have sikkerhed i de samme aktiver.</p> |
| B.28 | Transaktionsstruktur | <p>Udsteder har etableret et program, hvor der lejlighedsvis kan udstedes Metal Securities. Metal Securities kan udstedes eller kræves indløst dagligt af Berettigede Deltagere, der har indgået en berettiget deltageraftale med Udsteder. Berettigede deltagere kan herefter sælge og købe Metal Securities til og fra andre investorer på en børs eller ved private transaktioner</p> <p>Metal Securities oprettes i henhold til en Forvaltningsaftale. I henhold til Forvaltningsaftalens betingelser fungerer Administratoren som administrator for værdipapirindehaverne i hver klasse af Metal Securities både (a) for at træffe beslutninger og udnytte rettigheder i henhold til Metal Securities og (b) at opbevare til fordel for Værdipapirindehaverne sikkerhederne givet til Udsteder i henhold til et sikkerhedsdokument for at udøve enhver ret til at tvangsfuldbyrde og distribuere beløb (efter betaling af alle beløb der skyldes til Administrator) til Værdipapirindehaverne (blandt andre).</p> <p>Et diagram over de væsentligste aspekter af den aktuelle struktur fremgår nedenfor:</p> |

| B.29 | Beskrivelse af pengestrømme | <p>Metal Securities kan købes eller sælges kontant på London Stock Exchange og visse af Metal Securities kan også købes eller sælges kontant på Euronext Amsterdam, NYSE Euronext Paris Borsa Italiana og/eller Frankfurt Stock Exchange (som værende de fondsbørser de handles på) eller på private ikke-fondsbørs transaktioner. Detaljerne om fondsbørserne, som en bestemt type værdipapir kan handles på fremgår af dokumentet "Final Terms", som er forberedt af Udsteder, hver gang et værdipapir udstedes. Børshandlere (prisstillere) stiller likviditet på de pågældende fondsbørser og for disse transaktioner kan kun Berettigede Deltagere anmode Udsteder direkte om at udstede Metal Securities..</p> |

| | | <p>Udsteder har indgået Authorized Participant Agreements og har aftalt med Berettigede Deltagere løbende at udstede Metal Securities til Berettigede Deltagere (Authorized Participants). En Berettiget Deltager kan sælge Metal Securities på en fondsbørs eller ved en transaktion uden for fondsbørsen eller kan selv være indehaver af værdipapirerne.</p> <p>Ved oprettelse af Metal Securities skal en Berettiget Deltager overføre Bullion af den samlede vægt, der svarer til Metal Entitlement for de Metal Securities, der skal oprettes, til Administrators konti, hvorefter Udsteder udsteder Metal Securities og leverer dem til en Berettiget Deltager via systemet for papirløs afvikling af handler og beholdningen af papirløse værdipapirer administreret af Euroclear UK & Ireland ("CREST").</p> <p>Ved en Berettiget Deltagers indløsning af Metal Securities skal den Berettigede Deltager returnere disse Metal Securities igennem CREST og vil til gengæld modtage Bullion svarende til den samlede Metal Entitlement af Metal Securities, som bliver indløst igennem en overførsel fra Administrators konti hos den relevante Custodian.</p> <p>Hvis der ikke er nogen berettigede deltagere eller hvis Udsteder efter eget skøn træffer bestemmelse herom, kan værdipapirindehavere, der ikke er berettigede deltagere, indløse deres værdipapirer direkte hos Udsteder. Udsteder vil da sælge den underliggende Bullion til den relevante Custodian (i henhold til vilkårene i en aftale mellem Udsteder, Administratoren og Custodian (hver benævnt "Metal Sale Counterparty Agreement") og anvende det kontante provenu ved salget til at betale indløsningsprovenu til de indløsende Værdipapirindehavere.</p> <p>Derudover kan Værdipapirindehavere af enhver ETFS Physical Swiss Gold Securities, som ikke er Berettigede Deltagere, anmode om indløsning ved fysisk levering af deres ETFS Physical Swiss Gold Securities direkte hos Udsteder. I sådanne tilfælde, og under forudsætning af, at visse betingelser er opfyldt, vil Administrator instruere Custodian til at overføre den relevante Bullion til et ikke-allokeret depot hos Heraeus Metals Germany GmbH & Co.KG ("Metal Agenten"), og Metal Agenten vil derefter overføre (efter at have fratrukket relevante fradrag) Bullionen til en bank specificeret af Værdipapirindehaveren.</p> <p>Emnespecifikt resumé:</p> <p>Ved oprettelse af Metal Securities skal en berettiget deltager overføre sølv i en mængde, der svarer til Metal Entitlement for de Metal Securities, der skal oprettes, til Administrators konti hos Initial Custodian. Ved indløsning finder den omvendte strøm af aktiver sted.</p> |

| C. 1 | Type og klasse af de værdipapirer, der udbydes | <p>Metal Securities har til formål at give investorer et afkast svarende til (før administrationsomkostninger og udgifter) at eje det fysiske ædelmetal.</p> <p>Udsteder har oprettet og stillet seks klasser af Metal Securities af to typer til rådighed for udstedelse: Fem klasser af Individual Securities og én klasse af Basket Securities. Den eksponering, som hver klasse af Metal Security giver, er som følger:</p> <p>Individual Securities – 5 klasser af Individual Securities er til rådighed for udstedelse, der hver giver eksponering mod en enkelt underliggende Bullion, der enten er guld opbevaret i boks i London, sølv, platin, palladium eller guld opbevaret i Zürich.</p> <p>Basket Securities- 1 klasse af Basket Securities er til rådighed for udstedelse, der giver eksponering mod et fast antal af Individual Securities for følgende Metal Securities:</p> <table data-bbox="491 719 1023 842"> <tr> <td>ETFS Physical Platinum Security</td> <td>0.1</td> </tr> <tr> <td>ETFS Physical Palladium Security</td> <td>0.2</td> </tr> <tr> <td>ETFS Physical Silver Security</td> <td>1.2</td> </tr> <tr> <td>ETFS Physical Swiss Gold Security</td> <td>0.4</td> </tr> </table> <p>Emnespecifikt resumé: Følgende oplysninger gælder for de Metal Securities, der udstedes i henhold til de Endelige Vilkår:</p> <table border="1" data-bbox="491 960 1163 1765"> <tr> <td>Klasse:</td> <td>ETFS Physical Silver</td> </tr> <tr> <td>LSE-kode:</td> <td>PHAG</td> </tr> <tr> <td>ISIN:</td> <td>JE00B1VS3333</td> </tr> <tr> <td>Samlet antal Metal Securities i denne klasse:</td> <td>25000</td> </tr> <tr> <td>Bullion, som Metal Securities i denne klasse giver eksponering mod:</td> <td>sølv</td> </tr> </table> | ETFS Physical Platinum Security | 0.1 | ETFS Physical Palladium Security | 0.2 | ETFS Physical Silver Security | 1.2 | ETFS Physical Swiss Gold Security | 0.4 | Klasse: | ETFS Physical Silver | LSE-kode: | PHAG | ISIN: | JE00B1VS3333 | Samlet antal Metal Securities i denne klasse: | 25000 | Bullion, som Metal Securities i denne klasse giver eksponering mod: | sølv |

Den kontante værdi af en Metal Security kan stige eller falde med bevægelserne i den kontante værdi af det pågældende Bullion. Som følge af den daglige reduktion i Metal Entitlement vil der på en dag, hvor der ikke er nogen bevægelser i den kontante værdi af det underliggende Bullion, stadig kunne ske en reduktion i den kontante værdi af Metal Securities, idet den mængde af Bullion, som de repræsenterer, vil være faldet. Initial Custodian og Swiss Gold Custodian er ikke forpligtede til at forsikre Bullion, der opbevares på Administrators konti mod tab, tyveri eller skade, og Udsteder har ikke til hensigt at tegne forsikring mod disse risici, og Administrator har ingen pligt til det. Der er således en risiko for, at de for Metal Securities underliggende Bullion kan mistes, blive stjålet eller beskadiget, og at Udsteder er ikke i stand til at opfylde sine forpligtelser for så vidt angår Metal Securities, hvilket kan medføre et tab for Værdipapirindehaverne.</p> <p>Investorer er afhængige af, at der er berettigede deltagere, der skaber et marked for Metal Securities med henblik på at minimere overvågningsfejl og forsyne investorer med likviditet. Hvis der ikke skabes et sådant marked i Metal Securities, kan det være vanskeligt for en Værdipapirindehaver at sælge sine Metal Securities, hvilket kan medføre et tab.</p> <p>Investorer kan blive pålagt førtidig indløsning af Metal Securities, og det kan medføre, at en investering i Metal Securities indløses tidligere end ønsket, (i) med 30 dages skriftligt varsel fra Udsteder til alle værdipapirindehavere i en bestemt klasse eller klasser af Metal Security, eller (ii) såfremt de Metal Securities, der skal indløses førtidigt, er ejet af en værdipapirindehaver, der ikke kan dokumentere sin status over for Udsteder. En sådan førtidig indløsning kan medføre, at en investor modtaget en ekstra skatteopkrævning, som de ellers ikke ville modtage, og/eller såfremt indløsningen sker på et tidspunkt, hvor den kontante værdi af de indløste Metal Securities er lavere end da de blev købt af Værdipapirindehaveren, kan Værdipapirindehaveren lide et tab.</p> |
| D.6 | Væsentligste risici ved Metal Securities | <ul style="list-style-type: none"> • Se ovenfor pkt. D.3 • Tidligere performance er ikke nogen indikation af forventet performance og investeringsafkastet fra Metal Securities kan være volatil. Som en konsekvens heraf kan investorer i Metal Securities miste værdien af hele eller dele af deres investering. |

| B.25 | Onderliggende activa | <p>De onderliggende activa die de Metal Securities van elke klasse waarborgen, en waarop ze steunen, zijn fysische staven. Die staven worden in naam van de Mandataris voor de Effectenhouders bewaard in beveiligde kluizen in de lokalen van de Initiële Bewaarder of van een Zwitserse Goudbewaarder (of van een subbewaarder of gedelegeerde van deze).</p> <p>De boekhouding en de verslagen van de Initiële Bewaarder en van de Zwitserse Goudbewaarder bewijzen dat deze Staven afzonderlijk bewaard worden van andere metalen die in hun kluizen bewaard worden en dat sommige speciaal genummerde staven van edele metalen voor de Mandataris in de gegeven vorm worden bewaard (d.w.z. dat die specifieke staven bewaard worden voor de Mandataris als de wettelijke hypotheekhouder en aan de Mandataris toebehoren en niet door andere staven, die door de Initiële Bewaarder of door de Zwitserse Goudbewaarder bewaard worden, kunnen vervangen worden).</p> <p>Al deze Staven die door de Mandataris in de kluizen van de Initiële Bewaarder of de Zwitserse Goudbewaarder bewaard worden en die de Metal Securities waarborgen, moeten voldoen aan specifieke kenmerken van zuiverheid en gewicht van elke staaf, gekend als de normen voor "Goede Levering".</p> <p>Die kenmerken worden vastgesteld door de handelsverenigingen voor het bepaald edel metaal. In het geval van fysisch goud en fysisch zilver is de relevante vereniging de Bullion Market Association (de "LBMA") en in het geval van fysisch platina en fysisch palladium is de relevante vereniging de London Platinum and Palladium Market (de "LPPM").</p> <p>Het metaal dat als onderpand dient heeft kenmerken die het mogelijk maken fondsen te genereren ter delging enige schuld met betrekking tot de Effecten.</p> <p>De gewaarborgde activa zijn fysische edele metalen. Het bedrag van het relevante metaal vertegenwoordigd door iedere Metal Security op enig ogenblik wordt genaamd "Recht op Metaal" (Metal Entitlement). Dat is de hoeveelheid van het relevante edel metaal / de relevante edele metalen in ounces, dat elke dag verminderd wordt met de vergoedingen die door de Emittent verschuldigd zijn.</p> <p><i>Specifieke mededeling bij uitgifte:</i></p> |

omzettingsfactoren tussen troy ounces en metrische meeteenheid zijn: één troy ounce is gelijk aan 31,1034768 gram en één kilogram is gelijk aan 32,1507465 troy ounces.

Een troy ounce is iets zwaarder dan de meer gangbare ounces gebruikt in het Verenigd Koninkrijk en de Verenigde Staten, zijnde ongeveer 1,097 maal het gewicht van die laatste.

Beperkt Verhaal (Limited Recourse)

Een Metal Security is een gewaarborgde niet-gedateerde obligatie van de Venootschap, die op gelijke voet staat met alle andere ETFS Metal Securities van dezelfde klasse. Effectenhouders hebben aanspraak op de activa van de klasse effecten waarvan ze Effectenhouder zijn. Indien de netto-opbrengsten onvoldoende zijn voor de Emittent om al haar betalingsverplichtingen te voldoen, zal de Mandataris of enige persoon die voor rekening van de Mandataris optreedt geen recht hebben om enige verdere stappen te ondernemen ten aanzien van de Emittent en zal de Emittent door geen verdere schuld gehouden zijn wat betreft deze som.

Voorrang van Betaling

Alle gelden ontvangen door de Mandataris bij realisatie van de activa behorende tot een specifieke klasse van Metal Securities zullen voor rekening aangehouden worden en als volgt worden aangewend:

- Betalingen verschuldigd aan de Mandataris (en personen aangeduid door de Mandataris) en betalingen verschuldigd aan enige ontvanger en de realisatiekosten van het effect;
- Betaling of uitvoering van alle onbetaalde en verschuldigde sommen en alle verplichtingen verschuldigd in verband met de Metal Securities van die klasse; en
- Betaling (desgevallend) van het saldo aan de Emittent.

Bij creatie of terugkoop van de Metal Securities, zal de betaling (wanneer aan bepaalde voorwaarden is voldaan) gebeuren op de tweede werkdag na de ontvangst van de betrokken aanvraag voor creatie of terugkoop. Bij de terugkoop van de ETFS Physical Swiss Gold Securities door middel van de fysieke teruggave van de Staven aan de Security Houder, zal de Datum van Afwikkeling plaatsvinden (mits aan bepaalde voorwaarden is voldaan) op de dag waarop de Bewaarder de Staven heeft gestort in een bedrag gelijk aan het Recht op Metaal (na alle relevante verminderingen te hebben doorgevoerd) van de ETFS Physical Swiss Gold Securities op de niet-toegewezen rekening van de Metal Agent. Een Metal Security zal enkel worden uitgegeven bij ontvangst van een geldig Aanvraagformulier en nadat het beschouwde edel metaal naar de Rekeningen van de Initiële Bewaarder of de Zwitserse Goudbewaarder werd overgedragen (naar gelang van het geval). Een Metaal Security zal enkel worden geannuleerd bij ontvangst van een geldige terugkoopaanvraag, bij ontvangst door de Emittent van de vergoeding met betrekking tot dergelijke terugkoop in beschikbare fondsen (indien van toepassing) en bij levering van de relevante Metal Securities aan de Administrateur. Vervolgens zal het edel metaal worden overgedragen uit de rekeningen van de Mandataris aan de Initiële Bewaarder of de Zwitserse Goudbewaarder (naar gelang van het geval) en, in het geval van de terugkoop van ETFS Physical Swiss Gold Securities door middel van fysieke teruggave aan een bank aangeduid door de Security Houder, aan de Metal Agent zodat deze laatste dergelijke teruggave kan uitvoeren.</p> <p>Vereffening op Euronext ESES</p> |

Indien de nieuwe opbrengst van de fysische edele metalen gehouden in de rekeningen van de Mandataris bij de Bewaarders ten aanzien van de klasse onvoldoende zijn om alle verplichtingen na te komen ten aanzien van de Individuele Securities van die klasse (en de Basket Securities in de mate dat ze notioneel Individuele Securities van die klasse omvatten) en alle bedragen die prioritair gerangschikt zijn voor zulke verplichtingen en betalingen onder het Trust Instrument en de Security Deed, zullen de verplichtingen van de Emittent beperkt zijn tot de netto opbrengst van de betaling van dat edel metaal.</p> <p>In zulke omstandigheden zullen de activa van de Emittent (als er zijn) niet beschikbaar zijn om enig tekort aan te vullen en de rechten van de relevante Effectenhouders om verder bedragen te ontvangen op grond van zulke verplichtingen zullen uitgedoofd zijn en geen van de Effectenhouders of de Mandataris kunnen enige verdere actie ondernemen om zulke bedragen te krijgen. Ingeval dat de netto opbrengst van de uitvoering op het edele metaal onvoldoende is om het aan de Effectenhouder betaalbaar bedrag te betalen zal de effectenhouder een verlies lijden.</p> |
| D.3 | Belangrijkste risico's van effecten | <p>Toegang tot de kluizen van de Initiële Bewaarder, de Zwitserse Goubewaarder of een van hun subbewaarders of gedelegeerden zou beperkt kunnen worden door natuurlijke gebeurtenissen, zoals een overstroming of door menselijke acties, zoals een terroristische aanval. De Initiële Bewaarder en de Zwitserse Goubewaarder of hun subbewaarders of gedelegeerden hebben geen verplichting om die edele metalen te verzekeren tegen verlies, diefstal of schade en de Emittent is niet van plan zich te verzekeren tegen dergelijke risico's en de Mandataris is daar niet verantwoordelijk. Dienovereenkomstig bestaat er een risico dat de onderliggende edele metalen van de Metal Securities worden verloren, gestolen of beschadigd en dat de Emittent niet zou kunnen voldoen aan zijn verplichtingen met betrekking tot de Metal Securities, wat aanleiding zou geven tot verlies voor de Effectenhouders.</p> <p>Investeerders zijn afhankelijk van de aanwezigheid van Goedgekeurde Inschrijvers die de markt in Metal Securities vormen, om het opsporen van vergissingen te minimaliseren en</p> |

Zulke vervroegde terugbetaling zou ertoe kunnen leiden dat een belegger een belasting zou moeten dragen waaraan hij anders niet zou onderworpen zijn en/of als de terugbetaling komt op een ogenblik dat de geldwaarde van de teruggenomen Metal Securities lager is dan de Metal Securities waarde wanneer ze aangekocht door de Effectenhouder werden en dan zou de Effectenhouder een verlies kunnen lijden.</p> |

| A.2 | Divulgateur du consentement à l'utilisation du Prospectus pour la revente ou le placement final des titres financiers par des intermédiaires financiers | <p>L'Émetteur a consenti à l'utilisation du Prospectus, et a accepté la responsabilité du contenu du Prospectus, relativement à la revente ou au placement final par voie d'offre au public des Metal Securities, en Allemagne, en Autriche, au Danemark, en Espagne, en Finlande, en France, en Irlande, en Italie, en Norvège, aux Pays-Bas, en Suède et au Royaume-Uni par tout intermédiaire financier qui est une entreprise d'investissement au sens de la directive Marchés d'instruments financiers 2014/65/EU, telle que modifiée (« MIF II ») et qui est agréé conformément à la directive MIF II dans tout État membre. Un tel consentement s'applique à toute revente ou placement final par voie d'offre au public au cours de la période de 12 mois à compter de la date du Prospectus, à moins que ce consentement soit retiré avant cette date par un avis publié sur le site Internet de l'Émetteur. Hormis le droit de l'Émetteur de retirer le consentement, aucune autre condition n'est attachée au consentement visé dans le présent paragraphe.</p> <p>Dans le cas d'une offre faite par un intermédiaire financier, cet intermédiaire financier fournira l'information aux investisseurs sur les termes et conditions de l'offre au moment où l'offre est faite. Tout intermédiaire financier utilisant le Prospectus dans le but d'une offre doit indiquer sur son site Internet qu'il utilise le Prospectus conformément au consentement donné et aux conditions qui y sont attachés.</p> <p>C'est une condition de cet accord que l'intermédiaire financier souhaitant revendre ou faire un placement final de Metal Securities par le biais d'une offre au public, ne puisse réutiliser le Prospectus à cet effet à moins qu'elle ne soit réalisée dans des juridictions spécifiquement convenues et durant une période d'offre convenue. L'intermédiaire financier ne peut pas autrement réutiliser le Prospectus pour vendre des Metal Securities.</p> <p>Au cas où une offre au public est réalisée dans une ou plusieurs juridictions identifiées(s) dans les conditions définitives préparées par l'Émetteur dans lesquelles une offre au public est prévue, les Metal Securities peuvent être offertes et vendues aux personnes de ces juridictions, qui sont éligibles pour participer à une offre au public de ces titres dans cette juridiction aux termes de la réglementation applicable.</p> <p>L'Émetteur n'a pas autorisé et n'autorise pas l'offre de Metal Securities dans toutes autres circonstances.</p> <p>Résumé spécifique à l'émission</p> <p>Juridiction(s) dans laquelle(s) une Offre au Public est prévue N/A</p> <p>Période d'offre N/A</p> |

| B.24 | Changement défavorable important | Non applicable ; il n'y a pas eu de changement défavorable important dans les prévisions de l'Émetteur depuis la date de la publication de ses derniers états financiers vérifiés au 31 décembre 2018. |
| B.25 | Actifs sous-jacents | <p>Les actifs sous-jacents aux Metal Securities, de chaque catégorie, pour lesquels ils sont adossés et par lesquels ils sont des barres physique d'Lingot. Ces barres sont détenues au nom du Trustee pour le compte des Porteurs de Titre dans les coffres du Dépositaire Initial et du Dépositaire d'Or Suisse (ou d'un de leurs sous-dépositaire ou délégué).</p> <p>Les livres et registres du Dépositaire Initial et du Dépositaire d'Or Suisse démontrent que ces Lingots en barre sont séparées de tout autre métal détenu dans chacun de leurs coffres et que certaines barres de métal précieux numérotées de façon unique sont détenues pour le Trustee sous forme allouée (c'est-à-dire que ces barres spécifiques sont détenues pour et sont la propriété du Trustee et ne sont pas fongibles avec d'autres barres détenues par le Dépositaire Initial et le Dépositaire d'Or Suisse).</p> <p>Tous les Lingots en barre détenus pour le Trustee dans les coffres du Dépositaire Initial ou du Dépositaire d'Or Suisse et garantissant les Metal Securities doivent répondre à des spécifications particulières, appelées normes de « bonne livraison » relatives au poids et à la pureté. Ces spécifications sont définies par les associations professionnelles pour le métal précieux en particulier. Dans le cas de l'or physique et de l'argent physique, l'association professionnelle concernée est la London Bullion Market Association (la « LBMA ») et dans le cas du platine physique et du palladium physique, l'association professionnelle concernée est la London Platine and Palladium Market (la « LPPM »).</p> <p>Les actifs garantis auxquels est adossée l'émission présentent des caractéristiques démontrant la capacité de générer des flux financiers permettant de payer les fonds dus sur les titres.</p> <p>Les actifs titrisés sont les métaux précieux physiques. Le montant de Lingot pertinent représenté par chaque Metal Security à tout moment est connu comme étant le « Entitlement Metal ». Il s'agit de la quantité de métal précieux concerné(s) en onces qui est réduit chaque jour par les droits qui sont payables par l'Émetteur.</p> <p><u>Résumé spécifique à l'émission :</u></p> <p>Le sous-jacent des Metal Securities étant émis conformément aux Conditions Générales est l'argent détenu au nom du Trustee dans les coffres du Dépositaire Initial.</p> |

B.28 Schéma de la transaction

L'Émetteur a créé un programme en vertu duquel les Metal Securities peuvent être émis périodiquement. Les Metal Securities peuvent être émis ou doivent être rachetés quotidiennement par des Participants Agréés qui ont conclu un Accord de Participant Agréé avec l'Émetteur.

Les Participants Agréés peuvent alors vendre et acheter des Metal Securities à d'autres investisseurs en bourse et de gré à gré.

Les Metal Securities sont constituées par l'Instrument de Trust. Conformément aux conditions du Trust Instrument, le Trustee agit en tant que trustee pour les Porteurs de Titre de chaque catégorie de Metal Securities à la fois (a) pour prendre des décisions et pour exercer les droits détenus par les Metal Securities et (b) pour détenir sous trust pour le bénéfice des Porteurs de Titre, le titre accordé par l'Émetteur en vertu des Security Deed, pour exercer tous droits de faire respecter le même et de distribuer les produits (après paiement de toutes les sommes dues au Trustee) aux Porteurs de Titre (parmi d'autres).

Une représentation schématique des principaux aspects de la structure telle qu'elle est actuellement en place est illustrée ci-dessous :

| B.29 | Description des flux de fonds | <p>Les Metal Securities peuvent être achetés ou vendus contre du numéraire sur la bourse de Londres et certains Metal Securities peuvent également être achetés ou vendus contre du numéraire sur Euronext Amsterdam, NYSE Euronext Paris, Borsa Italiana et/ou la Bourse de Francfort (étant les autres bourses d'échanges sur lesquels ils sont admis à la négociation) ou dans les transactions hors bourse privées. Les détails des bourses d'échange sur lesquelles un type particulier de titre peut être négocié sont énoncés dans un document intitulé « Conditions Définitives », établi par l'Émetteur à chaque fois que les titres sont émis. Les teneurs de marché fournissent la liquidité sur ces marchés boursiers et pour ces transactions, mais seuls les Participants Agréés peuvent s'adresser directement à l'Émetteur pour l'émission de Metal Securities.</p> <p>L'Émetteur a conclu des Accords de Participant Agréé et accepte avec les Participants Agréés d'émettre les Metal securities à ces Participants Agréés sur une base permanente. Un Participant Agréé peut vendre les Metal Securities sur une bourse ou dans une transaction hors marché ou peut détenir les titres lui-même.</p> <p>Lors de la création de Metal Securities, un Participant Agréé doit livrer du Lingot du type concerné avec un poids total égal à la Valeur Metal des Metal Securities devant être créés sur le compte du Trustee, à la suite de quoi l'Émetteur émet des Metal Securities et les délivre au Participant Agréé via le système électronique de négociation et de détention de titres gérés par Euroclear UK et Irlande (« CREST »).</p> <p>Lors du rachat de Metal Securities par un Participant Agréé, le Participant Agréé doit retourner ces Metal Securities dans CREST, et en retour recevra des Lingots équivalents à la quantité de métal rachetée par un transfert sur les comptes du Trustee au Dépositaire pertinent.</p> <p>Dans les cas où il n'y a pas de Participants Agréés ou que l'Émetteur peut à seule discrétion déterminer les Porteurs de Titre, qui ne sont pas des Participants Agréés qui peuvent faire racheter leurs titres directement par l'Émetteur. Dans ce cas, l'Émetteur vendra le Lingot sous-jacent au Dépositaire pertinent (selon les termes des accords entre l'Émetteur, le Trustee et le Dépositaire (chacun étant le « Metal Sale Counterparty Agreement »)) et utilisera le produit en numéraire de la vente pour payer les produits de rachat aux Porteurs de Titres.</p> <p>En outre, les Porteurs de Titre de n'importe quel ETF Physical Swiss Securities qui ne sont pas des Participants Agréés peuvent exiger directement de l'émetteur le rachat au moyen d'une livraison physique de leurs ETF Physical Swiss Gold Securities. Dans ce cas, et après que certaines conditions soient remplies, le Trustee donnera des instructions au Dépositaire de transférer le Lingot correspondant à un compte non alloué de Heraeus Metals Germany GmbH & Co.KG (Le « Metal Agent»), et le Metal Agent transfèrera alors (après avoir effectué les déductions pertinentes) le Lingot à une banque spécifiée par le Porteur de Titre.</p> |

| C.15 | La valeur de l'investissement est affectée par la valeur des instruments sous-jacents | <p>Pour chaque Metal Security, l'Émetteur publie une Valeur Metal plutôt qu'une valeur en numéraire. Comme décrit ci-dessus, la Valeur Metal de chaque Metal Security est une quantité de Lingot à laquelle un Metal Security donne droit à un Porteur de Titre au moment du rachat. La quantité de métal précieux physique détenue pour chaque Metal Security diminuera quotidiennement du fait des frais de gestion (versés par l'Émetteur à ManJer en contrepartie des services qu'il fournit).</p> <p>Les Participants Agréés peuvent faire créer ou racheter (et les Porteurs de Titres peuvent dans certaines circonstances racheter) des Metals Securities directement par l'Émetteur à la Valeur Metal à la date considérée.</p> <p>La valeur numéraire d'un Metal Security peut être déterminée en multipliant le Titré Métal concernée par la valeur numéraire d'un once troy (dans le cas de l'argent, du platine et du palladium) ou d'une once troy fin (dans le cas de l'or) du Lingot concerné. Cette valeur numéraire d'un Metal Security varie à la hausse comme à la baisse en fonction des mouvements de la valeur numéraire du lingot. En raison de la réduction quotidienne de la Valeur Metal, un jour où il n'y aurait pas de mouvement de la valeur numéraire du Lingot, il y aurait tout de même une réduction de la valeur numéraire des Metal Securities dans la mesure où la quantité de Lingot qu'ils représentent aurait été réduite par les frais applicables pour cette journée. Chaque investisseur peut obtenir du numéraire en échange des Valeurs Métal de leurs Metal Securities par la vente de ces Metal Securities sur l'une des bourses sur lesquelles les Metal Securities sont admis à la négociation (sous déduction de tous les coûts associés à cette vente) ou par l'intermédiaire d'une transaction de gré à gré.</p> |
| C.16 | Date d'expiration/d'échéance | Non applicable ; les Metal Securities sont des titres non datés et n'ont pas de date d'échéance ou d'expiration. |
| C.17 | Règlement | <p>CREST</p> <p>L'Émetteur est un émetteur participant à CREST, un système électronique pour le règlement de transferts et la détention de titres et des Metal Securities sont émis ou rachetés via le système CREST. Les transferts de titres sur le London Stock Exchange seront généralement réglés au moyen de CREST.</p> <p><u>Règlement des créations et des rachats</u></p> |

Le cycle de règlement standard pour le règlement des transactions sur la Bourse de Londres est actuellement deux jours ouvrables (T+2). À la création ou au rachat des Metal Securities, le règlement se produira (à condition que certaines conditions soient satisfaites), le deuxième jour ouvrable suivant la réception de la demande de création ou de rachat concernée. Au rachat des ETFs Physical Swiss Gold Securities au moyen d'une livraison physique du Lingot au Porteur de Titre, la Date de Règlement se produira (pourvu que certaines conditions sont réunies) au jour auquel le Dépositaire verse le Lingot dans un montant égal à la Valeur Metal agréée (après avoir effectué toutes les déductions pertinentes) de telles ETFs Physical Swiss Gold Securities dans un compte non alloué du Metal Agent. Un Metal Security sera émis uniquement à la réception d'un Formulaire de Demande valable et une fois que le métal précieux correspondant aura été transféré vers les comptes du Trustee chez le Dépositaire Initial ou le Dépositaire d'Or Suisse (le cas échéant). Un Metal Security sera annulé uniquement à la réception d'une demande de rachat valable, réception par l'Emetteur des frais en relation avec un tel rachat dans des fonds compensés (lorsque c'est applicable) et de la livraison des Metal Securities respectifs à l'agent d'enregistrement, après quoi le Lingot sera transféré hors des comptes du Trustee chez le Dépositaire Initial ou le Dépositaire d'Or Suisse (le cas échéant). Le transfert des Metal Securities respectifs vers ou à partir d'un Participant Agréé lors des créations ou rachats sera effectué par CREST et, dans le cas d'un rachat des ETFs Physical Swiss Gold Securities au moyen d'une livraison physique à une banque spécifiée par le Porteur de Titre, au Metal Agent afin d'effectuer une telle livraison.

Règlement sur Euronext ESES

Les règlements sur les marchés d'Euronext de la France et des Pays-Bas sont effectués par le biais de la plateforme d'Euroclear pour la zone Euronext (« ESES ») et toutes les négociations de Metal Securities cotées sur NYSE Euronext Paris ou NYSE Euronext Amsterdam seront exécutées sur le carnet de commandes unique tenue par NYSE Euronext Paris, en tant que marché de référence.

Règlement sur le Frankfurt Stock Exchange

Dans un objectif de bonne livraison des Metal Securities à la Bourse de Francfort, Clearstream Banking Aktiengesellschaft (« Clearstream ») émettra, pour chaque série et nombre respectif de Metal Securities, un Certificat d'Émission Global (chacun appelé « Certificat d'Émission Global ») en langue allemande et créé en vertu du droit allemand. À partir du moment où le nombre des Metal Securities représentés par le Certificat d'Émission Global d'une catégorie changera, Clearstream modifiera le Certificat d'Émission Global respectif en conséquence.

Règlement sur la Borsa Italiana S.p.A.

Tous les Metal Securities négociés sur la Borsa Italiana S.p.A. peuvent bénéficier du règlement par les systèmes de règlement normaux de Monte Titoli S.p.A. sur les comptes de dépôt ouverts auprès de Monte Titoli S.p.A.

Tous ces Lingots doivent être conformes aux normes de « Bonne Livraison » de la LBMA (pour l'or physique et l'argent physique) et de la LPPM (pour le platine physique et le palladium physique), telles que le poids et la pureté de chaque barre, afin que chacune de ces barres puisse être qualifiée de barres de bonne livraison.</p> <p><u>Résumé spécifique à l'émission :</u></p> <p>Le type de sous-jacent pour les Metal Securities devant être émis conformément aux Conditions Générales est argent.</p> <p>Tous ces Lingots respectent le standard de LBMA. | SECTION D - Risques | | |
|----------------------------|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Risques principaux de l'Émetteur | <p>L'Émetteur est une société à finalité spécifique établie dans le but de l'émission <i>d'exchange traded commodities</i> (ETCs) en tant qu'actif adossé aux titres et n'a aucun autre actif que ceux détenus en contrepartie des Metal Securities.</p> <p>Les montants qu'un Porteur de Titre pourrait recevoir à la suite d'une réclamation contre l'Émetteur sont donc limités aux produits de la réalisation du bien grevé applicable à la catégorie de ce Porteur de Titre de Metal Securities et puisque l'Émetteur est un véhicule à usage spécial formé dans le seul but d'émettre des Metal Securities, et puisque les Metal Securities ne sont pas garantis par une autre personne, l'Émetteur n'aurait pas d'autres actifs sur lesquels le Porteur de Titre pourrait prétendre. Si les nouveaux produits de métaux précieux physiques détenus dans les comptes du Trustee chez les Dépositaires à l'égard d'une catégorie ne sont pas suffisants pour répondre à toutes les obligations et effectuer tous les paiements alors dus au titre des Titres Individuels de cette catégorie (et le Panier de Titre à la mesure où ils comprennent théoriquement des Individual Securities de cette catégorie), et tous les montants de rang précédents à ces obligations et des paiements en vertu du Trust Instrument et du</p> |

| | | <p>Security Deed, les obligations de l'Émetteur seront limitées aux produits nets de la réalisation de ce métal précieux.</p> <p>Dans ces circonstances, les actifs de l'Émetteur (le cas échéant) ne seront pas disponibles pour répondre à toute insuffisance, les droits des Porteurs de Titre pertinents pour recevoir tous montants à l'égard de ces obligations seront éteints et aucun des Porteurs de Titre ou le Trustee peut prendre toute autre mesure pour recouvrer ces montants. Dans le cas où les produits nets de la réalisation de ce métal précieux sont insuffisants pour couvrir le montant payable au Porteur de Titre, le Porteur de Titre subirait une perte.</p> |
| D.3 | Risques principaux des titres | <p>L'accès aux coffres du Dépositaire Initial, du Dépositaire d'Or Suisse ou d'un de leurs sous-dépositaire ou délégués peut être restreint par des catastrophes naturelles, telles que des inondations, ou des interventions humaines, comme des attaques terroristes. Le Dépositaire Initial et le Dépositaire d'Or Suisse n'ont aucune obligation d'assurer les Lingots détenus dans les comptes du Trustee contre la perte, le vol ou des dommages, et l'Émetteur ne prévoit pas de s'assurer contre ces risques, et le Trustee n'as pas la responsabilité de le faire. En conséquence, il existe un risque que les Lingots auxquels sont adossés les Metal Securities puissent être perdus, volés ou endommagés, et que l'Émetteur ne soit pas capable de répondre à ses obligations au titre des Metal Securities conduisant à la perte pour les Porteurs de Titre. Les investisseurs sont dépendants de l'existence ou non de Participants Agréés tenant un marché dans les Metal Securities, afin de minimiser les écarts de suivi et de fournir la liquidité appropriée aux investisseurs. Si aucun marché n'est tenu dans les Metal Security, il peut être difficile pour un Porteur de Titre de vendre leurs Metal Securities ce qui pourrait entraîner une perte.</p> <p>Un rachat anticipé de Metal Securities peut être imposé aux investisseurs, ce qui peut résulter en le rachat d'un investissement dans les Metal Securities plus tôt que souhaité, (i) sous réserve d'une notification préalable de 30 jours faite par l'Émetteur à tous les Porteurs de Titre d'une catégorie ou de catégories particulières de Metal Security ; ou (ii) si les Metal Securities devant être obligatoirement rachetées sont détenues par un Porteur de Titres qui ne peut pas fournir de preuve de son statut à l'Émetteur. Un tel rachat anticipé pourrait conduire un investisseur à encourir une charge fiscale à laquelle il n'aurait pas été autrement soumis et/ou si le rachat s'effectue au moment où la valeur de rachat des Metal Securities rachetés est inférieure à la valeur à laquelle ils ont été achetés par le Porteur de Titre, le Porteur de Titre pourrait subir une perte.</p> |
| D.6 | Risques principaux des Metal Securities | <p>Voir Partie D.3 ci-dessus</p> <p>La performance passée n'est pas une indication de la performance attendue et la performance d'investissement et la performance d'investissement des Metal Securities pourrait être volatile. En conséquence, les investisseurs dans les Metal Securities peuvent perdre l'intégralité ou une partie de la valeur de cet investissement.</p> |

| E.2b | Raison de l'Offre et utilisation des produits | Non applicable ; les raisons de l'offre et l'utilisation des produits ne diffèrent pas de la réalisation de profits et/ou de couverture. |
| E.3 | Conditions Générales | <p>Les Metal Securities sont mis à disposition par l'Émetteur uniquement pour la souscription par les Participants Agréés qui ont soumis une demande valide et qui ont fourni une quantité de Lingot égale à la Valeur Metal agrégée des Metal Securities demandés vers un compte de l'Émetteur chez le Dépositaire Initial ou le Dépositaire d'Or Suisse (le cas échéant) et les Metal Securities seront uniquement émis une fois que la quantité de Lingot du type correspondant égalant la Valeur Metal des Metal Securities demandés aura été transférée dans les comptes du Trustee chez le Dépositaire Initial ou le Dépositaire d'Or Suisse (le cas échéant). Un Intermédiaire Agréé doit également payer les frais de demande de création de 500 US. Toutes les demandes de Metal Securities déposées vers 16h30, heure de Londres un jour ouvrable, permettront généralement au Participant Agréé d'être enregistré en tant que porteur de Metal Securities dans les deux jours ouvrables.</p> |
| E.4 | Intérêts importants ou conflictuels | <p>Mme Jones et M. Ross et Mme Jones sont également administrateurs de R&H Fund Services (Jersey) Limited, qui est administrateur de l'Émetteur et le secrétaire général de l'Émetteur et de ManJer. Les administrateurs ne sont pas d'avis qu'il existe des conflits d'intérêts réels ou potentiels entre les obligations que les administrateurs et/ou les membres des organes administratifs, de gestion et de supervision de l'Émetteur ont envers ce dernier, et les intérêts privés et/ou les autres obligations qu'ils ont.</p> <p>Les Administrateurs de l'Émetteur détiennent également des mandats d'administrateurs dans d'autres émetteurs de matières premières négociées en bourse également détenues par HoldCo et par d'autres sociétés du groupe WisdomTree y compris Boost Management Limited (une société qui fournit des services à Boost Issuer PLC (émetteur de produits négociés en bourse)), WisdomTree Management Limited et WisdomTree Issuer Plc, un émetteur de fonds négociés en bourse par l'intermédiaire de compartiments de passifs distincts</p> |

| B.21 | Beschreibung der Haupttätigkeit | <p>Die Haupttätigkeit des Emittenten besteht in der Emission von Klassen von Metal Securities, die durch physische Edelmetalle besichert sind. Der Emittent hat ein Emissionsprogramm aufgelegt nach dem sechs Klassen von <i>Metal Securities</i> emittiert werden können. Dies geschieht in Form von fünf Klassen von <i>Metal Securities</i>, die jeweils eine Beteiligung an der Wertentwicklung einer Art von physischem Edelmetall gewähren ("Individual Securities"), wobei es sich entweder um Gold handelt, das in London verwahrt wird, oder um Silber, Platin, Palladium oder Gold ("Edelmetallbarren"), welches in Zürich verwahrt wird. Weiterhin gibt es eine Klasse, die die Beteiligung an der Wertentwicklung eines Korbs mit Anteilen von Gold, welches in London gelagert wird und Silber, Platin und Palladium ("Basket Securities") ermöglicht.</p> <p>Metal Securities sind so gestaltet, dass sie Anlegern die Möglichkeit zur Anlage in physische Edelmetalle bieten, ohne dass dabei eine Lieferung dieser Edelmetalle notwendig ist und die es Anlegern ermöglichen, diese Beteiligung durch den Handel eines Wertpapiers an einer Börse zu kaufen und zu verkaufen.</p> <p>Die Arten von Edelmetallbarren, die jede Klasse von <i>Metal Security</i> besichern, sind die folgenden:</p> <table border="0"> <thead> <tr> <th>Klasse von Metal Security</th> <th>Maßgebliches physisches Edelmetall</th> </tr> </thead> <tbody> <tr> <td>ETFS Physical Gold</td> <td>In Tresoren in London verwahrtes Gold</td> </tr> <tr> <td>ETFS Physical Silver</td> <td>Silber</td> </tr> <tr> <td>ETFS Physical Platinum</td> <td>Platin</td> </tr> <tr> <td>ETFS Physical Palladium</td> <td>Palladium</td> </tr> <tr> <td>ETFS Physical Swiss Gold</td> <td>In Tresoren in Zürich verwahrtes Gold</td> </tr> <tr> <td>ETFS Physical PM Basket</td> <td>In Tresoren in London verwahrtes Gold, Silber, Platin und Palladium</td> </tr> </tbody> </table> <p>Metal Securities können an Finanzinstitute, die (i) eine mit dem Titel "Autorisierte Teilnehmer-Vereinbarung" (Authorised Participant Agreement) bezeichnete Vereinbarung mit dem Emittenten abgeschlossen haben; (ii) gegenüber dem Emittenten ihren Status nach dem Financial Services and Markets Act 2000 ("FSMA") bescheinigt haben; und (iii) gegenüber dem Emittenten bescheinigt haben, dass sie keine Organismen für die kollektive Kapitalanlage sind, die nach der Richtlinie 85/611/EWG des Rates als Organismen für die gemeinsame Anlage in Wertpapieren reguliert sind ("Autorisierte Teilnehmer") auf täglicher Basis ausgegeben werden bzw. von solchen Finanzinstituten kann die Rücknahme verlangt werden (darüber hinaus können Inhaber von <i>Metal Securities</i> diese auch zurückgeben sofern keine autorisierten Teilnehmer vorhanden sind oder der Emittent eine entsprechende Mitteilung vornimmt oder es sich um Inhaber von <i>Securities</i> handelt, die bezüglich ETFS Physical Swiss Gold Securities – vorbehaltlich der Erfüllung bestimmter Bedingungen – die Rücknahme dieser Wertpapiere gegen physische Lieferung der entsprechenden Goldbarren an die von dem Inhaber der <i>Securities</i></p> | Klasse von Metal Security | Maßgebliches physisches Edelmetall | ETFS Physical Gold | In Tresoren in London verwahrtes Gold | ETFS Physical Silver | Silber | ETFS Physical Platinum | Platin | ETFS Physical Palladium | Palladium | ETFS Physical Swiss Gold | In Tresoren in Zürich verwahrtes Gold | ETFS Physical PM Basket | In Tresoren in London verwahrtes Gold, Silber, Platin und Palladium |

Jede *Metal Security* ist durch Barren der jeweiligen Barrenart oder (im Fall der Basket Securities) durch Metalle, die im Namen des Treuhänders (wie im Folgenden beschrieben) als Sicherungsnehmer für die Wertpapierinhaber in gesicherten Tresorräumen der Verwahrer verwahrt werden (wie im Folgenden beschrieben), besichert.

Der Emittent und der Treuhänder (wie unten definiert) haben mit der HSBC Bank USA, N.A. (der "**Ursprüngliche Verwahrer**") Vereinbarungen getroffen (die "**Ursprünglichen Verwahrerverträge**") hinsichtlich der Lagerung von Edelmetallen, welche die *Metal Securities* (mit Ausnahme der ETFS Swiss Gold Securities) besichern in den Londoner Tresorräumen des Ursprünglichen Verwahrers (oder eines Zwischenverwahrers oder Beauftragten). Der Emittent und der Treuhänder haben auch mit JPMorgan Chase Bank N.A. (der "**Schweizer Goldverwahrer**" und gemeinsam mit dem Ursprünglichen Verwahrer, die "**Verwahrer**") Vereinbarungen (die „**Schweizer Goldverwahrverträge**“) über die Lagerung von Gold, welches den ETFS Swiss Gold Securities zuzuordnen ist, in den Züricher Tresorräumen des Schweizer Goldverwahrers (oder eines Zwischenverwahrers oder Beauftragten) getroffen.

Metal Securities werden mittels einer als "Trust Instrument" bezeichneten Vereinbarung zwischen dem Emittenten und The Law Debenture Trust Corporation p.l.c. als Treuhänder (der "**Treuhänder**") für alle Rechte und Ansprüche nach dem Trust Instrument für jede Person, die im Register des Emittenten als Inhaber der *Metal Securities* (die "**Wertpapierinhaber**") registriert ist, geschaffen.

Der Emittent und der Treuhänder haben in Bezug auf jede Art von Edelmetallbarren separate Verträge, jeweils mit dem Titel "**Sicherungsvereinbarung**", abgeschlossen und diese Edelmetallbarren werden im Namen des Treuhänders bei den Verwahrern gelagert. Das *Trust Instrument* und die Sicherheitsvereinbarung gewähren dem Treuhänder (treuhänderisch für die Inhaber der jeweiligen Klasse von *Metal Securities*) Rechte gegen den Emittenten in Bezug auf die *Metal Securities*.

ETFS Management Company (Jersey) Limited ("**ManJer**"), eine Gesellschaft, die im Alleineigentum von WisdomTree Investments, Inc. steht, erbringt sämtliche Verwaltungs- und Administrationsdienstleistungen für den Emittenten oder wird für deren Erbringung Sorge tragen und sämtliche Verwaltungs- und Administrationskosten des Emittenten tragen. Im Gegenzug erhält sie ein vom Emittenten in Edelmetallbarren zahlbares Honorar.

Diese Anforderungen werden von Handelsorganisationen für das jeweilige Edelmetall festgelegt. Die Menge der jeweiligen Edelmetallbarren, die durch jede Metal Security zu einem bestimmten Zeitpunkt abgebildet wird, bezeichnet man als "Anspruch am Metall". | <p>B.28 Struktur der Transaktion</p> | <p>Der Emittent hat ein Programm aufgelegt wonach <i>Metal Securities</i> von Zeit zu Zeit begeben werden können. <i>Metal Securities</i> können täglich von autorisierten Teilnehmern, die mit dem Emittenten einen Vertrag für autorisierte Teilnehmer abgeschlossen haben, ausgegeben werden bzw. von diesen kann die Rücknahme verlangt werden. Autorisierte Teilnehmer können die <i>Metal Securities</i> dann an andere Anleger über Börsen oder private Transaktionen verkaufen bzw. diese von ihnen erwerben.</p> <p>Die <i>Metal Securities</i> werden durch das <i>Trust Instrument</i> geschaffen. Nach den Bedingungen des <i>Trust Instruments</i> tritt der Treuhänder als <i>Trustee</i> für die Wertpapierinhaber jeder Klasse von <i>Metal Securities</i> auf. Dies geschieht sowohl um a) zugunsten der Wertpapierinhaber Entscheidungen zu treffen und Rechte aus den <i>Metal Securities</i> auszuüben und b) zur die vom Emittenten gemäß der Sicherungsvereinbarung gewährten Sicherheiten treuhänderisch für die Wertpapierinhaber zu halten, etwaige Rechte auszuüben und zu vollstrecken und um die Erträge (nach Zahlung aller dem Treuhänder geschuldetem Beträge) an die Wertpapierinhaber (unter anderen) zu verteilen.</p> <p>Eine schematische Darstellung der grundsätzlichen Aspekte der Struktur, die derzeit besteht, wird nachfolgend abgebildet:</p> |

Weitere Angaben zu den Börsen an denen eine bestimmte Art von Wertpapier gehandelt werden kann, sind in dem Dokument mit dem Titel "Endgültige Bedingungen" enthalten, welches vom Emittenten zum Zeitpunkt der Ausgabe der Wertpapiere erstellt wird. An diesen Wertpapierbörsen stellen Marketmaker Liquidität für diese Geschäfte bereit, jedoch sind nur autorisierte Teilnehmer berechtigt, unmittelbar beim Emittenten die Ausgabe von Metal Securities zu beantragen. Der Emittent hat Autorisierte-Teilnehmer-Vereinbarungen abgeschlossen und mit den autorisierten Teilnehmern vereinbart, dass Metal Securities an diese autorisierten Teilnehmer fortlaufend ausgegeben werden. Ein autorisierter Teilnehmer kann <i>Metal Securities</i> an einer Börse oder in einer außerbörslichen Transaktion verkaufen oder er kann die Wertpapiere auch selbst halten.</p> <p>Anlässlich der Ausgabe von Metal Securities hat ein autorisierter Teilnehmer Edelmetallbarren der jeweiligen Art zu liefern, deren Gesamtgewicht dem Anspruch am Metall der zu erstellenden <i>Metal Securities</i> entspricht. Die Lieferung hat zugunsten der Depots des Treuhänders zu erfolgen. Im Gegenzug wird der Emittent die Metal Securities begeben und sie an den autorisierten Teilnehmer mittels der papierlosen Abwicklung von Geschäften und Haltung von nicht zertifizierten Wertpapieren von Euroclear UK & Ireland ("CREST") liefern.</p> <p>Bei der Rückgabe von Metal Securities durch einen autorisierten Teilnehmer, muss der autorisierte Teilnehmer diese Metal Securities mittels CREST zurückgeben und wird im Gegenzug durch einen Transfer von den Depots des Treuhänders bei dem jeweiligen Verwahrer Edelmetallbarren erhalten, die das Äquivalent des gesamten Anspruchs am Metall der zurückgegebenen Metal Securities darstellen.</p> |

zurückgenommenen ETFS Physical Swiss Gold Securities resultierenden Anspruch am Metall (nach Vornahme entsprechender Abzüge) entspricht, unmittelbar durch die Emittentin erfolgt.

Für jede Klasse von *Individual Security* gibt es einen separaten Anspruch am Metall.

Der Anspruch am Metall für jede Klasse von *Metal Securities* an dem Tag, an dem der Handel mit ihr an der London Stock Exchange begann, ist in der untenstehenden Tabelle aufgeführt. Die untenstehende Tabelle zeigt auch den Anspruch am Metall für jede Klasse von *Individual Securities* zum 27. März 2019.

Die Handelseinheit für Platin, Palladium und Silber ist Troy-Unzen (da das Wort "Fein" nicht verwendet wird, ist das Gewicht unabhängig von Reinheit). Gold ist eine Feinunze ("Fein" bedeutet reines Metall, d.h. der tatsächlichen Goldgehalt, bezogen auf 100 Prozent Reinheit). Die Umrechnungsfaktoren zwischen Feinunzen und metrischen Einheiten sind: Eine Feinunze entspricht 31,1034768 Gramm und 1 kg entspricht 32,1507465 Feinunzen.

Eine Feinunze ist etwas schwerer als die üblichen Unzen die in Großbritannien und den Vereinigten Staaten verwendet werden, ungefähr 1,097-mal dessen Gewicht.

| Klasse von <i>Metal Securities</i> | Anspruch am Metall am ersten Handelstag | Anspruch am Metall am 27. März 2019 |
|-------------------------------------------|------------------------------------------------|--------------------------------------------|
| ETFS Physical Gold | 0,10 Troy-Unzen | 0.0954477 |

| ETFS Physical Palladium | 0,10 Troy-Unzen | 0.0943114 |
| ETFS Physical Swiss Gold | 0,10 Troy-Unzen | 0.0967055 |

Jede der *Basket Security* bietet die Möglichkeit sich an der Wertentwicklung einer festgelegten Anzahl von *Individual Securities* zu beteiligen. Die gewichteten Ansprüche am Metall der in der *Basket Security* zum 27. März 2019 enthaltenen *Individual Securities* betragen:

| | |

| | <p>Anspruchs am Metall der entsprechenden Klasse zum jeweiligen Datum.</p> <p>Der Barwert einer <i>Metal Security</i> kann durch Multiplikation des jeweiligen Anspruchs am Metall mit dem Barwert einer troy ounce (im Fall von Silber, Platin oder Palladium) oder einer <i>fine troy ounce</i> (im Fall von Gold) des jeweils zugrundeliegenden Edelmetalls errechnet werden. Der Barwert einer <i>Metal Security</i> steigt und fällt mit den Bewegungen des Barwerts des jeweiligen Edelmetalls. Wegen der täglichen Verminderung des Anspruchs am Metall kommt es auch dann zu einer Verringerung des Barwerts der <i>Metal Securities</i>, wenn an einem Tag keine Veränderung im Barwert der zugrundeliegenden Edelmetalle vorliegt, da sich die Menge des Edelmetalls, welches durch sie verbrieft wird, um die für diesen Tag zahlbaren Gebühren verringert. Jeder Anleger hat Zugriff auf den Barwert des Anspruchs am Metall für seine <i>Metal Securities</i> durch einen Verkauf dieser <i>Metal Securities</i> an einer der Börsen an denen <i>Metal Securities</i> zum Handel zugelassen sind (dabei kommt es zum Abzug von Kosten im Zusammenhang mit einem solchen Verkauf) oder durch eine private Verkaufstransaktion.</p> |

Übertragungen von Wertpapieren an der London Stock Exchange werden generell durch CREST abgewickelt.</p> <p>Abwicklung von Ausgaben und Rücknahmen</p> <p>Der Standardabwicklungszyklus für die Abwicklung von Transaktionen an der London Stock Exchange beträgt 2 Geschäftstage (T+2). Bei der Ausgabe oder Rücknahme von <i>Metal Securities</i> wird die Abwicklung (vorausgesetzt, dass bestimmte Bedingungen erfüllt sind) 2. Geschäftstag nach Erhalt des jeweiligen Antrags auf Ausgabe oder Rücknahme stattfinden. Bei der Rücknahme von ETFs Physical Swiss Gold Securities durch physische Lieferung von Goldbarren an den Inhaber der Securities, fällt das Abwicklungsdatum (vorbehaltlich der Erfüllung bestimmter Bedingungen) auf den Tag an dem der Verwahrer die Barren in einer Menge die dem aus den zurückgenommenen ETFs Physical Swiss Gold Securities resultierenden Anspruch am Metall (nach Vornahme entsprechender Abzüge) entspricht, auf das nicht zugewiesene Depot des Metal Agent überträgt. Eine <i>Metal Security</i> wird nur nach Erhalt eines gültigen Antrags und nachdem der jeweilige Edelmetallbarren in die Depots bei dem Ursprünglichen Verwahrer oder dem Schweizer Goldverwahrer übertragen wurde, emittiert. Eine <i>Metal Security</i> wird nur nach Erhalt eines gültigen Rücknahmeantrags, nach Erhalt der Zahlung der für eine solche Rücknahme anfallenden Gebühr an den Emittenten und der Übergabe der maßgeblichen <i>Metal Securities</i> an Registerführer zurückgenommen, woraufhin die Barren aus den Depots des <i>Treuhänders</i> bei dem Ursprünglichen Verwahrer oder dem Schweizer Goldverwahrer heraus, und im Falle einer Rücknahme von ETFs Physical Swiss Gold Securities gegen physische Lieferung an eine vom Inhaber genannte Bank auf den Metal Agent für die Zwecke einer solchen Lieferung übertragen wird.</p> |

| D.2 Zentrale Risiken, die dem Emittenten und dem Schuldner eigen sind | <p>Der Emittent ist eine zum Zweck der Emission von exchange traded commodities (ETCs) als asset back securities gegründete Zweckgesellschaft und hat keine anderen Vermögenswerte als die, welche sie zur Absicherung der <i>Metal Securities</i> hält.</p> <p>Die Beträge, die ein Wertpapierinhaber aus einer Klage gegen den Emittenten erzielen kann, sind folglich auf die Erträge aus der Verwertung des gesicherten Eigentums begrenzt, welches der Klasse von <i>Metal Securities</i> des Wertpapierinhaber zugeordnet wird. Da der Emittent eine Zweckgesellschaft ist, die nur zum Zweck der Begebung von <i>Metal Securities</i> errichtet wurde und diese von keiner anderen Person garantiert werden, hat der Emittent keine weiteren Vermögenswerte auf die ein Wertpapierinhaber zugreifen könnte. Für den Fall, dass die neuen Erträge aus dem physischen Edelmetall das in den Depots des Treuhänders bei den Verwahrern in Bezug auf eine Klasse verwahrt wird, nicht ausreicht um allen Verpflichtungen nachzukommen und alle fälligen Zahlungen in Bezug auf die <i>Individual Securities</i> dieser Klasse (und die <i>Basket Securities</i> soweit sie nominal aus den <i>Individual Securities</i> dieser Klasse bestehen)</p> |

| | <p>und alle diesen Verpflichtungen vorrangigen Beträge sowie alle Zahlungen gemäß des Trust Instrument und der Sicherungsvereinbarung zu leisten, beschränken sich die Verpflichtungen des Emittenten auf die Nettoerträge aus der Verwertung der Edelmetalle.</p> <p>Unter diesem Umständen stehen die Vermögensgegenstände des Emittenten (sofern vorhanden) nicht zum Ausgleich eines etwaigen Fehlbetrages zur Verfügung, die Rechte des jeweiligen Wertpapierinhabers weitere Beträge im Bezug auf solche Verpflichtungen zu erhalten erlöschen und keine der Wertpapierinhaber oder der Treuhänder kann weitere Maßnahmen ergreifen um solche Beträge wieder zu erlangen. Für den Fall dass die Nettoerträge aus der Verwertung der Edelmetalle nicht ausreichen, um die an den Wertpapierinhaber zu zahlender Beträge zu begleichen, erleidet der Wertpapierinhaber einen Verlust.</p> |
| <p>D.3 Zentrale Risiken der <i>Metal Securities</i></p> | <p>Der Zugang zu den Tresorräumen des Ursprünglichen Verwahrers, des Schweizer Goldverwahrers oder eines ihrer Unterverwahrers oder Beauftragten kann durch Naturereignisse, wie etwa Überschwemmungen, oder menschlicher Handlungen, wie etwa terroristische Anschläge, eingeschränkt werden. Der Ursprüngliche Verwahrer und der Schweizer Goldverwahrer sind nicht verpflichtet, die in den Depots des <i>Treuhänders</i> gelagerten Edelmetallbarren gegen Verlust, Diebstahl oder Beschädigungen zu versichern, der Emittent beabsichtigt ebenfalls nicht, diese Risiken zu versichern und der Treuhänder ist ebenfalls nicht verpflichtet dies zu tun. Dementsprechend besteht die Gefahr, dass die den <i>Metal Securities</i> zu Grunde liegenden Edelmetalle verloren gehen, gestohlen oder beschädigt werden und der Emittent seine Verpflichtungen hinsichtlich der <i>Metal Securities</i> nicht erfüllen kann, was zu einem Verlust für die Wertpapierinhaber führt.</p> <p>Anleger sind auf das Vorhandensein autorisierter Teilnehmer angewiesen, die einen Markt in <i>Metal Securities</i> schaffen, um Kursabweichungen (Tracking Errors) zu minimieren und Anleger mit Liquidität zu versorgen. Sollten solche Märkte nicht für die <i>Metal Securities</i> geschaffen werden, kann es für Wertpapierinhaber schwierig werden, ihre <i>Metal Securities</i> zu verkaufen, was zu einem Verlust für sie führen kann.</p> <p>Anleger können dazu gezwungen werden, <i>Metal Securities</i> frühzeitig zurückzugeben, was dazu führen kann, dass eine Anlage in <i>Metal Securities</i> früher als gewünscht zurückgegeben werden muss. Dies kann (i) durch schriftliche Mitteilung mit 30-tägiger Frist seitens des Emittenten an alle Wertpapierinhaber einer bestimmten Klasse oder mehrerer Klassen von <i>Metal Securities</i> erfolgen oder (ii) wenn die zwangsweise zurückgenommenen <i>Metal Securities</i> von einem Wertpapierinhaber gehalten werden, der gegenüber dem Emittenten seinen Status nicht nachweisen kann. Eine solche frühzeitige Rückgabekann zu einer Steuerbelastung für den Anleger führen, die er ansonsten nicht gehabt hätte. Wenn die Zurücknahme zu einem Zeitpunkt stattfindet, zu dem der Barwert der zurückgenommenen <i>Metal Securities</i> geringer ist, als er zum Zeitpunkt des Erwerbs durch den Wertpapierinhaber war, dann kann der Wertpapierinhaber einen Verlust erleiden.</p> |
| <p>D.6 Zentrale Risiken der <i>Metal Securities</i></p> | <p>Siehe die Angaben unter D.3</p> <p>Die Wertentwicklung in der Vergangenheit stellt keinen Hinweis auf die erwartete Wertentwicklung dar und die Wertentwicklung der <i>Metal Securities</i> kann volatil sein. | B.25 | Attività sottostanti | <p>Gli attivi sottostanti i <i>Metal Securities</i>, di ciascuna classe da cui sono garantiti, sono i lingotti fisici dei Bullion. Tali lingotti sono custoditi a nome del Trustee per conto dei <i>Security Holders</i> in caveau sicuri presso il Depositario Iniziale o presso il Depositario dell'Oro Svizzero (o un loro sub-depositario o delegato).</p> <p>I libri e i registri del Depositario Iniziale e del Depositario dell'Oro Svizzero attestano che tali lingotti di Bullion sono separati dall'altro metallo nei loro caveau e che alcuni lingotti individualmente numerati di metallo prezioso sono custoditi per il Trustee in forma "allocata" (ovvero che quei particolari lingotti sono custoditi per conto del Trustee come creditore ipotecario legale e non sono sostituibili con gli altri lingotti detenuti dal Depositario Iniziale o dal Depositario dell'Oro Svizzero).</p> <p>Tutti i lingotti Bullion conservati dal Trustee nei caveau del Depositario Iniziale o del Depositario dell'Oro Svizzero a garanzia dei <i>Metal Securities</i> devono soddisfare alcune caratteristiche specifiche, i cosiddetti standard di "Good Delivery", in termini di peso e purezza. Queste caratteristiche sono stabilite dalle associazioni per il commercio dei vari tipi di metallo prezioso. Nel caso di oro fisico e di argento fisico, la relativa associazione è la London Bullion Market Association (la "LBMA"), mentre nel caso di platino fisico e di palladio fisico, la relativa associazione è la London Platinum and Palladium Market (la "LPPM")</p> <p>Gli attivi cartolarizzati che garantiscono l'emissione hanno caratteristiche che dimostrano la capacità di produrre fondi per qualsiasi pagamento dovuto ed esigibile associato ai titoli.</p> <p>Gli attivi cartolarizzati sono i metalli preziosi fisici. L'importo dei relativi Bullion rappresentato da ciascun Metal Security in qualsiasi momento è conosciuto come "Metal Entitlement". Questo è la quantità del/i relativo/i metallo/i prezioso/i in questione in onces che si riduce ogni giorno per il pagamento delle commissioni da pagare dall'Emittente.</p> <p>Nota sintetica specifica per l'emissione:</p> |

| B.28 | Struttura della transazione | <p>L'Emittente ha predisposto un programma in base al quale i <i>Metal Securities</i> possono di volta in volta essere emessi. I <i>Metal Securities</i> possono essere emessi a favore di o richiesti per essere riscattati su base giornaliera da Partecipanti Autorizzati che hanno stipulato un Accordo dei Partecipanti Autorizzati con l'Emittente.</p> <p>I Partecipanti Autorizzati possono pertanto vendere o comprare <i>Metal Securities</i> a o da altri investitori in borsa o tramite transazioni private.</p> |

I *Metal Securities* sono costituiti in *Trust Instrument*. Ai sensi delle condizioni del Trust Instrument, il Trustee agisce come Trustee per i *Security Holders* di ciascuna classe di *Metal Securities*, sia (a) per adottare misure ed esercitare diritti in virtù dei *Metal Securities* e (b) detenere sul trust a beneficio dei *Security Holders*, la garanzia concessa dall'Emittente ai sensi dei *Security Deeds*, al fine di esercitare tutti i diritti per attuare gli stessi e per distribuire i proventi (dopo i pagamenti di tutti gli importi dovuti al Trustee) ai *Security Holders* (tra gli altri).

Un diagramma raffigurante i principali aspetti della struttura attualmente presenti è riportato di seguito:

B.29 Descrizione del flusso di fondi

I *Metal Securities* possono essere comprati o venduti sulla Borsa di Londra ed alcuni *Metal Securities* possono anche essere comprati o venduti su Euronext Amsterdam, NYSE Euronext Paris, Borsa Italiana e/o sulla Borsa di Francoforte (quali altre borse in cui gli stessi sono ammessi alle negoziazioni) o in transazioni private fuori-borsa. I dettagli delle borse su cui può essere scambiato un particolare tipo di titolo sono riportati in un documento denominato "Condizioni Definitive", preparato dall'Emittente, ogni volta che i titoli sono emessi. I Market makers forniscono liquidità su tali borse e per le operazioni, ma solo i Partecipanti Autorizzati possono rivolgersi direttamente all'Emittente per l'emissione di *Metal Securities*.

L'Emittente ha stipulato Accordi con i Partecipanti Autorizzati ed ha accettato con i Partecipanti Autorizzati di emettere *Metal Securities* in favore di tali Partecipanti Autorizzati su base continuativa. Un Partecipante Autorizzato può vendere i *Metal Securities* in una borsa o mediante una transazione fuori borsa o può detenere gli stessi titoli.

Al momento della creazione dei *Metal Securities*, un Partecipante Autorizzato deve consegnare Bullion del relativo tipo per un peso aggregato pari al *Metal Entitlement* dei *Metal Securities* che devono essere creati nel conto del Trustee

In questo caso l'Emittente venderà il Bullion sottostante al relativo Depositario (nei termini degli accordi tra l'Emittente, il Trustee ed il Depositario, ciascuno denominato "Metal Sale Counterparty Agreement") ed userà i proventi in contanti di detta vendita per pagare i proventi del riscatto per rimborsare i <i>Security Holders</i>.</p> <p>Inoltre, i <i>Security Holder</i> di qualsiasi ETFs Physical Swiss Gold Securities che non siano Partecipanti Autorizzati possono richiedere il rimborso per mezzo della consegna fisica dei loro ETFs Physical Swiss Gold Securities direttamente presso l'Emittente. In questo caso, e subordinatamente al rispetto di certe condizioni, il Trustee darà istruzioni al Depositario di trasferire il Bullion rilevante in un conto senza custodia fisica (<i>unallocated</i>) di Heraeus Metals Germany GmbH & Co.KG (il "Metal Agent"), e, successivamente, il Metal Agent trasferirà (previa effettuazione di tutte le deduzioni di commissioni) il Bullion nella banca specificata dal Security Holder.</p> <p>Nota sintetica specifica per l'emissione</p> <p>Al momento della creazione di Metal Securities, un Partecipante Autorizzato deve consegnare argento per una quantità pari al Metal Entitlement dei Metal Securities da creare nei conti del Trustee presso il Depositario Iniziale. Al momento del rimborso, si verifica il flusso di attivi opposto.</p> |

Il *Metal Entitlement* per ciascuna classe di *Metal Security* nel giorno in cui le trattazioni sono rispettivamente iniziate nella Borsa di Londra è indicato nella tabella che segue. La tabella indica inoltre il *Metal Entitlement* di ciascuna classe di *Metal Securities* al 27 marzo 2019.

L'unità di scambio per il platino, il palladio e l'argento è in once troy (poiché il termine "fino" non è utilizzato, il peso è indipendente dalla purezza). Per l'oro è una oncia di fino troy ("fino" significa metallo puro, cioè il contenuto reale dell'oro corrispondente ad una purezza del 100 per cento). I fattori di conversione tra once troy e i parametri di misurazione sono: una oncia troy equivale a 31,1034768 grammi e un kilogrammo equivale a 32,1507465 once troy.

Una oncia troy è leggermente più pesante delle più comuni once utilizzate nel Regno Unito e negli Stati Uniti, essendo pari approssimativamente a 1,097 volte il peso di queste ultime.

| Classe di Metal Security | Metal Entitlement alla data in cui la negoziazione è iniziata | Metal Entitlement al 27 marzo 2019 |
|--------------------------|---------------------------------------------------------------|------------------------------------|
| ETFS Physical Gold | 0,10 fine troy ounces | 0,0954477 |

Rivalsa Limitata

Un *Metal Security* è un'obbligazione di debito dell'Emittente, garantita, non datata e con regresso limitato, che ha lo stesso grado di priorità di tutti gli altri titoli della stessa classe. I *Security Holders* hanno il regresso solo sugli attivi della classe di titoli di cui sono *Security Holders*. Se i proventi netti sono insufficienti affinché l'Emittente possa effettuare tutti i pagamenti dovuti, il Trustee o qualsiasi altra persona che agisce per conto del Trustee, non sarà legittimato a prendere ulteriori provvedimenti contro l'Emittente e nessun debito sarà dovuto dall'Emittente con riferimento a tale ulteriore somma.

Priorità dei Pagamenti

Tutte le somme ricevute dal Trustee al momento della realizzazione delle attività relative a una particolare classe di *Metal Securities* saranno detenute dal Trustee e applicate nel seguente ordine:

Come sopra specificato, il <i>Metal Entitlement</i> di ciascun <i>Metal Security</i> rappresenta una quantità di Bullion che un <i>Metal Security</i> assicura al Security Holder al momento del rimborso. Tale valore in contanti del <i>Metal Security</i> subirà rialzi e ribassi con oscillazioni del valore in contanti del relativo Bullion. A causa della riduzione giornaliera del <i>Metal Entitlement</i>, in una data in cui non vi siano oscillazioni del valore in contanti del relativo Bullion sottostante, si verificherebbe comunque una riduzione del valore in contanti dei <i>Metal Securities</i> poiché la quantità del Bullion che essi rappresentano sarebbe ridotta dalle commissioni applicabili in quella data. Ciascun investitore può ottenere il valore in contanti del <i>Metal Entitlement</i> dei loro <i>Metal Securities</i> mediante la vendita dei <i>Metal Securities</i> in una delle borse in cui i <i>Metal Securities</i> sono ammessi alla negoziazione (fatta salva la detrazione dei costi associati a tale vendita) o una transazione di vendita privata.</p> |
| C.16 | Data di scadenza/estinzione | Non applicabile; i <i>Metal Securities</i> sono titoli senza data e non hanno alcuna specifica data di scadenza o di estinzione. |
| C.17 | Regolamento | <p>CREST</p> <p>L'Emittente è un emittente partecipante a CREST, un sistema senza supporti cartacei per regolare trasferimenti e detenere titoli e i <i>Metal Securities</i> sono emessi o riscattati attraverso il sistema CREST. | C.18 | Descrizione del rendimento | <p>Un <i>Metal Security</i> dà diritto al <i>Security Holder</i> (a condizione che sia un Partecipante autorizzato ovvero in talune altre limitate circostanze) a richiedere il riscatto di un <i>Metal Security</i> ed a ricevere una quantità di metallo prezioso pari al Titolo sul metallo (<i>Metal Entitlement</i>) nella data di regolamento applicabile (previa deduzione dei costi applicabili a tale riscatto).</p> <p>I <i>Metal Securities</i> non maturano interessi. L'ammontare del rendimento di un investitore (in termini di metallo) è pari alla differenza tra: a) il <i>Metal Entitlement</i> in cui i relativi <i>Metal Securities</i> vengono emessi; e b) il <i>Metal Entitlement</i> in cui gli stessi <i>Metal Securities</i> sono riscattati.</p> <p>Gli investitori diversi dai Partecipanti Autorizzati possono acquistare e vendere <i>Metal Securities</i> su una delle borse su cui sono ammessi alla negoziazione o in transazioni private (OTC). Per un acquisto degli investitori nel mercato secondario, l'ammontare del rendimento è pari alla differenza tra: a) il 'prezzo di offerta' al quale i relativi <i>Metal Securities</i> sono acquistati; e b) il 'prezzo d'offerta' al quale gli stessi <i>Metal Securities</i> sono successivamente venduti.</p> <p>Nota sintetica specifica per l'emissione: Le seguenti informazioni si applicano ai <i>Metal Securities</i> emessi in base alle Condizioni Definitive:</p> <p>Bullion su cui i <i>Metal Securities</i> di una data classe prevedono l'esposizione:</p> <p style="text-align: center;">argento</p> |
| C.19 | Prezzo finale/prezzo di esercizio | <p>I Riscatti dei <i>Metal Securities</i> presso l'Emittente avverranno a fronte dell'ammontare del relativo metallo prezioso pari al <i>Metal Entitlement</i> dei <i>Metal Securities</i> da rimborsare.</p> <p>Nota sintetica specifica per l'emissione: Bullion ai quali i <i>Metal Securities</i> forniscono esposizione:</p> <p style="text-align: center;">argento</p> |

| C.20 | Tipo di sottostante e dove possono essere reperite informazioni sul sottostante | <p>Gli attivi sottostanti i <i>Metal Securities</i>, da cui sono garantiti, sono i lingotti dei relativi <i>Bullion</i> custoditi a nome del Trustee per conto dei <i>Security Holders</i> in caveau sicuri presso il Depositario Iniziale o il Depositario dell'Oro Svizzero (o un sub-depositario o delegato del Depositario).</p> <p>Tali <i>Bullion</i> soddisfano tutti le caratteristiche stabilite dalla LBMA (per quanto riguarda l'oro e l'argento fisici) e dalla LPPM (per quanto riguarda il platino e il palladio fisici) in termini di purezza e peso di ciascun lingotto, ottemperando quindi agli standard di "Good Delivery".</p> <p>Nota sintetica specifica per l'emissione:</p> <p>Il tipo di attivi sottostanti per i <i>Metal Securities</i> emessi in base alle Condizioni Definitive è argento.</p> <p>Tali <i>Bullion</i> soddisfano tutti le caratteristiche stabilite da LBMA. | SEZIONE D – Rischi | | |
|--------------------|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D.2 | Principali rischi dell'Emittente | <p>L'Emittente è una società veicolo costituita ai fini dell'emissione di <i>exchange traded commodities</i> (ETC) come titoli cartolarizzati e non ha altri attivi oltre a quelli che detiene per garantire i <i>Metal Securities</i>.</p> <p>Gli importi che un <i>Security Holder</i> potrebbe ricevere a seguito di un credito nei confronti dell'Emittente sono quindi limitati ai proventi della realizzazione del bene garantito applicabile a tale classe o categoria di <i>Metal Securities</i> del <i>Security Holder</i> e poiché l'Emittente è una società veicolo formata solo ai fini dell'emissione dei <i>Metal Securities</i> e poiché i <i>Metal Securities</i> non sono garantiti da nessun altro soggetto, l'Emittente non ha ulteriori attivi rispetto ai quali il <i>Security Holder</i> può avanzare richieste. Se i nuovi proventi dei metalli preziosi fisici detenuti in conti del Trustee presso i Depositari rispetto a una classe non sono sufficienti a soddisfare tutti gli obblighi e ad effettuare tutti i pagamenti poi dovuti in relazione agli <i>Individual Securities</i> di tale classe (e i <i>Basket Securities</i> nella misura in cui gli stessi ipoteticamente comprendono <i>Individual Securities</i> di tale classe) e tutti gli importi acquisiscono priorità rispetto a tali obblighi e pagamenti ai sensi del <i>Trust Instrument</i> e del <i>Security Deed</i>, gli obblighi dell'Emittente saranno limitati ai proventi netti di realizzazione di questo metallo prezioso.</p> |

| | | |
|-----|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | <p>In tali circostanze gli attivi dell'Emittente (se presenti) non saranno disponibili per soddisfare qualsiasi deficit, i diritti dei relativi Security Holders di ricevere eventuali ulteriori importi relativi a tali obblighi saranno estinti e nessuno dei Security Holders o il Trustee può esercitare ogni ulteriore azione per recuperare tali importi. Nel caso in cui i proventi netti di realizzazione del metallo prezioso siano insufficienti a coprire l'importo da versare al Security Holder, quest'ultimo subirebbe una perdita.</p> |
| D.3 | Principali rischi dei Titoli | <p>L'accesso ai caveau del Depositario Iniziale, del Depositario dell'Oro Svizzero o dei sub-depositari o delegati potrebbe essere limitato da eventi naturali, quali alluvioni, o azioni umane, come un attacco terroristico. Il Depositario Iniziale e il Depositario dell'Oro Svizzero non hanno l'obbligo di assicurare i Bullion detenuti nei conti del Trustee contro perdite, furto o danni e l'Emittente non intende assicurarsi contro tali rischi né il Trustee ha un obbligo in tal senso. Pertanto, esiste il rischio che i metalli preziosi sottostanti i Metal Securities possano essere persi, rubati o danneggiati e che l'Emittente possa non essere in grado di soddisfare i suoi obblighi rispetto ai Metal Securities con conseguente perdita per i Security Holders.</p> <p>La posizione degli investitori dipende dal fatto che esistano dei Partecipanti Autorizzati che creano un mercato di Metal Securities per minimizzare gli errori del tracking dell'indice (tracking error) e per fornire liquidità agli investitori. Se detti mercati non sono creati in Metal Securities potrebbe essere difficile per un Security Holder vendere i loro Metal Securities il che potrebbe comportare una perdita.</p> <p>Agli investitori potrebbe essere imposto un riscatto anticipato dei Metal Securities, che farà sì che un investimento in Metal Securities venga riscattato prima di quanto desiderato,(i) con un preavviso scritto di 30 giorni da parte dell'Emittente a tutti i Security Holders di una particolare classe o di particolari classi di Metal Security; o (ii) se i Metal Securities da riscattare obbligatoriamente sono detenuti da un Security Holder che non è in grado di comprovare il suo status all'Emittente. Tale rimborso anticipato potrebbe comportare per un investitore un onere fiscale a cui non sarebbe stato altrimenti sottoposto e/o se il rimborso è effettuato in un momento in cui il valore in contanti dei Metal Securities rimborsati è inferiore a quello al momento dell'acquisto da parte del Security Holder, quest'ultimo potrebbe subire una perdita.</p> |
| D.6 | Principali rischi dei <i>Metal Securities</i> | <p>Si prega di vedere il Punto D.3 di cui sopra.</p> <p>I rendimenti passati non sono indicativi di quelli futuri e il rendimento dell'investimento dei Metal Securities potrebbe essere volatile. Di conseguenza, gli investitori in <i>Metal Securities</i> potrebbero subire la perdita dell'intero valore o di una parte del proprio investimento.</p> |

| E.2b | Motivi dell'offerta e utilizzo dei proventi | Non applicabile; i motivi per l'offerta e l'utilizzo dei proventi non sono diversi dalla realizzazione di profitti e/o la copertura. |
| E.3 | Termini e condizioni dell'offerta | I <i>Metal Securities</i> sono resi disponibili dall'Emittente per la sottoscrizione esclusivamente a Partecipanti Autorizzati che hanno presentato una richiesta valida e che hanno trasferito una quantità di Bullion del relativo tipo equivalente al <i>Metal Entitlement</i> dei <i>Metal Securities</i> richiesti su un conto dell'Emittente presso il Depositario Iniziale o il Depositario dell'Oro Svizzero (a seconda dei casi) e i <i>Metal Securities</i> saranno emessi solo all'avvenuto trasferimento sui conti del Trustee presso il Depositario Iniziale o il Depositario dell'Oro Svizzero (a seconda dei casi) dei metalli preziosi del tipo pertinente in misura equivalente al <i>Metal Entitlement</i> dei <i>Metal Securities</i> richiesti. I Partecipanti autorizzati sono inoltre tenuti a pagare all'Emittente una commissione di sottoscrizione pari a 500 sterline britanniche. Le richieste di <i>Metal Securities</i> effettuate entro le ore 16.30 di Londra di un giorno lavorativo consentiranno in genere al Partecipante Autorizzato di essere registrato come detentore dei <i>Metal Securities</i> entro due giorni lavorativi. |
| E.4 | Interessi materiali o confliggenti | <p>Il Sig. Jones e il Sig. | B.25 | Activos subyacentes | <p>Los activos subyacentes de los Valores sobre Metales, de cada una de las clases mediante las que están respaldados y sobre los que están garantizados, son barras físicas de Lingotes. Estas barras se mantienen en nombre del Fideicomisario de los Titulares de Valores en cajas fuertes en las instalaciones del Depositario Inicial o del Depositario de Oro Suizo (o subdepositario o persona delegada).</p> <p>Los libros y registros del Depositario Inicial y el Depositario de Oro Suizo confirman que dichas barras de Lingotes se encuentran separadas de otros metales mantenidos en cada una de sus cajas de seguridad y que determinadas barras de lingotes con numeración única se mantienen para el Fideicomisario de forma asignada (esto es, que esas barras específicas sean mantenidas por el Fideicomisario como acreedor hipotecario legítimo y no sean fungibles con otras barras mantenidas por el Depositario Inicial o el Depositario de Oro Suizo).</p> <p>Toda barra de Lingotes mantenida para el Fideicomisario en las cajas fuertes del Depositario Inicial o del Depositario de Oro Suizo y que respalden los Valores sobre Metales deben cumplir unas especificaciones concretas, conocidas como normas de “Good Delivery” (o de buena entrega), y que aluden al peso y la pureza. Estas especificaciones son establecidas por las asociaciones comerciales para el tipo específico de Lingotes. En el caso del oro físico y la plata física, la asociación comercial pertinente es la London Bullion Market Association (en adelante, la “LBMA”), y en el caso de platino físico o paladio físico, la asociación comercial pertinente es la London Platinum and Palladium Market (en adelante, la “LPPM”).</p> <p>Los activos titulizados que respaldan la emisión presentan características que demuestran la capacidad de generar fondos para satisfacer pagos de saldo deudor y acreedor en relación con los valores.</p> <p>Los activos titulizados están representados por los metales preciosos físicos. El importe del Lingote correspondiente representado por cada uno de los Valores sobre Metales en cualquier momento se conoce como el “Derecho sobre el Metal”. Se trata de la cantidad en onzas del metal(es) precioso(s) pertinente(s) que se ve aminorada cada día por las comisiones adeudadas al Emisor.</p> |

| B.28 | Estructura de la transacción | <p>El Emisor ha creado un programa mediante el cual se podrán emitir ocasionalmente Valores sobre Metal. Los Participantes Autorizados que hayan suscrito un Contrato de Participante Autorizado con el Emisor podrán emitir y ser obligados a amortizar diariamente los Valores sobre Metal. Posteriormente, los Participantes Autorizados podrán comprar Valores sobre Metales a otros inversores, o vendérselos, de acuerdo con las condiciones de mercado o en transacciones privadas.</p> <p>Los Valores sobre Metales se constituyen mediante el Instrumento de Fideicomiso. Atendiendo a lo dispuesto en el Instrumento de Fideicomiso, el Fideicomisario actúa como fideicomisario de los Titulares de Valores de cada clase de Valores sobre Metal tanto (a) para adoptar decisiones y ejercer derechos adscritos a los Valores sobre Metales como (b) mantener en custodia en beneficio de los Titulares de Valores la garantía otorgada por el Emisor en virtud de la Escritura de Garantía, ejercer cualesquiera derechos para exigir el cumplimiento de la misma y distribuir el producto resultante (una vez pagados los importes debidos al Fideicomisario) a los Titulares de Valores (entre otros).</p> <p>A continuación se expone un diagrama de los principales aspectos de la estructura actualmente vigente:</p> <pre> graph TD ManJer[ManJer] --- Acuerdo de Servicios Emisor[Emisor] Emisor --- Valores sobre Metales Titulares[Titulares de Valores] Emisor --- Contratos de Participantes Autorizados Participantes[Participantes Autorizados] Emisor --- Contrato de Fideicomiso y Contratos de Garantía Fideicomisario[Fideicomisario] Emisor --- Contrato de Depósito Depositario[Depositario] Fideicomisario --- Custodia Depositario Depositario --- Cuentas de metales aseguradas (y Linotes) CuentasAseguradas[Cuentas de metales aseguradas (y Linotes)] Depositario --- Cuentas no asignadas de la suscripción CuentasNoAsignadas[Cuentas no asignadas de la suscripción] Participantes -.-> Creación de mercado Titulares </pre> <p> Contratos: ——— Flujos de Lingotes: - - - -> Flujos de fondos: ·····> </p> |

En el documento titulado “Condiciones Finales”, que elabora el Emisor cada vez que se emiten valores, se indica detalladamente los mercados en que puede negociarse un determinado tipo de valores. Los <i>market makers</i> (creadores de mercado) son los encargados de proporcionar liquidez en dichos mercados de valores y cursar las transacciones antedichas, aunque solo los Participantes autorizados pueden solicitar directamente al Emisor la emisión de Valores sobre Metales.</p> <p>El Emisor ha formalizado Contratos de Participante Autorizado y ha acordado con dichos Participantes autorizados la emisión periódica de Valores sobre Metales a su favor. Un Participante Autorizado podrá vender los Valores sobre Metales en un mercado de valores o en una transacción privada, o mantener los valores en su poder.</p> <p>En la fecha de creación de los Valores sobre Metales, el Participante Autorizado deberá entregar los Lingotes del tipo correspondiente con un peso agregado equivalente al Derecho de los Valores sobre Metales que se crearán en las cuentas mantenidas por el Fideicomisario. Hecho esto, el Emisor emite dichos Valores sobre Metales y los entrega al Participante Autorizado mediante la plataforma de liquidación electrónica de transmisiones y tenencia de valores sin certificar administrados por Euroclear UK & Ireland (“CREST”).</p> <p>Una vez amortizados los Valores sobre Metales por parte del Participante autorizado, éste debe devolverlos a través de CREST, recibiendo a cambio una cantidad de Lingotes equivalente al Derecho total de los Valores sobre Metales amortizados mediante una transferencia desde la cuenta del Fideicomisario mantenida en el Depositario correspondiente.</p> <p>En aquellas circunstancias en las que no existan Participantes Autorizados o cuando el Emisor a su solo criterio así lo determine, existirá la posibilidad de que determinados Titulares de Valores que no sean Participantes Autorizados amorticen sus títulos directamente con el Emisor. | | | <p>el Emisor es un vehículo de propósito especial constituido únicamente a los efectos de emitir los Valores sobre Metales, y al no estar garantizados dichos Valores por ninguna otra persona, el Emisor no tendría activos adicionales contra los cuales pudiera reclamar el Titular de Valores. Si los nuevos beneficios resultantes de los metales preciosos depositados en las cuentas que el Fideicomisario mantiene en el Depositario con respecto a una clase no son suficientes para atender todas las deudas y hacer frente a todos los pagos vencidos en ese momento con respecto a los Valores específicos de esa clase (y la Cesta de Valores en la medida en que incluya nominalmente a los Valores específicos de esa clase) y todos los importes que se adeuden con anterioridad a dichas deudas y pagos en virtud del Instrumento de Fideicomiso y la Escritura de Garantía, las obligaciones del Emisor se limitarán a la entrega del producto neto que resulte de la liquidación de esos metales preciosos.</p> <p>En tales circunstancias, los activos del Emisor (si los hubiere) no podrán utilizarse para cubrir saldos deudores y el derecho conferido a los Titulares de recibir cualquier importe adicional en relación con dichas deudas quedará extinguido. Ninguno de los Titulares de Valores ni el Fideicomisario podrá emprender acciones ulteriores encaminadas a recuperar dichos importes. En el supuesto de que el producto neto resultante de la liquidación del metal precioso sea insuficiente para satisfacer el importe adeudado al Titular de Valores, éste sufriría una pérdida de capital.</p> |
| D.3 | Riesgos principales de los Valores | <p>El acceso a las instalaciones de cajas fuertes del Depositario Inicial, el Depositario de Oro Suizo, o cualquiera de sus subdepositarios o delegados, podría verse restringido por acontecimientos naturales como inundaciones, o acciones humanas como ataques terroristas. El Depositario Inicial y el Depositario de Oro Suizo no están obligados a asegurar los Lingotes mantenidos en las cuentas del Fideicomisario frente a pérdidas, robo o daño, y el Emisor no tiene previsto asegurarse frente a dichos riesgos, y el Fideicomisario no tiene la responsabilidad de hacerlo. Por ello, existe el riesgo de que los Lingotes subyacentes a los Valores sobre Metales se extravíen, sean robados o sufran daños, en cuyo caso el Emisor no tendría capacidad para cumplir con sus obligaciones respecto de los Valores sobre Metales que provoquen pérdidas para los Titulares de Valores.</p> |

| | | <p>Los inversores dependen de que los Participantes Autorizados creen mercado en valores sobre Metales para minimizar los errores de seguimiento y proporcionar liquidez a los inversores. Si no se crean tales mercados en Valores sobre Metales podría resultar complicado que el Titular de Valores venda sus Valores sobre Metales, lo que podría provocar pérdidas.</p> <p>Se puede imponer a los inversores la amortización anticipada de Valores sobre Metales, lo que podría provocar que la inversión en valores sobre Metales sea sometida a amortización antes de lo deseado, (i) en un plazo de 30 días a partir de la notificación por escrito facilitada por el Emisor a todos los Titulares de Valores de una clase en concreto o diversas clases de Valores sobre Metales; o (ii) si los Valores sobre Metales que deben ser obligatoriamente amortizados corresponden a un Titular de Valores que no puede proporcionar pruebas al Emisor acerca de su estado. Esta amortización anticipada podría provocar que un inversor incurra en un gasto fiscal al que de lo contrario no debería hacer frente, y/o si la amortización se produce en un momento en que el valor en efectivo de los Valores sobre Metales amortizados es menor que cuando estos fueron adquiridos por el Titular de Valores, el titular podría incurrir en pérdidas.</p> |
| D.6 | Riesgos principales de los Valores sobre Metales | <p>Por favor véase el apartado D.3 anterior.</p> <p>El rendimiento pasado no constituye una indicación del rendimiento esperado y el rendimiento de la inversión en Valores sobre Metales podría sufrir oscilaciones bruscas. Por consiguiente, los inversores en Valores sobre Metales pueden perder el valor total de lo invertido o parte del mismo.</p> |

SAMMANFATTNING

ETFS Metal Securities Limited

ETFS Metallrelaterade Värdepapper

Prospektsammanfattning

Grundprospekt daterat 5 juni 2019 för emission av ETFS Metallrelaterade Värdepapper

Sammanfattningar består av informationskrav som kallas 'Punkter'. Dessa Punkter är uppställda i nummerföljd i Avsnitten A - E (A.1 – E.7).

Denna Sammanfattning innehåller alla de Punkter som ska inkluderas för en sammanfattning för den nu aktuella typen av värdepapper och Emittenten. Eftersom vissa Punkter inte måste ingå kan det vara luckor i nummerföljden för Punkterna.

Även om en viss Punkt ska ingå i sammanfattningen mot bakgrund av den aktuella typen av värdepapper och Emittent, kan det förhålla sig så att ingen information finns att återge under den Punkten. I dessa fall anges endast "Ej tillämplig" under den Punkten.

| B.25 | Underliggande tillgångar | <p>Underliggande tillgångar för Metallrelaterade Värdepapper av varje klass, som de har säkerhet i, består av tackor av Fysisk Ädelmetall. Dessa tackor förvaras i Företrädarens namn för Värdepappersinnehavarna i säkra valv hos den Initiala Depåförvararen eller den Schweiziska Guldepåförvararen (eller en underdepåförvarare eller någon de delegerat uppgiften till).</p> <p>Registren hos den Initiala Depåförvararen och den Schweiziska Guldepåförvararen visar att sådana tackor av Fysisk Ädelmetall separeras från andra metaller som finns i varje av dess valv och att vissa unikt numrerade tackor av ädelmetaller finns för Företrädaren i allokerad form (dvs. att dessa specifika tackor innehas för Företrädaren i egenskap av panthavare i juridiskt hänseende och är inte fungibla med andra tackor som förvaras av den Initiala Depåförvararen eller den Schweiziska Guldepåförvararen).</p> <p>De tackor av Fysisk Ädelmetall som innehas för Företrädaren i valven hos den Initiala Depåförvararen och den Schweiziska Guldepåförvararen och som är bakomliggande de Metallrelaterade Värdepapperen måste uppfylla vissa specifikationer kända som krav för "Fullgod Leverans" vad gäller vikt och renhet. Dessa specifikationer fastställs av handelsorganisationer för specifika ädelmetaller. Avseende fysiskt guld och fysiskt silver är den relevanta handelsorganisationen London Bullion Market Association ("LBMA") och avseende fysiskt platina och fysiskt palladium är den relevanta handelsorganisationen London Platinum and Palladium Market ("LPPM").</p> <p>De värdepapperiserade tillgångar som utgör bakomliggande tillgångar till emissionen har egenskaper som visar kapaciteten att generera belopp för att finansiera utbetalning av betalningar som förfaller till betalning för värdepapperen.</p> <p>De värdepappersrelaterade tillgångarna utgörs av fysiska ädelmetaller. Mängden av relevant Fysisk Ädelmetall representerat av varje Metallrelaterat Värdepapper benämns vid var tidpunkt "Metallberättigandet". Det är denna summa av relevant ädelmetall i oz (<i>ounce</i>) som minskas varje dag av de avgifter som ska betalas av Emittenten.</p> <p>Emissionsspecifik sammanfattning:</p> | | | | | | |

Information om börserna på vilka en viss typ av värdepapper kan handlas finns i ett dokument kallat "Slutliga Villkor", som tas fram av Emittenten varje gång värdepapper emitteras. Marknadsgaranter skapar likviditet på dessa börser och för sådana transaktioner men endast Auktoriserade Deltagare kan ansöka direkt hos Emittenten för emission av Metallrelaterade Värdepapper. Emittenten har ingått Avtal avseende Auktoriserade Deltagare med Auktoriserade Deltagare och har kommit överens om att löpande emittera Metallrelaterade Värdepapper till dessa Auktoriserade Deltagare. En Auktoriserad Deltagare kan sälja de Metallrelaterade Värdepapper på en börs eller genom en transaktion utanför börs eller kan inneha värdepapperna själv.</p> |

För guld är det ett <i>fine troy ounce</i> ("<i>fine</i>" betyder ren metall, dvs. det faktiska guldinnehållet baserat på 100 procents renhetsgrad). Konverteringsfaktorerna mellan <i>troy ounces</i> och metersystemet är: ett <i>troy ounce</i> motsvarar 31,1034768 gram och ett kilogram motsvarar 32,1507465 <i>troy ounces</i>.</p> <p>Ett <i>troy ounce</i> är något tyngre än de mer vanligen använda <i>ounces</i> i Storbritannien och USA, som är ungefär 1,097 gånger vikten av den senare.</p> |

| C.15 | Värdet av investeringen påverkas av värdet på de underliggande instrumenten | <p>För varje Metallrelaterat Värdepapper publicerar Emittenten ett Metallberättigande snarare än ett värde uttryckt i kontanta termer. Så som beskrivits ovan, är Metallberättigandet en kvantitet av den Fysiska Metall till vilken ett Metallrelaterat Värdepapper berättigar en Värdepappersinnehavare vid inlösen. Kvantiteten av fysisk ädelmetall som innehas avseende varje Metallrelaterat Värdepapper kommer att reduceras dagligen genom förvaltningsarvodet (som ska erläggas av Emittenten till ManJer i utbyte för de tjänster som bolaget tillhandahåller).</p> <p>Auktoriserade Deltagare skapar eller löser in (och Värdepappersinnehavare kan under vissa omständigheter lösa in) Metallrelaterade Värdepapper av varje klass direkt med Emittenten till Metallberättigandet för den klassen på den relevanta dagen.</p> <p>Kontantvärdet av ett Metallrelaterat Värdepapper kan räknas fram genom att multiplicera det relevanta Metallberättigandet med kontantvärdet av ett <i>troy ounce</i> (beträffande silver, platina och palladium) eller ett <i>fine troy ounce</i> (beträffande guld) av den relevanta underliggande Fysiska Metallen. Detta kontantvärde för ett Metallrelaterat Värdepapper kommer att fluktuera upp och ned med rörelserna i kontantvärdet för den relevanta Fysiska Metallen. Eftersom den dagliga minskningen av Metallberättigandet kommer, på en dag då det inte är någon rörelse i kontantvärdet för den underliggande Fysiska Metallen, det ändå att vara en minskning i kontantvärdet för det Metallrelaterade Värdepapperet eftersom kvantiteten av Fysisk Ädelmetall som det representerar har minskat genom arvodet avseende den dagen. | D.2 | Nyckelrisker relaterade till Emittenten | <p>Emittenten är ett specialföretag etablerat för ändamålet att emittera börshandlade råvaror (ETC:er) som värdepapper med bakomliggande tillgångar och har inte några andra tillgångar än sådana som denne innehar som bakomliggande tillgångar till de Metallrelaterade Värdepapperen.</p> <p>Beloppen som en Värdepappersinnehavare kan erhålla till följd av ett anspråk mot Emittenten är därför begränsade till avkastningen från försäljningen av egendomen som tagits som säkerhet för sådan Värdepappersinnehavares klass av Metallrelaterade Värdepapper</p> |

| | | <p>och eftersom Emittenten är ett specialföretag särskilt etablerat för ändamålet att emittera de Metallrelaterade Värdepapperna, och då de Metallrelaterade Värdepapperna inte är garanterade av någon annan person, saknar Emittenten andra tillgångar mot vilka en Värdepappersinnehavare kan rikta anspråk. Om den nya avkastningen från den fysiska ädelmetallen som förvaras i Företrädarens konton hos Depåförvararen avseende en viss klass inte är tillräckliga för att möta samtliga skyldigheter och de summor som förfallit till betalning avseende Individuella Säkerheter av sådan klass (samt de Korgsäkerheter i den utsträckning de innefattar Individuella Säkerheter av sådan klass) och om samtliga belopp rankas före sådana skyldigheter och summor som förfallit till betalning under <i>Trust Instrument</i> och Pantåtagandena, kommer Emittentens skyldigheter begränsas till nettointäkterna från försäljningen av den ädelmetallen.</p> <p>Under sådana omständigheter kommer Emittentens tillgångar (om några) inte kunna möta några underskott, då kommer relevant Värdepappersinnehavares rättigheter att motta några ytterligare belopp avseende sådana skyldigheter vara uttömda och inga av Värdepappersinnehavarna eller Företrädaren kan vidta ytterligare åtgärder i syfte att återfå sådana belopp. Vid den händelse att nettointäkterna från försäljningen av ädelmetallen är otillräckliga för att täcka beloppet som ska betalas till Värdepappersinnehavaren kommer Värdepappersinnehavaren att orsakas en förlust.</p> |
| D.3 | Nyckelrisker relaterade till Metallrelaterade Värdepapper | <p>Tillträde till valv hos den Initiala Depåförvararen, den Schweiziska Gulddepåförvararen eller valv hos någon av dess underdepåförvarare eller ombud kan vara begränsat p.g.a. naturfenomen, såsom översvämning, eller mänskliga handlingar, såsom en terroristattacker. Den Initiala Depåförvararen och den Schweiziska Gulddepåförvararen har ingen skyldighet att försäkra Fysisk Ädelmetall som finns på Företrädarens konton mot förlust, stöld eller skada och Emittenten avser inte att teckna någon försäkring mot sådana risker. Följaktligen finns det en risk för att Fysisk Ädelmetall underliggande Metallrelaterade Värdepapper kan gå förlorad, bli stulen eller skadad och Emittenten kan då inte uppfylla sina skyldigheter avseende de Metallrelaterade Värdepapperen, vilket resulterar i en förlust för Värdepappersinnehavarna.</p> <p>Investerare är beroende av att det finns Auktoriserade Deltagare som skapar en marknad för Metallrelaterade Värdepapper i syfte att minimera kursfelaktigheter och att tillhandahålla investerare med likviditet. Om det inte ställs någon sådan marknad i de Metallrelaterade Värdepapperen kan det bli svårt för en Värdepappersinnehavare att sälja sina Metallrelaterade Värdepapper, vilket kan resultera i en förlust.</p> <p>Förtida inlösen av Metallrelaterade Värdepapper kan resultera i att en investering i Metallrelaterade Värdepapper blir inlöst tidigare än önskat, (i) 30 dagar efter sådant skriftligt meddelande lämnats från Emittenten till Värdepappersinnehavare av en särskild klass eller</p> |

Sådan förtida inlösen kan leda till att en investerare drabbas av en skattebelastning som de annars inte hade drabbats av och/eller om inlösen sker vid en tidpunkt då kontantvärdet för de Metallrelaterade Värdepapperen är lägre än när dessa köptes av Värdepappersinnehavaren, vilket kan leda till förlust för Värdepappersinnehavaren. |
| D.6 | Nyckelrisker relaterade till Metallrelaterade Värdepapper | Vänligen se D.3 ovan. Historisk utveckling är inte en indikation på förväntad utveckling och utvecklingen av investeringen i Metallrelaterade Värdepapper kan vara volatil. Följaktligen kan investerare i Metallrelaterade Värdepapper förlora värdet av hela eller delar av sin investering. |
